ASSESSOR'S REPORT.

ASSESSOR'S OFFICE,
SAN FRANCISCO, Cal., July 2, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with Resolution No. 6931 (Third Series) of your Honorable Body I herewith submit my annual report as City and County Assessor for the year ending June 30, 1892.

PERSONAL PROPERTY.

On the first Monday of June last I delivered to John A. Russell, Esq., Clerk of your Board, the Assessment Roll of Personal Property, contained in seventeen (17) volumes, amounting to $74,452,347. This is an increase over last year of $6,969,869. A segregation of the different items assessed in 1892 gives the following results, and also shows the increase or decrease since 1891.

	BONDS.	CIGARS AND TOBACCO.	CONSIGNED GOODS.
1891	$161 395	$430,002	$482,066
1892	2,335,755	198,245	604,681

	COAL.	COWS.		BEEF CATTLE.
1891	$246,657	No., 5,712	$168,814	$12,689
1892	262,342	No., 4,200	120,000	24,660

SOLVENT CREDITS.		FIREARMS.		FIXTURES.
1891.....	$8,990,043	No., 1401.....	$19,997	$1,258,178
1892.....	9,431,512	No., 1475.....	19,944	1,283,915

FRANCHISES.		HOUSEHOLD FURNITURE.	OFFICE FURNITURE.
1891.....	$5,857,770	$6,394,160	$190,755
1892.....	6,653,635	6,500,938	88,840

GOATS.		GRAIN.	HARNESS.
1891 .....No., 64.....	$357	$237,130	$129,198
1892.....No., 40.....	200	161,679	128,006

HAY.		HOGS.		HOPS.
1891.....	$13,796	No., 2,336.....	$15,027	$27,532
1892.....	12,674	No., 2,517.....	12,585	5,130

HORSES.		JEWELRY AND PLATE.	LIBRARIES.
1891.....No., 12,515.....	$933,063	$498,336	$304,462
1892.....No., 12,700.....	925,830	432,770	308,660

LUMBER.		LIQUORS.	MACHINERY.
1891	$456,141	$968,834	$2,655,873
1892	473,535	945,850	2,358,864

MERCHANDISE.		MONEY.	MULES.	
1891	$19,234,721	$7,464,056	No., 233	$14,300
1892	18,323,312	7,728,781	No., 250	14,100

MUSICAL INSTRUMENTS.		POULTRY.	PROPERTY HELD IN TRUST.
1891	$1,044,599	$4,878	$29,897
1892	935,228	4,706	60,148

PROPERTY OF WIFE.		QUICKSILVER.	R.R. AND ROLLING STOCK.
1891	$10,114	$18,695	$586,950
1892	6,145	5,200	390,985

RAILROAD TRACKS.		SEWING MACHINES.		SHEEP.
1891	$146,300	No., 14,349	$209,948	$5,525
1892	294,750	No., 12,560	187,849	4,955

SHIPPING.	STOCK IN CORPORATIONS.	VEHICLES.
1891..... $6,413,960	$133,570	No., 9,403..... .... $839,718
1892..... 7,355,903	3,692,203	No., 7,867..... ... 707,978

WATCHES.	WOOL.	WOOD.
1891.....No., 6,742..... $232,544	$35,485	$27,306
1892.....No., 6,745..... 222,533	15,580	18,340

WINES.	BICYCLES.	PIPE.
1891..... $201,818	....	.....
1892..... 212,494	$16,691	$683,430

REAL ESTATE.

On July 2, 1892, I also delivered to you the Real Estate Assessment Roll, contained in fifty-three (53) volumes, amounting to $277,918,490, of which $198,480,460 was the assessment against land, and $79,438,030 was the assessment on improvements.

In addition to the above I also delivered one volume containing assessment for the payment of principal and interest on Dupont Street Bonds, two volumes of Real Estate Indexes, and fifty-three (53) Block Books of Maps of all the lands and subdivisions of real estate within the City and County of San Francisco. The Real Estate Assessment Roll shows an increase of $33,266,605 over last year, of which $31,246,680 is on land, and the remainder, $2,019,925, on improvements. We therefore find a net increase of $40,307,877 on Real and Personal Property over last year, the entire assessment for 1891 having been $312,134,363, against $352,370,837 in 1892.

Soon after entering upon the duties of my office in January, 1891, I became convinced that great inequalities existed in real estate valuations, and made such corrections as the limited time for making my returns for that year permitted.

After turning over the books I entered upon and have completed for this year a thorough equalization of real estate valuations throughout the entire City and County. These valuations are based largely on actual sales and upon offers made and refused by owners.

The improved means of communication to sections of the city heretofore remote from the central portions has largely enhanced the value of such property, and in justice to all taxpayers the assessment has been advanced accordingly.

Many elegant and costly buildings have been erected during the past year, while still others are in process and under contract, which, while adding materially to the Assessment Roll, is an evidence of the confidence of capitalists in the future stability of real estate values in our city. In justice to many taxpayers who had erected buildings in years past, when labor and materials were much higher than at present, I have made reductions to conform to present values and upon old buildings that have ceased to subserve the purposes for which they were intended or to return a fair interest on the capital invested.

The following table will show in detail the increase in real estate and improvements in the different sections of the city :

FIFTY VARAS.

That section bounded by Larkin, Market and line of the Bay, known as 50 varas.

	1891.	1892.	INCREASE.
Real Estate.....	$59,216,891	$67,361,790	$8,144,899
Improvements.....	27,601,340	28,306,700	705,360
Total.....	$86,818,231	$95,668,490	$8,850,259

ONE HUNDRED VARAS.

That section bounded by Market, Ninth and the Bay, known as 100 varas.

	1891.	1892.	INCREASE.
Real Estate.....	$40,515,382	$45,738,515	$5,223,133
Improvements.....	14,008,020	14,070,335	62,315
Total.....	$54,523,402	$59,808,850	$5,235,448

WESTERN ADDITION.

That section bounded by Larkin, Market, Ridley and Waller streets and First avenue north to the Bay, known as Western Addition.

	1891.	1892.	INCREASE.
Real Estate	$35,089,412	$43 038,515	$7,949,103
Improvements	22,581,300	22,331,940	750,640
Total	$57,670,712	$66,370,455	$8,699,743

MISSION.

That section bounded by Market, Ridley, Castro and Twenty-second streets, San Jose, Serpentine and Potrero avenues, Napa, Harrison, Channel and Ninth streets, to Market, known as Mission.

	1891.	1892.	INCREASE.
Real Estate	$14,613,201	$18,453,565	$3,840,364
Improvements	8,281,650	8,353,245	71,595
Total	$22,894,851	$26,806,810	$3,911,959

NEW POTRERO.

That section lying south of the 100 varas and east of the Mission known as New Potrero.

	1891.	1892.	INCREASE.
Real Estate	$2,919,850	$4,457,245	$1,537,395
Improvements	2,118,155	2,142,255	24,100
Total	$5,038,005	$6,599,500	$1,561,495

HORNER'S ADDITION.

That section bounded by Twenty-second, Castro, State, Douglass, Elizabeth, Bellevue and Thirtieth streets and old San Jose Road, north to Twenty-second street, known as Horner's Addition.

	1891.	1892.	INCREASE.
Real Estate.....	$2,783,850	$3,734,805	$950,955
Improvements.....	1,538,430	1,647,685	109,255
Total.....	$4,322,280	$5,382,490	$1,060,210

HOMESTEADS, TIDE LANDS AND OUTSIDE LANDS.

	1891.	1892	INCREASE.
Real Estate.....	$8,659,073	$11,699,410	$3,040,337
Improvements.....	1,092,960	1,254,770	161,810
Total.....	$9,752,033	$12,954,180	$3,202,147

LAND IN ACRES.

	1891.	1892.	INCREASE.
Real Estate.....	$3,436,121	$3,996,615	$560,494
Improvements.....	196,250	331,100	134,850
Total.....	$3,632,371	$4,327,715	$695,344

MORTGAGES.

The following is a statement of the amount assessed to corporations and individuals on account of mortgages held by them as security for loans of City Real Estate.

	1891.	1892.
Hibernia Savings and Loan Society	$16,726,124	$18,041,603
German Savings and Loan Society	6,351,356	6,895,111
Humboldt Savings and Loan Society	1,620,265	1,816,739
San Francisco Savings Union	4,713,558	5,556,189
Savings and Loan Society	877,526	1,114,996
Security Savings Bank	675,545	811,246
La Societe Francaise, etc	1,240,019	1,349,330
Building and Loan Associations	2,368,747	3,325,339
	$34,574,140	$38,910,553
Held by others	8,594,491	9,925,422
	$43,168,631	$48,835,975

Showing an increase of $5,667,344.

POLL TAX.

The receipts for Poll Taxes sold during the fiscal year 1891-1892 were:

Sold 1,822 receipts, at $3	$5,466	
Sold 39,014 receipts, at $2	78,028	
Total		$83,494

Against $78,754 for the fiscal year 1890-1891.

OFFICE EXPENSES.

The following are the expenses of this office for salaries for the year ending June 30th, 1892:

Salary of Assessor	$4,000 00	
Salary of Deputies (regular)	24,300 00	
Salary of Deputies (extra)	49,997 20	
Stationery, Rolls, Block Books, etc	2,814 08	
Advertising	159 21	
Horse and buggy hire	426 00	
Telephone Service (approximate)	75 00	
Subscription to Guide and Architect	12 00	
Total		$81,783 49

Against $84,534 91 in 1891.

I herewith submit for your inspection a copy of my annual report to the

Surveyor-General of the State with the Statistics of the Mechanical and Manufacturing Interests of the City and County.

Very Respectfully,

JOHN D. SIEBE,

Assessor of the City and County of San Francisco.

STATISTICS OF THE MECHANICAL AND MANUFACTURING INDUSTRIES

OF THE CITY AND COUNTY OF SAN FRANCISCO FOR THE FISCAL YEAR ENDING JUNE 30, 1892.

AGRICULTURAL IMPLEMENT MANUFACTORIES—1.

Men employed	40	Value of manufactures	$70,000

ARTIFICIAL STONE MANUFACTORIES—20.

Men employed	160	Value of manufactures	$300,000

AXLE GREASE MANUFACTORIES—3.

Men and boys employed	20	Chemicals consumed annually, pounds	25,000
Resin consumed annually, barrels	600	Castor oil consumed annually	25,000
Fat consumed annually, lbs	30,000	Value of product annually	$80,000

BAG MANUFACTORIES—3.

Men, women and boys employed	200	Value of manufactures, annually	$700,000
Bags manufactured annually	13,000,000		

BAG MANUFACTORIES (Paper)—3.

Men employed	25	Value of manufactures	$70,000
Number of bags made annually	6,500,000		

BARREL MANUFACTORIES—25.

Men and boys employed	550	Barrels made for sugar refineries	600,000
Barrels, half-barrels and kegs made annually	1,200,000	Syrup kegs made by tub and pail factories	50,000
Horse power of engines	150	Aggregate value of manufactures	$1,000,000

BED SPRING MANUFACTORIES—4.

Men and boys employed	60	Value of manufactures	$150,000
Copper wire used, tons	600		

BEDDING AND UPHOLSTERING FACTORIES—23.

Men and boys employed	350	Value of manufactures	$350,000

BELLOWS MANUFACTORIES—3.

Men and boys employed	12	Value of manufactures	$93,000
Bellows manufactured	230		

BELTING MANUFACTORIES—5.

Men employed	50	Value of manufactures	$200,000

BILLIARD TABLE MANUFACTORIES—3.

Men and boys employed	60	Value of manufactures	$52,000
Billiard tables made yearly	475		

BOAT BUILDERS—8.

Men employed	25	Value of manufactures	$25,000
Number of boats built	200		

BOOK BINDING MANUFACTORIES—9.

Men employed	200	Books bound, printed	14,000
Books bound, blank	3,000	Value of manufactures	$70,000

BOX MANUFACTORIES (Cigar)—3.

Men, women and boys employed	250	Value of manufactures	$180,000
Number of boxes made yearly	1,500,000		

BOX MANUFACTORIES (Paper)—11.

Men, women and boys employed	180	Value of manufactures	$200,000

BOX MANUFACTORIES (Wooden)—6.

Men and boys employed	500	Lumber used yearly, feet	25,000,000
Horse power of engines	750	Value of manufactures	$925,000

BOOT, SHOE AND SLIPPER MANUFACTORIES—15.

Men, women and boys employed, white	1,000	Value of manufactures	$3,000,000
Chinese	500		

BRASS FOUNDRIES—9.

Men and boys employed	300	Value of manufactures	$450,000

BREWERIES—23.

Men employed	850	Beer manufactured, barrels	600,000
Hops consumed yearly, pounds	750,000	Aggregate value of product	$3,600,000
Barley consumed yearly, tons	30,000		

BROOM MANUFACTORIES—10.

Men and boys employed	130	Value of manufactures	$200,000

BRUSH MANUFACTORIES—12.

Men and boys employed	150	Value of manufactures	$140,000

CANDLE MANUFACTORIES—2.

Men and boys employed	70	Value of manufactures	$160,000
Candles manufactured, boxes	80,000		

CAR MANUFACTORIES—2.

Men employed	150	Value of manufactures	$300,000
Cars manufactured	278		

CARRIAGE AND WAGON MANUFACTORIES—80.

Men and boys employed	750	Aggregate value of manufactures	$350,000
Carriages and wagons made yearly	1,500		

CARRIAGE AND LOCOMOTIVE CAR SPRING FACTORY—1.

Men and boys employed	10	Value of manufactures	$25,000
Springs made annually, tons	70		

CHEMICAL WORKS—7.

Men and boys employed	50	Nitric acid produced yearly, pounds	270,000
Nitrate of soda used, tons	370	Value of manufactures	$180,000
Sulphur used, tons	1,400		

CIGAR MANUFACTORIES—372.

Men, women and boys employed (white)	900	Tobacco manufactured into cigars and cigarettes annually, pounds	1,814,468
Chinese employed	1,000	Value of manufactures	$2,850,000
Cigars manufactured yearly	94,386,562	Cigar factories, white	232
Cigarettes	2,458,340	Cigar factories, Chinese	140

CLOTHING MANUFACTORIES—24.

Men, women and boys employed	2,000	Value of manufactures	$5,500,000

COFFEE, SPICE AND YEAST POWDER FACTORIES—20.

Men and boys employed	170	Chocolate made annually, pounds	400,000
Coffee ground and roasted annually, pounds	12,000,000	Spices and yeast powder annually, lbs.	1,500,000
		Value of manufactures	$3,000,000

COFFIN MANUFACTORIES—1.

Men and boys employed	40	Value of manufactures	$100,000

COPPERSMITHS—8.

Men and boys employed	40	Value of manufactures	$150,000

CORDAGE AND ROPE FACTORY—1.

Men and boys employed	200	Horse power of engines	260
Hemp rope manufactured, tons	3,500	Value of manufactures	$660,000

CRACKER MANUFACTORIES—3.

Men and boys employed	250	Value of manufactures	$1,000,000
Horse power of engines	100		

CUTLERY MANUFACTORIES—8.

Men employed	65	Value of product	$80,000

DRY DOCKS (Floating).

Men employed	50	Capacity of docks—1st, 4,400 tons; 2d, 2,000 tons	6,400

DRY DOCKS (Stone)—1

Length of excavation in rock, ft	490	Tubular boilers, of 4-inch tubes	4
Width of top, feet	120	Dimension of each boiler (inches in diameter)	25

Capacity of length	425	Total cost of work	$675,000
Capacity of drawing, feet	22		
Capacity of pumps for cleaning per hour, cubic feet	325,368		

ELECTRIC MACHINE WORKS—2.

Men employed	25	Value of manufactures	$40,000

ELECTRIC SUPPLIES MANUFACTORIES—10.

Men employed	30	Value of manufactures	$20,000

ELECTRIC LIGHTING COMPANIES—2.

Men and boys employed	175	Number of arc lights	2,400
Number of incandescent lights	8,000	Coal used annually, tons	12,500

ELEVATOR MANUFACTORIES—8.

Men employed	100	Value of manufactures	$150,000
Elevators made annually	120		

FIRE WORKS—1.

Men and boys employed	12	Value of manufactures	$30,000

FLOUR AND FEED MILLS—12.

Men and boys employed	200	Cracked wheat annually, tons	700
Flour made annually, barrels	30,000	Split peas annually, tons	750
Hominy made annually, tons	300	Graham flour annually, barrels	5,000
Buckwheat and rye flour made annually, tons	700	Cracked corn annually, tons	2,000
Oatmeal and groats annually, tons	3,000	Ground feed annually, tons	10,000
Cornmeal and farina annually, tons	2,000	Pearl barley annually, tons	250
Feed barley annually, tons	25,000	Aggregate value of manufactures	$2,400,000

FOUNDRIES, MACHINE SHOPS, BOILER AND IRON WORKS—52.

Men and boys employed	4,800	Rivets used annually, tons	3,000
Pig iron consumed annually, tons	13,000	Horse power of engines	3,500
Bar iron consumed annually, tons	32,000	Aggregate value of product	$5,500,000

FRINGE MANUFACTORIES—8.

Men and women employed	200	Value of manufactures	$460,000

FRUIT AND PRESERVING FACTORIES—8.

Men and women employed	1,000	Value of manufactures	$2,600,000
Fruits and meats put up annually, dozen cans			2,400,000

FUR MANUFACTORIES—5.

Men and women employed	180	Value of manufactures	$245,000

FURNITURE MANUFACTORIES—18.

Men and boys employed	700	Value of manufactures	$1,000,000
Lumber used annually, feet	8,000,000		

GAS WORKS—2.

Men employed	603	Tons of coal used annually	66,000
Value of manufactures	$2,650,000	Barrels of oil used annually	57,000

GLASS STAINING, CUTTING AND BENDING WORKS—5.

Men and boys employed	60	Value of product	$500,000

GLASS WORKS—2.

Men and boys employed	150	Pots	9
Furnaces	2	Value of manufactures	$260,000

GLOVE MANUFACTORIES—14.

Men boys, and girls employed	850	Value of manufactures	$900,000

GLUE MANUFACTORIES—2.

Men and boys employed	20	Neatsfoot oil made annually, gallons	20,000
Glue made annually, tons	400	Value of manufactures	$70,000

GLYCERINE MANUFACTORIES—1.

Men employed	15	Crude materials used, pounds	120,000
Horse power of engine	60	Value of glycerine refined	$117,000

GUTTA PERCHA AND RUBBER FACTORIES—2.

Men employed	16	Value of manufactures	$30,000
Sets of machinery	2		

HAT AND CAP MANUFACTORIES—10.

Men and women employed	170	Value of manufactures	$517,000

HARNESS MANUFACTORIES—40.

Men and women employed	500	Value of manufactures	$1,100,000

ICE MANUFACTORIES—3.

Men employed	50	Value of manufactures	$40,000
Tons made annually	8,000	Capital invested	$150,000

INK AND MUCILAGE MANUFACTORIES—1.

Men employed	12	Value of product	$35,000

IRON FENCE MANUFACTORIES—9.

Men and boys employed	50	Value of manufactures	$75,000

JAPANNING AND GALVANIZING FACTORIES—4.

Men and boys employed	30	Value of manufactures	$205,000

JEWELRY MANUFACTORIES—12.

Men employed	120	Value of manufactures	$920,000

LAUNDRIES (White)—110.

Men and boys employed	1,600

LAUNDRIES (Chinese)—212.

Employees	1,800

LAST MANUFACTORIES—2.

Men employed	25	Value of product	$26,000
Lasts made annually	23,000		

LEAD PIPE AND SHOT FACTORY—1.

Men employed	60	Horse power of engines	100
Lead pipe and shot made annually, tons	3,000	Value of product	$350,000

LINSEED OIL WORKS—2.

Men employed	100	Value of cake	$80,000
Oilcake made annually, tons	4,000	Copra made annually, tons	1,500
Product of works, gallons	1,000,000	Value of copra	$9,000
Value of oil	$500,000		

MACARONI AND VERMICELLI FACTORIES—9.

Men and boys employed	100	Flour used annually, barrels	15,000
Macaroni and paste made annually, boxes	200,000	Value of product	$150,000

MALT HOUSES—5.

Men employed	7	Value of manufactures	$1,600,000
Grain malted annually, tons	25,000		

MARBLE WORKS—32.

Men employed	140	Value of product	$285,000

MATCH FACTORIES—4.

Men and boys employed	150	Value of manufactures	$68,000
Matches made annually, packages	3,000,000		

MIRROR MANUFACTORIES—2.

Men employed	20	Value of product	$75,000
Number of square feet made annually	50,000		

MUSICAL INSTRUMENT MANUFACTORIES—20.

Number of pianos and organs made annually	570	Men and boys employed	115
		Value of manufactures	$172,000

OAKUM MANUFACTORY—1.

Men employed	4	Value of product	$36,500
Bales made annually	9,250		

OILCLOTH MANUFACTORY—1.

Men and boys employed	25	Value of manufactures	$21,000

ONYX MANUFACTORY—1.

Men employed	22	Value of product	$20,000

POTTERIES—3.

Men employed	30	Value of manufactures	$120,000

PROVISION PACKING FACTORIES—4.

Men employed	200	Lard packed annually, pounds	1,000,000
Beef packed annually, barrels	7,000	Tallow packed annually, pounds	2,000,000
Pork packed annually, barrels	5,000	Value of product	$1,000,000
Ham and bacon packed annually, lbs.	900,000		

ROLLING MILLS—1.

Men employed	800	Coal consumed annually, tons	21,000
Horse power of engines	1,500	Value of product	$1,540,000
Scrap iron used annually, tons	24,000		

RUBBER STAMP MANUFACTORIES—11.

Men employed	70	Value of product	$65,000

SAFE AND VAULT WORKS—3.

Men employed	40	Steel used annually, tons	80
Bar and plate iron used annually, tons	50	Value of manufactures	$170,000

SAW MANUFACTORIES—3.

Men employed	75	Steel used annually, tons	200
Horse power of engines	50	Value of manufactures	$175,000

SHIRT MANUFACTORIES—38.

Men and women employed	2,180	Value of manufactures	$325,000

SHIP YARDS—5.

Number of steamers, barges and other vessels built	27	Tonnage	19,500
		Value of crafts built	$3,222,000
Men and boys employed	800		

SILVERWARE MANUFACTORIES—6.

Men employed	80	Value of manufactures	$700,000

SOAP FACTORIES—24.

Men employed	130	Value of manufactures	$2,250,000
Soap made annually, pounds	10,000,000		

SALT WORKS—4.

Men and boys employed	50	Number of tons annually	20,000
Run of stones	8	Value of product	$160,000

SASH, DOOR, BLIND AND FINISHING FACTORIES—20.

Men and boys employed	500	Value of manufactures	$1,000,000
Lumber consumed annually, feet	6,000,000		

SODA-WATER WORKS—18.

Men employed	165	Value of manufactures	$150,000

SOLDER AND BABBITT WORKS—3.

Men employed	30	Value of manufactures	$120,000

SUGAR REFINERIES—1.

Men employed	1,000	Sugar (yellow) made, pounds	80,000,000
Sugar (raw) used, pounds	375,000,000	Syrup made, gallons	275,000
Sugar (white) made, pounds	175,000,000	Value of manufactures	$12,000,000

TANNERIES—44.

Men employed	800	Hides of all kinds	1,500,000
Horse power of engines	1,500	Value of manufactures	$2,500,000
Bark used annually (cords)	16,000		

TANNERIES AND WOOL PULLING—4.

Men employed	170	Calf skins used annually	27,000
Horse power of engines	200	Wool produced, pounds	600,000
Bark used annually, cords	450	Aggregate value of raw material	$225,000
Sheep skins used annually	450,000	Aggregate value of manufactures	$440,000
Goat skins used annually	23,000		

TINWARE, TIN-BOX AND CAN FACTORIES—10.

Men and boys employed	1,500	Value of manufactures	$2,500,000

TRUNK AND VALISE MANUFACTORIES—5.

Men employed	190	Value of product	$240,000

TYPE FOUNDRIES—1.

Men employed	140	Value of manufactures	$50,000

VINEGAR AND PICKLE FACTORIES—14.

Men employed	200	Pickles preserved annually (gallons)	150,000
Vinegar made annually (gallons)	1,000,000	Value of manufactures	$250,000

WHITE LEAD MANUFACTORY—1.

Men employed	100	Value of manufactures	$270,000
Number of tons made annually	3,500		

WINDMILL MANUFACTORIES—5.

Men employed	70	Value of manufactures	$100,000
No. of mills and casks made annually	1,400		

WIRE AND WIRE-ROPE MANUFACTORY—1.

Men employed	200	Wire consumed annually (tons)	10,000
Horse power of engines	535	Value of manufactures	$750,000

WOOL SCOURING AND GRADING MILLS—5.

Men employed	100	Value of product	$2,500,000
Wool scoured annually (pounds)	10,000,000		

WOOLEN MILLS—1.

Men, women and boys employed	141	Blankets made annually (pairs)	11,000
Number of power looms	30	Wool used (clean) annually (pounds)	370,000
Card sets	8	Cloth, tweed and flannel made (yards)	28,000
Spindles	2,712	Aggregate value of manufactures	$260,000

REPORT OF THE SUPERINTENDENT

OF THE

HOUSE OF CORRECTION.

HOUSE OF CORRECTION,
SAN FRANCISCO, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Complying with Resolution No. 3,555 (New Series) of your Honorable Body, I herewith submit a detailed report of the operations and expenditures of this institution for the fiscal year ending June 30th, 1892, as shown by the following exhibits, viz.:

"A."—Number of prisoners committed and discharged.
"B."—Inmate population by months.
"C."—Name of offense.
"D."—From what Court committed.
"E."—Terms of sentence.
"F."—Ages of prisoners.
"G."—Nationality of prisoners.
"H."—Occupations of prisoners.
"I."—Religion professed.
"J."—Number of terms committed.
"K."—Prisoners, literate or illiterate.
"L."—Number of days' labor performed.
"M."—Punishments inflicted.
"N."—Prisoners on hand July 1st, 1892.
"O."—Actual expenses of Institution.
"P."—Monthly statement of expense account.
"Q."—Monthly statement of ration account.
"R."—Comparative statement for ten years.
"S."—Diet table.
"T."—Inventory.
"U."—General remarks.

EXHIBIT "A."

NUMBER OF PRISONERS COMMITTED DURING THE FISCAL YEAR ENDING JUNE 30, 1892.

Number of prisoners on hand June 30th, 1891		316
Committed during the year--Males	956	
Committed during the year—Females	96	
Returned from Court	33	
Recaptured	8	
		1,093
		1,409

NUMBER OF PRISONERS RELEASED DURING THE FISCAL YEAR ENDING JUNE 30, 1892.

1 bucksaw blade, $6 doz	50
450 lbs. salt, 1c	4 50
Total	$443 86

EXHIBIT "U."

GENERAL REMARKS.

In presenting this, my second annual report of the operations and expenditures of this institution for the fiscal year ending June 30th, 1892, to your honorable body, I append a few remarks pertinent to the work done and what is needed for the further maintenance of the institution, and of the objects for which it was created:

I find that the use of this institution as a House of Correction for youthful criminals is almost entirely obviated by the herding together of all classes of the worst elements of crime that a city can produce. By referring to Exhibit "F" it will be seen that there was sent here 23 under the statutory age of eighteen (18) years, and 1,024 over the statutory age of twenty-five years; of this latter number 127 were over fifty years old.

It can easily be seen that this massing together of those who have for years been a charge upon society for their maintenance on account of crimes committed, with youths who have performed their first offense against the law, can have no good results as regards reformation; it rather is nothing but a school for instruction in crime, which far too many of our youths take advantage of, as the after records furnished by the Police and State Prison authorities will show of most of the graduates from it. If those over fifty years of age had been sent to the Amls-House, where they rightfully belonged, and the balance over twenty-five years of age had been relegated to the penitentiary, the city would have been spared an expense that could very well be incurred for some object more worthy.

[Occupation of Prisoners.]

The question of occupation in the case of prisoners is a most momentous one. It is the prime factor in the hope of reformation. Discipline may do much, and the awakening of self-respect

more, but it is conceded by penologists and others that all tried and existing systems for the punishment and reformation of criminals are based upon the fundamental idea that active industry is essential to the best results. Neither the prison reformer nor the labor performed will permit of prisoners' idleness. All penal institutions of the present day provide for some kind of occupation for convicts, and aim to make it productive without coming into competition with outside industries. The question then arises: How shall the convicts be employed? I am decidedly of the opinion that it is cheaper and better for society to turn out its prison population in a good condition to earn an honest living for themselves and their families, than by idleness in prison to turn them out paupers and parasites upon the body politic. We need some system of manual training; a segregation of the inmates according to crime, and last but not least, abolition of all idleness. It is true we have been doing our own work as much as possible—keeping roads in repair, making others, improving and beautifying the grounds of the prison, making our own clothing, doing carpenter work, blacksmithing, laundry and other work; but this is confined to such employments as were a necessary part of the economical and convenient management of the institution. During the months of April, May and June we have done considerable work from the Alms-House on Corbett road down to the beach. Also built a new road from the Spring Valley Water Works to the beach, where our teams and two gangs of men have been steadily employed. I wish to call your honorable body's attention to the great improvement we made on the farm during my incumbency. The soil has been well tilled and carefully attended to, the crops are all looking well and good returns are assured. I have so far raised sixty-five tons of hay, which we have on hand at the present time. We cannot tell yet exactly the amount of potatoes we will have, but we hope to have a good supply, as the crop looks very promising. I have also two acres of mangels (feed for stock), one and a-half (1½) acres of cabbage, and five acres of corn, all for winter feed for stock.

[Morphine, Opium and Cocaine.]

During the last year I find the use of morphine, cocaine and opium is steadily decreasing among those committed to this institution. The majority of cases are incipient, and through the indefatigable energy and zeal of Dr. Kahn and myself we have been able to cure many cases.

[Sanitary Condition.]

The sanitary condition of the prisons is most excellent, and the health of the inmates could not be better. The only cases of sickness in the institution being those self-incurred through the use of opium and from other causes outside of the prison jurisdiction.

The Visiting Physician, Dr. D. S. Kahn, has at all times given us his most valuable and efficient services in relieving the different ailments of the inmates of the prison.

[Discipline and Moral Training.]

My discipline has been firm, but mild. My instructions are that the prisoners must obey prison regulations. Moral suasion is always used, but, if they fail to be morally persuaded, then, of course, they must be compelled to obey, just as they are in every penal institution in the land. The religious services have been held here nearly every Sabbath. I would also thank the press of the city and county for kind words of encouragement spoken during the year, and too much thanks cannot be bestowed upon the Rev. Father Connolly of the Jesuit College, Rev. W. Tubbs. and also by colporteurs from different evangelical denominations.

Our library, I am very sorry to say, is very much depleted at the present time, and as good works of fiction and travel are mostly in demand by the prisoners, a judicious supply of that class of works would fill a long felt want.

[Acknowledgment.]

Mr. John S. Daley, Ass't Superintendent, and Commissary W. H. Griffin, are both entitled to my warmest thanks for the ever able and efficient manner in which they have performed their duties. The guards are also worthy of special mention in aiding me to conduct the affairs of this institution creditably.

In conclusion, gentlemen, I sincerely thank each and every member of your Honorable Board for your uniform kindness to and hearty co-operation with myself and officers during the past year and shall strive during my continuance in office to merit a continuance of your esteem and approbation. To his Honor, the Mayor, is due a world of praise and respect.

Respectfully submitted,

M. FRAGLEY,
Superintendent of House of Correction.

REPORT OF GAS INSPECTOR.

OFFICE OF GAS AND WATER INSPECTOR,
SAN FRANCISCO, July 10, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In accordance with Resolution No. 6931 (Third Series) passed by your Honorable Body, I herein submit report of the workings of the departments of Gas and Water Inspector for the year 1891-92.

Most respectfully,

JNO. Q. BROWN,
Gas and Ex-Officio Water Inspector.

EXPENSES.

Salary allowed by law per year	$1,800 00	
Expended in moving from Old City Hall to New City Hall, fitting up, furniture, materials, etc	181 85	
Total		$1,981 85

The gas used by City and County of San Francisco is furnished by The Pacific Gas Improvement and the San Francisco Gas Light Co.'s, two private corporations. The regular rate to private consumers other than the city is $2 per thousand cubic feet. To the city it is by contract at $1.75 per thousand cubic feet.

The street lamps are supplied with gas by the San Francisco Gaslight Company. They are lighted, cleaned and kept in repair by the company, and the city pays 12 cents per night per lamp for every night lighted. They are lighted one-half hour after sunset and are extinguished one hour before sunrise. They are lighted every night during the year, except the night of full moon, the night immediately before and after full moon. There are at present 5,458 street lamps.

The San Francisco Gaslight Co. also furnish the following public buildings and engine houses with gas:

Fire Alarm Station, Exempt Engine Co., Alamo Square Stables, Police Stations, 827 Folsom street, 247 Steuart street, 207 Seventeenth street, Railroad avenue and Paraguay street, Powell street, Fourteenth avenue south, Police Patrol Stable, City and County Hospital, Engine Companies Nos 7, 9, 11, 13, 16, 17, 18; Hose Companies Nos. 3, 4, 5, 9, Chemical Engine No. 2, and Truck No. 3.

The Pacific Gas Improvement Company furnish the following public buildings and engine houses with gas:

New City Hall, Old City Hall, County Jail, Coroner's Office, Corporation Yard, Police Station 1530 Jackson street, Harbor Police, 522 Davis street, Waverly Place, Engine Companies Nos. 1, 2, 3, 4, 5, 6, 8, 10, 12, 14, 15, Chemical Engine Companies Nos. 1 and 3; Hose Companies Nos. 1, 2 and 8; Trucks Nos. 1, 2, 4 and 5.

The San Francisco Gaslight Company has five locations, to-wit: The Potrero, Howard and First streets, King and Second streets, Howard and Fifth streets, and Bay and Buchanan.

The process of manufacture is the coal gas and water gas process. Estimated capacity of works about 6,000,000 cubic feet per twenty-four hours. Storage about 2,585,000 cubic feet. Number of miles of pipe in city, 250.

The works of the Pacific Gas Improvement Company are located on the ground bounded by Fillmore, Pierce, Francisco and Bay streets.

The process of manufacture is coal and water gas.

Estimated capacity of works, 2,500,000 cubic feet per twenty four hours.

Estimated storage capacity, 1,350,000 cubic feet.

Number miles of pipe, about eighty-five.

It also has a gasholder located at Townsend street, between Second and Third, of about 400,000 cubic feet capacity; here also are located the work and repair shops.

From an analysis made of the gas furnished by both companies, as to its purity from deleterious gases, it was found to contain carbonic acid gas and carbonic oxide gas, but did not contain ammonia gas or sulphuretted hydrogen gas.

From a test made for specific gravity Pacific Gas Improvement Co.'s gas was found to be 568 plus. San Francisco Gaslight Co.'s gas was found to be 557 plus.

GAS CONSUMERS' ASSOCIATION.

For 57 Gas Regulators on Meters of Public Buildings and Engine Houses, $75 per month $900 00

The electric light used by the city is furnished by the California Electric Light Company, a private corporation.

The electric light is used mostly by the city for street illumination, and consists of lamps placed upon masts at the following places :

One mast, 4 lamps cluster, 4,000 candle power each, for which $4.40 per night is charged.

One at Sanchez and Twenty-first streets.

One at Castro and Twenty-fifth streets.

One at Church and Twenty-sixth streets.

One at Valencia and Twenty-sixth streets.

One at Folsom and Twenty-sixth streets.

One at Sanchez and Twenty-ninth streets.

Also, 295 single lamps of 2,000 candle power, each hung on poles at various places in the outlying districts of the city, for which 55 cents per night is charged. There is a multiple series of 16 candle power in Fire Alarm stations, 4 lights in Industrial School, and incandescent lights in the offices of the Auditor, Assessor and Tax Collector in New City Hall.

The street lamps are subject to same hours of lighting as the gas lamps, and all done by contract with the city.

The water used by the City and County of San Francisco is furnished by the Spring Valley Water Works, and the rate or amount allowed to be collected for such service must be fixed by the Board of Supervisors some time during the month of February of each and every year. All of the public buildings of the city, such as Jails, Hospitals, City Hall, Engine Houses, Police Stations, Schools, etc., are rated at so much per superficial foot for general purposes, then a specified rate for water closets, urinals and fixtures, and so much per head for inmates of public institutions. Parks and public squares are charged for under the rate of irrigation, one-half cent per square yard. Public sprinkling is charged for at the regular meter rate of 30 cents per 100 cubic feet.

The public fire hydrants for purposes of fire and flushing sewers are charged for at the rate of $2.50 per month per hydrant.

The rates fixed by the Supervisors apply also to all other consumers and water takers within the city.

REPORT

OF THE

CITY AND COUNTY SURVEYOR.

SAN FRANCISCO, July 1st, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN:—I herewith submit the following report of surveys made and certificates issued for the fiscal year ending June 30, 1892:

Surveys made	930
Certificates issued	814

Very respectfully,

C. S. TILTON,

City and County Surveyor.

REPORT

OF THE

PUBLIC ADMINISTRATOR

FOR THE

FISCAL YEAR ENDING JUNE 30, 1892.

San Francisco, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

Gentlemen: A. C. Freese, Public Administrator of the City and County of San Francisco, respectfully makes this, his return of all estates of decedents which have come into his hands for the term commencing July 1, 1891, to July 1, 1892, in pursuance of Section 1736 of the Code of Civil Procedure.

Respectfully submitted,

A. C. FREESE,
Public Administrator.

SPECIAL LETTERS.

Special letters were issued to me in the following cases and the property which came into my hands under those special letters was turned over to the general administrators or executors:

Estate of -

Joseph Rosenberg,
Peter Macnaughtan,
Charles Hansen,
Charles Ludington,
Charles Whitney,
Carrie Maclay,
Lizzie Robinson,
A. D. W. McCullough,
Mary F. S. Hopkins Searles,
Deceased.

Estate of—

John Hartman,
May I. Dayton,
D. Quintera,
D. Mindeleff,
Thomas Fuller,
George Sawyer,
Tonko Staats,
Jules Choubert,
Stephen Kelly,
Deceased.

REPORT OF THE BOARD

OF

PARK COMMISSIONERS.

PARK OFFICE, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: The Park Commissioners herewith present a report of their management of the grounds under their charge for the year ending June 30, 1892.

W. W. STOW,
JOSEPH AUSTIN,
R. P. HAMMOND, JR.,
Park Commissioners.

The work of the year commenced with the macadamizing of the walk parallel with and adjacent to the Speed Road. The walk is 6,000 feet in length and 12 feet in width. Three drinking fountains and several benches have been placed along the walk at convenient intervals.

The reservoir on the summit of Mount Lick has been inclosed with a handsome iron railing as a safeguard against accident and as a finish to the place. Iron fences of neat but simple design and of inexpensive character have been put up around the Peacock Quarters and the Alvord Lakelet. These fences serve the purpose of protecting their inclosures and securing to the birds that quiet which is so essential in such public places.

About the 1st of October work was commenced on the Boulevard near the Life-Saving Station. The grade at the junction of D street and the Great Highway was taken as a base for the grade of the Boulevard. Grading one hundred feet in width was carried across the west end of the Park, and forty feet in width was macadamized.

A walk twenty feet in width along the extreme western front of the Boulevard has been laid out and macadamized, and its borders planted with shrubbery. The Boulevard and its adjacent

walk are much used by the public, which indicates the desirability of the extension of both southward to the city limit. Those owning lands lying to the south of the Park have graded the Boulevard one hundred feet in width about two miles. The Park Commissioners have contributed one thousand dollars and promised another thousand out of the next year's appropriation, in aid of this work, the entire cost of which should be borne by the Park. We are assured by those who have shown so much enterprise in grading the Great Highway that they intend to complete their good work and macadamize the same during the current year.

Another driveway constructed recently diverges from the main drive near Forty-seventh avenue and connects with streets improved by Mr. Sutro and leading to Sutro Heights. The views obtainable along this route to Sutro Heights are among the finest to be had on the peninsula.

A driveway along and overlooking the first section of the Lake has been completed. It is but twenty feet in width—narrower than desirable. But when all is in order about the lake, driving around it will be restricted to one direction. Walks of most ample dimensions along the margin of the lake have been provided.

Much work has been done on the main drives in widening where formerly they were too narrow, and in improving ragged and unseemly points heretofore neglected because of scarcity of funds. Additional improvements in the same direction are much needed. The driveway leading from the reservoir to the Sweeny Observatory on Strawberry Hill has been widened and made more convenient and safer.

A foot-path leading from the southwest end of Section 1 of the Lake to the summit of Strawberry Hill has been completed, supplied with benches and planted with shrubs and flowers. The walk is of easy grade, and is an attractive one on account of the beautiful views to be had of the eastern portions of the Park and the surrounding country. It is 10 feet in width and about 2,000 feet in length.

Another walk has been provided, commencing at a point opposite Sixth avenue, running southerly and around and through the Aviary, and out to a point opposite Seventh avenue. This walk is from 12 to 16 feet in width and 2,500 feet in length. A branch walk leads south from the Aviary and connects with the McDowell Path near the Buffalo Park. A second branch leads to the Quarry, and still another towards and near to Conservatory Valley. Thus the Aviary is made conveniently accessible to the most frequented portions of the Park.

A contract was let for the grading of Section 1 of the Lake at 8½ cents per cubic yard, a price much below what the work could have been done for by the Commissioners. The bids for doing this work ranged from 8½ to 18 cents per cubic yard. The grading of Section 1 was completed in February, when the work of claying and puddling was immediately commenced. This work proceeded very slowly, because of the rains and the long distance the clay had to be hauled. The bed and banks of the Lake are covered with selected clay ten inches in depth, laid and tamped in the most careful manner. Over the clay three inches of broken rock was spread and rolled into the clay.

This work is very successful. Water has been introduced and there has been no loss of water, except by evaporation, and less from this cause than was anticipated.

Section number two of the Lake, lying northerly from Strawberry Hill, has been graded at the same cost per cubic yard as was paid for section one. It is substantially ready for the clay puddling, work on which will be prosecuted as soon as funds are at the disposal of the Commissioners therefor. The grading of the entire Lake to fully surround Strawberry Hill is under contract, and it is expected it will be completed during the current year. Of course years will be occupied in improving its banks and executing the designs of its projectors.

A sheltered and centrally located spot was selected as a home for song birds, the absence of which in California is so noticeable. The Aviary is three hundred feet in length, one hundred and fifty in width and about thirty in height. We have been unable to stock it with birds as rapidly as we desired, but good progress has been made and enough successfully done to prove the wisdom of the project. The Aviary has many delighted visitors, who attest their love of the feathered songsters, though the variety of birds is as yet quite limited.

A steel and iron foot bridge of handsome design and beautiful proportions has been erected, connecting the Music Grounds and Chicken Point, spanning the middle driveway and enabling visitors to pass from the Conservatory to the Children's Quarters, through the Music Grounds, by the Buffalo Park, the Deer Glen, the Aviary, indeed to visit most of the places in the eastern portion of the Park without the risk of collision with carriages.

At the Children's Quarters several important changes have been made. The ball grounds are in process of being converted into a lawn for the boys under fourteen years of age. Walks have been laid out and the Donkey run changed. An asphalt rink for roller skating and bicycling conveniently provided. The outstanding interests in the Merry-go-round and its equipment and in the personal properties connected with the donkey business and the restaurant have all been purchased

by the Commissioners. Over the Merry-go-round there has been erected a permanent cover of antique design, constructed under the supervision of the architect, H. Page Brown. The amusements at the Children's Quarters are the delight of the little people, and are furnished at the lowest rates consistent with judicious management.

For the accommodation of those visiting the Beach, a two-story building has been erected at a cost of about eight thousand dollars. On the upper story ample closet conveniences are provided for women and children, and similar conveniences for men on the ground floor. In the second story there are ladies' sitting rooms overlooking the driveways, a spacious general sitting room, and a very large balcony from which to view the ocean. On the ground floor ample provision has been made for bicycles, a long room where they may be left for the convenience of their riders. Attached to this ocean observatory are sheds for horses and carriages, under the superintendence of a Park employe.

Thomas U. Sweeny, whose liberality provided during last year the means of enjoying the beautiful views presented from the summit of Strawberry Hill, is engaged in adding a second story to the Sweeney Observatory of architectural design and material in harmony with his earlier work. Mr. Sweeny deserves and will receive the thanks of the many visitors to this favored spot for the wise provision he has made for their comfort and convenience.

About forty thousand trees and shrubs have been planted this season, mostly at the western end of the Park. About two thousand have been planted upon the embankments of the Lake. The slopes facing north, between Stanyan street and Sixth avenue, have also been planted, and an acacia hedge set out between these points along the northerly line of the Park. On the slope facing the pumping works, south of the Bush driveway, a collection of coniferous trees has been planted, which will be added to as trees of suitable size and variety can be had.

Along that part of the great highway, graded by the adjacent property holders as hereinbefore explained, the Commissioners have planted beach grass over a space about fifty feet in width some two miles in length, facing the ocean. This strip, in the three months since it was planted, shows an accumulation of sand of over three feet in depth, thereby tending to solve the difficulty of holding the shifting sands.

A spacious rose garden has been laid out near the Park Lodge and planted with twenty-five varieties of roses. The ground was provided with sub-drainage and such loams and fertilizers as are adapted to the production of roses. The Park is not a very good place for roses, but it is hoped that the care bestowed upon this rose garden may be attended with success.

The drainage of Conservatory Valley was an imperative necessity, as it is the natural reservoir for the water flowing in there during the rainy season. There is no public sewer into which it could be emptied, and the low ground in the Deer Glen was the only spot offering the needed relief. A cut 25 ft. in width and 400 ft. in length was made, which connects with the drain under the tunnel leading south from the valley. Ample drainage was thus secured and the flooding of the valley no longer endangered.

Several thousand feet of water pipe, varying from 1½ to eight inches in diameter, has been laid, principally about the Lake, Strawberry Hill and the Aviary. In the Nursery the old pipes have been removed and new ones of needed capacity substituted.

The foregoing describes briefly the work of permanent improvements made in the Park during the past six or seven months. The walks, driveways, trees, lawns, plants and flowers, have received constant care and keep employed a small army of laborers. In fact, maintenance absorbs about one-half of the appropriation placed at the disposal of the Commissioners.

Recently C. P. Huntington, a former resident of this State, but at present of New York, gave to the Park the sum of twenty-five thousand dollars for the construction of a Cascade and Waterfall, to start from the summit of Strawberry Hill and to terminate in the Lake. About the first of September this work will be commenced, and it is believed that Mr. Huntington's generous gift will develop the most beautiful and attractive feature in the Park.

Many of the Public Institutions of the City have been furnished from the nurseries of the Park with plants, shrubs, flowers and trees to be used in ornamenting and improving their grounds. The public places thus supplied, together with a list of the plants, etc. furnished, are appended to this report.

It is gratifying to the Commissioners that they meet with constant commendation of the management of the Park. The permanent improvements of the past year and the inviting condition in which the grounds, drives and walks are uniformly kept, have received the cordial endorsement of the masses of Park visitors. The praise so frequently bestowed largely belongs to Superintendent McLaren. The dyspeptic criticisms indulged in by the few, while they do not disturb, yet serve to prompt to care and diligence.

SECRETARY'S REPORT.

PARK OFFICE, June 30, 1892.

To the Honorable the Board of Park Commissioners:

GENTLEMEN: I have the honor to submit herewith my report for the fiscal year ending with this date:

RECEIPTS AND DISBURSEMENTS

FROM JULY 1, 1891, TO JULY 1, 1892.

From taxes	$182,961 83	
From Children's Play-house	2,706 82	
From fines	730 00	
From rent of fruit stands	530 00	
From rent of P. and O. R. R. Depot	100 00	
From sale of old horses and mules	146 00	
From non-purchase of swings	67 00	
From rent of weighing-machines	10 00	
From sale of water meters	500 00	
Balance from last year	294 86	
By warrants canceled	50 00	
		$183,096 51

DISBURSEMENTS.

Construction and improvement	$100,448 91	
Maintenance	76,330 13	
Stock	3,322 13	
Miscellaneous items	3,966 67	
Salaries (Superintendent and Secretary)	4,050 00	
		$188,117 84

CONSTRUCTION ACCOUNT.

STRUCTURES—

Bridge, Beach Chalet, fence around reservoir, new Rustic House, fence around Lakelet, fence around Peacock Glen, fence on Boulevard, constructing Buggy Shed, wire for Aviary, plumbing in Office, grading, paints, lumber, cement, vases for Bridge, architects' fees and painting new fences, labor and material $33,485 07

WATER WORKS—

Extension of distribution pipe system, including pipes, etc., labor and material. 5,609 54

DRAINAGE—

Grounds, construction of cesspools and sewer, pipe, lumber, iron grates, etc., labor and material 1,720 03

WAYS—

Construction of new roads, walks, etc., including all labor of grading, quarry work and macadamizing, powder, fuse, hardware and other materials..... 15,191 92

GROUNDS—

To labor of grading, forming, dressing, trimming, soiling, fertilizing grounds newly brought to a finished condition in this respect..... 6,577 08

PLANTATIONS AND FORESTS AND RECLAMATIONS—

Planting trees and grass to prevent the drifting of sand, labor and material.... 6,538 60

CONSERVATORY –

Purchase of new plants, etc., especially for the Conservatory..... 259 11

SMALL WORKS—

Lake, hauling loam, clay, manure and rock, team hire, hauling rock to Lookout, surveying, etc..... 31,067 56

MAINTENANCE ACCOUNT.

STRUCTURES—

Labor, lumber, paints and oils, hardware, glass, etc., devoted to and used in repairs and general maintenance of buildings..... 3,630 38

WATER WORKS—

Labor in repairing water pipe, maintenance of water works, engineer, coal, cement expended in repairs, labor and material..... 3,711 67

DRAINAGE—

Labor, etc., maintenance of sewers..... 143 75

ROADS AND WALKS—

Labor and material, repairing, cleaning, dressing, sprinkling, etc., roads, walks, concourses, including repairs and sprinkling Point Lobos Road..... 7,963 03

GROUNDS AND GARDENING—

Labor and material, maintenance of garden and flower-pots, lawns and grounds generally..... 27,177 06

FORESTS AND PLANTATIONS—

Labor trimming and dressing out plantations..... 1,542 20

CONSERVATORY—

The current cost of the Conservatory, including labor and fuel..... 5,187 47

POLICING—

LIST OF DONATIONS TO THE PARK DURING THE YEAR 1891-92.

Spreckels Bros.....Two swans
J. S. C. Stevens.....Collection of seeds of trees and climbers of the East Indies
H. Atwater.....One Tahiti plant
Mr. Liebes.....Two seals
Geo. Christie.....Collection of seeds
J. F. Sullivan.....Two egg plants
S. Adderley.....Hemp plants
P. O'Connor.....Some plants of Farbaum (from Ireland)
H. Strieve, San Salvador.....Palm and tree seeds
W. C. Chapin.....Bunch grass seeds from Death Valley, Nevada
Jas. W. Taylor, Seattle.....Collection of seeds
Mrs. O. Harvey.....Daffodil bulbs
S. Cook, Manager Sidney Morning Herald, New South Wales.....One orchid
Thos. Munro.....Two cycus
E. Deplerre.....Wild strawberry plants
Russian Seal Co.....Two reindeer
F. Ehrmann, Panama.....One oedienemus bistrialus (giant plover)
H. F. Emeric.....Pine apple plants and collection of seeds
H. F. Cutter.....Ten pairs of Persian bulbul or Japanese nightingales
U. S. Legation at Persia.....Seeds
R. W. Tucker.....One pheasant
M. Torney.....Alaskan goose
Mrs. Rhind.....Two quail
D. A. Bender, Carson, Nev.....One dozen mountain quail
J. Wagner.....One duck
Consul Beale of Persia.....Seeds of the scorpion tree
Dr. Kienborts.....Lime azaleas
Dr. A. P. Peck of Stanford.....Seeds of the corica papoya from India
F. Deleau.....One duck
J. H. Tomlinson, Superintendent of Parks, Los Angeles.....
.....Box of plants and seeds of Platycodon and Solanum Wendlandie
P. O. Dock.....
Collection of birds, including Java sparrows, Cal. canaries, strawberry birds, blue sparrows
B. G. Eldridge.....One parrot

LIST OF DONATIONS TO THE PARK—CONCLUDED.

H. F. Whitman ..... Two yellow Jacobin pigeons
P. Ritter ..... One canary bird
E. Schnutenhaus ..... Canaries
A. Borel ..... One pheasant and one dove
Thos. Meherin ..... Collection of grass seeds
Miss Johnson ..... Two quail
Mrs. D. O. Anderson ..... One canary
J. C. Rued & Co ..... Three loads leather clippings
J Jensen ..... One pair China quail
Miss Corder ..... One pair fan-tailed pigeons
C. H. Stuart ..... One Chinese skylark
R. F. Tilton ..... One gray linnet
Mrs. Dixon ..... One Nashville warbler, one pair East Indian cardinals, two canaries, one red-head
L. Paulsen ..... One Jakoline pigeon
Clay M. Green ..... Collection of birds
Mrs. P. J. Lathrop ..... One begonia plant
Mrs. Jones ..... One parrot
A. M. Walsh ..... One Guinea hen
J. F. Cutting, Washington, D. C ..... Collection of flower seeds
F. Wallace ..... One canary
B. R. Wolcott ..... One canary
W. P. Haynes ..... One Australian rock pebler
A. B. Southard ..... One California road runner
W. R. Drummond ..... One dragoon mountain quail
Mrs. F. and C. H. Hill ..... Three canaries
Mrs. S. C. Talcott ..... One canary
Dr. J. F. Gibbon ..... One Irish skylark, one mockingbird
O. Reimer ..... Three canaries
J. C. Siegfried ..... Three male and three female mandarin ducks
Jas. Lawson ..... One pair dwarf kankaroos
L. C. Nostrom ..... One cockatoo
Wm. Alvord ..... Gardener's Chronicle
California Architectural Pub. Co ..... Monthly copies of the California Architect
Mrs. A. Chesebrough ..... One deer
H. G. Wright ..... One canary
Dr. Belton, Colusa ..... One pair white swans
A. C. Zollikofer ..... Orchids from Guatemala
Mrs. Elliott ..... One canary
E. J. Baldwin ..... Four hundred and forty fan palms
H. W. Buckbee, Rockford, Ill ..... Collection of pansy seeds
W. B. Morrison ..... One canary
A. J. Johnson, Astoria ..... One pheasant
Her Royal Highness Queen Kapiolani, Hawaii ..... One cocoanut tree
S. P. Stow, Goleta, Santa Barbara ..... Mango seeds

POLICE REPORT.

The report of S. M. Thomson, Captain of the Park Police, shows the total number of arrests to have been 115 during the past fiscal year, of which 26 were for fast driving, fifteen for inebriation seven for driving delivery wagons, and the remainder for minor offenses, such as insane, battery, driving on walks, plucking flowers, cutting benches, etc.

During the year the total amount of fines received from the above arrests was $730.

REPORT

OF THE

DISTRICT ATTORNEY.

DISTRICT ATTORNEY'S OFFICE,
SAN FRANCISCO, July 8, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In accordance with Resolution No. 6931 (Third Series) of your Honorable Board, I have the honor to submit herewith my report for the fiscal year ending June 30, 1892.

I have now upon my books, as appears in detail in the accompanying report, a grand total of 1325 cases. Of this grand total, 588 cases were reported pending July 1, 1891, many of them having been carried for a number of years. During the present fiscal year, 737 cases were received in this office. There have been 313 convictions, 142 acquittals, 101 persons have been dismissed by the Court on motion of the District Attorney on account of lack of evidence to convict, 46 charges against defendants sentenced for other offenses have been dismissed, 118 persons are fugitives from justice, and 270 cases are now pending for trial. During the fiscal year there were received 107 appealed cases from the Police Courts, which added to the 17

appealed cases reported pending July 1, 1891, makes a total of 124 appealed cases for the year. Of these 71 were affirmed, 27 were reversed, 3 were dismissed, and 23 are now pending.

I desire to call the attention of the Board to the number of cases which it was found necessary to dismiss on account of the lack of evidence to convict. Some of these were ancient cases which had been carried on the books for a long time; 17 of them were against H. J. Palmer, whom a Grand Jury, in the term of my immediate predecessor in office, indicted upon 18 charges of forgery. He was tried upon one charge, and being acquitted by the jury, and the evidence against him being the same in all cases, it was thought best to dismiss the remaining charges; nine charges so dismissed were against three defendants, Carr, Flannery and McKenzie, who were jointly charged. There were four trials, and conviction being manifestly hopeless, the cases were dismissed. The majority of these cases, however, were defendants who had been held to answer during the year by the Police Courts for trial before the Superior Court; and I cannot refrain from commenting upon the fact that should the Police Judges exercise a greater discretion in the class and character of cases that are held for trial, a very considerable responsibility would be removed from the shoulders of the District Attorney, the Courts would be in better running condition, the calendar less congested, and, as I conceive, the interests of justice better subserved.

As will be easily perceived, the volume of business has greatly increased, while the number of Courts occupied in its disposition, and the District Attorney's staff, have both remained unchanged. In my opinion, the time is not far distant when, unless more Courts and more assistants for the District Attorney are provided, the calendars will become so choked that it will be almost impossible to press any cases even to a reasonably speedy termination.

It will be noticed that there are 270 cases pending this year as against 225 last year. This is readily accounted for by the fact that this year has been phenomenal for the number of long and important cases that the office has tried during the past twelve months, among them Dr. S. H. Hall, charged with murder, which lasted three weeks, and in which the jury disagreed; M. B. Curtis, charged with murder, the trial of which lasted four weeks, in which the jury also disagreed, standing ten for conviction and two for acquittal; the case of John White, charged with embezzlement, which occupied three weeks and resulted in a disagreement, and the motion for a new trial in the Sidney Bell murder case, which filled the time of the Court for nearly a month.

There were also more cases received this year than last, the report showing 737 cases for 1891–92, as against 649 for 1890–91. The abolition of the Industrial School has also entailed much extra work upon this office, witnesses having been examined and complaints drawn in fifty-five instances, where

was considered best to commit infants to the State Reform School at Whittier, no record being kept of cases where complaints were refused.

The mere numerical statement of these cases can give no idea of the labor these matters have been, and it is a sad commentary to be forced to say that the office has been compelled to exercise the greatest care in regard to these commitments not only to protect society from youthful offenders, but also to protect the infants themselves from heartless parents who seek only to rid themselves of the care of little children who cannot contribute to their own support.

During the fiscal year there were 100 writs of habeas corpus issued. Of these 48 were granted, 50 denied and 2 in which no return has been made up to June 30, 1892.

In conclusion I desire to express my thanks to John A. Hosmer, Esq., First Assistant District Attorney, who has prepared this report in addition to his constant labors as prosecuting officer in Department Twelve, Superior Court.

I have the honor to be very respectfully,

WILLIAM S. BARNES,

District Attorney in and for the City and County of San Francisco.

REPORT

OF THE

SUPERINTENDENT OF PUBLIC STREETS,

HIGHWAYS AND SQUARES.

SAN FRANCISCO, July 20, 1892.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: I herewith submit my annual report for the fiscal year ending June 30, 1892.

There has been 4 2500-5280 miles of streets paved with basalt blocks, 7 2290-5280 miles paved with bituminous rock and 3575-5280 miles paved with cobbles; during that period, also, 12 4917-5280 miles of streets were added to the accepted streets of this city. There has also been 23 1815-5280 miles of sewers built, for which see annexed tables.

The expenditures made from the Street Department Fund are set forth in the annexed statement. The special items of expense provided for in the appropriation for that year were larger in proportion to the total than perhaps in any preceding it; therefore the amount available for ordinary repairs was not as large as the exigencies of the case required.

The amount available during the present fiscal year for repairs to accepted streets, including the re-paving with basalt blocks of those streets previously paved with cobbles, falls far below my estimate for that work, heretofore submitted to your honorable Board.

The necessity for this improvement is ever increasing, but only a portion of it is possible with the funds now set apart for the use of the Street Department.

Besides the foregoing miles of pavement laid at the expense of property owners, the following streets previously accepted by the city have been repaved with bituminous rock and Stradamant pavement, to wit: Front street from Market to Sacramento street, and California street from the west line of Montgomery to the east line of Battery street.

There are now about eighteen miles of streets paved with bituminous rock and accepted by the city, being over one-sixth of the entire mileage of the accepted streets thereof.

All of this pavement has been laid within the last six years, clearly demonstrating that it is growing in public favor. The time that has elapsed since its introduction here may be too short to demonstrate its durability, but it is sufficiently long to prove that the cost of repairs to it, so far, falls below that of any other pavement either now or heretofore accepted by the city.

Among the improvements commenced during the past fiscal year has been the paving of Kentucky street from Fourth street to Second avenue south. That work is now more than half performed, and will be entirely completed before the winter rains commence. This will give a much needed highway between the most important industrial section of the city and its business center.

SEWERS.

A larger mileage of sewers has been constructed during the past fiscal year than in any preceding it. Among the sewers included in the annexed lists are those recently constructed in what is known as the Fell street system, also the large receiving sewer just completed in Brannan street from Fourth street to Channel street, and paid for out of the Street Department funds. This latter sewer is intended to carry the principal portion of the sewage heretofore discharging over the Mission Flats from the Channel street sewer directly to the waters of the bay, and thus abate a nuisance of long continuance. I am of the opinion that it is better to defer the construction of any more sewers on a large scale until the plans now being outlined for a sewer system are completed and adopted by the city.

It is true that certain localities can be effectually sewered by local systems, but the evils existing in the sewers heretofore constructed in the lower levels of the city cannot be abated until a system is adopted which will intercept all of those delivering on the waterfront, and carry the sewage matter to some point from which it can be pumped into the bay.

MACADAMIZED STREETS.

This form of street improvement being now prohibited within the principal portion of the city, a much smaller quantity of it has been performed than in the preceding fiscal year; but experience has proven that it is not a desirable improvement, and should be confined to localities where the value

of the property does not permit, or the needs of the inhabitants require a more expensive pavement.

SIDEWALKS.

The amount of permanent sidewalks set forth in the list submitted does not probably represent one-half of those laid down during the year. Nearly all that has been laid was done by private contracts between property owners and a number of parties engaged in that business; from these people I find it impossible to obtain complete returns.

COUNTY ROADS.

The principal expenditures for the repairs of the county roads has been made on the Mission and San Bruno Roads. Until the city is able to commence proceedings under the provisions of the Street Law to improve Mission street between Twenty-sixth street and the county line, that roadway will require continuous repairs.

LAGUNA SURVEY.

Among the public works heretofore projected under the provisions of an Act of the Legislature of this State, "For the opening, widening and extending streets, * *," approved March 6, 1889, the work of opening of those streets within the boundaries of the lands known as the Laguna Survey has taken definite shape during the past fiscal year.

The report of the Commissioners appointed for that purpose having been confirmed by your honorable Board, the subsequent proceedings which I am required by law to take, in order to collect the moneys assessed, have been complied with, except in the matter of certain lots which I was enjoined from levying on. The matter, however, is now almost adjusted, and the following streets are now open for improvement, to wit: Greenwich from Franklin street to Van Ness avenue, Filbert street from Van Ness avenue to Polk, Van Ness avenue from Vallejo to Bay street, except that portion between Greenwich and Filbert streets, and all of Union street, Green street, Franklin street and Polk street within the boundaries of the lands of the Laguna Survey, are now open public streets, and can be improved under the provisions of the Street Law.

It is to be hoped that the opening of the foregoing streets will give an impetus to that portion of the city in which they are situated, and that a location adapted by nature for commerce and industry may soon feel the advantages which I believe are sure to result therefrom.

Respectfully submitted,

JAMES GILLERAN,

Superintendent of Public Streets, Highways and Squares.

AMOUNT DRAWN FROM THE STREET DEPARTMENT FUND

DURING THE FISCAL YEAR 1891-92.

WORK DONE IN FRONT OF CITY PROPERTY.

Jas. J. O'Connor..... Grading Laguna street between Clay and Washington streets; public park.	$2,898 50

August 13, 1891—In relation to the letting of contract to put fire escapes upon the Girls High School Building.

April 13, 1892—In reference to the validity of the removal of Mrs. S. W. McPherson as teacher from the Girls' High School.

TO THE CORONER.

January 4, 1892—In relation to the power of the Coroner to call upon any person whom he may deem proper to make autopsies in the Morgue.

March 4, 1892—In relation to the duty of the Coroner with reference to the personal effects of a person having committed suicide.

TO THE SUPERINTENDENT OF SCHOOLS.

July 10, 1891—In relation to the adoption of text books.

October 13, 1891—In relation to the power of the Board of Education to issue teachers' certificates.

TO THE RECORDER.

November 16, 1891—In relation to the recordation of decrees of distribution and orders of the Probate Court confirming sale of real estate.

TO THE AUDITOR.

September 10, 1891—In relation to the effect of the 30 per cent increase in the assessed value of the property of the City and County of San Francisco made by the State Board of Equalization upon the assessment for city and county purposes.

November 21, 1891—In relation to the validity of the resolution of the Board of Education reducing the salary of the Deputy Superintendent of Schools.

TO THE MAYOR.

September 30, 1891—In relation to granting certain street-car franchises.

October 19, 1891—As to the power of the Board of Supervisors to appoint a hostler in the city stables at Alamo Square.

TO THE COUNTY CLERK.

July 10, 1891—In relation to the duty of the County Clerk under an Act of the Legislature of 1891 to prohibit the coming of Chinese persons into the State of California.

TO THE TAX COLLECTOR.

September 15, 1891—Construing the so-called "new tax law" enacted 1891.

TO THE LICENSE TAX COLLECTOR.

July 29, 1891—With reference to the license tax to be paid for street cars.

February 15, 1892—Relative to the license tax to be paid by insurance agents.

TO THE POLICE PENSION FUND COMMISSIONERS.

February 4, 1892—As to the right of the heir of R. P. Hammond, late Police Commissioner, to the sum of $1,000.

REVIEW.

There were pending at the commencement of the fiscal year (exclusive of 381 street assessment cases) 261 cases in which the City and County of San Francisco, or its officers, were parties.

During the year 59 new cases have been brought against the city and county or its officers, and 3 have been commenced by the city and county.

Fifty-two cases were finally adjudicated, of which 27, involving $2,234, were decided against the city and county, and 25, involving the sum of $82,233 55, were decided in favor of the city.

There are now pending in the various courts 271 cases (exclusive of street assessment cases), of which those involving claims against the city or its officers are as follows:

For grading streets, etc	$15,404 50
For damages	1,215,827 00
For various rents, claims, salaries, etc	161,722 52

The remainder are principally Montgomery and Dupont Street Bond cases, and suits to quiet title to land.

Very respectfully,

JOHN H. DURST,

City and County Attorney.

The report of the Delinquent Tax Department of this office is attached hereto and made a part hereof.

DELINQUENT TAX OFFICE,
SAN FRANCISCO, July 14, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: I have the honor to submit herewith a statement of the collection of delinquent taxes on personal property for the fiscal year ending June 30, 1891.

The Delinquent Tax Department of the City and County Attorney's Office was established by Order No. 2467 of your Honorable Board, approved November 10, 1891, and the Delinquent Tax Roll for the year 1890 was turned over to me during that month.

Two copyists have been employed in the office, and 20,000 suits have been commenced; about 50 per cent of the summons have been issued and are now being served.

A great proportion of these will not be collected, by reason of the numerous removals, the impossibility in many instances of tracing the delinquents, and by death, and the extreme poverty of large numbers of those on the list who never should have been, in the first instance, put upon the Assessment Roll.

Detailed monthly statements have been made to the Tax Collector and are on file in his office.

The establishment of a Delinquent Tax Office, where such taxes can be paid, is a great convenience to the taxpayer who may have business with it, and I am satisfied is a source of added revenue to the city.

The room assigned for the purpose is not large enough for the transaction of the vast amount of work the duty entails, nor suitably furnished to carry it on.

I append a statement of the collections made during the seven months covered by this report.

City and county taxes	$2,150 30	
State	1,526 12	
Penalty 5 per cent	181 30	
Interest 2 per cent per month	1,250 05	
Advertising	577 00	
Total paid to Tax Collector		$5,684 77

Respectfully submitted,

JAS. E. HUGHES,

Assistant City and County Attorney for the Collection of Delinquent Taxes.

SHERIFF'S REPORT.

SHERIFF'S OFFICE,
CITY AND COUNTY OF SAN FRANCISCO,
July 5th, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—In accordance with Resolution No. 6931 (Third Series) of your Honorable Body, I herewith respectfully submit the following report of fees received in this office, together with statistics of the County Jail, for the fiscal year ending June 30, 1892.

Since said date, the Ordinance having been changed, permission has been granted for the issuance of 39 retail permits and one wholesale.

RULES AND REGULATIONS.

OFFICE.

1. The Office of the Board of Fire Commissioners shall be the office of the Chief Engineer of the Department, and shall be known as the Headquarters of the San Francisco Fire Department. Office hours for the transaction of business shall be from 9 A. M. to 4 P. M. Sundays and legal holidays excepted.

DIVISIONS.

2. There shall be two divisions of the Fire Department of the City and County of San Francisco, viz.:

Division No. 1, comprising Districts Nos. 1, 2 and 5, under the immediate supervision of the Assistant Chief Engineer of the Department.

Division No. 2, comprising Districts Nos. 3, 4 and 6, under the immediate supervision of the Second Assistant Chief Engineer of the Department.

DISTRICTS.

3. District No. 1.—Commencing at the northeasterly corner of Market and Stockton streets, running easterly on northerly line of Market street to bay, and northerly on easterly line of Stockton street to bay.

District No. 2.—Commencing at southeasterly corner of Market and Seventh streets, easterly on southerly line of Market street to bay, and southerly on easterly line of Seventh street to Centre or Sixteenth street, and easterly on Centre or Sixteenth street to bay.

District No. 3.—Commencing at southwesterly corner of Market and Seventh streets, southerly on westerly line of Seventh street to Centre or Sixteenth street, and westerly on Centre or Sixteenth street to its intersection with Market street, and easterly on southerly line of Market street to point of commencement.

District No. 4.—All territory south of Districts Nos. 2 and 3, and south of southerly line of Market street from Sixteenth, and south of contemplated extension of Sixteenth street.

District No. 5.—Commencing at northwestern corner of Stockton and Market street, running northerly on westerly line of Stockton street to bay, and westerly on northerly line of Market street to Van Ness avenue, and northerly on easterly line of Van Ness avenue to bay.

District No. 6.—All territory west of District No. 5, and north of Districts Nos. 3 and 4.

HEADQUARTERS.

4. The headquarters of the Chief Engineer shall be, during office hours, at the headquarters of the Fire Commissioners. After office hours, which shall be construed as being between the hours of 9 A. M. and 4 P. M., Sundays and legal holidays excepted, he shall be at the house of Engine Company No. 2, on Bush street, above Kearny.

Headquarters of Assistant Chief Engineer and Chief of Division No. 1, shall be, during office hours, at the office of the Chief Engineer, and after office hours, at the house of Engine Company No. 4, on Second street, near Howard.

Headquarters of Second Assistant Chief Engineer and Chief of Division No. 2, shall be at the house of Truck Company No. 3, on Market street, between Tenth and Eleventh.

Headquarters of District Engineer of District No. 1, shall be at the house of Engine Company No. 1, on Pacific street, near Sansome.

Headquarters of District Engineer of District No. 2, shall be at the house of Engine Company No. 6, on Sixth street, near Folsom.

Headquarters of District Engineer of District No. 3, shall be at the house of Truck Company No. 3, on Market street, between Tenth and Eleventh.

Headquarters of District Engineer of District No. 4, shall be at the house of Hose Company No. , on Folsom street, between Twenty-first and Twenty second.

Headquarters of District Engineer of District No. 5, shall be at the house of Engine Company No. 3, on California street, near Leavenworth.

Headquarters of District Engineer of District No. 6, shall be at the house of Hose Company No. 2 on Post street, near Fillmore.

CLERK.

5. The Clerk of the Board of Fire Commissioners shall attend daily at the headquarters of the Department, and shall devote his whole time and attention to the duties thereof. He shall keep a true record of all the proceedings of the meetings of the Board of Fire Commissioners, and shall enter in the minutes of each monthly meeting all the appointments made by the Commissioners, and by whom made; and shall perform such other duties as may be prescribed by said Board and Chief Engineer. He shall also perform the duties of clerk to the Chief Engineer and Assistant Chief Engineer.

MEMBERSHIP.

6. Every person hereafter appointed a member of the San Francisco Fire Department must at the time of his appointment be over twenty-one years of age, a citizen of the United States, and be able to converse understandingly in the English language. He shall make application to the Board of Fire Commissioners in writing over his own signature, stating the position he is an applicant for, his name, age, birthplace, residence and business occupation. Any person applying for the position of hoseman or truckman must be of sound bodily health, and over twenty-one and not over thirty years of age.

Each and every member of the Department hereafter appointed shall procure a certificate from the Board of Examining Physicians appointed by the Board of Fire Commissioners that he is in sound health. Failing to comply with this requirement within five days from the date of his appointment, the position shall be declared vacant.

THE CHIEF ENGINEER.

7. The Chief Engineer shall devote his whole time and attention to the Fire Department, have sole and entire command at fires and alarms of fires over all officers, members and employees of the Department, and all apparatus and appurtenances belonging to the same, and he shall take all measures which he shall deem expedient for the extinguishment of fires, protection of property, preservation of order, and observance of the laws of the State, ordinances of the City, and rules and regulations of the Board of Fire Commissioners. It shall be the duty of the Chief Engineer to examine into the condition of all the houses, apparatus and appurtenances belonging to the Department, to examine Engine, Hose and Hook and Ladder companies, and to appoint all clerks and assistant foremen of companies in the Department. The Chief Engineer is vested with the power to suspend any officer, member or employee of the Department who shall refuse or neglect to perform the respective duties assigned them, or shall refuse or neglect to comply with the rules and regulations of the Commissioners, and report such action. It shall be the duty of the Chief Engineer to report from time to time to the Commissioners the name of such officer or member of the Department, if any, who, in his judgment, should be removed or discharged, with his reasons therefor. In all cases of removal from the Department, the name of the party removed, with a statement of the reasons therefor, shall be entered in the minutes of the Board. He shall be responsible to the Board of Fire Commissioners for the conduct and management of the members of said Department and shall report to the Board of Fire Commissioners any officer or member of the Department who, by reason of age, disease, accident, or other incompetency, does not or cannot fully, energetically promptly and properly perform his duty in the Department.

ASSISTANT CHIEF ENGINEER.

8. The Assistant Chief Engineer shall devote his whole time and attention to the Fire Department. It shall be his duty to respond to all alarms of fires except in case of sickness or the absence of the Chief Engineer, to take charge at fires and alarms of fire, and in case of the absence of the Chief Engineer he shall assume the same duties and have the same power as devolves upon the Chief Engineer. It shall be his duty to visit the houses connected with the Department at least once in every week, and report the condition of each to the Chief Engineer.

ASSISTANT OR DISTRICT ENGINEERS.

9. It shall be the duty of the District Engineers to devotetheir whole time and attention to the

Fire Department; to respond to all alarms of fires within their respective districts assigned to them and report to the Chief or Assistant Chief on his arrival at the fire, and report in writing daily to the Chief of his division the conditions of the several houses and apparatus in his district, compiled from written reports from the different officers of the companies in his district as hereinafter provided. They shall also attend to their duties as Fire Wardens within their respective districts, and see that all orders emanating from the Board of Fire Commissioners, or Chief Engineer, or Chief of Division, are strictly enforced within their respective districts.

In case of the absence at any fire the District Engineer shall assume and perform the duties of Chief Engineer until the arrival of the Chief Engineer or Chief of Division.

The District Engineers of Districts Nos. 1, 2 and 5, shall report to Chief of Division No. 1 at his headquarters, daily, in writing, between the hours of 11 A. M. and 1 P. M., and shall immediately return to their respective districts.

The District Engineers of Districts Nos. 3, 4 and 6, shall report to Chief of Division No. 2, at his headquarters, daily, in writing, between the hours of 11 A. M. and 1 P. M., and shall immediately return to their respective districts.

No District Engineer shall, except in case of fire, absent himself from his district, except by permission of the Chief of his division, except when engaged in going to and from his division headquarters.

FOREMAN OF COMPANIES.

10. The Foreman of each Engine, Hose and Hook and Ladder Company shall at all fires direct the apparatus in a suitable position at the scene of fire, and the Foreman of each Engine and Hose Company shall have charge and directing of hose and hosemen.

The Foreman of each Engine, Hose and Hook and Ladder Company shall have charge of the apparatus belonging to his company. He shall preserve order and discipline at all times among the members of the company under him, and require of them and enforce a strict compliance with the rules and regulations of the Department and the orders of the Chief Engineer. He shall report to the Chief Engineer any violation of any of the rules and regulations of the Department, or neglect of duty by any of the men under his charge. He shall see that no person other than a member of the Department (except a substitute acting for a member) shall sleep in the house, nor shall he allow any person not a member of the Department to lounge in and around the house. He shall not excuse any member of his company from answering roll call on returning from an alarm of fire during the hours of 8 P. M. and 5 A. M.

ASSISTANT FOREMAN.

11. The Assistant Foreman shall in the absence of the Foreman exercise the same duties, and shall have the same powers as devolve on the Foreman.

CLERKS OF COMPANIES.

It shall be the duty of the Clerk of each company to keep an accurate record of the membership of his company in a book provided for that purpose, and to note accurately therein all absentees at all alarms of fire or drills, and to correctly keep an account of weights and qualities of feed, fuel, stores and other articles received at the house for the use of the company, and to transmit a correct copy to the Board of Fire Commissioners on the last day of each month. Said Clerk shall make a minute of the reasons on the roll call of all absentees from said roll call during the hours of 8 P. M. and 5 A. M.

ENGINEERS OF STEAMERS

13. Each applicant for the position of Engineer of Steamers shall be a regular practical engineer. All applicants, after having passed a medical examination, shall be examined by the Superintendant and Assistant Superintendant of Steamers, appointed by the Board of Fire Commissioners.

The Engineer of each steamer shall give his entire time to the interest of the Fire Department, and shall always be at the Engine House where his engine is kept, except when directed by the Chief Engineer to perform other duty, or when at meals. He shall, under the direction of the Foreman, have sole care of the Engine House and of all property therein belonging to the city. He shall be held personally responsible for the care and order of the engine, and shall work and man-

age the same, and see that it is at all times in condition for immediate use, and while working at fires he shall not be allowed to use over eighty (80) pounds pressure of steam, and not over one hundred and twenty (120) pounds pressure on hose, unless otherwise ordered by the Engineer in charge. It shall be his duty to take the number of the box coming in from all alarms of fires, and report the number of box located to the driver. He shall report daily, in writing, to the Assistant Engineer of his district the condition of the house and apparatus in his charge. He shall also assist in keeping the house and apparatus clean and in good order, and shall have the same ready for inspection daily at 10 o'clock, A. M.

Each applicant for the position of Engineer of Steamers shall, after having passed a medical examination, be examined by the Superintendent or Assistant Superintendent of Steamers as to their fitness to run a Steam Fire Engine.

DRIVERS.

14. The drivers belonging to the several companies shall devote their whole time and attention to the Fire Department, shall take care of and properly groom the horses belonging to their respective companies, see that the same are at all times ready for immediate use to convey the apparatus to the scene of the fire on an alarm being sounded, and perform such other duties as may be required of him by the Foreman of his company, and shall also keep everything in and around the stable neat and clean. He shall report daily, in writing, to the Assistant Engineer of the district wherein his company is located, the condition of his horses and harness, and shall have his horses and harness cleaned and ready for inspection daily at 10 o'clock A. M. He is strictly prohibited from racing going to or returning from alarms of fire, nor shall he permit his apparatus to pass any other apparatus of the Department unless such apparatus or horses should be disabled; nor shall he drive his horses at a rate of speed that may be liable to cause accident.

FIREMEN OF STEAMERS.

15. The Fireman of each engine company shall devote his whole time and attention to the Fire Department; he shall be under the direction of the Engineer of his company, assist in the care and cleanliness of the apparatus and the house, and see that the engine is properly supplied with fuel and perform such other duties as the Engineer may direct.

TILLERMEN.

16. The Tillerman of each Hook and Ladder Company shall give his entire time and attention to the Fire Department, and shall be required, under direction of the Foreman, to keep the apparatus of his company neat and clean. He shall report, daily, in writing, to the Assistant Engineer of his district, the condition of the apparatus and house, and shall take the box and location that comes in from all alarms of fire, and report the same to the driver; he shall have the house and apparatus ready for inspection daily at 10 A. M.

STEWARDS OF HOSE COMPANIES.

17. The Steward of each Hose Company shall give his entire time and attention to the Fire Department, and shall keep the apparatus and house of his company clean and ready for immediate use, and in the absence of the driver to his meals he shall perform the same duties as the driver. He shall take the number of box and location that comes in from all alarms of fire and report the same to the driver, and sall report daily, in writing, to the Assistant Engineer of the district the condition of the hose and apparatus. He shall obey all orders of the Foreman of his company, and have the house and apparatus ready for inspection daily at 10 A. M.

EXTRAMEN.

18. It shall be the duty of the Hosemen and Hook and Laddermen of each and every company of the Fire Department to attend all fires immediately upon an alarm being sounded, and to report to the officer in command of their respective companies, to obey all orders in respect to the discharge of their duty, and to return to their respective houses with their apparatus to answer roll call. They shall be required to meet as often as once in each month, at regular monthly meetings, to be determined by their respective foremen; and any member of any company who is reported absent at three or more alarms of fire or drills in any one month, without giving a satisfactory excuse to the Chief Engineer, shall be liable to suspension or dismissal from the Department, at the option of the Board of Fire Commissioners, but no member shall be excused from answering roll call between the hours of 8 P. M. and 5 A. M. Each extraman assigned to duty to any truck shall forthwith provide himself with a four-cone leather fire hat, and shall wear the same at all alarms of fires and at drills.

SUPERINTENDENT OF STEAMERS.

19. The Superintendent of Steam Fire Engines shall give his entire time and attention to the Fire Department, and shall supervise all repairs and improvements upon the apparatus of the Fire Department. He shall have general supervision of all the steam fire engines connected with the Fire Department, and of the Engineers of said engines. He shall examine the engines at least once a week, and report to the Chief Engineer in writing, once a month, any repairs or improvements necessary. He shall report all cases of neglect of duty or carelessness on the part of any Engineer to the Chief Engineer. He shall answer all general alarms of fire being sounded, repair wtih all possible dispatch to the point from whence the alarm comes, and see that the Engineers are all in charge of their respective engines and working the same properly.

ASSISTANT SUPERINTENDENT OF STEAMERS.

20. The Assistant Superintendent of Steam Fire Engines shall devote his whole time and attention to the Fire Department, shall be under the direct control of the Superintendent of Engines, and shall faithfully execute all orders issued by him. He shall also perform such other duties as may be prescribed by the Chief Engineer. He shall be in attendance at the Corporation Yard, when not otherwise engaged in the discharge of his duties, daily, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M., and such other times as the Superintendent of Steamers or Chief Engineer may direct.

CORPORATION YARD CLERK.

21. The Clerk and Storekeeper of the Corporation Yard shall, under direction of the Chief Engineer, give his undivided attention to the duties connected with his office. He shall have care of, and deliver to the several companies, all supplies required for the use of the Fire Department. He shall keep a plain and comprehensive set of books, containing an account of all supplies received by him and delivered to the several companies. He shall see that a full supply is kept on hand at the Corporation Yard for distribution to the several companies. In no case shall he deliver any supplies to any company or any member of the Department except upon a written order from the Chief Engineer, Assistant Chief, or Clerk of the Fire Department, except at alarms of fire. He shall perform such other duties as may be required of him by the Chief Engineer, and make a monthly report to the Board of Fire Commissioners of stores received and delivered by him to the companies. He shall be at the Corporation Yard daily, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M., and snch other times as the Chief Engineer may direct.

CORPORATION YARD DRAYMAN.

22. The Corporation Yard Drayman shall devote his whole time and attention to the Fire Department, report to the Chief Engineer at least once a day and hold himself in readiness at all times to attend to any business connected with the Fire Department. He shall have full charge of all the horses of the Department, shall see that they are properly mated, groomed, etc. He shall have full charge of the Corporation Yard and Almo Square Stables, and see that they are kept in proper order. He shall be in attendance at the Corporation Yard when not otherwise engaged in the discharge of his duties, daily from 8 A. M. to 5 P. M. (Sundays and legal holidays excepted), and at such other times as the Chief Engineer may direct.

MESSENGER.

23. The Messenger at headquarters shall be in attendance daily, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M. He shall attend at all meetings of said Commissioners, keep said offices clean and in proper order, and attend to such other duties as the Chief Engineer may direct.

HYDRANTMEN.

24. The Hydrantmen shall attend to all hydrants and cisterns in their respective districts, see that the same are in good working condition, that the hydrants are well oiled and packed, caps securely fastened, and ready at all times for immediate use. They shall see that they are kept free from obstructions of every character, so that they can be readily reached and connections made with them to supply the engines with water when a fire occurs. They shall report each month, in writing, to the Chief Engineer the condition of the same, and shall assist in keeping the Corporation Yard and office of said yard clean and in proper condition; they shall report the number of hydrants attended to in their district, and their location; they shall also be in attendance at the Corporation Yard daily, Sundays and legal holidays excepted, when not otherwise engaged in the discharge of their duties, from 8 A. M. to 5 P. M., and at such other times as the Chief Engineer may direct.

VETERINARY SURGEON.

25. The Veterinary Surgeon shall hold himself in readiness at all times to attend to any horses of the Fire Department that may require his attention. He shall report to the Chief Engineer at least once every day for orders, and promptly attend to any sick or disabled horses belonging to the Fire Department.

The person assigned to the duties of taking care of the sick and disabled horses shall devote his whole time and attention to the Fire Department; shall report to the Veterinary Surgeon daily the condition of the horses under his charge, and obey all orders the Veterinary Surgeon may direct, and obey all orders emanating from the Chief Engineer

CORPORATION YARD HOSTLER.

26. The Corporation Yard Hostler shall be in attendance at the Corporation Yard daily between the hours of 8 A. M. and 5 P. M. He shall assist the Drayman and Watchman in taking care of the Corporation Yard stables and the horses and harness connected therewith, and attend to such other duties as the Chief Engineer may direct.

ALMO SQUARE STABLE HOSTLER

27. The Hostler at the Fire Department stable on Almo square shall devote his whole time and attention to the care of the horses, etc, in his charge; he shall obey all orders in regard to the feeding and care of the horses emanating from the Veterinary Surgeon, and such other duties as the Chief Engineer may from time to time prescribe.

PAINTER.

28. The Fire Department Painter shall be in attendance at the Corporation Yard daily between the hours of 8 A. M. and 5 P. M. (Sundays and legal holidays excepted), when not otherwise engaged in the discharge of his duties; he shall keep his brushes and apparatus in good order, and obey all orders emanating from the Board of Fire Commissioners or Chief Engineer.

CARPENTER.

29. It shall be the duty of the Carpenter to devote his whole time and attention to the Fire Department, to be at the office of the Board of Fire Commissioners daily, when not otherwise engaged in the discharge of his duties, Sundays and legal holidays excepted, from 8 A. M. to 5 P. M. and at any other times the Chief Engineer may direct. Whenever he has need of assistance and material in repairing any property belonging to the Department, he shall make a written application to the Chief Engineer, stating the repairs, etc., necessary to be made. He shall make a report in writing, to the Board of Fire Commissioners of the number of men employed, also the number of days employed, the nature of the repairs made, and the amount of material used in making said repairs.

THE CORPORATION YARD WATCHMAN.

30. The Corporation Yard Watchman shall be in attendance at the Corporation Yard at all times when the yard is closed. He shall be in readiness to fulfill all orders emanating from the Chief Engineer. He shall assist the Corporation Yard Drayman in taking care of and properly grooming the relief horses in the Department, and keep the stable neat and clean, and obey all orders from the Veterinary Surgeon.

LEAVE OF ABSENCE.

31. No member of the Fire Department shall absent himself from the city for more than ten days, except by permission of the Board of Fire Commissioners, and any member of the Fire Department requesting a leave of absence for more than ten days must apply in writing to the Board of Fire Commissioners for the same.

SUBSTITUTES.

32. All substitute Hosemen and Truckmen; all substitute Firemen, Drivers and Stewards, and all substitute Engineers, shall be appointed by this Commission in open Board.

All substitute engineers shall pass the same examination as a regular engineer, and shall be assigned to duty in rotation by the Superintendent of Steamers. All other substitutes appointed by this Commission shall be assigned to duty by the Chief of the Department in regular rotation.

No Engineer, Driver, Fireman, Steward or Tillerman, shall leave the city without having first procured a substitute satisfactory to the Chief Engineer; and any other member of a company about to leave the city shall be required to furnish a substitute, subject to the approval of the Chief Engineer, failing to do which he is liable to dismissal.

Substitute Drivers, Stewards or Firemen selected by the Board of Fire Commissioners shall report daily to the Chief Engineer at headquarters, and shall be in attendance at all times, to be assigned to duty in case of need.

All substitutes for Extramen who are duly appointed by the Chief Engineer to run to fires during the day time, be allowed ten dollars per month for their services.

When a vacancy occurs through failure to report for duty, or any other cause, in the list of names of Substitutes named by the Chief Engineer and approved by this Board, the same shall be filled by the Chief Engineer subject to the confirmation of this Commission.

SUSPENSIONS.

33. In all cases where any member of the Fire Department is suspended for any transgression of the rules and regulations, charges shall be immediately preferred against said member, and no member shall be reinstated until a trial of the charges are had by the Board of Fire Commissioners.

REWARDS.

34. No member of the Department shall receive any rewards or presents of any kind for service rendered in the discharge of his duties without the permission of the Board of Fire Commissioners or the Chief Engineer.

TO SURRENDER PROPERTY.

35. Members of the Fire Department, on resignation or dismissal, will immediately surrender to the Chief Engineer all property in their possession belonging ao the Fire Department.

FIRE LINES.

36. No person will be allowed within the lines formed by the police at a fire, unless he be a member of the Fire Department, or wearing the regulation badge authorized by the Board of Fire Commissioners. Members of the Fire Department will, when on duty, have their badges displayed conspicuously on their left breast. Any violation of this rule will subject the offender to suspension.

BADGES.

37. Members of the Department are strictly prohibited from exchanging or loaning badges. Any member losing his badge will be charged the sum of $1 to replace it.

DRIVING OVER HOSE.

38. Crossing a line of hose, when in use, is, except in cases of absolute necessity, strictly prohibited.

DRIVERS HELD RESPONSIBLE.

39. Drivers will be held responsible for any damage caused by them or carelessness displayed in conveying their apparatus to or from a fire or alarm of fire.

TO LODGE IN THE COMPANY HOUSE.

40. The Engineer, Firemen, Drivers, Tillermen and Stewards of companies shall lodge in their respective houses, and one of their number shall be on the floor of the house at all times during the day and night, the watch to be set by the Engineer of the district, and not less than three hosemen or four truckmen or their substitutes shall lodge in the houses of their respective companies, to be designated in rotation by the Foreman.

PROPERTY TO BE RETURNED.

41. Officers of companies having hose or other property belonging to other companies after a fire, shall return the same to the company to which it belongs as soon as practicable.

DUTIES AT FIRES.

42. The Foreman or Assistant Foreman of each company, when in service, shall remain with the company to direct the operations of the members thereof. Members of the several companies,

except when otherwise engaged, or on special duty, shall keep within hearing distance of their respective Foremen and strictly obey all orders emanating from them.

REMOVAL OF APPARATUS.

43. No company will be allowed to take their apparatus away from the house, except in case of fire or drill, without the consent of the Chief or acting Chief Engineer.

The Hook and Ladder Companies must at all fires or alarms of fires report themselves the same as other companies, and take their places as near the fire as practicable, in such a position that they can be found conveniently, and shall remain there until ordered to move.

UNIFORMS.

44. The Chief Engineer, Assistant Chief Engineer, Assistant Engineers, Engineers of Steamers, Drivers, Fireman and Tillerman shall, when on duty (except at fires), wear uniform hereafter described.

The Chief of Department—A white leather cap with eight cones, having a gilded leather front, depending from a gilt edge head, and attached to the front of the cap with the insignia of his rank painted upon it in black shaded with red, and also the word Chief, in black letters shaded with red, upon a scroll of gold. For Assistant Chief, same as the Chief of Department, with the insignia of his rank; also the words Assistant Chief. For Assistant Engineers, same as for Chief of Department, with the insignia of their rank; also the words Assistant Engineer.

FOR INSIGNIA OF RANK.

45. For Chief Engineer—Five trumpets, measuring one and five-sixteenths inches, each crossed with bells outward and projecting beyond mouth-pieces, so as to form a design one and one-half inches in diameter, to be embroidered in gold upon a circle of dark blue cloth. For Assistant Chief Engineer, same as for the Chief Engineer, except that there shall be three trumpets, measuring one and one-half inches each, crossed with bells downward. For Assistant Engineers, same as for the Assistant Chief Engineer, except that there shall be two trumpets embroidered on an oval of dark blue cloth.

FATIGUE HATS.

46. For Chief Engineer, Assistant Chief Engineer and Assistant Engineers—Black felt army hat, with the insignia of their respective ranks on the front of the hat.

COAT.

47. For the Chief Engineer—A double-breasted, close-fitting sack coat, made of dark blue navy cloth, cut to button close to the neck, with rolling collar, and to reach to a point midway between the hip joint and bend of the knee; to have eight medium-size regulation buttons on each breast, grouped in pairs; the cuffs to be made to fit the wrists, and to be closed with four small regulation buttons; to have a pocket on the inside of each breast; the coat to be lined with dark cloth or flannel and the sleeves with linen.

Coats for Assistant Chief and Assistant Engineer and members compelled to wear uniforms—Same as for the Chief of Department, except that the buttons will be six in number on each breast, placed equidistant.

VEST.

48. For all officers and members of the Department compelled to wear uniforms—A single-breasted vest, made of the same material as the coat, without collar, and to button with six small regulation buttons to within five inches of the neckband.

TROUSERS.

49. For all officers and members of the Department compelled to wear uniforms—To be made of the same material as the coat, with lap seams; to be cut to fit close around the waist, but loosely around the hams and legs, to admit of their free use.

SHIRT.

50. For all officers and members of the Department compelled to wear uniforms—To be of white linen or muslin, with turn-down collar.

CRAVAT.

51. For all officers and members of the Department compelled to wear uniforms—A narrow necktie or bow of black silk, tied in a flat knot in front, the ends to extend not more than three inches from the knot.

FATIGUE CAP

52. For members of Fire Department compelled to wear uniforms—Of United States navy pattern, made of dark blue cloth, pure indigo dye, with band one and one-half inches, and quarters one and three-quarters inches high, stiffened with hair cloth sewed into the seam of top and quarters; the top to have a small hole for ventilation in the center, and to be lined with red silk; a narrow welt around the bottom of band and top seam of cap; the inner band to be of strong, serviceable leather; the vizor to be plain, solid, black patent leather, two inches wide, with rounded corners; the chin-strap of black patent leather, one-half inch wide, with slides of the same material, fastened to the cap on each side with a small regulation button; the insignia of position to be placed in the quarters in center of the front, in gold or gilt letters, the lower points resting nearly upon the upper edge of band.

MISCELLANEOUS.

53. No member of the Fire Department shall be a delegate in person or by proxy to, or a member of any political or partisan convention, State Central Committee, or County Committee, nor while a member of said Fire Department shall be a candidate before any convention for any political office.

54. No member of the Fire Department shall be allowed to bring into any house belonging to said Department any spirituous, malt or intoxicating beverages of any kind, nor shall there be allowed any gambling devices of any kind in said Department. Nor shall any member, at any time, be under the influence of any spirituous, malt or intoxicating beverages, liquors, drugs or compounds while on duty. Nor shall he be guilty of immoral or improper conduct, nor engage in any altercation of any kind.

55. No member of the Fire Department shall sell or assign his salary or incur liabilities for the necessaries of himself or family which he is unable or unwilling to pay, or neglect or refuse to honorably discharge; shall not use obscene, immoral, disrespectful, impudent or other improper language, but shall always be respectful and gentlemanly to his superiors and equals, and to citizens.

56. Interference in any manner by one employee with the duties of, or the performance of the same by another, is prohibited, and it shall be the duty of each employee to make immediate report

57. All Foremen of Companies are directed and required to report in writing immediately to the District Engineer of their respective district, the name of any member of their Company injured in the discharge of his duty, with cause of accident and injury received, and on receipt of said information the District Engineers are directed to report the same immediately to the Chief Engineer in writing.

58. If by accident, or otherwise, any person is damaged by any company, it shall be the duty of the Foreman of the company causing the damage to report the same immediately to the Chief Engineer, and he shall immediately investigate the matter and report the same in writing to the Board of Fire Commissioners.

59. Any member of the Fire Department meeting with an accident in the discharge of his duty, shall, within ten days, report the same to the Chief Engineer; and he shall, immediately on receiving notice of same, report the same in writing to the Board of Fire Commissioners.

60. All employees, such as mechanics, laborers, etc., employed in the Corporation Yard, shall be in attendance daily from 8 A. M. to 5 P. M., Sundays and legal holidays excepted. And they and each of them shall obey all orders emanating from the Superintendent of Steam Fire Engines, or in his absence the Assistant Superintendent of Steam Fire Engines.

61. Telephones in Department houses shall not be used by any person not a member of the Department, nor for any purpose other than business connected with the Fire Department.

Nothing contained in these rules shall preclude the Fire Commissioners and Chief Engineer from at any time requiring any or either of the employees of the Department, serving under their directions, to perform such other duties not herein specially prescribed for them, as the interests of the Department service may in their opinion demand or require.

NOMINATIONS AND ELECTION OF APPLICANTS FOR POSITIONS.

63. That all nominations for positions in this department shall be made in open Board. Upon

the applicant receiving the majority vote of this Commission, he shall be deemed elected to said position subject to the approval of the Chief Engineer.

DISTRICT ENGINEERS TO REPORT.

64. All District Engineers must report to Department Headquarters in person, through telephone, immediately upon their departure and immediately upon arrival at their respective stations during office hours (except in case of fire). Any District Engineer desiring to leave his district at any time for other than official business, must first procure admission from the Chief Engineer.

All District Engineers must fully report immediately to Department Headquarters upon their return to their stations the result of all alarms of fire in their respective districts, by telephone, and also in writing in their daily reports, including as fully as possible, cause of fire, name of owner and occupant, and amount of loss to the best of their ability, between the hours of 9 A. M. and 4 P. M. At all other times the above report must be made in writing upon their daily report to division headquarters.

VACANCIES TO BE FILLED BY PROMOTION.

65. All vacancies in the department above the grade of Extramen, shall be filled by promotion of the incumbent of the next lowest position, provided, that said incumbent shall be fully qualified in every respect to fill the superior position; should he not be qualified, then the next lowest shall be in line of promotion, and so on until a qualified man shall be found for the vacancy.

ATTORNEYS TO ACT AS ADVISORS ONLY.

66. Hereafter when employees of the Fire Department charged with violation of the rules thereof, shall deem it necessary to employ counsel or representation by attorney, said attorney shall be permitted to act as advisor only and shall have no voice in the proceedings, pro or con, that may be before this Commission, etc.

NO MEMBER TO ENGAGE IN PRIMARY POLITICS.

67. No officer, member or employee of this Department shall belong to any club or political organization having primary politics for its object, nor shall they take part in any primary elections in this city and county except to exercise their individual suffrage.

VIOLATIONS OF RULES.

68. Any and all violations of these rules and regulations not otherwise provided for shall be punishable by suspension or dismissal, as the Board of Fire Commissioners may elect.

69. All rules and regulations in conflict with these rules and regulations are hereby repealed.

REPORT OF THE CHIEF ENGINEER

OF THE

SAN FRANCISCO FIRE DEPARTMENT.

HEADQUARTERS FIRE DEPARTMENT,
OLD CITY HALL,
SAN FRANCISCO, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—According to the law governing the Department the undersigned, Chief Engineer, has the honor of herewith submitting for your consideration the following report of the operations of the Department under his charge for the fiscal year ending June 30, 1892. Therein will be found a full list of the officers and members comprising the force, a record of the alarms responded to, and fires that have occurred during the year; the loss by fire and the amount of insurance on property affected; the aggregate of insurance paid; also such suggestions and recommendations that appear to me necessary to increase the efficiency of this branch of the municipal service:

During the year the Department responded to 374 first-bell alarm, 7 second-bell alarms, and 1 third and 228 still or verbal alarms, making a total o 610 alarms of fire answered during the year.

The total loss by fire as determined by Captain White, of the Underwriters' Fire Patrol, is	$1,209,271 05
Amount of insurance paid	718,791 28
Actual loss to property owners	$490,479 77

NOTABLE FIRES.

July 4th, 9:38 P.M.; Box 176. Second and third alarms sounded. Church and 23 dwelling houses on Bush street, between Octavia and Gough streets. Loss, $104,300.

October 8th, 1:15 A.M.; Box 62. Second alarm 1:50 A.M. Stores and dwellings on Mission and Minna streets, near Third street. Loss, $25,830.

November 16th, 3:57 P. M.; Box 157. Second alarm 4:03 P. M. Dye works, stable and dwellings on Tehama street, Nos. 349 to 357, and on Clementina street, Nos. 332 to 354. Loss, $14,830.

November 20th, 3:17 A. M.; Box 13, corner Gold and Sansome streets. Rag mill, coffee and spice mill and white lead works. Loss, $26,055.

March 24th, 12:50 A. M.; Box 45. Second alarm 15 minutes later. Stable and dwellings corner O'Farrell and Leavenworth streets. Loss, $10,670.

May 29th, 5:53 A. M.; Box 51. Second alarm 8 minutes later. Fulton Iron Works, California Car Works, Brass Works, etc., on Fremont, Howard and Beale streets. Loss, $298,663.

June 28th, 3:29 A. M.; Box 64. Second alarm 10 minutes later. Stable and factories, dwellings on Howard street, near Fifth and Natoma streets. Loss, $56,000.

CASUALTIES.

In view of the dangerous duties the members of the Department have to perform, and the great risks they take in the discharge of those duties, the casualties, I am pleased to say, have been few during the year, but one man having lost his life in the performance of his duty. The following is a list of the most serious:

Jno. O'Neil, Foreman of Engine Company 7, received injuries to head and back from a falling cornice.

Jno. O'Neil, Hoseman in Engine Company 6, broke his leg sliding down pole in engine house, responding to an alarm of fire.

Jos. Blakely, Driver of Engine Company 3, broke his leg in a collision with a street car, while responding to an alarm of fire.

James C. Fraser, Engineer of Engine Company 3, received injuries to knee, hand and spine in same collision.

M. Byron, Truckman in Truck No. 1, had his legs crushed in collision between truck and street car.

Wm. Hunt, Truckman in Truck 5, fell from ladder at a fire and received injuries resulting in his death.

James McAndrews, Truckman in Truck 2, broke his leg while responding to an alarm of fire.

DEATHS.

During the year the following members and employees of the Department died:

James O'Connor, of Engine No. 12, died of consumption.
Terrence Gaffney, of Engine No. 16, died of pneumonia.
I. F. Denniston, of Hose No. 3, died of Bright's disease.
Thos. Conner, of Hose No. 9, died of asthma.
C. J. Duggan, of Truck No. 4, died of consumption.
J. J. Welsch, of Truck No. 5, died of consumption.
Michael Mead, of Truck No. 1, died of consumption.
Wm. Hunt, of Truck No. 5, died from injuries received while in the discharge of his duty.
Chas. A. Lyons, Drayman in the Corporation Yard, died of heart disease.

RECOMMENDATIONS.

I again recommend the increasing of the force and efficiency of the Department by reorganizing it into a full paid system, whereby the entire force will be continuously on duty.

The great fire of a few days ago in St. Johns should be a warning of the great danger of the loss of property and life by fire in all wooden cities.

I vigorously recommend that your Honorable Board compel all electric light wires to be laid under ground, as one of our greatest dangers from fire exists from these wires running over the roofs of buildings.

I also recommend more apparatus, more hose, more hydrants, more chemical engines, and larger water mains in the various portions of the city supplied by mains laid many years ago.

I further recommend that chemical engine companies be provided and stationed in the various portions of the Mission and Western Addition districts now almost entirely unprotected and where the water supply is inadequate.

The Corporation Yard should be remodeled so as to be used entirely as the repair shop of the Department. The stable should be removed therefrom to some more central location.

The old Hospital building on the corner of Francisco and Stockton streets should be remodeled so as it could be used for the storing of the old apparatus of the Department and for the stabling of the sick and relief horses of the Department.

I desire to urge your Honorable Board to grant the necessary authority to organize and place in commission at the earliest possible date at least three more Chemical Engine Companies. The efficiency of Chemical Engine Companies for extinguishing fires in their incipiency is clearly illustrated by the record of Chemical Company No. 1, she having extinguished unassisted 67 per cent of the fires in her district during the last fiscal year.

In closing this report I desire to tender my thanks to the Honorable Board of Fire Commissioners for the active interest you have manifested in all matters pertaining to the success of the Department, and I desire also to thank the officers and members of the force for the alacrity manifested on all occasions in complying with my orders.

I also desire to express my thanks to his Honor Mayor Sanderson and the Honorable Board of Supervisors for the interest they have manifested in all business pertaining to the Department.

To the Chief of Police and members of his force, to Fire Marshal Chas. Towe, to Captain White and Lieutenant O'Kell of the Fire Patrol, and to Superintendent Thomas of the Fire Alarm Telegraph, I am under many obligations for the manner in which they have assisted the Department in the discharge of their duties on all occasions.

Respectfully submitted,

DAVID SCANNELL,
Chief of Fire Department.

OFFICERS, MEMBERS AND EMPLOYEES

OF THE

SAN FRANCISCO FIRE DEPARTMENT.

Drill press with tools	2
Shaping machine with tools	1
Emery wheel	1
Grind-stone	1
Twist drill guider	1
Gas engine	1
Line shafting in use, ft	60
Counter shafts	6
An assortment of wrenches	
Relief brass suctions	5
Pieces of spare rubber suctions	10
Spare engine poles	10
Spare truck poles	2
Spare wheels	16
Spare wheel hubs	27
Spare axles	24
Spare springs	13
Spare water tanks	2
Portable gauges with tools	2
Heaters	1

STORES AND SUPPLIES AT CORPORATION YARD—Concluded.

Jack screws	6
Desk and chair	1
Hydraulic test pump	1
Traveling crane	1
Chain tackles	3
Spare axles chips	10
Trace chains, pairs	8
Combination packing, lbs	10
Pressure gauge	1
Vacuum gauge	1
Relief prunty relief valve	1
Relief valves, oar pattern	12
Relief valves, pallet pattern	2
Lamp springs	95
Spare pole snaps	12
Sets of harness buckles and slides	2
Leather punches	4
Rivet sets	2
Punchers, pairs	1
Pliers, pairs	1
Harness leather sides	2
Hose couplings, inch, pairs	10
Nozzle pouches	2
Hydrant valves	12
10-gallon oil cans	4
Boiler tubes, iron	40
Boiler tubes, brass	20
Rubber valves, Amoskeag eng	16
Rubber valves, Clapp & Jones, eng	16
Vises	6
Stocks and dies, sets	3
Pipe vises	2
Bolt cutters	2
Suction spanners	6
Proof chain, ft	15
Ratchets	2

Assortment of Stocks and Dies.

Assorted files	24
Fire lighters	7
Numbers and letters, sets	1
Hose holders	2
Spare shut-off nozzles	8
Face plate	1
Assorted axle arms	31
Heater grates	4
Spring wire, brass, lbs	10
Leather splitting machine	1
Spare circulators	2
Valve boring tools, set	1
Tap, 2½-inch	1
Die, 2½-inch	1
1 set coupling tools	1
Miscellaneous patterns	
Miscellaneous nozzles not in use now	
Grate bars, pieces	50
Try rod derrick	1
Assorted bolts and nuts	
Bolts and washers, ⅝-inch	123
Bolts and washers, ½-inch	120
Set reamers, from ½-inch to 1⅝x16ths

REPORT OF THE SUPERINTENDENT

OF THE

FIRE ALARM AND POLICE TELEGRAPH.

SAN FRANCISCO, July 15th, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: I have the honor to submit herewith my second and the twenty-seventh Annual Report of the Fire Alarm Telegraph, and also the second Annual Report of the Police Telegraph.

FIRE ALARM TELEGRAPH.

ALARMS.

First	374
Second	7
Third	1
	382

A decrease of thirty-eight alarms as compared with the preceding year.

The signal boxes number two hundred and nineteen, and are located as follows:

SIGNAL BOXES.

Box.
2—S. W. corner Mason and Lombard.
3—S. E. corner Stockton and Greenwich.
4—N. W. corner Sansome and Greenwich.
5—Battery and Union.
5—American Sugar Refinery.
6—S. E. corner Montgomery and Green.
7—S. E. corner Kearny and Union.
8—S. W. corner Powell and Union.
9—N. E. corner Dupont and Vallejo.
12—S. W. corner California and Kearny.
13—S. W. corner Front and Broadway.
14—S. W. corner Stockton and Broadway.
15—S. W. corner Clay and East.
16—N. W. corner Mason and Pacific.
17—N. E. corner Pacific and Kearny.
18—N. E. corner Sansome and Jackson.
19—N. E. corner Davis and Washington.
21—S. E. cor. Clay and Kearny.
23—S. E. corner Clay and Taylor.
24—S. E. corner Clay and Powell.
25—N. W. corner Washington and Dupont.
26—S. E. corner Clay and Battery.
27—N. W. corner Montgomery and Commer'l
28—N. W. corner Pine and Dupont.
29—N. W. corner Stockton and California.
31—N. W. corner Sansome and Halleck.
32—N. E. corner California and Drumm.
34—S. W. corner Mission and Steuart.
35—S. E. corner Montgomery and Pine.
36—N. W. corner Folsom and Steuart.
37—N. E. corner Battery and Bush.
38—S. W. corner Market and Second.
39—S. E. corner Howard and Spear.
41—N. W. corner Sutter and Jones.
42—S. E. corner Geary and Mason.
43—O'Farrell, near Dupont.
45—S. E. corner O'Farrell and Jones.
46—N. W. corner Sutter and Kearny.
47—S. W. corner Eddy and Powell.
48—S. W. corner Geary and Kearny.
49—N. W. corner Stockton and Sutter.
51—N. W. corner Folsom and Beale.
52—S. W. corner Mission and Fremont.
53—King, east of Third.
54—Engine No. 4, Second, near Howard.
56—South side Bryant, west of First.
57—N. W. corner Brannan and Second.
58—N. W. corner Folsom and First.
59—S. W. cor. Brannan and First.
61—S. W. corner Howard and Third.

Box.
62—S. W. corner Mission and Fourth.
63—N. W. corner Harrison and Fourth.
64—S. W. corner Howard and Fifth.
65—S. W. corner Mission and Sixth.
67—N. E. corner Harrison and Hawthorne.
68—N. E. corner Brannan and Fourth.
69—N. W. corner Bryant and Third.
71—S. W. corner Mission and Eleventh.
72—S. E. corner Mission and Thirteenth.
73—S. E. corner Howard and Eighth.
74—Sixteenth and Albion.
75—N. W. corner Jones and McAllister.
76—S. W. corner Market and Hayes.
78—N. E. corner Folsom and Ninth.
79—S. E. corner Folsom and Thirteenth.
81—S. W. corner Franklin and Hayes.
82—N. E. corner Fulton and Gough.
83—N. E. corner Octavia and Oak.
84—Valencia and Market.
85—S. E. corner Laguna and Hayes.
86—S. W. cor. Oak and Van Ness av.
91—N. E. corner Hyde and Turk.
92—S. E. corner Franklin and Turk.
93—N. E. corner Jones and Turk.
94—S. E. corner Polk and Ellis.
95—N. W. corner Taylor and Golden Gate av
96—S. W. corner Ellis and Taylor.
97—S. E. cor. McAllister and Polk.
98—Stockton and Ellis.
123—S. W. corner Hyde and Union.
124—North Point and Larkin.
125—N. W. corner Filbert and Jones.
126—S. E. corner Hyde and Washington.
127—S. E. corner Broadway and Polk.
128—S. E. corner Clay and Leavenworth.
129—N. W. corner Pacific and Leavenworth.
132—S. W. corner Pine and Mason.
134—S. E. corner Bush and Hyde.
135—S. E. corner Bush and Polk.
136—S. E. corner Post and Van Ness avenue
137—S. W. corner Post and Larkin.
138—S. W. corner California and Larkin.
139—S. E. corner O'Farrell and Hyde.
142—N. E. corner Valencia and Twentieth.
143—N. E. corner Mission and Twenty-second.
145—N. W. corner Folsom and Twenty-second.
146—N E. corner Folsom and Sixteenth.
147—N. E. corner Howard and Twentieth.
148—N. E. corner Mission and Sixteenth.
149—N. E. corner Folsom and Eighteenth.

Box.
152—N. W. corner Brannan and Eighth.
153—N. W. corner Harrison and Seventh.
154—N. W. corner Bryant and Sixth.
156—N. E. corner Fourth and Berry.
157—N. W. cor. Fourth and Folsom.
158—N. W. cor. Folsom and Fifth.
159—N. W. corner Folsom and Sixth.
162—S. E. corner Pacific and Franklin.
163—S. E. corner Sacramento and Franklin.
164—S. E. corner Clay and Polk.
172—S. E. corner McAllister and Buchanan.
173—S. W. corner Ellis and Buchanan.
174—N. E. corner Turk and Fillmore.
175—N. E. corner Webster and Grove.
176—N. W. cor. Post and Octavia.
178—N. W. corner Buchanan and Geary.
179—O'Farrell and Gough.
182—N. E. corner Sixth and Townsend.
183—S. E. corner Mission and Eighth.
184—Folsom and Rausch.
185—N. E. cor. Tenth and Harrison.
186—Fifth and Bryant.
187—Ninth and Bryant.
192—S. W. cor. Francisco and Mason.
193—S. W. corner Hyde and Chestnut.
194—N. W. corner Stockton and Francisco.
213—S. W. corner Bush and Buchanan.
214—S. E. corner Bush and Steiner.
215—S. W. corner Washington and Webster.
216—S. E. corner Sacramento and Fillmore.
217—S. E. corner Bush and Devisadero.
218—N. E. corner Post and Fillmore.
219—S. E. corner Filbert and Fillmore.
231—N.W. corner Howard and Twenty-fourth
234—N.W. corner Harrison and Twenty-fourth
235—Potrero avenue and Twenty-second.
235—City and County Hospital.
236—N. E. corner Mission and Twenty-sixth.
237—S.W. corner Dolores and Twenty-second.
238—Potrero av. and Santa Clara.
239—N. W. cor. Butte and Bryant av.
241—S. E. corner Gough and Bush.
243—N. W. corner Clay and Scott.
245—S. W. corner Geary and Steiner.

BATTERIES.

There are now in use 15 Leclanche, 23 Fuller, 236 gravity and 245 electropoion cells.

WIRES.

There are now in operation 190 miles of wire, divided into 12 signal, 3 tapper and 7 alarm circuits.

The tapper circuits have been divided into three, which relieves the crowding of the lines so noticeable formerly.

Twenty-eight tappers and gongs have been added to the system.

The tower bell of Engine Company No. 4 has been again placed in circuit by order of the Chief Engineer of Fire Department.

In the office five of the oldfashioned embossing registers have been discarded and replaced by two Gamewell four-pen ink-marking registers.

To prevent boxes pulled on different circuits interfering on the tappers, I have put in a system of local switches that completely controls the tapper local. This removes a source of much complaint from the Fire Department.

I cannot say that the system is as efficient as it might be, and especially is this so of the wires and poles. Fully one-half of the entire system should be rebuilt. In many places the wires have become so thin from corrosion that they have been broken by their own weight. These wires have been n service ten or more years, and authorities say, "wires of this class should not be allowed to stand more than one-half that time."

The breaking of these wires not only cripples the system, but also endangers human life by falling on live electric light and power wires.

As are the wires, so are the poles, there being a great many in an unsafe condition, likely to fall at any time.

To do this necessary work I must have men and material, and these I cannot get under the present circumstances, for the appropriation of ten thousand dollars will not admit of my having both men and material at one and the same time.

In view of this bad state of affairs, I ask that provision be made for the employment of five line-men, whose salaries shall be provided for without encroaching upon my regular appropriation for extensions and repairs.

I ask also that a fourth operator be appointed. This request has been made so often by myself and predecessors that it seems almost idle to repeat it, and nothing but a desire to make the fire-alarm service as efficient as possible compels me to do so now.

The employees of this department are :

Superintendent	CHARLES J. THOMAS
Operator	WM. R. HEWITT
Operator	F. E. HASKELL
Operator	W. MORTON
Chief Repairer	R. J. SWEENEY
Assistant Repairer	DAN. SHAY
Lineman	H. G. ARMSTRONG
Lineman	G. F. GASPER

EXPENDITURES.

Superintendent	$2,400 00

POLICE TELEGRAPH.

The Police Telegraph is now working admirably, and during the past year has proven itself to be an almost indispensable adjunct of the Police Department.

The system has been extended to the Southern Police Station, which was opened for service February 13, 1892, and to many of the outlying districts of the stations already in service.

To complete these extensions, there were purchased from the Gamewell Fire Alarm Telegraph Company of New York, for the sum of $10,974, 80 police signal boxes, 80 top pipes, 80 ground pipes, 80 copper ground plates, 80 cells dry battery, one central office desk and 14 cells Leclanche battery.

The boxes number 160, and are located as follows:

SEVENTEENTH STREET STATION.

Number of Boxes, 31.

I desire to express my thanks to his honor Mayor Sanderson, the Fire Department Committee, the Health and Police Committee and the Board of Supervisors, for their support.

To Chief Scannell and Assistant Chief Sullivan and their assistants, Chief Crowley and his officers, Captain White of the Fire Patrol, for their co-operation, and the members of the Board of Underwriters for their courtesy I am under many obligations.

Respectfully submitted.

CHAS. J. THOMAS,
Superintendent.

HEALTH OFFICER'S REPORT.

San Francisco, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

Gentlemen: My annual report for the fiscal year just closed is herewith most respectfully submitted.

You will notice an increase of two hundred and sixty deaths over the previous year, which I attribute to the prolonged and stubborn attack of the influenza. There was a decrease of ninety-one deaths among the Chinese population, probably due to their improved methods of sanitation or the Exclusion Act is having marked effect. The number of deaths from all causes were 6,911, as against 6,650 the previous year. They are classified as follows:

Zymotic diseases	1,002
Constitutional diseases	1,293
Local diseases	3,488
Developmental diseases	789
Violent deaths	338
Unascertained	1

Estimating our population at 330,000 the percentage of deaths is 20.94. The action of your Honorable Board in the appointment of a Commission to devise and suggest a sewer system cannot fail to give beneficial results; it is much needed, and the improvements that can be made and suggested will improve the health of our city and allow us to show one of the lowest death rates of any city of the size in the world.

There was a decided decrease in the number of contagious and infectious diseases during the year. In all instances, when physicians reported contagious diseases to this office, prompt measures were taken to placard the premises and to notify the teachers of the schools the children were accustomed to attend. When the physicians who attended the children reported the result of the disease the houses were thoroughly fumigated; and when the physicians notified us that all danger from contagion had passed, we issued certificates entitling them to be readmitted to their respective schools.

I believe the decrease above mentioned was due to this systematic and precautionary action.

It is frequently brought to my notice that diphtheria and scarlet fever exist in homes where parents are too poor to give their children the proper care and nourishment; the consequence is the entire family ail. I would therefore most respectfully appeal to your Honorable Board that an isolated house or a ward in the City and County Hospital be assigned and have such cases removed thereto, a competent physician deputized to give them the necessary care and attention. In New York they have the Willard Parker Hospital devoted entirely to such cases and can accomodate about one hundred children.

The Health Inspectors have been persistent in their work and have pushed owners and lessees of the premises complained of to abate the nuisances.

The Market Inspectors have carefully patrolled all the markets where food supplies are sold, and have in every case condemned and destroyed any that were exposed for sale that were deleterious to health.

The sale of pure milk is of paramount importance and has been a source of anxiety. The Inspectors frequently visit the dairies and examine the cows, the mode of feeding and housing them, as also the methods of preparing the milk for market use. Whenever they find diseased cows they are immediately killed and sent to the Bone Yard. It is of vital importance that a competent chemist should be employed and examine daily all milk sent to this city; he should be designated as the Milk Inspector.

The Plumbing Inspectors have industriously labored to have the best and most improved sanitary plumbing and ventilation in all newly constructed buildings and also in all old ones which were undergoing extensive repairs. They have also been extremely cautious in the technical examinations as to the ability of men seeking licenses to become plumbers and master plumbers.

The Alms House is being carefully managed.

The City and County Hospital occasionally is adversely commented upon. In many instances the complaints upon investigation prove groundless. The management says there is a want of funds and proper facilities. In view of the fact that your Honorable Board has decided to make some extensive improvements there is an assurance that the workings of the Institution will be more satisfactory hereafter.

As the City Receiving Hospital has been removed to its commodious quarters in the New City Hall, I am sure everything in that department will redound to its credit and the thoughtfulness and liberality of your Board.

The City Physician gives careful attention to all needy and indigent applicants, also furnishing them with necessary medicines.

For the year 4,088 births were reported. While this is a large increase over previous years, I deem it essential that physicians and midwives should

feel it a duty they owe to the profession and people at large to report every birth. The birth rate, if fully reported, would cut an important factor in the preparation and comparison of our statistics. In justice to the children births should be reported and properly registered, for it frequently happens that important interests are honestly subserved by the proof of the birth records in the Health Department.

There were 3,279 children vaccinated at this office during the year. It is gratifying to know that the parents of the children are so much alive to the beneficial effects of this needed precaution.

I would respectfully recommend that your Honorable Board pass an ordinance compelling all street car lines to thoroughly fumigate every car daily, before being sent over their respective lines, for, in my opinion, more diseases are propagated through the filth of expectoration, especially in poorly ventilated cars.

Thanking you for the courtesies shown by your Honorable Board, I remain, most respectfully,

JAMES W. KEENEY, M. D.
Health Officer.

HEALTH DEPARTMENT.

Members of the Board of Health.

Hon. GEORGE H. SANDERSON, Mayor and ex-officio President.

W. H. MAYS, M. D. G. J. BUCKNALL, M. D.

M. REGENSBURGER, M. D. S. F. LONG, M. D.

Number of cases diphtheria reported	150	
Number of cases scarlatina reported	91	
Total		241
Number of fumigations		216

Respectfully,

FRANK KOEGEL.
Health Inspector District No. 6.

CITY PHYSICIAN'S REPORT.

SAN FRANCISCO, July 1, 1892.

To the Honorable Board of Health of the
City and County of San Francisco:

GENTLEMEN: I have the honor to herewith transmit my report for the year ending June 30, 1892.

The Twenty-sixth Street Hospital is in need of some repairs, and if a removal is not soon made I would recommend the repairs be made.

The Branch County Jail (females) is well located and in an excellent sanitary condition.

While the County Jail on Broadway is in as good a sanitary condition as is consistent with the amount of money expended, I would recommend a complete new system of drainage; the health of the prisoners demand it.

This department has always been ready to perform the post mortem examinations for the Coroner, who has refused to allow this department to do so, claiming the right of refusal under a clause in the Constitution giving him the power to designate his own physician, at a cost not to exceed $50 for each autopsy made.

Fracture of humerus	26	Hysteria	25
Fracture of intra-capsular of humerus	2	Hyperæsthesia	1
Fracture of inner condyle of humerus	2	Insanity	43
Fracture of ilium	2	Indigestion	6
Fracture of pelvis and pubic bones	2	Inflammation of bowels	1
Fracture of jaw	15	Insomnia	3
Fracture of metacarpal or metatarsal	23	Internal injuries	13
Fracture of nose	28	La grippe	15
Fracture of neck	1	Lumbago	4
Fracture of patella	6	Measles	2
Fracture, Potts	12	Mayhem	13
Fracture of radius	17	Milk leg	3
Fracture of radius and ulna	33	Miscarriage	1
Fracture of ribs	27	Neuralgia	14
Fracture of scapula	10	Orchitis	5
Fracture of skull	48	Œdema	1
Fracture of spine	2	Pleurisy	6
Fracture of tibia	12	Pneumonia	5
Fracture of toe	4	Peritonitis	3
Fracture of ulna and wrist	6	Paralysis	12
Frost bites	1	Pharyngitis	2
Gunshot wounds (in all parts of body)	79	Phemosis	1
Gonorrhœa	2	Phthisis	23

DISEASES TREATED AT THE RECEIVING HOSPITAL—Concluded.

Poisoned by ammonia	1
Poisoned by chloroform	3
Poisoned by chloral hydrate	2
Poisoned by carbolic acid	4
Poisoned by morphine	37
Poisoned by muriatic acid	1
Poisoned by opium	13
Poisoned by rough on rats	2
Poisoned by oak eruption	3
Pregnancy	5
Prolapsus rectum	4
Rheumatism	15
Retention of urine	29
Renal calculi	1
Rupture of arteries	4
Rupture of ligaments	4
Scabies	1
Sprain of ankle	168
Sprain of arm	11
Sprain of back	4
Sprain of finger	12
Sprain of foot and toe	4
Sprain of groin	1
Sprain of hand	16
Sprain of hip	1
Sprain of knee	19
Sprain of leg	2
Sprain of shoulder	13
Sprain of thumb	12
Sprain of wrist	74
Scurvy	1
Sebaceous cyst	1
Submersion	34
Synovitis	1
Syphilis	6
Tonsilitis	4
Teeth extracted	76
Tumors	4
Typhilitis	1
Tubercular goitre	1
Ulcers of arm and hands	14
Ulcers of body, leg and foot	35
Ulcers of throat, face and head	7
Ulcers of testicle	2
Unknown	3
Varicose veins	9
Vertigo	11
Wounds of arm and elbow	80
Wounds of abdomen	10
Wounds of back	22
Wounds of body and breast	21
Wounds of ear	35
Wounds of eye, eyebrow and eyelid	127
Wounds of foot	31
Wounds of face, cheek, chin and forehead	455
Wounds of finger and thumb	306
Wounds of groin	4
Wounds of hand	241
Wounds of hip and thigh	20
Wounds of knee	19
Wounds of leg	38
Wounds of lip	74
Wounds of nose	32
Wounds of neck and shoulder	15
Wounds of perineum	1
Wounds of penis and testicles	4
Wounds of scalp	657
Wounds of skull	6
Wounds of side	10
Wounds of throat	10
Wounds of toe	18
Wounds of wrist	59
Wounds of vulva	1
Brought in dead	7
Total	5771

Men's flannel undershirts made	764
Men's flannel drawers made	770

In addition to the above, the female inmates have made all the clothing required by them, and have made and delivered about 90 dresses, and about 600 other garments, besides all the slips, sheets, spreads, ticks, roller towels, etc., required by the institution. They have also repaired some 15,000 pieces belonging to themselves and the male inmates.

AMOUNT RECEIVED FROM SALES OF ALMS HOUSE PROPERTY.

Received from sale of bones	$93 30
Received from sale of rags	27 10
Received from sale of old metal	19 12
Received from sale of skins	5 00
Amount paid into the City and County Treasury	$144 52

I have also received from the State of California, the following sums, "for support of aged persons in indigent circumstances, and for support of orphan, half-orphan, and abandoned children," and have paid the amount into the City and County Treasury:

Received from State of California for support of abandoned children, for year ending December 31st, 1891	126 85
Received from State of California for support of aged persons in indigent circumstances, for the year ending December 31st, 1891	$39,676 92
Amount paid into City and County Treasury	$39,803 77

The appropriation for Almshouse expenses for 1891 and 1892 was $80,000, According to the Auditor's figures the amount paid out from the City and County Treasury was $78,023 88. Consequently there was a balance of $1,976 12 remaining at the close of the fiscal year.

From the opening of the Almshouse to the present time 13,874 inmates have been admitted and provided with a comfortable home through the generous charity of the people of the City and County of San Francisco.

The number of inmates being admitted to the institution is slowly but surely increasing from year to year, and are of a more helpless character, owing to the large number of "incurables" sent to the Almshouse from the City and County Hospital.

Many necessary repairs have been made, but the event of the year in this connection has been the erection of a barn 26x140 feet capacity, accommodating 50 cows, with conveniences for storing hay and grain.

The water supply is wholly inadequate to the needs of the institution, and promises to be a serious question. Our farm products have proved very satisfactory; the estimated yield of 200 tons of potatoes and a large supply of miscellaneous vegetables have furnished the inmates with healthful food, and have contributed largely to our domestic economy.

The women's department is in greater need of a hospital than ever before, in order to accomplish classification and secure the necessary care and accommodation for the helpless and hopeless cases that come to us continually from the City and County Hospital as "incurables."

Religious services have been conducted by various denominations during the year past, and I feel deeply grateful to those good and faithful workers for their constant ministrations to the sick and dying.

To the kind citizens who did not forget the Almshouse at Christmas time, I would extend hearty thanks, and for numerous donations of good reading matter I would express thanks.

Again thanking the tax-payers for their kind co-operation in the difficult task of caring for the small army of indigent people that have sought the city's hospitality during the past year; also thanking the Honorable Board of Supervisors and the Honorable Board of Health for their kind support and attention to our needs, making the year one of progress, this report is most respectfully submitted.

P. L. WEAVER,
Superintendent City and County Almshouse.

REPORT

OF THE

CITY AND COUNTY HOSPITAL.

To the Honorable Board of Supervisors
Of the City and County of San Francisco.

GENTLEMEN: I herewith submit the annual report of the condition of affairs in the City and County Hospital for the year ending June 30, 1892, and at the same time would respectfully present a statement of the needs of the hospital, to which is asked the most serious consideration of the members of your Board and the citizens of San Francisco generally.

The hospital is in need of a new supply of hose for extinguishing fires. The water pressure is good, and with an additional quantity of hose to replace the worn out material now on hand, we would be reasonably safe from fires.

The hospital is in need of a new supply of surgical instruments. Those on hand are so worn out from long service that many of them are practically useless.

We should also have at least a fair equipment of electrical appliances for the treatment of disease. In this day and age of the world electricity is regarded as just as important a therapeutic agent as quinine, opium or iron, and yet we are entirely destitute of electric appliances, the hospital not even possessing the simplest kind of Faradic battery.

The lack of enough help in the laundry department is an ever present source of embarrassment. There are only three employes, with wages aggregating $100 per month. The Superintendent should be allowed more money to secure efficient service in the care of washing and ironing. The hospital is so short of bed linen as to render it necessary for frequent washings.

A man on the regular police force should be employed as night watchman for the hospital, and his duties might be extended to a beat in the neighborhood.

There is no suitable place for the reception of patients suffering from contagious diseases, such as diphtheria and scarlet fever. There should be

two additional wards for the occupation of such sufferers, one for males and one for females.

During the month of January we were compelled to refuse admittance to the hospital over one hundred applicants, and considerable numbers have had to be turned away since. All of these persons were worthy and deserving of admittance, but the inexorable condition of the economical restrictions placed upon the maintenance of this hospital gave no alternative to the Superintendent.

There has been some improvement of food in the patients' dining-room. At the beginning of my incumbency as superintendent only those patients confined to the wards were permitted to have butter, milk and eggs, and then only upon a physician's prescription as an extra diet.

Those patients who were convalescent enough to leave their beds and eat in the dining-room, were deprived of these necessary articles of diet. This seemed to me very injudicious economy, at such a time above all others, when their vitality was low and they stood in need of sustaining and invigorating nourishment. We have managed during the last few months to secure for the patients' dining room a reasonable supply of butter and milk.

The regular routine of molasses and mush, "liver and bacon" and "corn beef and cabbage" ought to be supplemented by a generous variety of vegetables and other more easily digested foods.

The outclinic for patients not in the hospital has been run regularly every day between the hours of one and four o'clock P. M. Until lately there have been no accurate records kept. Acknowledgments are due the hospital committee of your Honorable Board, having furnished suitable books in which records can be kept hereafter. The hospital internes have done much good service to the outside patients who were not sufficiently ill to be entitled to admittance into the hospital. The San Francisco Polyclinic has been established at the hospital, with two wards assigned them, the county furnishing the bedding for one ward, while their association furnishes the other.

The allowance for the current expenses of the hospital is totally inadequate, and when compared with that of similar public institutions in the East, lays us open to just criticism. A civilized people, mindful of the inequalities in the distribution of wealth, and particularly of the scant returns of those who toil, should be prompted by the dictates of humanity to furnish a creditable asylum for those whose revenue in the shape of wages is cut off by the disaster of disease.

In such a great city as San Francisco the hospital should not be considered as a pauper's retreat. It is designed especially for those of that larger portion of our common people who are so unfortunate as to become temporarily disabled from accident or illness. It should furnish them a shelter, where under the treatment of scientific physicians and the ministrations of educated nurses, with plenty of wholesome food, pure air and sunshine, they may be restored to health and usefulness.

The annual appropriation for current expenses of recent years and at the

present time are much less then the appropriation during the early history of the institution when the buildings were in good repair and the population was less than half of that of to-day.

The hospital building was erected about twenty-five years ago. Its capacity was four hundred beds. Notwithstanding our progress in population and wealth, and with it a larger proportionate increase of indigent sick that always follows the crowding of great cities, there has been no addition to the size or accommodations of the hospital.

In order to show the urgency and crying need for better accommodations and services I will make one comparison of our hospital with that of an Eastern hospital, though the same unfavorable comparison of our city could be made with fifty other cities in the United States. Superintendent G. H. Rowe, of the Boston City Public Hospital, states that there are four hundred and fifty-six beds under his supervision; that the current expenses for running the hospital twelve months are $165,179.13, with eighty-six nurses of all grades.

The City and County Hospital of San Francisco contains four hundred beds and the current expenses for a year are about $75,000.00, with less than twenty-five nurses of all grades. It will be noticed that there are but fifty-six more beds in the Boston Hospital, yet the appropriations for current expenses are more than $90,000.00 or over twice greater than for our hospital. It may be observed also how necessary it is to have more nurses here to relieve the almost unbearable stress imposed upon the little handful of nurses who are each laboring tirelessly to accomplish the work of two persons.

Much credit is due the former Board of Health and my predecessor, Dr. Healy, in introducing the training school for female nurses. Their introduction could not be regarded as an experiment for the reason that over fifteen years' trial in many of the hospitals in our larger cities has amply demonstrated their superiority over male nurses in most diseases.

It would be unreasonable to expect as good service during the first year's work of the training school, as will be performed in succeeding years, because the system has been in operation here only about ten months and had to be carried on with raw recruits. Applications for positions in this department have been quite numerous. It affords opportunity for ladies of good health, intelligence and character, who are desirous of becoming skilled nurses, to secure a thorough course of instruction embracing two years service.

The testimony of all the visiting physicians to the hospital who are familiar with the operation of the training schools in Eastern hospitals, and who were acquainted with the old regime here, has been unanimously to the effect that better work has been performed by the female nurses than was ever done heretofore.

The Board of Supervisors has recently made an appropriation of $20,000 for putting the hospital in repair. We appreciate this action of the Board and it will afford some temporary relief.

Hampered by the lack of funds which has made it impossible to purchase new bed clothing to replace old worn out fabrics and meet the increasing demands for larger supplies, confronted by a galling deficiency of proper food, housed in an old building whose walls are reeking with the accumulated disease germs and organic effluvia of a quarter of a century, where every movement is cramped and fettered by want of room, it is not strange that there has been a tendency on the part of the press and public to criticise, often in a spirit of injustice, the later administrations of the hospital. I have dwelt on our needs at considerable length with the desire that better information on the subject might move fair-minded men and the press to desist from unreasonable fault-finding over unavoidable shortcomings under the circumstances and surroundings; and with the more pleasurable hope that a fair statement of the condition of things would inspire the press and people to stand behind our Board of Supervisors in the move for a new hospital.

The hospital building is located in a quiet, healthy and beautiful situation, yet such is the prejudice its unsightly presence inspires that there have been many requests, which business sagacity could hardly condemn, asking for its removal. San Francisco, with its gigantic strides in material prosperity, its onward march of advancing civilization, with its many millionaire philanthropists, its palaces and mansions of wealth on a hundred hills that overlook a bay and sea white with the ships of commerce, such a city cannot afford to keep herself so far in the rear of progress in her care of the sick. Let us have a hospital at which our people may point with pride, a commodious, ornamental structure that will not depreciate the value of neighboring property, and above all, a hospital big and broad enough to satisfy the attention toward the sick that such a progressive and enlightened community demands.

Herewith find Steward's Report of expenditures for all departments; Druggist's Report and tabular statistics culled from hospital records, stating number of patients admitted and discharged, also number of deaths each year for the past twenty-four years, or as far back as I am able to find reliable records in the hospital, followed by the usual tables of diseases treated and nationality of patients.

The total expenses of the hospital during the past year have been $76,486 89; of this $29,989.80 was paid for salaries, $26,661.89 for subsistence, $6,279.67 for drugs, wines and liquors, and the remainder for repairs, laundry, stable and ambulance services, stationery, printing, telephone, dry goods, bedding and sundries.

The average number of patients for the year has been 298. The average number of officers and employes, 60. The average cost of subsistence for each, exclusive of salaries, drugs and sundries, has been 20 5-13 cents per day.

Respectfully submitted,

J. P. Le FEVRE, M. D.
Superintendent.

REPORT

OF THE

NEW CITY HALL COMMISSIONERS.

GEORGE H. SANDERSON, MAYOR.
THOMAS J. L. SMILEY, AUDITOR.
JOHN H. DURST, CITY AND COUNTY ATTORNEY.
} Board of Commissioners.

SAN FRANCISCO, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco :

GENTLEMEN: Pursuant to custom and in accordance with law, I have the honor to respectfully submit my Annual Report as Secretary of the Board of New City Hall Commissioners, for the fiscal year commencing July 1st, 1891, and ending June 30th, 1892.

Considering the fact that the present Board of Commissioners have been working under an annual appropriation over $100,000 less than was collected during the term of its predecessors, it points with pleasure and with pride to the work accomplished during their term, and to the appearance and condition of the New City Hall at the present time.

The investigations and reports of our Architect and Superintendent disclosed work poorly done, parts of the building in rapid decay, a sanitary condition of things offensive to the eye and dangerous to the health of those frequenting the building; no system for either heating or ventilating, and in some important instances, principal of which is the County Clerk's new offices, no arrangement made at all for heating rooms without fire-places or flues, and flues that reached not to the roof of the building, and nothing modern either in the building or under consideration. Using the words of Commissioner Smiley, in a report made by him to the Board: "When the present Board of Commissioners took office, they found a building with a roof that did not shelter, elevators that would not elevate, water-closets that ran dry and that failed to comply with the regulations of the Board of

Health, a nuisance to ears, nose and eyes, reeking in filth, harboring vermin and breeding disease. In the basement, under the Mayor's office, a foul and filthy pool had been accumulating for years, and allowed to stay there, dispensing malaria and disease to those having business in the office of the city's Chief Magistrate."

I respectfully invite your inspection of the building as it is to-day, with new and modern water-closets and sanitary plumbing, with flues and elevators in working order, roof in sound condition, necessary work performed, renovated and cleaned, with a modern system of hot water heating and electric lighting already introduced, gardens with flowers in bloom, and for the first time in twenty years, unobstructed stone sidewalks all around the reservation, giving an appearance pleasing to the eye and conveniences appreciated by the general public.

The experience of the past term has demonstrated two things, first and foremost of which are the evil effects of frequent changes in the personnel of the Board, and second, the insufficiency of the tax levy for New City Hall purposes.

With a progressive Board of Commissioners like the present one, and with the tax levy raised to the limits allowed by law, I would not be compelled to give such estimates as to the cost and time of completion of the building as I do further on in my report.

One of the most important acts of the present Board was the appointment of Charles I. Havens as the Architect of the building, vice William Patton, resigned, and the Board has found him a worthy successor to Mr. Patton, full of modern ideas and suggestions.

1890-91—Demands on New City Hall Fund	432,159	13
1891-92—Demands on New City Hall Fund	341,499	70
Total expenditures and Cost of New City Hall to July 1st, 1892		$4,688,311 04

The law requires an estimate to be made of the amount necessary to complete the New City Hall, which, including the Mansard roof, a tower of the height called for by the plans originally adopted, about 400 feet, etc., I estimate at about $1,250,000.

The time in which the building will be completed and turned over to the Board of Supervisors, as contemplated by law, depends on two things—first, the continuance by the Legislature of the Act under which we are working, that is as to the levy of taxes for the purpose; and second, upon the pleasure of the Board of Supervisors in making up the annual tax levy, but upon the basis of the allowance for the last two years, and allowing for other contingencies, I estimate that it will take at least seven years to complete the building.

The following work has been done and contracts completed during the fiscal year 1891-92:

Contract No. 18—Large girders and ironwork, upper part northeast wing. Completed.

Contract No. 20—All brickwork on northeast wing. Completed.

Contract No. 21—Interior finish of northwest wing. Completed.

Contract No. 22—Furniture and fittings for County Clerk's new office. All in place and completed.

Contract No. 25—Finishing basement northwest wing, including prison, quarters for police officers, etc. Completed.

Contract No. 24—Two new steel vaults in County Clerk's office. Completed.

Contract No. 26—Twenty thousand, or thereabouts, patent file cases, County Clerk's office. Completed.

Contract No. 27—Changing old rooms of Board of Education into a court-room, with furniture and fittings for same. Completed.

Contract No. 28—Water closets in prison cells, etc. Completed.

Contract No. 29—Granite stone fences, curbs, steps, etc. Completed.

Contract No. 30—Artificial stone sidewalk, driveways, etc. Completed.

Contract No. 31—Bronze lamp standards and pipe system for gas and water on north and west side of grounds. Completed.

Contract No. 32—Fittings and furniture for Board of Education Assembly room. Completed.

Contract No. 33—Painting and staincoating Hall of Records and certain ironwork. Completed.

Contract No. 34—Change in office of Assessor. Completed.

Contract No. 35—Work on northeast wing, including interior finish of the Registrar's department, iron stairways, floor arching, etc. Nearly finished.

Contract No 36—Putting in main floor and exterior finish of the rotunda of main tower. Completed.

Contract No. 37—Fittings and furniture for the offices of the City and County Attorney. Completed.

Contract No. 38—Improvements and fittings of the Receiving Hospital. Completed.

Other work, as follows:

Fittings and furniture for Registrar's department, northeast wing; fittings and furniture for the Probate courtroom, northwest wing; new staircase and furniture and fittings for Police Courts; desks, etc., in basement of Auditor's office.

The following contracts have been advertised for bids:

Finishing interior of northeast wing, including furniture and fittings for Free Library Treasurer, License Collector's office and principal staircase in northeast wing; steam and hot water heating, northeast wing; repairing and painting towers and all exterior ironwork, etc.

In conclusion, I desire to call your particular attention to the new quarters of the Registrar of Voters in the basement of the northeast wing, and to the prison quarters and cells and accommodation for Police department, etc., in basement of northwest wing. In both cases every modern improvemement has been adopted, and it is safe to say that these departments are as complete as any of the kind in the country.

The quarters for the Chief of Police, Police Courts and Police Officers will be ready for occupancy by the end of the year.

The main tower cannot be built this year by reason of lack of funds, but Architect Havens has prepared plans for a temporary tower about seventy-five feet above the present cornice and above the inner dome, which will greatly add to the appearance of the rotunda, and at a small cost. The height of the main tower has not yet been decided upon by the Board.

Respectfully submitted for the Board of New City Hall Commissioners,

EDWARD I. WOLFE,
Secretary.

REPORT

OF THE

COUNTY RECORDER.

HALL OF RECORDS,
SAN FRANCISCO, August 15th, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Herewith I respectfully submit report of transactions of this office for the fiscal year 1891–92:

I wish to call your attention again to need of racks for two thousand volumes, as many books as are now occupying space on the floor.

The interior of the Hall has not been whitened or painted since 1876 and needs attention.

The County Clerk has issued, as per his report, 3,598 marriage licenses and collected two dollars per license, amounting to $7,196, of which this department is entitled to a credit of one-half or one dollar per license for recording, making a total of $3,598.

Very respectfully,

E. B. READ,

County Recorder.

REPORT OF THE BOARD OF TRUSTEES

OF THE

San Francisco Free Public Library.

San Francisco, July, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

The Trustees of the Free Public Library beg to submit herewith their report for the year ending June 30, 1892:

We are much gratified in being able to record that the branch of the City Government which we have the honor of directing, continues to prosper, and that the ever increasing attendance and circulation of books give evidence of the growing favor of the public, whom it is our duty and pleasure to serve.

We expect within a year to be placed in possession of our new quarters, where increased facilities will enable us to extend our sphere of usefulness. The rooms will be accessible, commodious and cheerful, and students will enjoy such quiet and privacy as we are now unable to offer.

Our estimates for the coming year include the amount necessary to furnish that portion of the Hall so kindly set aside for our use, and we must ask you to bear in mind the requirements to meet the petitions of outlying, prosperous new sections of the city for the establishment of branches. We have a number of petitions on file, and only await your pleasure and financial support to carry out these requests.

The meeting in this city of the American Library Association referred to in our last report, took place last October, and the visitors were unanimous in praise of our Library and its staff. Great benefit has resulted from the interchange of views and experiences, the discussions affecting notably the arrangement of the new rooms.

It is our painful duty to record the death, during this year, of Mr. C. Stevens, for some seven years Secretary of this Board. Faithful, painstak-

ing and honest. he conscientiously performed his duties to our entire satisfaction, and his death was much deplored. His place has been filled by his assistant, Mr. E. B. Early, who gives promise of being a worthy successor.

Reference is made herewith to the reports of the Librarian and Secretary. The Board are pleased to testify to the excellent work rendered by these officers, and by the entire staff as well.

Very respectfully,

P. N. LILIENTHAL,

President.

REPORT OF SECRETARY.

To the Trustees of the San Francisco Free Public Library:

GENTLEMEN: Following is a statement showing the receipts, and from what sources, and expenditures, and for what purposes, for the year ending June 30, 1892.

Balance July 1, 1891	$9,638 40	
Received from taxes (including $24 50 difference in account February, 1892)	35,033 09	
Received from fines	252 27	
		$44,983 76

EXPENDITURES.

For binding	$2,358 15	
For books	7,871 03

ANNUAL REPORT OF THE LIBRARIAN.

To the Trustees of the San Francisco Free Public Library:

GENTLEMEN—I have the honor to submit herewith my report for the year ending June 30, 1892, with appendixes of statistics. The past has been a successful year with us, one to which I think we shall turn hereafter with increasing satisfaction. In my report for 1891 the hope was expressed that the meeting of the American Library Association here would stimulate the library interests of this city and of the coast. Such, it is a pleasure to say, has been the result of the convention. Our Fiction Catalogue (No. 6) which, a year ago, was just ready for distribution, has proved very useful in this library, and good accounts of it come from other libraries.

The points especially worthy of mention as distinguishing the work of the past year, are the number of valuable additions to the library, and the progress made in cataloguing. The work of the catalogue department has been thorough, and as rapid as the method now in vogue will permit. We are soon to move into new, spacious and elegant quarters, and there is every reason to congratulate the Board and city on the growing prosperity of the Free Public Library.

Respectfully,

J. V. CHENEY,
Librarian.

REPORT

OF THE

CHIEF OF POLICE.

OFFICE CHIEF OF POLICE,
SAN FRANCISCO, July 1, 1892.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with Resolution No. 6931 (Third Series) of your Honorable Board, I submit herewith the annual report of the Police Department for the fiscal year ending June 30, 1892.

SCHEDULE "A"

Exhibits the tabulated statement of arrests made by the police during the year, and the disposition thereof by the courts for the fiscal year ending June 30, 1892.

SCHEDULE "B"

Comparative statement of the number of arrests by and strength of the police force for the thirty years ending June 30, 1892.

SCHEDULE "C"

Comparative statement of population and police force of nine principal cities of the Union, as shown by latest reports received at this office.

SCHEDULE "D"

Exhibits number of witnesses subpœnaed for the Police and Superior Courts, and lost children restored to their parents and guardians during the fiscal year ending June 30, 1892.

SCHEDULE "E"

Exhibits amount of property stolen and lost, and amount recovered, during the fiscal year ending June 30, 1892.

SCHEDULE "F"

Exhibits unclaimed money, and other property in the hands of the Chief of Police, on the 30th day of June, 1892.

SCHEDULE "G"

Exhibits number, character, and nationality of incoming vessels boarded by the police during the fiscal year ending June 30, 1892.

SCHEDULE "H"

Exhibits number of lottery tickets (exclusive of Chinese) seized by the police during the fiscal year ending June 30, 1892.

SCHEDULE "I"

Exhibits amount of money received from Sheriffs of other counties, masters of vessels and others for keeping prisoners in the City Prison during the fiscal year ending June 30, 1892.

SCHEDULE "J"

Exhibits amount of fines and forfeitures in Police Courts for arrests made by the Police Department during the fiscal year ending June 30, 1892.

SCHEDULE "K"

Police stations and their location.

SCHEDULE "L"

Summary of action taken by the Board of Police Commissioners in retail liquor dealers' licenses during the fiscal year ending June 30, 1892.

SCHEDULE "M"

Exhibits strength of Police Department and summary of action taken by Board of Police Commissioners in the trial of complaints against members thereof for the fiscal year ending June 30, 1892.

SCHEDULE "N"

Exhibits correspondence, and synopsis of business, transacted in office of Chief of Police.

SCHEDULE "O"

Report of Patrol Wagon Service during the fiscal year ending June 30, 1892.

SCHEDULE "P"

Exhibits number of nuisances abated by the police, during the fiscal year ending June 30, 1892.

SCHEDULE "Q"

Exhibits list of persons whose claims have been liquidated as authorized by Resolution No. 5231 (Third Series), dated May 25, 1891, for property stolen from the Property Clerk's office.

SCHEDULE "R"

Gives fugitives from justice arrested in the City and County of San Francisco and delivered to the authorities of other counties and States during the fiscal year ending June 30, 1892.

On the 11th day of May, 1891, between the hours of 11 P. M. and midnight, the office of the Property Clerk of this Department was entered by three men and $1,044.60 in money, besides watches and jewelry, taken from prisoners at the time of their arrest, was stolen, and which was reported to your Honorable Board in my communication of the 18 May, 1891, and more fully set forth in Schedule "F" of my report for the fiscal year ending June 30, 1891. On November 13, 1891, Charles Marshall and Barney Maloney were apprehended in this City and County by Captain I. W. Lees and Detectives Seymour and Whitaker and charged with said offense; they were held to answer before the Superior Court on November 17th, and on their arraignment pleaded guilty to the crime of burglary in the first degree and on November 20, 1891, were each sentenced to the State Prison at San Quentin for a term of 5 years. The third man, one Abe Coakley, a notorious Eastern crook, escaped and is now, I am officially informed, serving a seven year sentence in the State Prison at Sing Sing, New York. Very few of the stolen articles were recovered and none of the money.

The total arrests for the fiscal year, as shown by Schedule "A," of this report, 29,259, represents the offenses charged, the actual number of arrests being 28,417 and the difference (842) is accounted for by charging one person with several distinct offenses.

The increased number of arrests for drunkenness, being 2542 more than last fiscal year, is to be accounted for by the increased number of officers and the use of the patrol wagons and signal system. It is not to be understood that 15,196 persons were arrested for drunkenness during the year, for it is a matter of record that the same persons were arrested many times during the year for this offense.

The total arrests for the principal felony charges do not show such a marked increase over previous years as cannot be accounted for by the increase of population and the increase of the police force.

SUGGESTIONS.

It is required in each annual report that suggestions be made of such improvements in the arrangement and addition to the equipment of the service

as experience has shown to be useful and necessary. In my annual reports of previous years I have suggested that the City and County purchase lots and erect thereon Police Station houses, fitted up with dormitories for the accomodation of a reserve force of police in case of emergency. The Fire Department station houses are owned by the city. Why not the Police Department? In all large cities in the East the police stations are city property and fitted up to accommodate all officers in the district where located, thus giving the force a place of rendez-vous where they can be concentrated in cases of riot, etc., and kept in readiness for service night and day.

The destruction of property by riots which has occurred fn other cities, and the danger to which we have been exposed from the like cause, should warn us to use all reasonable diligence to prevent such disasters.

A small body of police properly drilled and skillfully handled, thrown suddenly upon incipient rioters, will generally quell them before property is destroyed and life sacrificed, when by delay serious and disastrous consequences may follow. A reserve force could, if provided with such accomodations, be kept in the station at all times, except when sent out on duty or for outdoor drill.

It should be borne in mind that the tax-payers have to pay for property destroyed by riotous mobs, and I would seriously urge that the reasonable precautionary measures, to which your attention is directed, would be a very cheap insurance against the heavy losses which may be incurred by neglecting to take that care of the public interests which any reasonable person would take in the management of his private affairs. This matter is of such a serious nature that I deem it proper to repeat my recommendations of previous years, and urge upon your Honorable Board the necessity of having proper places constructed for the accommodation of officers when not on duty and who might be required at a moment's notice. I have called the attention of the Board of Supervisors to this matter repeatedly and no heed has been paid to it. I predict that we will have the experience of locking the barn door after the horse has been stolen; several Eastern cities have had the barn door experience.

The foregoing suggestions and recommendations I shall continue to make in each annual report as long as I am Chief of this Department until such action is taken as will render them no longer necessary.

The residents of this city and this department are to be congratulated upon the partial establishment of the police wagon patrol and the signal system. The first signal box was put in position October 27, 1890, for the police station at Seventeenth and Howard streets and the system went into operation at that station on the 27th day of November, 1890. The first signal box for the New City Hall Police Station was put in position January 7, 1891, and the system went into operation January 22, 1891.

At the Central Police Station, Old City Hall, the first signal box was put in position February 18, 1891, and the system went into operation at this station April 18, 1891.

At the Southern Station, 827 Folsom street, the first signal box was put in position January 15, 1892, and the system went into operation at this station February 13, 1892, with 49 signal boxes of the Gamewell pattern. The 33 boxes of the municipal system in the Seventeenth and Howard District were then replaced with 31 signal boxes of the Gamewell pattern, and the 33 municipal signal boxes were transferred to the Central and New City Hall circuits, all of which were placed in position by June 6, 1892. The system, as now in operation, is as follows:

Central Police Station, Old City Hall, 46 boxes.
New City Hall Police Station, New City Hall, 34 boxes.
Southern District Police Station, 827 Folsom street, 49 boxes.

Seventeenth and Howard Police Station, 207 Seventeenth street, 31 boxes, making a total of 160 boxes in the four circuits, equipped with 166 telephones and a central station outfit at each of the respective stations.

Your attention is invited to Schedule "O" of this report, which gives in tabulated form the service rendered by this system during the past fiscal year.

The system should be further extended to cover that portion of the city bounded on the south by California street, on the east by Taylor street, north by the Bay and on the west by Central avenue, with headquarters at the North End Police Station, Jackson street, near Polk.

There should be established a police station in the vicinity of Steiner and Union or Greenwich streets, as that district, owing to the topography of that portion of the city, the pleasure resorts at Seaside Gardens, Harbor View Park and the Presidio, and the isolation from the main lines of street railways, require special police protection.

There should be established a police station at or near Golden Gate Park for the district bounded by McAllister street on the North, Fillmore street on the east and Waller street on the south.

There should also be established a police station for the district bounded by Thirty-first street on the north, the San Bruno Road on the east, the San Mateo county line on the south and the San Miguel and Ocean House Roads on the west, say at Ocean View, on or near the line of the San Francisco and San Mateo Electric Railway. This last named section has been made so easily accessible by reason of the construction of the electric railway that it is becoming the resort of characters not desirable to suburban residents, and officers on duty there should not be compelled to come to the police station at Seventeenth and Howard streets, a distance of about 5 miles, with prisoners.

I also renew my suggestions of previous years as to the necessity of a mounted patrol for the outlying districts. Experience has demonstrated that at least fifteen mounted officers are needed to patrol the districts north and south of Golden Gate Park, the Mission, San Bruno and Ocean House Roads.

A station house fitted with dormitories for the men and stables for the horses should be erected for this branch of the service.

The distribution on the streets and sidewalks of printed dodgers, handbills or circulars should be prohibited by ordinance. When the city was in its infancy there was little or no objection to this method of advertising. Now the dodger has become a nuisance. If persons who advertise by this means would consider that as a rule the dodger is thrown on the street without being read they would adopt some other method of advertising; therefore they should not object to the passage of an ordinance prohibiting the distribution of the dodger. Other towns in this State have such an ordinance.

I recommend that Section 32 of Order No. 1587 be so amended as to compel the closing of all places where liquor is sold and music furnished or played at 11 o'clock P. M., whether operated or not, under a theatrical license.

I recommend the repeal of Order No. 1850 "Regulating and imposing a license on bals masques or masked balls," and that an ordinance be passed prohibiting all such entertainments. They are scenes of debauchery, demoralizing to the youth of both sexes and a disgrace to the city.

I recommend that an ordinance be passed by your Honorable Board prohibiting the sale of and indiscriminate use of fireworks and firecrackers in any form. It is almost impossible to fully enforce the present ordinance in relation thereto.

I recommend that an ordinance be passed prohibiting all parades of whatever nature (excepting funerals) without first obtaining written permit therefor from the Mayor, and said permit should designate the time and the streets over which said parade should pass.

I recommend that an ordinance be passed prohibiting on streets all public meetings, political or otherwise, without first obtaining a written permit from the Mayor, stating time and place for such meeting.

Order No. 2055, regulating drivers of certain vehicles, running and soliciting agents, has now been in successful operation for upwards of three years and with good effect in restraining lawlessness at our ferry landings and railroad depots.

To William S. Barnes, Esq., District Attorney of the City and County of San Francisco, I desire to express my sincere thanks for valuable services at all times rendered this department.

In conclusion I will state that the Department is efficient and well disciplined, and, notwithstanding the force is smaller in proportion than any other seaport city in the United States, the preservation of order and suppression of crime will compare favorably with any of the great cities.

Respectfully submitted,

P. CROWLEY,

Chief of Police.

SCHEDULE "A."

TABULATED STATEMENT OF ARRESTS MADE BY THE POLICE DEPARTMENT OF SAN FRANCISCO AND DISPOSITION THEREOF BY THE POLICE COURTS FOR THE FISCAL YEAR ENDING JUNE 30, 1892.

OFFENSE.	Arrested.....	Dismissed.....	Convicted.....	Convict'd lesser offense.....	Held to answer.	Committed to Whittier Reform School.	Committed to Boys' and Girls' Aid Soc.	Committed to Youths' Directory.....	Pending.....

RECAPITULATION.

Total escapes from Boys' and Girls' Aid Society	2
Total escapes from House of Correction	5
Total escapes from Youths' Directory	2
Total number of prisoners received en route to other cities	154
Total number of prisoners received en route to State Prison	69
Total number of prisoners received en route to Industrial School	7
Total number of prisoners received en route to Whittier Reform School	3
Total number of prisoners received for U. S. Marshal	3
Total number of prisoners surrendered by bondsmen	107
Total number of prisoners arrested on bench warrant	76
Total number of insane persons arrested	295
Total number of insane persons received en route to Asylum	4
Total number of indigent persons committed to Almshouse	111
Total number of witnesses detained	75
Total number of homeless persons lodged in City Prison	1,509
Total number of felony cases awaiting examination in the Police Courts on the 30th day of June, 1892	64
Total number of misdemeanor cases awaiting trial in the Police Courts on the 30th day of June, 1892	587
Total number of cases of all kinds awaiting examination or trial in the Police Courts on the 30th day of June, 1892	651
Total number of offenses charged from the 1st day of July, 1891, to the 30th day of June, 1892	29,259
In this number is included the same individuals who were arrested several times for the same offense.	
Total number of individual persons arrested from the 1st day of July, 1891, to the 30th day of June, 1892	28,417
Total number of Chinese offenders arrested from the 1st day of July, 1891, to the 30th day of June, 1892	1,318
Total number of Japanese offenders arrested from the 1st day of Juiy, 1891, to the 30th day of June, 1892	80

The variation between the number of offenses charged and individual persons arrested (842) is accounted for by reason of one person being charged with more than one offense at the time of arrest.

INDUSTRIAL SCHOOL REPORT.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—In compliance with Resolution No. 6931 (Third Series) of your Honorable Board, I herewith submit my annual report of the City and County Industrial School, including the expenditures for transportation and maintenance of boys and girls at the State Reform School at Whittier, for the year ending June 30, 1892:

In accordance with Resolution No. 6033 (Third Series) of your Honorable Board and under the instructions of the Chairman of the Industrial School Committee, I turned over to the Superintendent of the House of Correction all the stock and farming implements belonging to the Industrial School, taking his receipt for same.

The boys and girls who were confined in the School have been disposed of as will be shown in my report. Some of the girls who were at the Magdalen Asylum have been released, others have gone out as they became of age, leaving at present in the Institution twenty-three girls with unexpired terms.

I have taken one hundred boys and thirty-five girls to the Whittier State School, and in my frequent visits to that Institution I have had an excellent opportunity of seeing the school and its practical workings. It is my opinion that under the management of Dr. Lindley the boys are enjoying great advantages; they receive good moral and physical training, have opportunities for acquiring a practical education and some knowledge of mechanical arts. The money which is paid for their support is well expended.

The old Industrial School building has been fitted up in a proper manner for its present use at as little expense as was possible, and is now a very creditable institution as a jail for women.

Thanking your Honorable Board for courtesies extended,

I remain, respectfully,

J. P. KINCAID,

Superintendent of City and County Industrial School.

REPORT

OF THE

SAN FRANCISCO LAW LIBRARY.

San Francisco, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

Gentlemen: Pursuant to your resolution I file the following as the report of the affairs of the San Francisco Law Library Association for the year ending July 1st, 1892.

The shareholders now number 249. Of these, five were elected during the last year, viz: A. F. Morrison, Otto Tum Suden, Peri E. Allen, and E. P. Cole.

During the same year we lost by death J. P. Hoge, Lorenzo Sawyer and O. C. Pratt.

Our subscribers number twenty-seven, about the same as we had last year.

These, with the ex-officio, make 352 entitled to the use of the rooms.

Our accessions have been of almost a purely legal character. During the last year we have supplied deficiencies in our statutes, periodicals and English reports, and in these particulars we now compare favorably with any library in the United States.

Our registered volumes now number 30,803. Of these, 1,142 were added during this year. Of this number we acquired 957 by purchase, 126 by gift; 59 were records of the Supreme Court bound.

Those to whom we are indebted for books presented are: W. W. Morrow, Charles W. Slack, D. T. Sullivan, Public Printer of New Zealand, Jno. A. Russell and E. G. Waite.

The following lists show the character of the books added during the last year:

Text books	135	
Reports	272	
Digests	42	
Statutes	214	
Miscellaneous	479	
		1142

More particularly classified:

American text books	80
American reports	186
American digests and indexes	26
American statutes	158
English text books	55
English reports	67
English digests and indexes	16
English statutes	20
Foreign reports	19
Foreign statutes	36
Periodicals, law	157
Periodicals, miscellaneous	27
Records of Supreme Court	59
Trials	3
United States documents	76
Cyclopedias and dictionaries	22
Directories and statisticians	10
General miscellany	125

The expenditures for the past year are as follows:

Text Books—English	$296 11		
American	394 05		
			$690 16
Reports—English	$449 88		
American	680 94		
Foreign	120 84		
			1,251 66
Statutes—English	49 25		
American	556 42		
Foreign	67 00		
			672 67
Periodicals—Law	$1,086 80		
Miscellaneous	74 75		
			1,161 55
Digests—American	$161 50		
English	104 50		
			266 00

Citations	$110 00	
Trials	5 00	
Cyclopedias and dictionaries	148 63	
Directories and statutes	43 25	
General miscellaneous Books	128 00	
Maps	29 00	
Expressage—Packages	80 93	
Binding	324 30	
District Telegraph and Telephone	162 75	
Postage	26 53	
Insurance	210 00	
Current expenses	133 65	
Assistants	1,532 50	
Total		6,976 58

The receipts have been:

From shareholders	$400 00	
From subscribers	605 00	
From the dollar tax	5,900 00	
		6,905 00

Respectfully submitted,

J. H. DEERING,

Librarian.

REPORT

OF THE

CLERK OF THE JUSTICES' COURT.

SAN FRANCISCO, July 5th, 1892.

To the Honorable the Board of Supervisors
of the City and County of San Francisco :

GENTLEMEN : In compliance with Resolution No. 6,931 (Third Series) of your Honorable Body, I herewith respectfully submit my report for the fiscal year ending June 30th, 1892.

† † Children of Officer James McNamara. Allowed under provisions of Section 7.

AUDITOR'S REPORT.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco—

GENTLEMEN: In presenting my annual report, a great subject of congratulation is the reduction of the bonded debt of the city to the sum of $502,973.

The actual bond indebtedness in detail is as follows:

Overdue and not presented for payment	$2,500 00	
Due in two years	403,000 00	
Due in three years	30,000 00	
Due in five years	225,500 00	
Due in seven years	209,000 00	
Due in twelve years	250,000 00	
		$1,120,000 00
Cash in Sinking Fund		617,022 00
Net debt		$502,978 00

The most strenuous exertions have been made by the Sinking Fund Commissioners (the Mayor, Auditor and Treasurer) to invest the amount of money now at their disposal, but being limited by law to the acceptance of certain named securities, a very low rate of interest has not enabled the Commission to loan but a little over one-half of the coin at their command.

The amount paid for rents by different departments of the City Government is as follows:

School Department, per annum	$5,800 00	
Police Department, per annum	3,217 00	
Police Patrol Stables, per annum	540 00	
Street Superintendent Corporation Yard	1,700 00	
Fire Department, per annum	1,673 00	
		$12,930 00

Or an average of over $1,000 per month. This disbursement might be materially lessened by the use of the various city lots in charge of the various departments named.

During the last 18 years the sum of $25,972 27 has been drawn from the City Treasury for expenses incurred in collating and copying the Military

Roll. This collating and copying is imposed on the city by virtue of Legislative Acts. These lists are finally forwarded by law to the Adjutant-General of the State, and the penalty for not making such Rolls ("not less than $300 or more than $1,000, when recovered is to be paid into the Military Fund of the State."—Political Code, Sections 1898-1902.).

This law on its face does not appear to be local in its application or character; as the parties enumerated in the Military Roll are subject to military duty in any portion of the State, it is evident that this Act, being for the benefit of the State, should be paid for by the State. This mention of the amount deemed to be due by the State is made in order that proper means may be used for the recovery of the amount due.

In my last report the dilapidated condition of the books of the Auditor, Tax Collector and Recorder were forcibly presented for your consideration. In view of the importance of the preservation of these records it is to be hoped that immediate means be taken to restore the records that have been destroyed and protect the books needing repairs from further destruction; in the knowledge that preservation of these records means the preservation of titles and ownership of real estate and that this preservation inures to the benefit of all classes of the community, prompt action is earnestly recommended.

It would add greatly to the integrity of appropriations made by your honorable body if legislation could be had by which specific sums could be appropriated to each and every branch of the City Government; nominally in some instances this has been done, but in reality more as matter of grace than by a ruling of law; in the few instances in which a segregation (like teachers' salaries, etc.,) has been made, the Auditor, seconded by the heads of various departments, has been able to keep such appropriations under proper control, but to make such appropriations absolutely efficient legislative action is imperatively required.

The loose method of presenting various salary demands to the Auditor, which prevailed for many years, has now been corrected, and all salary demands are now presented and audited according to law. Every employee of the city can now receive his salary in person, if he so desires, without the forcible intervention of any chief or subordinate acting in his or their behalf.

During the past year the question of the right of the City of San Francisco to be reimbursed by the State of California for expenses incurred by the City in collecting State taxes was brought to the notice of the Mayor, Auditor, Treasurer and Finance Committee of your Board; though this right has always been conceded and acted upon favorably by every State Controller and State Treasurer, yet at the instance of the State Board of Equalization, backed by the opinion of the Deputy Attorney-General of the State, an issue was sought to be made by which the City would be deprived of the receipt of $45,000; where the interest of the State Board of Equalization arose regarding this issue has never been definitely determined, but it was

undoubtedly exercised in a manner hostile to the interest of the City of San Francisco. Wiser counsel, however, prevailed, and the amount, $45,000, was paid into the City Treasury, but on a *quasi* understanding that the City would endeavor to have the matter definitely determined by an Act of the Legislature. At the proper time this matter will again be brought to your notice.

The Auditor would be derelict in his duty if your attention was not directed to a manifest error in judgment in practically superseding two of the most important officers of the City Government.

Public squares are being improved under the superintendence and charge of others than the Superintendent of Streets, Highways and Squares. These squares have been and are surveyed by parties holding no official relation to the people. A sewer system involving elaborate surveys and great expenses has been inaugurated without even a consultation with the City and County Surveyor, whose prerogatives have been assailed. The matters above named may be fairly considered to be under the exclusive control of the Superintendent of Streets, Highways and Squares, and the City and County Surveyor, and the Auditor has already serious misgivings in relation to auditing claims of officials that may have been unlawfully appointed to perform duties that properly belong to officials elected by the people.

All of which is respectfully submitted,

THOMAS J. L. SMILEY,

City and County Auditor.

San Francisco, August 1, 1892.

DEMANDS AUDITED DURING THE FISCAL YEAR 1891-92, ENDING JUNE 30, 1892.

ON THE GENERAL FUND.

J. H. WIDBER,

City and County Treasurer.

SAN FRANCISCO, July 15, 1892.

TAX COLLECTOR'S REPORT.

OFFICE OF THE CITY AND COUNTY TAX COLLECTOR,
SAN FRANCISCO, October 10, 1892.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—In compliance with Resolution No. 6931 (Third Series) passed by your Honorable Body, I herewith submit my report for the fiscal year ending June 30, 1892. In connection with same I would say the expenses of the office in 1890 were $57,948.67, and in 1891 $67,740.75, an increase during the latter year of $9,792.08, due chiefly to the law recently enacted for the collection of real estate taxes in installments. The records of this office show that a vast amount of additional labor was necessary to enforce the provisions of this law; entirely new forms of books, tags, stamps, bill heads, etc., had to be introduced; 36,560 more bills for taxes on real estate were made out during 1891 than 1890, the total number of the former being 113,720 as against 77,560 of the latter year. When it is further stated that every bill includes a corresponding tag to be entered in the cash books, and such cash entries are subsequently posted in the respective volumes of the roll, the magnitude of the whole work is quite apparent. I can therefore assert that the new revenue law has increased the labor of this office 50 per cent. I desire to say that the present office room is entirely too limited for the transaction of the business of the office. When these rooms were first used the entire roll of real and personal property consisted of 29 volumes, while the present roll includes 72 volumes. After much crowding and confusion during our busy periods we finally arranged a meagre and totally inadequate desk space for these books. The clerks are frequently compelled to occupy the private office of the Tax Collector during the busy season in order to handle checks, enter tags, etc., thus compelling him to transact his private and official business and receive parties desiring information in the hallway of the main office. The attention of the present New City Hall Commissioners having been called to the cramped condition of the office, they have taken steps to remedy the matter as far as space at their disposal will permit. I am under many obligations to the Commission for kind attention to the wants of this office in the way of desks, electric lights, alterations, etc.

I heartily endorse the system recently inaugurated by your Honorable

Board for the collection of delinquent personal property taxes, when they are to be collected through the Courts. In designating the City and County Attorney's department for this purpose instead of selecting special counsel you have acted wisely and well. This system accords with the views I expressed shortly after assuming my duties as Tax Collector, and which are made a part of this report. The good work should be carried further by transferring collections now in the hands of special attorneys, appointed in former years, to the department recently chosen for such purpose. Purchasers of real estate would thus be saved the trouble of going from office to office seeking these numerous attorneys, often in vain, to clear titles of liens for personal property taxes of various years. Concerning this subject I quote from statements made by me when I first assumed the duties of Tax Collector, and which were fully endorsed by our public press and made a part of the Platform of the Republican Municipal Convention. They may be of some assistance in the future arrangement of detail of the collection of delinquent taxes, and are, viz: "The system of collecting delinquent personal property taxes by special counsel appointed by the Board of Supervisors is not warranted by the revenue laws of the State. I think the Supervisors simply deemed it their duty to adopt this method, believing it the most expedient manner of collecting from those who neglect to pay through the ordinary channel. This system has been in vogue so long that it is almost recognized as the law on the subject. While not desiring to pose as a reformer of existing methods, my experience in this office enables me to make some suggestions which may be of advantage to tax-payers. It is advisable for the Tax Collector instead of special counsel to collect all delinquent taxes, with the assistance of the City and County Attorney, when legal aid is necessary. The City and County Attorney might be allowed an assistant for this purpose if required, but all taxes should be paid in the office of the Tax Collector. It would involve some additional labor on this office, but the method would be safer and the result more satisfactory. The Tax Collector's large bonds would be a guarantee of the proper performance of the work. The State Controller at times collects taxes for the State, with the legal assistance of the Attorney General; hence the method I suggest would closely follow that of the State government. If the engagement of special attorneys be continued they should give substantial bonds, subject to the approval of the Mayor and Auditor; monthly or semi-monthly reports should be rendered by them to the Board of Supervisors through its Finance Committee. The Finance Committee might furnish the special counsel with a copy of the transcript; the committee's expert comparing their collections with same from time to time. While no fault can be found with the reputable gentlemen acting as special counsel the system has proven defective and impracticable.

The effort your Honorable Body made last year to preserve the records of this office was entirely inadequate, and I again appeal to you to arrest their rapid decay.

In this connection I further recommend that delinquent personal property taxes for each fiscal year be entered in one volume, the same to be a certified copy of the delinquent tax list filed by the Tax Collector in his annual settlement with the Auditor, and be made official by the requisite affidavits of these officers.

If this plan had been adopted originally the total number of books required to ascertain the delinquent taxes of all preceding years would not exceed one-half the present number of books for one fiscal year. It would dispense with rebinding, and reduce the space, labor, etc., in the present method of searching delinquent taxes.

Respectfully yours,

THOS. O'BRIEN,

Tax Collector.

REPORTS OF SPECIAL COUNSEL.

REPORT OF P. F. DUNNE, SPECIAL COUNSEL.

SAN FRANCISCO, July 23, 1892.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with your resolution in this behalf adopted, I present my annual report as special counsel for the collection of delinquent taxes for the fiscal years 1887-88, 1888-89.

During the fiscal year just closed I have paid over to the Tax Collector, less my commissions, the sum of $908.28. Statements showing the names of the persons who paid, together with the amounts, have been filed with the Tax Collector by me, to which reference is hereby made.

Respectfully submitted,

P. F. DUNNE,
Special Counsel for the Fiscal Years 1887 to 1888 inclusive.

REPORT OF FISHER AMES, SPECIAL COUNSEL.

SAN FRANCISCO, July 25, 1891.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In obedience to Resolution No. 6931 (Third Series), I herewith submit my report for all taxes for City and County purposes for the fiscal years 1872-73 and 1873-74 collected by me as Special Counsel from June 30, 1891, to and including June 30, 1892, pursuant to the provisions of Orders Nos. 1185 and 1197, adopted by your honorable Board.

Detailed statements of all collections are on file in the office of the Auditor of said City and County, and in the office of the Clerk of your honorable Board.

Principal collected	$41 14	
Advertising	8 00	
Total collections		$49 14

Respectfully submitted,

FISHER AMES,
Special Counsel.

REPORT OF WALTER H. LEVY, SPECIAL COUNSEL.

SAN FRANCISCO, August 29, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with the requirements of Resolution No. 6931 (Third Series) of your Honorable Body, I have respectfully to present to you my annual report as special counsel for the collection of delinquent taxes for the fiscal year 1882-3.

I have collected and paid over to the Tax Collector of the City and County of San Francisco, less my five per cent commission, the sum of $520 41.

Your Honorable Body will find a detailed statement of all collections made by me since the time of my appointment, showing the names of the persons who paid, the amount and the date, on file in the Clerk's office of your Honorable Board.

All of which is respectfully submitted.

WALTER H. LEVY,
Special Counsel for the Collection of Delinquent Taxes for the Fiscal Year 1882-3

REPORT OF JOSEPH P. KELLY, SPECIAL COUNSEL.

SAN FRANCISCO, August 29, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with the provisions of Resolution No. 6931 (Third Series) of your Honorable Body, I have respectfully to present to you my annual report as special counsel for the collection of delinquent taxes for the fiscal year 1883-4.

I have collected and paid over to the Tax Collector of the City and County of San Francisco less my five per cent commission, the sum of $88 06.

Your Honorable Body will find a detailed statement of all collections made by me since the time of my appointment, showing the names of the persons who paid, the amount and the date, on file in the Clerk's office of your Honorable Board.

All of which is respectfully submitted.

JOSEPH P. KELLY,
Special Counsel for the Collection of Delinquent Taxes for the Fiscal Year 1883-4.

REPORT OF W. A. S. NICHOLSON, SPECIAL COUNSEL.

SAN FRANCISCO, July 1, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with a resolution of the Board heretofore adopted, I beg leave to make my annual report as special counsel for the collection of delinquent personal property taxes for the fiscal years 1884-5, 1885-6 and 1886-7.

My collections during the year, which I have reported by items to the Tax Collector of this City and County, and which I have paid over to him, are as follows:

FISCAL YEAR.	1884.	1885.	1886.
City and County tax	$56 72	$112 40	$79 32
Five per cent	2 85	5 65	3 98
Advertising	12 50	18 00	20 50
State tax	30 06	80 37	69 01
Five per cent	1 52	4 10	3 56
Advertising	16 00	26 00	30 00
Total	$119 65	$246 52	$206 37
Commission	5 89	12 30	10 31
Balance	$113 76	$234 22	$196 06

Total paid Tax Collector, $544.04.

Two cases pending in the Supreme Court against the Western Union Telegraph Company have been finally submitted to that tribunal, and a decision may be expected any day. The City is the respondent in both cases, and as the amount involved is large and the questions raised are of paramount importance, I am anxiously awaiting the Court's opinion.

Since my last report the case of the City and County vs. J. C. Pennie, Administrator of the estate of Shillaber, in which the City and County was the appellant, has been decided, and the judgment of the lower Court was reversed and judgment ordered to be entered in favor of the City and County, which has been done accordingly, and the judgment recorded. The judgment decided important matters reltaing to the assessment of estates, aud establishes the validity of a large number of similar assessments. Judgment entered is for $4,535 52, and I am now taking steps to collect the amount.

On account of complications surrounding the estate of Shillaber at the present time, it may require some work and litigation to get the money out of the estate, but of ultimate success I have no doubt whatever.

Respectfully submitted,

W. A. S. NICHOLSON,

Special Counsel for Years 1884, 1885, 1886.

REPORT OF JOSEPH E. O'DONNELL, SPECIAL COUNSEL.

SAN FRANCISCO, August 8, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with your Resolution in this behalf adopted, I present my annual report as special counsel for the collection of delinquent taxes for the fiscal year 1889-90.

During the fiscal year ending June 30, 1892, I have collected the sum of three thousand two hundred and sixty-four and 99-100 dollars, and, after deducting five per cent thereof as commission, have paid over to the Tax Collector the sum of three thousand one hundred and one and 75-100 dollars.

I have received payments from five hundred and eighty-three delinquents during said time. Detailed statements of the amounts, and also the names of the persons who have paid, have periodically been reported by me, and are on file in your office.

The test case in the matter of the assessment of the seats in the San Francisco Stock and Exchange Board, referred to in my last annual report, has been decided, in the Superior Court, in favor of the City and County of San Francisco, and an appeal has been taken by the Exchange Board to the Supreme Court, where the case is now pending.

Respectfully submitted,

JOSEPH E. O'DONNELL,
Special Counsel.

REPORT OF FRANK J. FALLON, SPECIAL COUNSEL.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—Since making and filing my last report as Special Counsel I have collected moneys in suits brought by me in behalf of the city and deposited the same with the City and County Treasurer, as follows:

I.

City and County of San Francisco, plaintiffs, vs. Patrick Donahue and J. J. Conlin, defendants.—No. 25520, Superior Court.

On July 10, 1889, suit was brought against said defendants for due proceedings had thereon. Judgment was rendered on the 26th day of November, 1889.

On July 31st judgment was partially satisfied out of a squatter's interest owned by defendant, Patrick Donahue, which was levied upon and sold by the Sheriff for the sum of $1,650. That out of said sum was deducted Sheriff's fees, advising fees, etc., as will more fully appear from the Sheriff's books, also the 30 per cent allowed special counsel as commission levied and balance to the credit of the City and County in the sum of $1,041.05, which was on July 31, 1891, duly deposited with the Recorder of the City and County of San Francisco.

That on August the 10th a second levy was made by Sheriff on the same property, which defendant (Donahue) has redeemed in the meantime, and the same was sold for the sum of $765; that out of the said sum was deducted Sheriff's fees and costs, also balance of special counsel's commission, the levy and credit of $525.25, which was deposited with the City and County Treasurer, as appears more fully from the records in said suit, now on file in the office of the County Clerk in the City and County of San Francisco.

II.

City and County of San Francisco, plaintiff, vs. Louis Helburg, et al., defendant.—No. 27754, Superior Court; and City and County of San Francisco, plaintiff, vs. Louis Helburg et al., defendant.—No. 27755, Superior Court.

These suits were brought to recover the sum of $500 each, due on the forfeited bail bond and the same was duly satisfied by the defendants and, after deducting costs and special counsel's commission, there was deposited to the credit of the City and County of San Francisco the sum of $700.

III.

City and County of San Francisco, plaintiff, vs. J. Staude and Charles Kelly, defendants.

This suit was commenced in the Superior Court to recover the sum of $1000, interest and costs due on a forfeited bail bond, and on the —— day of ——— judgment was recovered for said sum from which decision took an appeal to the Supreme Court on the —— day of ———, a decision of the Superior Court was affirmed by the Supreme Court, and immediately thereupon execution was duly issued levied on the property of defendant Staude.

The defendant then petitioned your honorable body that special counsel be directed to endeavor to collect one-half of the judgment from Charles Kelly as co-defendant, which your honorable body granted, and defendant Staude paid the sum of $600, out of which was deducted counsel fees and costs, and the sum of $300 was deposited with the Treasurer of the City and County of San Francisco.

I have been unable to find any property belonging to or standing in the name of Charles Kelly, the other defendant in said action, and will state that the judgment can be satisfied at any time.

Respectfully yours,

F. J. FALLON,

Attorney and Special Counsel.

REPORT OF J. E. O'DONNELL, SPECIAL COUNSEL.

SAN FRANCISCO, October 25, 1892.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—In compliance with Resolution No. 6931 (Third Series) I herewith submit the following report as special counsel for the collection of forfeited bail bonds:

During the year ending June 30, 1892, I have collected nothing on the bonds which have come to my hands. There are at present twenty-one suits pending against Chinese bondsmen and six upon bonds with white sureties.

The same difficulties presented themselves during the past fiscal year as were noted by your special counsel in his first report.

It is, however, to be noted that during some weeks past there is a decided tendency of the officials connected with the Police Courts to assist the special counsel in getting possession of forfeited bail bonds; and this fact, coupled with collection on a judgment of a considerable sum within a few days past gives a prospect that the report at the end of the present fiscal year will be more gratifying.

Respectfully submitted,

J. E. O'DONNELL,

Special Counsel.

Appendix.

BOARD OF SUPERVISORS

OF THE

MAURICE BUSHWAY, Sergeant-at-Arms.

* Appointed January 11, 1892 to fill vacancy caused by the death of Henry Evans on Nov. 1, 1891.

RULES OF PROCEEDINGS.

1. In case the President does not attend, the Clerk, on the appearance of seven members, shall call the Board to order, when a President *pro tem.* shall be appointed by the Board for that meeting, or until the appearance of the President.

2. In case the Clerk should be absent, the Board shall appoint a Clerk *pro tem.*, provided such substitution shall not continue beyond the day on which it was made.

3. Whenever it shall be moved and carried that the Board go into a Committee of the Whole, the President shall leave the Chair, and the members shall appoint a Chairman of the Committee of the Whole, who shall report the proceedings of the Committee.

4. The Rules of the Board shall be observed in the Committee of the Whole, except the rules regulating a call for the *ayes* and *noes*, and limiting the time of speaking.

5. On motion, in Committee, to rise and report the question, it shall be decided without debate.

6. No amendments shall be allowed in the Board, on any question which has been decided in the Committee of the Whole, unless by consent of two-thirds of the members present.

7. The Clerk shall make a list of the Orders, Resolutions, or Reports on the table, which shall be considered the "general orders of the day."

THE ORDER OF BUSINESS,

which shall not be departed from, except by the consent of seven members, shall be as follows:

1st. Calling the Roll.
2d. Reading the Minutes of the last Meeting.
3d. Quarterly. The requisitions of Sec. 66, Art. V, of the Consolidation Act.
4th. Presentation of Petitions.
5th. Communications and Reports from City and County Officers.
6th. Reports of Committees, except Finance Committee.
7th. Disposition of Street Work.
8th. Unfinished Business.
9th. Presentation of Bills and Accounts.
10th. Report of Finance Committee.
11th. Orders, Motions, or Resolutions.
12th. Special Orders of the Day.
13th. General Orders of the Day.

8. If any question under debate contains several points, any member may have the same divided.

9. When any question has been put and decided, it shall be in order for any member who voted in the majority to move for the reconsideration thereof; but no motion for the reconsideration of any vote shall be made after the Order, Resolution, or Act shall have gone out of the possession of the Board; and no motion for reconsideration shall be made more than once upon the same question.

10. A motion to refer or lay on the table, until it is decided, shall preclude all amendments to the main question.

11. It shall be the duty of the Clerk to issue such certificates as may be directed by Orders or Resolutions, and to engross all Orders, Resolutions, or Acts, requiring the signature of the President, to the end that they may be placed on file, in addition to the records required to be kept by the Act creating this Board.

12. All accounts and bills presented shall be referred to Committees, that they may report upon the same before action is taken by the Board.

13. The President shall preserve order and decorum, and shall decide questions of order, subject to an appeal to the Board.

14. Every member, previous to his speaking, shall rise from his seat and address himself to the President; and no motion shall be in order if made while the mover is seated or out of his place.

15. When two or more members shall rise at once, the President shall name the member who shall speak first.

16. No member shall speak more than twice on the same question without leave of the Board; nor more than once until every member choosing to speak shall have spoken; nor more than five minutes, except by permission of the President.

17. No question, on a motion, shall be debated or put, unless the same be seconded. When a motion is seconded, it shall be stated by the President before debate; and every such motion shall be reduced to writing, if any member desires it.

18. A motion having been stated by the President, it shall be deemed to be in possession of the Board; but it may be withdrawn at any time before decision or amendment, with the assent of the second.

19. When a question is under debate, no motion shall be received unless:

1st. To adjourn.
2d. To lay on the table.
3d. The previous question.

4th. To postpone to a day certain.
5th. To commit or amend.
6th. To postpone indefinitely.

Which several motions shall have precedence in the order in which they are arranged.

20. A motion to adjourn, and a motion to fix the time of adjournment, shall be decided without debate.

21. The previous question, until decided, shall preclude all amendments and debate to the main question, and shall be put in the form, "Shall the main question be now put?"

22. Every member who shall be present when a question is put, shall vote for or against the same, unless the Board shall excuse him, or unless he be immediately interested in the question, in which case he shall not vote; but no member shall be permitted to vote upon a division when a division is called, unless present when his name is called in the regular order.

23. A member called to order shall immediately take his seat, unless permitted to explain, and the Board, if appealed to, shall decide on the case, but without debate. If there be no appeal, the decision of the Chair shall be submitted to.

24. Upon a decision of the Board, the names of those who voted for and those who voted against the question shall be entered upon the minutes, not only in the cases required by law, but when any member may require it; and in all appropriations of the public moneys the *yeas* and *nays* shall be called by the Clerk and recorded.

25. All appointments of officers shall be by *ballot*, unless dispensed with by the unanimous consent of the Board; and a majority of all the members of the Board shall be necessary to a choice.

26. No member shall leave the Board during its session without permission from the President.

27. All Committees shall be appointed by the Board, unless otherwise ordered. Committees appointed to report on any subject referred to them by the Board shall report a statement of facts, and also their opinion thereon, in writing; and no reports shall be received unless the same be signed by a majority of the Committee.

28. Every remonstrance, or other written application, intended to be presented to the Board, must be delivered to the President, or any member, not later than 12 o'clock on the day on which the Supervisors convene, except on extraordinary occasions; and the President, or member to whom it shall be given, shall examine the same, and endorse thereon the name of the applicant, and the substance of the application, and sign his name thereto, and deposit the same in the office of the Clerk of the Board, so that the members

may examine the same before meeting; *only* the endorsement of such remonstrance or application shall be read by the Clerk, unless a member shall require the reading of the paper, in which case the whole shall be read.

29. The members of the Board shall not leave their places, on adjournment, until the President leaves the chair.

30. Members, in speaking of each other, shall designate them by the number of their respective Ward.

31. Seven members shall constitute a quorum to transact business; and no Regulation, Resolution, Ordinance or Order of the Board shall pass without the concurrence of at least that number of members; but a smaller number may adjourn from day to day.

32. Should there arise any questions or points of order not embraced in the *Rules*, the Board shall be governed by the rules of the Senate, and the authorities set forth in Cushing's Manual.

33. Every Order shall embrace but one subject, and the same shall be expressed in its title.

34. The ordaining clause of the City Orders shall be: "The People of the City and County of San Francisco do ordain as follows:"

35. Two-thirds of the members of the Board shall be required to alter, suspend, or repeal any of the foregoing Rules.

WATER RATES.

The Board of Supervisors, pursuant to the requirements of the statute and in compliance therewith, obtained annual statements from persons or corporations engaged in the business of supplying water during the year 1891, and fixed the rates to be collected for that service during the year commencing July 1, 1892, and ending June 30, 1893.

The following Article of the Constitution of the State, adopted in 1879, and which went into effect on January 1, 1880, made it the duty of the Board of Supervisors, in the month of February of each year, to fix the rates or compensation to be collected by any person, company or corporation engaged in the business of and supplying water for the use of the City and County or the inhabitants:

ARTICLE XIV.

WATER AND WATER RIGHTS.

SECTION 1. The use of all water now appropriated, or that may hereafter be appropriated, for sale, rental or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law; provided, that the rates or compensation to be collected by any person, company or corporation in this State for the use of water supplied to any city and county, or city or town, or the inhabitants thereof, shall be fixed annually by the Board of Supervisors, or city and county, or City or Town Council, or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, and shall continue in force for one year and no longer. Such ordinances or resolutions shall be passed in the month of February of each year, and take effect on the first day of July thereafter. Any board or body failing to pass the necessary ordinances or resolutions fixing water rates, where necessary, within such time, shall be subject to peremptory process to compel action at the suit of any party interested, and shall be liable to such further processes and penalties as the Legislature may prescribe. Any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as so established, shall forfeit the franchises and water works of such person, company or corporation to the city and county, or city or town where the same are collected, for the public use.

SEC. 2. The right to collect rates or compensation for the use of water supplied to any county, city and county, or town, or the inhabitants thereof, is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law.

The following Section of Article XI of the Constitution as amended in 1884 also granted the right to persons and corporations to use the public streets for supplying water or illuminating light to the inhabitants on con-

dition that the municipal government shall have the right to regulate the charges:

ARTICLE XI.

RIGHT OF WATER AND GAS COMPANIES TO USE PUBLIC STREETS

"SECTION 19. In any city where there are no public works owned and controlled by the municipality, for supplying the same with water or artificial light, any individual, or any company duly incorporated for such purpose under and by authority of the laws of this State, shall, under the direction of the Superintendent of Streets, or other officer in control thereof, and under such general regulations as the municipality may prescribe for damages and indemnity for damages, have the privilege of using the public streets and thoroughfares thereof, and of laying down pipes and conduits therein, and connections therewith, so far as may be necessary for introducing into and supplying such city and its inhabitants either with gas light or other illuminating light, or with fresh water for domestic and all other purposes, upon the condition that the municipal government shall have the right to regulate the charges thereof."

The Legislature of the State, at the session of 1881, passed the following Act, providing for carrying out the objects of Article 14th of the Constitution by imposing upon the Board of Supervisors the duty of requiring all persons or corporations engaged in supplying water to file statements in the month of January of each year, showing the names, residence and the amount paid by each ratepayer during the year, the revenue derived from all sources and an itemized statement of expenditures made for supplying water during the same time:

AN ACT TO ENABLE THE BOARD OF SUPERVISORS, TOWN COUNCIL, BOARD OF ALDERMEN, OR OTHER LEGISLATIVE BODY OF ANY CITY AND COUNTY, CITY OR TOWN, TO OBTAIN DATA AND INFORMATION, FROM ANY CORPORATION, COMPANY OR PERSON SUPPLYING WATER TO SUCH CITY AND COUNTY, CITY OR TOWN. REQUIRING SUCH BOARD, TOWN COUNCIL OR OTHER LEGISLATIVE BODY TO PERFORM THE DUTIES PRESCRIBED BY SECTION 1 OF ARTICLE 14 OF THE CONSTITUTION, AND PRESCRIBING PENALTIES FOR THE NON-PERFORMANCE OF SUCH DUTIES.

Approved March 7, 1881.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

(Municipal Corporations to Fix Water Rates.)

SECTION 1. The Board of Supervisors, Town Council, Board of Aldermen or other legislative body of any city and county, city or town, are hereby authorized and empowered and it is made their official duty, to annually fix the rates that shall be charged and collected by any person, company, association, or corporation for water furnished to any such city and county, or city or town, or the inhabitants thereof. Such rates shall be fixed at a regular or special session of such Board or other legislgtive body, held during the month of February of each year, and shall take effect on the first day of July thereafter, and shall continue in full force and effect for the term of one year, and no longer.

(Annual Statements to be Made by Water Companies, etc.)

SEC. 2. The Board of Supervisors, Town Council, Board of Aldermen or other legislative body, of any city and county, city or town, are hereby authorized and it is hereby made their duty, at least thirty days prior to the fifteenth day of January of each year, to require by ordinance or otherwise any corporation, company or person supplying water to such city and county, city or town, or to the inhabitants thereof, to furnish to such Board or other governing body, in the month of January in each year, a detailed statement, verified by the oath of the President and Secretary of such corporation, or company, or of such person as the case may be, showing the name of each water-rate payer, his or her place of residence, and the amount paid for water by each of such water-rate pay-

ers during the year preceding the date of such statement, and also showing all revenue derived from all sources, and an itemized statement of expenditures made for supplying water during said time.

(Additional Statements to be Made by Water Companies, etc.)

SEC. 3. Accompanying the first statement made as prescribed in Section 2 of this Act, every such corporation, company or person shall furnish a detailed statement, verified in like manner as the statement mentioned in Section 2 hereof, showing the amount of money actually expended annually since commencing business in the purchase, construction and maintenance, respectively, of the property necessary to the carrying on of its business, and also the gross cash receipts annually, for the same period, from all sources.

(Refusal by Water Companies to Make Statement a Misdemeanor.)

SEC. 4. Every corporation, company or person who shall refuse or neglect to furnish the statements mentioned in sections two and three of this Act, or either of them, or who shall furnish any false statements in relation thereto, within thirty days after having been required or requested to furnish the same, as prescribed in sections one, two and three of this Act, shall be deemed guilty of a misdemeanor.

(Copies of Statements to be Made and Filed With County Recorder.)

SEC. 5. Upon receiving the statements provided for in sections two and three of this Act, the Board of Supervisors, Town Council, Board of Aldermen, or other legislative body, shall cause a copy thereof to be made and filed in the office of the County Recorder of such city and county, or of the county wherein such city or town is situated.

(Water Rates to be Equal and Uniform—Proviso.)

SEC. 6. Rates for the furnishing of water shall be equal and uniform. There shall be no discriminations made between persons, or between persons and corporations, or as to the use of water for private, and domestic, and public or municipal purposes; provided that nothing herein shall be so construed as to allow any person, company, association or corporation to charge any person, corporation or association anything for water furnished them when, by any present law, such water is free.

(Excess in Charging Rates Forfeits Franchise, Etc.)

SEC. 7. Any person, company, association or corporation, charging or attempting to collect, from the persons, corporations or municipalities using water, any sum in excess of the rate fixed as hereinbefore designated, shall, upon the complaint of the said Board of Supervisors, Town Council, Board of Aldermen, or other legislative body thereof, or of any water-rate payer, and upon conviction before any court of competent jurisdiction, shall forfeit the franchises and water works of such person, company, association or corporation to the city and county, city or town, wherein the said water is furnished and used.

(Penalty to Supervisors for Neglecting to Enforce Provisions of Act.)

SEC. 8. Any Board of Supervisors or other legislative body of any city and county, city or town which shall fail or refuse to perform any of the duties prescribed by this Act, at the time and in the manner hereinbefore specified, shall be deemed guilty of malfeasance in office; and upon conviction thereof, at the suit of any interested party, in any court of competent jurisdiction, shall be removed from office.

(Act in Effect.)

SEC. 9. This Act shall take effect and be in force from and after its passage.

On January 18, 1892, the following resolution was adopted by the Board of Supervisors calling for water statements to be filed as required by law; to wit:

RESOLUTION No. 6320—(THIRD SERIES).

PROVIDING FOR STATEMENTS BEING FILED BY COMPANIES, CORPORATIONS OR PERSONS ENGAGED IN THE BUSINESS OF SUPPLYING PURE, FRESH WATER FOR USE OF THE INHABITANTS OF THIS CITY AND COUNTY.

RESOLVED, That the Spring Valley Water Works, a corporation, and every other corporation,

company or person, if any there be, supplying water to the City and County of San Francisco, or to the inhabitants thereof, be and hereby are required to furnish to the Board of Supervisors of the said city and county, in the month of January, in the year of our Lord one thousand eight hundred and ninety-two, a detailed statement, verified by the oath of the President and Secretary of such corporation or company, or of such person, as the case may be, showing the name of each water-rate payer, his or her place of residence, and the amount paid for water by each of such water-rate payers during the year preceding the date of such statement, and also showing all revenue derived by such corporation, company or person from all sources, and an itemized statement of expenditures made for supplying water during said time; and that such statement be accompanied by a further and detailed statement, verified by the President and Secretary of such corporation or company, or of such person, as the case may be, showing the amount of money actually expended annually since commencing business in the purchase, construction and maintenance, respectively, of the property necessary to the carrying on of the business of such corporation, company or person, and also the gross cash receipts annually for the same period from all sources, in accordance with the provisions of an Act of the Legislature, approved March 7, 1881 (Statutes 1881, page 54).

RESOLVED, That the attention of every corporation, company or person engaged in supplying water is hereby called to the provisions of Section 4 of the Act of the Legislature heretofore referred to, as the same will be strictly enforced, to-wit: Section 4. Every corporation, company or person who shall refuse or neglect to furnish the statements mentioned in Sections 2 and 3 of this Act, or either of them, or who shall furnish any false statement in relation thereto, within thirty days after having been required or requested to furnish the same, as prescribed in Sections 1, 2 and 3 of this Act, shall be deemed guilty of a misdemeanor."

RESOLVED, That the Clerk of this Board is hereby directed to forthwith serve a certified copy of this resolution upon the President and Secretary, respectively, of the said corporation, the Spring Valley Water Works, and every other corporation or company, and upon every person so supplying water to the City and County of San Francisco, or to the inhabitants thereof.

On January 20, 1892, certified copies of the foregoing resolution, with blank forms of statements required under the statute, were served upon the following persons and corporations, to-wit: The Spring Valley Water Works, the Visitacion Water Company, John Center, Geo. T. Pracy, Alfred Clarke and Behrend Joost, parties engaged in supplying water.

The following are extracts from statements filed in response to such notice:

John Center Water Works, situated at the northwest corner of Sixteenth and Folsom streets. Expenses: Coal, labor and repairs, $1,650. Receipts from water rates, $2,172.

George T. Pracy Water Works, situated on Twenty-fourth street near Noe street, Expenses, $25. Receipts from water rates, $18.

Spring Valley Water Works, San Francisco and San Mateo counties. Receipts from water rates, $1,604,798.20; receipts from other sources, $19,547.87; total receipts for the year 1891, $1,624,346,07. Expenditures: Operating expenses, $376,833.06; interest, $534,948.82; taxes, $91,965.35; dividends, $635,000; total expenditures for the year 1891, $1,638,753 23. Expenditures in excess of income, $14,407.16. Amount expended on account of new construction and permanent improvements during the year, $683,196.70,

Visitacion Water Company, Bay View South San Francisco. Receipts from water rates, $16,774,71; receipts from other sources, $1,049.75; total receipts for the year 1891, $17,824.46. Expenditures: Cost of works, coal, labor, repairs and incidentals, $12,655.86; taxes, $277 20; total expenditures for the year 1891, $12,933.06. Gross amount expended for purchase, construction and maintenance from the year 1883, $185,304.03.

The Committee on Water and Water Supplies, consisting of Jas. W. Burling (Chairman), Washington Ayer, Geo. A. Carnes, D. D. Hunt and Jno. B. Curtis, after the filing of water statements commenced their labors with the view of determining the rates to be allowed for water supplied to consumers during the year ending June 30, 1893; and for that purpose

heard under oath all persons who came forward and made complaints as to the rates or charges made for water supplied or used.

On February 9th, 12th, 16th and 21st the committee held meetings at which various complainants were heard. The committee also heard representatives of the Spring Valley Water Works. In the examination of George E. Booker it was shown that there were issued 110,000 shares of stock, and that the indebtedness of the water works aggregated $10,397,230.14, consisting of a bonded indebtedness of $9,583,000, a mortgage on Lake Merced property of $275,000, and a floating debt of $539,230.14; also that the operating expenses of the company for the year 1891 aggregated $376,839.06, a decrease of $56,073.84 in the amount incurred for operating expenses during the preceding year. The following is a copy of the statistics furnished, showing the number of hydrants in use and the increase during the year, the number of rate-payers and a classification of the same, to-wit:

STATISTICS FURNISHED BY THE SPRING VALLEY WATER WORKS FEBRUARY 12, 1892.

On January 1, 1891, there were in use	1,667 hydrants
On February 8, 1892	1,783 hydrants
Total increase	116 hydrants

There were placed during this time 125 new hydrants, and taken out of use 9 old hydrants.

At the beginning of the present year we were supplying water to 67,760 consumers, of which number 51,414 were tenements and dwelling houses occupied by private families; and the "general rates" charged for the water furnished for the use of these 51,414 families were as follows (as per Sec. 1 of present Order):

$0 75 or less	16,157 families
$1 00 and more than 75 cents	17,305 families
$1 25 and more than $1	7,358 families
$1 50 and more than $1 25	4,228 families
Thus making a total of	45,048 families

having a general rate of $1 50 or less per month,

It frequently occurs that several families, occupying separate tenements (and even separate houses) are furnished with water through one service supply pipe, and in such cases the water is charged for in one bill, hence there are a less number of bills than there are consumers.

The Committee on Water and Water Supplies, after consideration, submitted an order on February 23, 1892, fixing the compensation for water to be furnished and supplied during the fiscal year ending June 30, 1893, and presented a report as to their reasons and conclusions relative thereto, of which the following is a copy:

REPORT OF COMMITTEE ON WATER AND WATER SUPPLIES.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Your Committee on Water and Water Supplies have held several open meetings, of which public notice was given, and at which all testimony offered was received, for the purpose of fixing water rates for the year commencing July 1st next.

The annual statement of the Spring Valley Water Works, which corporation supplies nearly all of the water used in the city and county, was filed in January last as required by the statute of this State. This statement shows the following receipts and disbursements for the year 1891:

RECEIPTS.		
From water rents during 1891	$1,604,798 20	
From other sources	19,547 87	
Total receipts		$1,624,346 07
EXPENDITURES.		
Interest on bonds and other indebtedness	$534,948 82	
Taxes	91,965 35	
Operating expenses	376,839 06	
Total expenditures		1,003,753 23
Leaving net income		$620,592 84

During the year 1891 the company also expended in making permanent improvements and additions to its plant the sum of $683,196.70. In order to raise money for this purpose and to reduce its floating debt, the company disposed of 10,000 shares of its unissued capital stock, which now makes an outstanding capital stock of 110,000 shares, of the par value of $11,000,000, During the year the company paid dividends on its stock outstanding at the rate of 6 per cent, making $635,000. As the net income of the company was only $620,592.84, as above stated, this leaves a balance of expenditures over receipts for the year 1891 of $14,407.16.

The present indebtedness of the company is $4,975,000 of 6 per cent bonds, and $4,608,000 of 4 per cent bonds, making a total bonded debt of $9,583,000. It has other floating indebtedness amounting to $814,230.14, making an aggregate indebtedness of $10,397,230.14.

The company does not contemplate making any large expenditures in new construction and permanent improvements during 1892, but expects to expend for that purpose about $200,000.

The officers of the company who appeared before your committee and verified under oath the above data, have submitted estimates of the receipts of the company for 1892 upon the assumption that the present rates are continued in force; also estimates of the expenditures of the company which will hardly leave sufficient net income to pay 6 per cent dividends to stockholders.

It was suggested to your committee that these dividends should be cut down to 4 per cent per annum; that the stock furnished a security equivalent to United States bonds, and therefore 6 per cent was an excessive income; but it is evident that the stock furnishes no such security as is afforded by a Government bond, for the bondholders and other creditors must be first paid, and the stockholders can only receive what remains. The fact that the stock has a market value of about $97 per share while 6 per cent dividends are being paid, shows that investors do not regard the security as equal to 4 per cent bonds, which sell at and above par. We do not think that 6 per cent dividends upon the value of the stock is excessive. When current rates of interest become lower these stockholders must submit to reductions in rates of incomes that affect other businesses and securities. Your committee adheres to its report of last year, in which, after full investigation, it reached the conclusion that $20,000,000 was not at that time an excessive valuation of the property of the company. In view of the additional improvements costing as above stated $683,196 70, the value of the property has correspondingly increased, and it follows from this that the stock of the company represents a valuation of near its par value.

The relations of the company with its consumers are generally satisfactory. But few complaints have been made to your committee, and most all of these appear to have risen from a misunderstanding by the consumer of the rates and their application to his premises. In view of the fact that

private consumers are now required to pay almost the entire water tax, the rates to consumers are necessarily higher than they would be if the city owned its own water works, in which event the cost of these works would thus fall upon all property, whether improved or vacant, and the consumers in such case would need only to pay rates sufficient to provide for operating expenses. As the cost of acquiring water works for the city would fall upon property, it would seem but reasonable to require property to pay a larger share of the water tax than it now does while the water works are in private ownership. The owner of a vacant lot could not escape the taxation necessary to acquire public water works upon the ground that he used no water on his lot. Why should he escape this burden while the water supply is in the hands of a private corporation? During 1891 the city only paid $82,223.25 out of a gross water tax of $1,604,798.20. As a water supply inures to the benefit of property through the fire protection afforded and the availability for use when needed, it would seem but equitable to require property in this city to pay a larger share of the water tax than it does, so that the rates to private consumers might be reduced. To say that this would require one person to pay for water that another uses does not answer the objection to the present system of water rates. The property-owner without children might as well refuse to pay his share of the tax to maintain the public schools upon the ground that he ought not to be made to pay for the schooling of other people's children. While these views would seem to justify an increase in the city rates for water, and a corresponding decrease in the rates for private consumers, your committee deems it inadvisable to make such change at present, in the absence of a decided expression of opinion upon the subject; and it certainly is inadvisable, so far as the interest of the private consumer is concerned, to reduce the city rates, for this would but enlarge the burdens of the private consumer—already heavy enough.

Your Committee herewith submits an order fixing water rates for the year commencing July 1, 1892, which is substantially the order now in force, except that the rates to consumers occupying tenements covering less than 800 square feet are reduced so that the lowest rate is 50 cents per month, instead of 65 cents, as under the present order. These reductions, according to the data submitted to your committee, will affect over 15,000 consumers of the poorer classes—those who are best entitled to a reduction. Section 7 of the present order is also amended by including within its provisions standing wash-basins with urinals, and reducing the rate for public buildings from 20 cents to 10 cents, and in private houses from 10 cents to 5 cents per month.

The changes made by your Honorable Body in the order last year regulating waste meter fines or charges, has relieved consumers from the exactions allowed by former orders. The present order upon this subject seems as satisfactory as can be devised. Some means must be provided for detecting and preventing waste, or else the wastefulness of consumers would grow into a habit and become so extensive as to exhaust the capacity of the works now used. If this waste were unchecked it would produce a water famine, or else require the expenditure of millions to provide water sufficient for such wasteful use. Economy, therefore, justifies the reasonable means adopted for checking the waste of water by careless consumers.

The supply of water during the past year has been ample and of good quality, and it appears that the works of the company will continue in future years to provide an ample supply of pure water; but, as the city grows, these works must be enlarged at additional cost. The company cannot well be restricted by reductions in rates to a revenue which would or might be inadequate to keep up and enlarge its works and maintain them in the high state of efficiency necessary for the public interests. This result can only be secured, in the absence of public water works, by affording to the stockholders of this company a fair return upon their investment.

To insure cheap water for the private consumer, the city must provide its own water works, and until that is accomplished no great reduction in present water rates can be attained.

Your Committee, in conclusion, submits the accompanying order fixing water rates for the ensuing year, having exercised its best judgment in the premises, and believing that the same is as fair as can be devised under existing conditions.

JAMES W. BURLING,
WASHINGTON AYER,
GEO. A. CARNES,
D. D. HUNT,
J. B. CURTIS.

The foregoing report was, on motion of Supervisor Burling, adopted as the action of the Board, Supervisors Ellert and Heyer voting in the negative; the order establishing water rates being passed for printing at the said

meeting, Supervisors Ellert and Heyer voting no, Supervisor Artigues being absent.

At the meeting of the Board held on March 7, 1892, the order determining water rates for the fiscal year ending June 30, 1893, was taken up, finally passed, and numbered 2501; Supervisors Ellert and Heyer voting no; submitted to and approved by His Honor Mayor Sanderson on the 17th day of March, 1892. The following is a copy of Order No. 2501, fixing the rates to be paid for water supplied for the year commencing July 1, 1892, to wit:

ORDER No. 2501.

DETERMINING WATER RATES AND FIXING THE COMPENSATION FOR WATER FURNISHED FOR FAMILY USES, FOR PRIVATE PURPOSES, FOR MUNICIPAL USES AND FOR ALL PUBLIC PURPOSES.

The People of the City and County of San Francisco do ordain as follows:

The monthly rate or compensation to be collected by any person, company or corporation engaged in the business of supplying water to the inhabitants of the City and County of San Francisco for family uses, for private purposes, for municipal uses and for all public purposes of said city and county, for the year commencing July 1, 1892, and ending June 30, 1893, are hereby fixed as follows:

GENERAL RATES.

SECTION 1. For buildings occupied by a single family, covering a ground surface of—

SQUARE FEET.	1 Story.	2 Stories.	3 Stories.	4 Stories.	5 Stories.
0 to 500	$0 50	$0 60	$0 70	$0 80	$0 90
500 to 600	0 60	0 70	0 80	0 90	1 00
600 to 700	0 70	0 80	0 90	1 00	1 10
700 to 800	0 85	0 90	1 00	1 10	1 20
800 to 900	0 90	1 00	1 10	1 20	1 30
900 to 1000	1 00	1 10	1 20	1 30	1 40
1000 to 1200	1 10	1 20	1 30	1 40	1 50
1200 to 1400	1 20	1 30	1 40	1 50	1 60
1400 to 1600	1 30	1 40	1 50	1 60	1 70
1600 to 1800	1 40	1 50	1 60	1 70	1 80
1800 to 2000	1 50	1 60	1 70	1 80	1 90

NOTE.—The foregoing rates also apply to public buildings. No single rate less than fifty (50) cents.

For all houses one story in height covering a greater area than two thousand (2,000) square feet there shall be added ten and one-half (10½) cents for each additional two hundred (200) square feet or fractional part thereof, and the further sum of ten and one-half (10½) cents for each additional story.

Where a house or building is occupied by more than one family, there shall be charged in addition to the foregoing rates three-quarters (¾) of said rates for each additional family.

NOTE.—The general rate includes water for general household purposes, but does not include any of the following specified items:

SPECIAL RATES.

SECTION 2. Bathing-tubs in private houses:

For each tub	$0 40
In public houses, boarding-houses, lodging-houses, hotels and bathing establishments, where meters are not used, each tub	0 90

SECTION 3. For horses, including water for washing one vehicle:

For one horse	$0 40
Each additional horse	0 20
Each additional vehicle	0 20
For one cow	0 20
For each additional cow	0 10

SECTION 4. Boarding and lodging-houses, not including water for baths, water-closets and urinals, or for water without the house, shall be charged for each boarder and lodger within the same, in addition to the rates for private families. $0 10

SECTION 5. Irrigation for gardens and grounds, one-half (½) of a cent per square yard, no monthly charge to be less than twenty-five (25) cents.

SECTION 6— WATER-CLOSETS.

For each valve-closet for use of public building	$0 85
For each valve-closet for use of private dwelling	0 25
Privy vaults (connected with sewer):	
For use of public building, each seat	$0 50
For use of private dwelling, each seat	0 25

All drain closets to be charged at the same rates as privy vaults.

SECTION 7— URINALS AND STATIONARY WASHSTANDS.

For use in public buildings, each	$0 10
For use in private dwellings, each	0 05

SECTION 8. Water furnished for building purposes:

Each barrel of lime	$0 18
Each thousand of brick	0 12

Stores, banks, bakeries, offices, warehouses, saloons, groceries, eating-houses, barber shops, butcher shops, book binderies, blacksmith shops, confectioneries, hotels, lodging-houses, boarding-houses, churches, halls, laundries, photograph galleries, printing offices, steam engines, green-houses, markets, market stalls, horse troughs, soda fountains and other places of business, each to be charged according to the estimated quantity used, from one dollar ($1) to seven dollars ($7), or by meter at meter rates.

SECTION 9— FIRE-PIPES.

Meters shall be applied to all pipes used specially for fire protection, and monthly bills shall be charged for the same at the following rates:

For pipes of 2 inches in diameter, or less size, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than $2 50.

For pipes of 2½ inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than $3.

For pipes of 3 inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than $3 50.

For pipes of 3¼ inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than $4.

For pipes of 4 inches in diameter, 30 cents per 100 cubic feet, provided the monthly bill shall not be less than $4 50.

METER RATES.

SECTION 10. Water furnished for any and all purposes not embraced in the above shall be supplied by meter at the rate of 30 cents per 100 cubic feet. No monthly meter bill to be less than $4.

Provided, however, that any consumer may, by making personal application and contract therefor, obtain water at the following meter rates: Twenty-five (25c.) cents per 100 cubic feet, provided the regular monthly bill shall not be less than $10; 20 cents per 100 cubic feet, provided the regular monthly bill shall not be less than $50; 16 cents per 100 cubic feet, provided the regular monthly bill shall not be less than $100.

METER RATES FOR SHIPPING.

Water shall be furnished and delivered by meter measurement to shipping lying alongside the bulkhead or any of the wharves on the water front where water pipes or mains are laid, between the hours of 6 o'clock A. M. and 6 o'clock P. M. daily, upon application being made therefor, at the following rates:

One dollar and seventy-five cents per 1000 gallons, and for any less quantity at the rate of $2 50 per 1000 gallons.

Water shall be supplied and delivered to water boats at the bulkhead or any of the wharves on the water front, as above mentioned, between the hours of 6 o'clock A. M. and 6 o'clock P. M., daily, for the purpose of supplying shipping in the bay of San Francisco, upon application being made therefor, at the rate of $1 per 1000 gallons, provided the quantity supplied is not less than 5000 gallons.

No water boat furnishing and supplying water to shipping lying at anchor within the limits of the wharves of the City and County of San Francisco shall charge a rate to exceed five ($5) dollars per 1000 gallons.

SECTION 11. The rates or compensation to be collected for water supplied by and through hydrants to the city and county of San Francisco shall be two dollars and fifty cents ($2 50) per month for each hydrant, for fire purposes and flushing of sewers.

PREVENTION OF WASTE OR EXCESSIVE USE.

SECTION 12. In no case where the fixed rates above provided, other than meter rates, are applicable, shall any charge for water be made by meter rates, it being the purpose of this order to provide for all dwelling houses a fixed monthly rate, which shall not be increased by the person company or corporation supplying water.

Provided, however, that for the purpose of discovering and repressing waste or excessive use, all persons, companies or corporations shall have the right in all cases to apply and maintain meters to measure the water used or consumed, and to charge and collect for waste or excessive use under the conditions and to the extent hereafter provided in this section, and not otherwise.

No consumer shall be deemed guilty of waste or excessive use unless the water used or consumed upon his premises in any month shall exceed by 40 per cent the number of cubic feet which at regular meter rates amounts to his rated bill, in which case such excess shall be deemed waste or excessive use.

Immediately after the discovery of any waste or excessive use the consumer shall be notified thereof by the person, company or corporation supplying water by notice mailed to his address or to the agent or person to whom his water bills are presented for collection. After such notice the consumer may be charged and there may be collected from him for any waste or excessive use thereafter occurring upon his premises at regular meter rates, but such charge or collection shall not exceed for the first month the sum of three dollars ($3) or for the second or for any following month the sum of five dollars ($5).

It shall be the duty of the Gas Inspector and ex-officio Water Inspector of this city and county, to inquire into all cases of complaints by water consumers as to charges made against them for waste or excessive use under the foregoing provisions of this section, and to adjust said charges as follows:

Any water consumer against whom a water bill is presented containing a charge for waste or excessive use of water may, within five (5) days after such bill is presented to him (provided that he first pay the fixed rate charged in said bill, exclusive of the charge made for said alleged waste or

excessive use), make complaint to said Water Inspector that such charge is incorrect, whereupon said inspector shall promptly inspect the premises of the consumer so complaining and cause a test to be made of the water meter upon said premises, and from such inspection and test and such subsequent inspection and tests as said inspector may see fit and proper to make, shall determine, as near as can be, the amount of water used, consumed or wasted upon said premises during the period covered by said bill. As soon as such determination is made, and within twenty days after the said complaint is made, said inspector shall make his certificate, stating said amount of water so determined to have been used, consumed or wasted, and showing the true and correct amount, if anything, which may be charged against and collected from said consumer under the foregoing provisions of this section for waste or excessive use, and shall immediately transmit such certificate to the person, company or corporation supplying water, and also a copy thereof by mail to the water consumer.

The said certificate shall be conclusive between the water consumer and said person, company or corporation as to the amount, if anything, the said person, company or corporation shall be entitled to collect from the consumer for waste or excessive use of water during the period covered by the bill of which complaint is made.

The said Water Inspector shall keep in his office a proper record or records showing the date of each complaint made to him, the name of consumer complaining, the location of his premises, and stating briefly the inspection made by him of the premises and the tests applied to the meter, the time or times of such inspection and tests, and the results thereof, with the reading of the meter at each test or inspection, and all other material facts connected therewith, such record or records so kept, to be open for public examination in his office.

SECTION 13. All water rates, except meter rates and city and county rates, are due and payable monthly in advance, and when not so paid shall be subject to an addition of 5 per cent.

Meter and city and county rates are due and payable at the end of each month, and upon meter rates a deposit not exceeding three-fourths (¾) of the value of the estimated quantity of water to be consumed may be required.

Meter rates, if not paid within ten days after becoming due, shall be subjected to an addition of 5 per cent.

SECTION 14. This order fixes the maximum, beyond which no person, company or corporation shall be permitted to charge for water supplied.

In Board of Supervisors, San Francisco, March 7, 1892.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Artigues, Jackson, Burling, Curtis, Ayer, Carnes, Coffee, Hunt, Taber, Wilkinson.

Noes—Supervisors Ellert, Heyer.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, March 17, 1892.

GEO. H. SANDERSON,
Mayor and ex-officio President Board of Supervisors.

Smallpox Hospital Site---Shag Rock.

The subject of the removal of the Smallpox Hospital Building from the lot reserved for a County Jail in Potrero Block No. 152 had been agitated for many years by property-owners and residents in the vicinity who objected to its continued maintenance as a menace to health and a detriment to property in that portion of the city. In the municipal levy for the fiscal year 1889-90, made on the fourth Monday in June, 1889, the sum of $20,000 was provided for the purchase of a site and the erection of buildings for a Smallpox Hospital.

The Committee on Health and Police were for some time engaged in an endeavor to obtain a location, but in every case of the inspection of a location before any expression was made on the part of the committee, strong objections were personally made by those persons who were desirous of preventing any such building being erected within a mile of their property.

On February 17, 1890, a petition of property-owners embracing the signatures of 116 persons was presented to the Board and referred to the Committee on Health and Police, requesting the removal of the Smallpox Hospital, representing "that in conformity with pledges made by both political parties in their respective platforms, at the last municipal election, your Honorable Body, in the last tax levy, provided the sum of $20,000 for the removal of the Smallpox Hospital from its present unsuitable location to one less dangerous to the health of the city. That sum is now, as we are informed and believe, in the City and County Treasury ready for the use for which it has been collected. We would respectfully urge your Honorable Body to take immediate action and to refer the matter to the appropriate committee, with instructions to at once proceed to secure a suitable location to which to remove the said Smallpox Hospital, and report the same for definite action by your Honorable Board."

The Committee on Health and Police to whom the petition was referred, consisting of Supervisors Pilster, Wright, Becker, Ellert and Barry, while considering the advisability of obtaining a site against which few if any objections could be made, received a proposition offering Shag Rock to the city and county for such purpose, on February 21, 1890, from M. J. Mertens, who appeared at a meeting of the committee and offered to sell to the city and county Block, No. 723 on which Shag Rock was located; also adjoining Block No. 730, Tide Lands, stating that the Rock was located about three-eighths of a mile from the mainland southeast of Hunter's Point. The committee accepted an invitation to visit the Rock, and on February 25, 1890, Supervisors Pilster, Becker and Ellert of the committee and Supervisor Bush accompanied M. J. Mertens in the tug-boat Millie to the proposed location and inspected the same. At a meeting of the committee held on February 28, 1890, the availability of Shag Rock was discussed. Mr. M. J. Mertens, the real estate dealer who offered the property for sale, stated that if the site was graded it would contain about three acres of land and would be about six feet above high water mark and that it would be easy enough to ascertain by a small expenditure whether sufficient fresh water could be obtained at the depth of 100 feet as claimed.

On March 14, 1890, Mr. M. J. Mertens filed with the committee a copy of the report of Professor George Davidson as published in the San Francisco Chronicle newspaper on January 16, 1888, recommending the selection of this location for a quarantine station, to-wit:

REPORT OF PROFESSOR GEORGE DAVIDSON.

F. M. Thorn, Esq., Superintendent United States Coast and Geodetic Survey,

Washington, D. C.:

SIR—The telegraphic announcement that Senator Stanford has presented a bill for the Quarantine Station at San Francisco, prompts me to write to you upon the matter, because the Survey

may be consulted thereon. Some years since the matter was brought to my notice of establishing a Quarantine in San Francisco bay, between Molate Point and Castro Rocks, and the point of the main shore east of the latter, and I was asked to present the matter to the notice of the Legislature. I investigated the matter, and, having our three San Francisco Bay Charts joined together was enabled to study the subject in a connected manner. I did not interest myself in bringing it to the notice of the Legislature, but I made known the results of my investigations in a verbal communication, illustrated by the Chart, to the California Academy of Sciences.

There are several variable quantities entering into the proposition to establish a Quarantine Station in this bay.

First—Proximity to San Francisco as the commercial center.

Second—Position in the bay away from immediate contact with the shore, but close thereto.

Third—Accessibility by vessels going into quarantine by tugs or otherwise, and also accessibility of the landing place to the city.

Fourth—Ease of communication by telephone with Government and municipal official authority in San Francisco.

Fifth—A position well to windward of an inhabited or inhabitable shore.

Sixth—A position that shall be out of the main line of ordinary water traffic.

Seventh—Reasonable facility for the erection of proper buildings.

Eighth—Ample and safe anchorage for quarantine vessels.

Ninth—Consideration of the influence of the prevailing winds and fogs, and the irregular current.

Tenth—Ease and certainty of securing a good and cheap water supply.

The principal commercial traffic of San Francisco, on the bay front of this city, extends at present from the vicinity of Black Point to the Pacific Rolling Mills, with the traffic necessary at the dry dock of Point Avisadera. Therefore it seems conclusive that the quarantine grounds shall be very near the city front. If it were placed on the northern part of the bay, say for instance at Sausalito, it would require the crossing of the bay to that place, with strong westerly winds, strong irregular currents, and in summer dense fogs and the dangers of Arch and Bird rocks. There it would be in the vicinity of the anchoring ground of large numbers of the wheat fleet and the daily traffic of steam ferry-boats, of the yacht clubs, etc. If it were placed near Angel Island, or the shore northward to Point San Quentin, it would be close to the windward of all the vessels running daily to Petaluma, Sonoma, Mare Island and the Sacramento and San Joaquin rivers, with the immense traffic of the northern part of the bay. If it were placed on the eastern side of the bay, for instance at or near Molate Point, it would be touching the track of the upper bay vessels and immediately to windward of the main shore. In these and similar cases it would also be removed from the benefit of rapid communication with the city.

If placed in the southern part of the bay, the broad margin of shallow water and marsh land would bar it from close connection with the shore on the western side of the bay, except in the vicinity of Point San Bruno, and it would then be too far removed from San Francisco.

After weighing the greater and minor points involved in the question, I found a location that seems to me to offer the solution with peculiar force. This location can be best studied and criticised by joining the three sheets of San Francisco Bay. It is clearly indicated by the rock (Shag Rock) which the entrance sheet shows lying nearly three-eighths of a nautical mile south of the southeast angle of Hunter's point, in the Bay of San Francisco, and within the city limits. It is seven-eighths of a mile from the nearest shore to the westward, and therefore to leeward in the prevailing summer winds. In the strong, clear northers of winter, the nearest shore to leeward is eight miles distant, and the eastern shore of the bay is eight miles distant to leeward in the summer winds. In the winter rainstorms it would be to the windward of Hunter's point, but not to the windward of the city, and as the storm always veers to the southwest there would be no shore to windward, except far up the eastern side of the bay. I mention the above rock as a fixed point for reference, but as the shoal water extends to the eastward of the rock a short distance, the necessary structures can well be carried into twelve feet of water at 170 yards distance. The three-fathom line is 500 yards east of the rock, and thence the depth increases to five fathoms in 200 yards more.

You will see on the latest chart how close that is to that part of the city already built up, and how easily it can be reached by land from the official buildings, and also by tug from the city front; how safely the NECESSARY BUILDINGS would be protected from fire, and how easily vessels under quarantine can reach and leave it. Even in the case of fire on any of the quarantined ships, or

about any of the buildings, the site is within immediate reach of the powerful fire-tugs on duty along the city front. The connection by telegraph or telephone will be easily effected by the laying of a short cable line from Hunter's Point, there already being a land line to Point Avisadera. This cable line would never be disturbed by vessels anchoring near it, because the water is too shoal. In the essential matter of a cheap and unfailing supply of good water the site is eminently satisfactory, because around the shores of the bay, and even in the bay itself, artesian water is reached in borings that average about 110 feet in depth. It is in near connection with the supplies of a great city, of medical assistance, and of the medical colleges of San Francisco. Moreover, it is particularly out of the line of traffic in the southern part of the bay. The great marsh front along the southern part of the bay will prevent a large development of bay traffic in that part, especially as there are already two railroads on the western shore and one on the eastern.

In 1884 Assistant Boutelle furnished me with a tracing of the detailed hydrography of this vicinity, and that gives, of course, more minutiæ for study than the published chart. The southern boundary of the city of San Francisco crosses this part of the bay a short distance south of the site mentioned. Assistant Lawson has obtained from the Engineer and Surveyor of San Francisco the position of the boundary line between San Francisco city and county and the county of San Mateo. I have drawn it in red on a peninsula map which I send by mail. I think the location I have mentioned is within the limits of the land at one time under the control of the Board of Tide Land Commissioners.

Yours, respectfully,

GEORGE DAVIDSON,
Assistant United States Coast and Geodetic Survey.

The Committee deferred further action with the hope that on the location of a quarantine station by the United States on Angel Island the Government would grant the city and county permission to erect and maintain a Smallpox Hospital Building in the vicinity of the proposed quarantine grounds. This location met with the approval of the Board of Health, and at their instance the Board of Supervisors co-operated with them in the effort to accomplish the removal of the Hospital to Angel Island.

The following is a copy of a resolution introduced in conformity with a report of the committee and adopted by the Board on March 30, 1890, to-wit:

RESOLUTION No. 3223 (Third Series).

WHEREAS, Angel Island, in the Bay of San Francisco, is admirably fitted for the site of a Smallpox Hospital, the location and maintenance of which would in no way be detrimental to nor jeopardize the quarantine station about to be established thereon by the United States Government; therefore,

RESOLVED, That our Senators and Representatives in Congress be and they are hereby respectfully requested to exert themselves to the utmost to secure a grant by lease or otherwise of a tract of four or five acres of land on the east side of said Angel Island for the site of a Smallpox Hospital to be erected and maintained by the City and County of San Francisco.

In Board of Supervisors, San Francisco, March 31, 1890.

Adopted by the following vote:

Ayes—Supervisors Bingham, Wright, Boyd, Pescia, Bush, Wheelan, Becker, Pilster, Kingwell, Barry, Noble.

Absent—Supervisor Ellert.

JNO. A. RUSSELL, Clerk.

The result, however, was unsatisfactory, as the Government authorities could not give their consent or approval to the location of such an hospital on the quarantine grounds at Angel Island

On May 26, 1890, the Committee on Health and Police reported "with reference to the establishment of a Smallpox Hospital on Angel Island, Major General Miles, commanding the Division of the Pacific, represents that a large garrison is now maintained on that island, and that the erection of smallpox hospitals, pesthouses and the like on ground reserved for national purposes would become an embarrassment, and that in his opinion the people of San Francisco would jeopardize their best interests by any endeavor to occupy for any purpose those points which it is expected will be speedily utilized by the General Government for the benefit of the city and the entire country. That it would give him pleasure to conform to the wishes of the municipal officers of San Francisco, but in this instance it would be impossible for him to do so.

"M. J. Mertens, representing the Potrero Land Investment Company, appeared before the committee and again urged the removal of the Smallpox Hospital to Shag Island, which could be bought for $15,000.

"Your committee finally determined to visit the Almshouse Tract and examine the same with the view of ascertaining whether a selection of five acres could be made and a suitable building erected thereon for a Smallpox Hospital, and if a site be chosen that an ambulance for the conveyance of patients be provided."

On June 16, 1890, the Committee on Health and Police again reported "that having visited the Almshouse Tract with the view of ascertaining if a suitable location could be found for the erection of a Smallpox Hospital Building, they were unable to find any site that would not in their opinion be objectionable for sanitary reasons, and therefore reported (Supervisors Ellert and Becker dissenting) against the location of the Smallpox Hospital on the Almshouse Tract."

On September 1, 1890, a communication was received from A. W. Von Schmidt, informing the Board that he was the owner of Shag Rock together with Tide Land Blocks 723 and 730, and offered to sell the same for the sum of $15,000 to the city and county, which was referred to the Committee on Health and Police, to-wit:

COMMUNICATION FROM A. W. VON SCHMIDT.

SAN FRANCISCO, September 1, 1890.

To the Honorable Mayor E. B. Pond and the
Board of Supervisors of the City and County of San Francisco:

GENTLEMEN: Referring to the matter of a site to be selected for a Quarantine Station, and as none other than Shag Rock has been offered, I beg to inform you that I am the owner of said Shag Rock, together with the blocks 723 and 730 of Tide Lands surrounding said Shag Rock, and now offer the said property to the city for the sum of fifteen thousand dollars ($15,000).

Should any question arise as to the vested title to Shag Rock and surroundings, I beg to state to you that I hold the same in fee simple, by virtue of a patent of the State of California, issued to me on the 15th day of September, 1868, and that I hold in like manner fractional blocks 723 and 730 of Tide Lands surrounding said Shag Rock, by virtue of deeds duly executed by the State Board of Tide Land Commissioners, and dated respectively September 15, 1869, and July 15, 1874, and recorded in Liber 756 of Deeds, page 219, and Liber 756, page 222, and recorded on the 9th day of November, 1874.

Should you desire any further information regarding the above, I shall be pleased to furnish you with it at any time, by letter or otherwise, and will do what I can to advance the interests of the city, as far as it lays in my power.

Fractional blocks 723 and 730 are each 200x600 feet, lying on either side of Shag Rock and parallel with each other, No. 730 fronting 600 feet on the south basin.

Yours respectfully,

A. W. VON SCHMIDT,
808 Montgomery street.

The Committee on Health and Police at various meetings discussed the question of the eligibility of the site offered and the expense that would be incurred to utilize the same, erect suitable buildings and provide access to said site by wharf or steamer. At a meeting of said committee, held on November 29, 1890, on motion of Supervisor Ellert, the question as to cost of grading and leveling of said property and constructing the necessary bulkhead around the land for its protection, was referred to the City and County Surveyor for his examination and report.

On December 2, 1890, the Committee on Health and Police reported: "In the matter of proposition of Colonel A. W. Von Schmidt, offering to sell to the city and county Shag Rock and blocks 723 and 730 of Tide Lands for a site for smallpox purposes for the sum of $15,000.

"Your committee would state that there is no other location that can be obtained for this purpose, as all sites looked at were objected to by owners of contiguous property as being detrimental. This location is one that possesses great advantages, and as reported by Professor Geo. Davidson is the very place for a quarantine station, and although said report was made in 1883, the fact of this being the only available, as it is the only eligible location, is still more prominent, as this location is the best and should be secured at once before it is purchased for other purposes.

"This matter was referred to the surveyor as to an estimate of the expense of grading and leveling this property, but on account of his absence no report has been received from him.

"This being the case, your committee deem the information heretofore obtained as being reliable, that the property can be leveled and put in condition for about $3,000.

"Impressed with the importance of the city and county owning this property, which will become more valuable every day, your committee recommend the purchase of the same for the sum of $15,000."

On the reading of the report, which embraced several matters referred to the committee, Supervisor Ellert moved to strike out that portion of the report recommending the purchase of Shag Rock, as it was not the action of the committee, which motion, after discussion by Supervisors Ellert and Pilster, was lost, Supervisors Bingham, Pescia, Bush, Wheelan, Becker, Pilster, Kingwell and Barry voting no. Thereupon, on motion of Supervisor Barry, the report was adopted, Supervisors Wright and Ellert voting no.

The City and County Surveyor on December 9, 1890, submitted the following communication estimating the entire cost of grading and bulkheading at about $6,184.50, to-wit:

COMMUNICATION FROM THE CITY AND COUNTY SURVEYOR.

OFFICE OF THE CITY AND COUNTY SURVEYOR,
SAN FRANCISCO, December 9, 1890.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Under instructions from your Honorable Committee on Streets, I have made a recognisance of that portion of the city and county known and designated as Shag Rock, for the purpose of determining the area that could be covered by grading the same to our city base or to an elevation equal to that of our docks.

I find, first, that the area of natural surface after grading would be equal to 6,000 square feet; that the newly graded area would be equal to 5,600 square feet, making a total of 11,600 square feet or about one-fourth of an acre. It is, however, estimated that it would be requisite to have at least one and one-half acres for the desired purposes. The following is therefore an estimate of the expense requisite for the accomplishment of this result:

The cost of cutting above mentioned	$146 50	
20,000 cubic yards for the completion of one and a half acres in area	4,000 00	
Making a total amount for grading of		$4,146 50
To this must be added the expense of a bulkhead for the retaining of this material:		
Piling		1,188 00
Planking		700 00
Nails, incidentals, etc		150 00
Total amount of entire work covering an area of one and one-half acres		$6,184 50

Very respectfully submitted,

S. HARRISON SMITH,
City and County Surveyor.

At the meeting of the Board held on December 9, 1890, the resolution introduced at the preceding meeting was finally passed empowering the Committee on Health and Police to purchase Shag Rock, together with Blocks 723 and 730 of Tide Lands, from A. W. Von Schmidt for the sum of $15,000, Supervisors Bingham, Bush, Wheelan, Becker, Pilster, Kingwell, Barry and Noble voting in favor, and Supervisors Wright, Boyd and Ellert voting against; Supervisor Pescia being absent.

The resolution numbered 4362 was transmitted to His Honor Mayor Pond, who returned the same without his approval and with his objections thereto, on December 19, 1890. The message of His Honor the Mayor vetoing the said resolution was opened, read and ordered published on December 23, 1890, of which the following is a copy, to-wit;

VETO MESSAGE OF HIS HONOR THE MAYOR.

MAYOR'S OFFICE, SAN FRANCISCO, December 19, 1890.

GENTLEMEN: I return herewith without my approval Resolution No. 4362, authorizing the Committee on Health and Police to purchase, on behalf of the city and county, from A. W. Von

Schmidt, Shag Rock, together with blocks 723 and 730 of tide lands surrounding said rock, for the sum of $15,000, as a site for a Smallpox Hospital.

My reasons for returning this resolution are :

First—That I believe, for the use intended, the property would be absolutely worthless. I am informed by reliable parties that it would cost twice as much as has been estimated to put it in the proposed shape for building; and, further, that it would be impracticable to land smallpox patients on the rock during much of the winter, and absolutely impossible during a heavy southeaster, which blows a gale at times during the rainy season. During the prevalence of such gale, with the violence of which we are all familiar, the high waves would in all probability demolish any such bulkhead as is proposed to be erected.

The sea, even in a moderate storm, dashes clear over the rock, and in a heavy gale it would be likely to shatter or destroy the hospital building, not over twenty feet high, unless the rock were built up with concrete or rock to such a height as would cost ten times the amount contemplated.

Further, the expense of transporting patients (by steam launch, of course), from the shore to the rock, would be out of all reason, even if their lives were not imperiled during the transit and in the attempt to land in cold and stormy weather.

But another thing which makes this purchase both unwise and unnecessary is the fact that the city has, on its own property, as good a location for the hospital as can be found on this peninsula.

I have called the attention of members of your Board to this site.

It is situated on or about the northwest corner of the Industrial School tract, at some distance from the school, and separated from it by hills.

Here the hospital would be far removed from any habitation, and would be likely to continue so for years to come, as there is no road near it.

In fact it would be entirely isolated, and would be obnoxious to no one.

In view of the fact that the city owns such a property, and with the money on hand could construct all the buildings needed and equip them comfortably, and still have a surplus out of the fund set aside for the hospital, it seems useless to purchase Shag Rock, even if it could be utilized for a hospital. I am informed by parties familiar with the bay that there are times during a gale when it would be absolutely impossible to transport and land patients on the rock.

But in the best of weather it would be much safer, more comfortable and cost not one-third as much to convey them to the site on the Industrial School tract.

During the height of the smallpox epidemic in 1883-89 there were twenty new cases a day conveyed to the hospital. Suppose a similar state of things should occur during a southeast gale which sometimes rages for days, in what a lamentable condition would the patients be placed, with no provision made to house them on shore. Humanity would cry out against such neglect and lack of foresight.

So strong are my convictions on this question that I am impelled to say that in all my experience I have never been called upon to pass upon a measure so utterly indefensible.

Respectfully submitted,

E. B. POND, Mayor.

The resolution was taken up on December 29, 1890, and finally approved and passed, notwithstanding the objections, to-wit :

RESOLUTION No. 4362 (Third Series).

RESOLVED, That the Committee on Health and Police be and are hereby authorized and empowered to purchase on behalf of the city and county from A.W.Von Schmidt, Shag Rock, together with blocks 723 and 730 of Tide Land surrounding said rock, for the sum of $15,000, as a site for a smallpox hospital; the title to the said property to be first passed upon by the City and County Attorney, and if found perfect, then such purchase to be made.

RESOLVED, That the expenditure of $15,000 is hereby authorized to be made out of the subdivision of the general fund transferred from the last fiscal year for the purchase of a site and the erection of a building for a smallpox hospital.

In Board of Supervisors, San Francisco, December 6, 1890.

And having been published five successive days according to law, taken up and passed by the following vote :

Ayes—Supervisors Bingham, Bush, Wheelan, Becker, Pilster, Kingwell, Barry, Noble.

Noes—Supervisors Wright, Boyd, Ellert.

Absent—Supervisor Pescia.

JNO. A. RUSSELL, Clerk.

The above resolution, No. 4362, finally passed by Board of Supervisors of the City and County of San Francisco on the 9th day of December, 1890, having been presented to his Honor the Mayor and ex-officio President of the Board of Supervisors, for approval, and returned by him with objections thereto, on December 19, 1890, was taken up and finally approved and passed, notwithstanding such objections, in Board of Supervisors on the 29th day of December, 1890, by the following vote:

Ayes—Supervisors Bingham, Pescia, Bush, Wheelan, Becker, Pilster, Kingwell, Barry, Noble.

Noes—Supervisors Wright, Boyd, Ellert.

JNO. A. RUSSELL, Clerk.

In compliance with instructions contained in the foregoing resolution, the committee transmitted to the City and County Attorney an abstract of the title to Tide Land Blocks Nos. 723 and 730, for the purpose of obtaining his opinion as to the title to said property.

On the 2d of January, 1891, the following opinion was received, to-wit:

OPINION OF THE CITY AND COUNTY ATTORNEY.

SAN FRANCISCO, January 2d, 1891.

To the Committee of Health and Police, &c.:

GENTLEMEN: To your communication in these words: "I am instructed by the chairman of the Committee on Health and Police (Supervisor Pilster) to transmit an abstract of title to Tide Land Blocks 723 and 730 and accompanying deeds, maps and papers, and to request your opinion as to whether the legal title to said property is in A. W. Von Schmidt and is perfect."

I answer that the abstract and papers transmitted to me show that the legal title to the blocks named was in A. W. Von Schmidt on the 20th day of December, 1890, the day on which said abstract was certified.

Respectfully,

GEORGE FLOURNOY, JR.,
City and County Attorney.

At a meeting of the Board, held on the above date, the Committee presented a report recommending the opinion of the City and County Attorney that the legal title to Tide Land Blocks Nos. 723 and 730 was in A. W. Von Schmidt, be placed on file; Supervisor Pilster, Chairman of the Committee on Health and Police, presented a deed duly executed on January 2, 1891, which he had received from A. W. Von Schmidt, conveying to the City and County of San Francisco for the sum of fifteen thousand dollars, "blocks numbers seven hundred and twenty-three and seven hundred and thirty (723 and 730) of the Tide Lands of said City and County of San Francisco, including the island known as "Shagg Rock," and which island is a fractional portion of the south half (S. ½) of northwest quarter (N. W. ¼) of section number thirty-six (36) in township number two (2) south range number five (5), west of Mount Diablo meridian"; which had been purchased by the Committee under instructions of the Board as embodied in Resolution No. 4362 (Third Series). Thereupon on motion of Supervisor Pilster the Clerk was directed to hold said deed in escrow until the consideration therefore had been duly allowed, Supervisors Wright, Boyd and Ellert voting against such action.

At the said meeting Supervisor Boyd, Chairman, dissented from the report of a majority of the Finance Committee; and reported that he had not approved and was opposed to the allowance of the demand of A. W. Von Schmidt in the sum of $15,000 for the purchase of Tide Land Blocks No. 723 and 730. On motion of Supervisor Bush the demand of A. W. Von Schmidt was allowed and ordered paid, Supervisors Wright, Boyd and Ellert voting against said action, which demand was duly audited on January 3, 1891, received and receipted for on said date by A. W. Von Schmidt, Esq.

The members of the present Board took their seats on January 5th, 1891, and at a meeting on said date the following Resolution No. 4505 (Third Series) was introduced by Supervisor Ellert and adopted by the Board, rescinding all proceedings providing for the payment of the demand of A. W. Von Schmidt and in the purported purchase of Tide Land Blocks Nos. 723 and 730 to wit:

RESOLUTION No. 4505 (Third Series).

WHEREAS, In the judgment and determination of this board, no reason exists for the purchase or for the consummation of the purported purchase of Shag Rock, together with Tide Land Blocks Nos. 723 and 730, as a site for a smallpox hospital; and

WHEREAS, The proceedings had are not in consonance but in conflict with the purchase purported to be made, in this: that Shag Rock is a part of the said Tide Land blocks and is not a separate or additional piece of property; also, that Eighteenth avenue south, between said blocks,

is a public street, and the restrictions imposed by the board in the purchase of a site and the erection of a building for a smallpox hospital have not been observed; therefore,

RESOLVED, That the action of this board in allowing and ordering paid a demand of A. W. Von Schmidt in the sum of $15,000, as and for the purported purchase of said Shag Rock and Tide Land Blocks Nos. 723 and 730, together with Resolution No. 4362 (Third Series) in reference thereto, and purporting to authorize said purchase, be and the same are hereby reconsidered and repealed.

RESOLVED, That the Treasurer be and he is required not to pay said demand of A. W. Von Schmidt (drawn on the General Fund out of moneys set aside for the purchase of a site and the erection of a building for a smallpox hospital; also, to cause the cancellation of the registration of said demand on the books of his department.

RESOLVED, That the Auditor be and he is hereby required to cancel on the book of audited demands and on the records of his office all action had whereby the said demand was audited, and notify the Treasurer of such cancellation and publish a notice thereof.

RESOLVED, That the City and County Attorney be and he is hereby directed to take such action as may be proper on behalf of the Treasurer, the Auditor and this Board to carry out the purposes of this resolution, and such other or further action in the premises as may be required to set aside, resist and defeat all attempts to enforce the collection of the said demand of A. W. Von Schmidt; also, to advise as to what other or further steps the Board may be required to take in the premises.

RESOLVED, That the Clerk of this Board be and he is hereby directed to return the deed now held by him in escrow to A. W. Von Schmidt, the maker thereof, purporting to convey to the City and County of San Francisco Tide Land Blocks Nos. 723 and 730, the Board refusing to purchase said property.

The Clerk is further directed to forthwith transmit a copy of this resolution to the Treasurer, the Auditor, the City and County Attorney and to A. W. Von Schmidt.

JNO. A. RUSSELL, Clerk.

In compliance with the instructions of the Board on January 5, 1891, the deed received from was returned to A. W. Von Schmidt, Esq., with communication setting forth the reasons, accompanied with a copy of the foregoing resolution. On the following day a communication was received from A. W. Von Schmidt, Esq., returning the deed formerly executed by him, of which the following is a copy:

COMMUNICATION FROM A. W. VON SCHMIDT.

"SAN FRANCISCO, January 6, 1891.

"*John A. Russell, Esq., Clerk Board of Supervisors:*

"DEAR SIR: Yours of the 5th instant, with enclosure, is read, including the deed of conveyance of the property, known as Shag Rock, executed and delivered by me to the Municipal Corporation of the City and County of San Francisco. The said deed, being the muniments of title, it should remain in the possession of the authorities of the said city and county, and I therefore return the same to you.

"Yours respectfully,

"A. W. VON SCHMIDT."

The foregoing communication was referred to the Committee on Judiciary, who on January 19, 1891, presented a report with reference to the communication from A. W. Von Schmidt returning a deed dated January 2, 1892, conveying to the city the property known as Shag Rock, recommending, that it be placed on file. "The said deed having been held in escrow pending the consummation of a purchase of said property, the Board refused to purchase the same and the deed was returned to Mr. Von Schmidt. The maker of said deed can therefore obtain the same at his pleasure, the city and county having no claim or interest therein."

Acting under the provisions of the resolution passed by the Board, the Auditor and Treasurer canceled the auditing and registration of said demand, and on presentation of said demand the Treasurer refused payment.

An alternative writ of mandate was issued by Superior Court, Department No.7, on January 12, 1891, at the instance of A. W. Von Schmidt, against Jas. H. Widber, the Treasurer of the city and county, directing him to pay to said A. W. Von Schmidt the said demand of $15,000 or show cause on January 23, 1891, for such refusal. The cause was tried and on August 27, 1891, the Superior Court, Department No. 7, issued a peremptory writ of mandate requiring the Treasurer to pay said demand with costs. The case is now on appeal to the Supreme Court.

Boundaries of the Pueblo.

The seemingly endless litigation as to the Pueblo Boundaries, and the consequent insecurity of titles to property thereby affected, have been at last settled and determined by the Supreme Court of the United States confirmatory of the patent issued by the Government of the United States. The various proceedings in the matter of the Pueblo Lands up to the issuance of the patent are shown in the Appendix to Municipal Reports of 1867-68, 1868-69, 1870-71, with a tabular statement of all important actions had, a copy of the patent, and the map showing the Pueblo Boundaries in the Appendix to Municipal Reports of 1886-87.

The decision of the Supreme Court of the United States, with the concurring opinion of Justice Field, in the case of Thomas Knight, plaintiff in error, vs. The United Land Association and Clinton C. Tripp, defendants in error, herewith reproduced and published for reference, set at rest the boundaries and so present and review the various proceedings that further comment is unnecessary as to the character of the long, tedious and expensive litigation which has characterized this disputed question.

The attorneys Messrs. Samuel M. Wilson and Edward R. Taylor were the counsel for plaintiff in error, and to their intimate knowledge of, assiduity in and able presentation of this case, as shown in their brief; this fortunate determination of the litigation and final settlement of titles affected, has been facilitated and accomplished.

The following are copies of the decisions referred to, which were furnished the compiler by Edward R. Taylor, Esq., one of the attorneys in the case, to-wit:

SUPREME COURT OF THE UNITED STATES.

No. 824.—OCTOBER TERM, 1891.

THOMAS KNIGHT, Plaintiff in Error,
vs.
THE UNITED LAND ASSOCIATION AND CLINTON C. TRIPP.
} In error to the Supreme Court of the State of California.

[December 21, 1891.]

Mr. Justice LAMAR delivered the opinion of the Court.

This was an action of ejectment brought in the Superior Court in and for the City and County of San Francisco, California, by the United Land Association, a corporation of that State, and one Clinton C. Tripp, against Thomas Knight, to recover a block of land in that city bounded by Berry, Channel, Seventh and Eighth streets, and known as block number forty. The controversy involves an interesting question of title to the property described, the plaintiffs asserting that the premises were below the line of ordinary high-water mark at the date of the conquest of California from Mexico, and, therefore, upon the admission of the State into the Union in 1850, enured to it by virtue of its sovereignty over tide lands; and the defendant insisting that the lands are a portion of the pueblo of San Francisco, as confirmed and patented by the United States.

The complaint, filed on the 23d of November, 1880, alleged that the plaintiffs were the owners in fee of the premises described, and were entitled to the possession thereof, and that they had been wrongfully dispossessed thereof by the defendant, who continued to hold such unlawful possession, to their damage in the sum of $100, and to their loss of the rents and profits thereof in the sum of $500. Wherefore they prayed a judgment of restitution and damages aforesaid.

The answer consisted of a general denial of all the allegations of the complaint; and the cause, being at issue, was, by stipulation of counsel, referred to a referee, to take testimony, "try all the issues, and report his findings and judgment thereon."

In obedience to the order of the court the referee tried the case, making an elaborate finding of facts and concluding, as a matter of law, that judgment should go for the plaintiffs. Accordingly, on the 2d of June, 1888, a judgment was entered in the Superior Court in favor of the plaintiffs. That judgment was afterwards affirmed by the Supreme Court of the State on appeal; and, after two separate rehearings, the judgment of affirmance was adhered to by a bare majority of the court, three of the judges dissenting. (85 Cal., 474, and Id., 448.) This writ of error was then sued out.

It appears from the bill of exceptions that, on the trial of the case before the referee, the plaintiffs, to sustain the issues on their behalf, introduced evidence tending to show the location of the premises to be as alleged in the complaint, and also a complete and good title in themselves under a grant from the State and certain mesne conveyances, provided the title to the premises was originally in the State, and provided certain deeds (which were also introduced) from the State Tide Land Commissioners, dated, respectively, November 24 and 27, 1875, were effectual to convey said title. For the purpose of proving title in the State they offered parol testimony to show that in 1854 the premises were below the line of ordinary high-water mark, and that Mission Creek (which is an estuary of the bay of San Francisco and runs alongside this block) was, at that time, navigable for a considerable distance above them. This evidence was objected to, on the ground that parol evidence was inadmissible to prove the boundary lines of the decree of confirmation of the pueblo lands, but the objection was overruled and an exception noted.

The plaintiffs then offered in evidence certain documents relative to the confirmation to the city of San Francisco of its pueblo lands, and also the first survey of those lands under the decree of confirmation, which survey, made by Deputy Surveyor Stratton, approved by the Surveyor-General of California, and confirmed by the Commissioner of the General Land Office, did not include the premises in controversy. They also produced a witness who testified that the premises were below ordinary high-water mark, as laid down on such survey. To the introduction of this survey as evidence, and to the parol proof of the location of the premises with reference to the line of high tide, as delineated thereon, the defendant objected on the ground that the survey was not matter of record, that it did not tend to prove, as between the parties hereto, where the line of high tide was, being res inter alios acta, and that it had been canceled and superseded by another survey subsequently made in accordance with instructions of the Secretary of the Interior. The objection was overruled, the survey was admitted in evidence, and the defendant duly excepted.

The plaintiffs also produced in evidence certain maps made by persons in official station in 1853, 1857, 1859 and 1864, showing the line of high tide at about the same line as on the aforesaid Stratton survey. Objections were made to these maps as evidence, but they were overruled and exceptions were noted.

The plaintiffs also introduced in evidence the original minute-book of the Board of Supervisors of the City and County of San Francisco, and read a resolution passed by the board on the 23d of December, 1878, that no appeal should be taken from the action of the Commissioner of the General Land Office, approving the Stratton survey. Objection was made to this evidence, but it was overruled and an exception was noted.

The plaintiffs then offered in evidence the deeds from the State Land Commissioners to one Ellis, (from whom they derived their title), together with the letter of the Attorney-General of the State, advising the board to dispose of all the tide lands not in litigation, and where they could ascertain to whom the State title ought to go, in pursuance of the tide land acts. The deeds embrace the property in dispute. The defendant objected to these deeds on the ground that they were incompetent, in that the Board of Tide Land Commissioners had no power or jurisdiction to make them, and on the further ground that there was nothing to show that the board was advised by the Attorney-General to make such deeds. The objection was overruled, and an exception was noted. The plaintiffs thereupon rested their case.

The defendant, to sustain the issues on his part, offered in evidence the patent of the San Francisco pueblo lands, regularly issued to that city on the 20th of June, 1884, and also the plat of said pueblo lands surveyed under instructions from the United States Surveyor-General by Deputy Surveyor Von Leicht in December, 1883, which showed an endorsement of approval by the Commissioner of the General Land Office, under date of May 15, 1884, and was also endorsed as follows: "The field-notes of the survey of the pueblo lands of San Francisco, from which this plat has been made, are strictly in accordance with the instructions of the honorable Commissioner of the General Land Office received with his letter, dated November 25, 1883, as the same appear of record.

and on file in this office. United States Surveyor-General's Office, San Francisco, California, January 17th, 1884. W. H. Brown, United States Surveyor General for California."

It was admitted that the land in question is included within the exterior boundaries of the patent; but the patent was objected to as incompetent to show title in the city of San Francisco, as against grantees of the State of the premises, for the following reasons:

"1st. The State of California acquired her title by virtue of her sovereignty on her admission into the Union, and her title could not be overthrown by declarations of the United States made after title had vested in her.

"2d. That as to lands acquired by virtue of her sovereignty, the State was not the owner of a private land claim, and was not bound to present her claims to the Board of Land Commissioners, organized under the act of Congress entitled, An Act to ascertain and settle the private land claims in the State of California, passed March 3, 1851, nor is she concluded as to her rights by not presenting them as provided in Section 13 thereof, nor by any decision on the claim of another person. The act did not apply to her or her property.

"3d. The only authority for the patent was a decree of the United States Circuit Court, which court was not vested with jurisdiction over the State or the property of the State, although it was vested with jurisdiction over natural persons and corporations. Neither the decree nor any proceedings under the decree could affect the title of the State or furnish evidence against her.

"4th. The State was not a party to the record in the case of the The City, etc., v. The United States, nor is she affected as a natural person or corporation would be by a failure to attend before the United States Surveyor-General and object to a survey, as provided in Section 1 of the Act of Congress, approved July 1, 1864, and entitled 'An Act to expedite the settlement of titles to lands in the State of California.' But, being a stranger to the entire record and proceeding, the patent is not competent evidence against her or her property.

"5th. The first survey is the final adjudication of the Land Office of the location of the premises described in the decree, because—

"(a.) In confirming a survey under the acts of March 3, 1851, and July 1, 1864, the Commissioner acts in a special judicial capacity, and his decisions are not appealable to the Secretary of the Interior.

"(b.) The city refused to appeal, and this refusal appears in the record, and there was no appeal.

"(c.) The first confirmed survey is better evidence of the location in this case than the patent and the patent is void to the extent that it departs from it.

"(d.) The decree confirms to the city only the land above or within the ordinary high-water mark at the date of the conquest.

"The premises are outside that specific boundary, and, as the 'Surveyor-General had no authority under the acts of Congress to survey, nor the Land Office to patent, land not confirmed to the claimant, the decree controls, and the patent is void to the extent that it departs from the specific boundary given in the decree."

The evidence was admitted, but the referee refused to find thereon in favor of the defendant, and an exception was noted.

The defendant also introduced in evidence the judgment roll in a case tried in a State court between this defendant and the City and County of San Francisco, in which a judgment was rendered in his favor in November, 1868, quieting his title to the premises.

That was all the evidence introduced, and upon it the referee found the material facts of the case substantially as follows: The premises in dispute are below ordinary high-water mark as the same existed on the 7th of July, 1846, (the date of the conquest of Mexico,) and are below and outside of a survey of the pueblo claim made by Deputy Surveyor Stratton, and approved by the Surveyor-General of California on the 13th day of August, 1868, and confirmed by the Commissioner of the General Land Office, November 11, 1873, but are within a subsequent survey of the pueblo, made by Deputy Surveyor Von Leicht in 1884, which was not approved by the Surveyor-General of California, but was certified by him to have been made in accordance with orders from the Secretary of the Interior. The patent for the pueblo lands was issued on this second survey, and recited, among other things, the proceedings had in relation to the perfecting of the pueblo title, including the decree of confirmation and the confirmatory acts of Congress. The plaintiffs derived their title from the State through certain mesne conveyances, regular and legal in all respects, while the defendant did not connect himself with the title of the State.

Upon the foregoing facts the referee found as conclusions of law that—

(1) The State of California, upon her admission into the Union, September 9, 1350, became seized in fee of the premises in dispute;

(2) This title subsequently became vested in the plaintiffs, by virtue of certain conveyances described;

(3) This title of the plaintiffs was subject to defeat by the decree of the Circuit Court confirming the claim of the pueblo, but the premises being without the confirmed survey of 1878, and outside of the specific boundary given in the decree, remained the property of the State;

(4) "The second (Von Leicht) survey was illegal because it was not approved by the Surveyor-General of California, no appeal was taken to the Secretary of the Interior from the decision of the Commissioner of the General Land Office approving the prior survey, and because the second survey was not retained in the office of the United States Surveyor-General for ninety days, and no notice of the same was given to enable parties in interest to file protests, as required by law, and because in approving said prior survey said Commissioner of the General Land Office was acting in a judicial capacity and his judgment thereon is not reversible and was not legally reversed"; and,

(5) The description of the premises contained in the patent being in excess of the premises described in the prior survey and in the decree, the patent, to the extent that it covered land of the State not confirmed to the claimant, was invalid, and did not operate to convey the State's title to the premises in controversy.

The judgment of the Supreme Court of the State was based upon substantially the same grounds as that of the referee; and the correctness of the propositions of law involved therein is drawn in question by this writ of error.

To understand precisely the exact nature of the questions involved in this case, a somewhat more detailed statement of facts than is contained in the above findings of the referee will be found useful. These facts are not contradictory of those findings, and are recited in former decisions of this court, statutes of the United States and of the State of California, and the records of the Interior Department, of all of which the court can take judicial notice.

The pueblo of San Francisco has been a fruitful subject of litigation for many years, both in the Land Department of the government and in the State and Federal courts, For the purposes of this case a brief history only of the litigation is deemed essential.

The city of San Francisco, as the successor of a Mexican pueblo of that name, presented its claim to the board of Land Commissioners created by the Act of Congress approved March 3, 1851, for the confirmation to it of a tract of land to the extent of four square leagues, situated on the upper portion of the peninsula of San Francisco. In December, 1854, the board confirmed the claim for only a portion of the four square leagues, and both the city and the United States appealed to the District Court of the United States. The United States subsequently withdrew its appeal, but the case remained in the District Court undisposed of until September, 1864, when, under the provisions of the Act of Congress of July 1, 1864, it was transferred to the United States Circuit Court, which sustained the contention of the city and entered a confirmatory decree in its favor on the 18th of May, 1865 (4 Saw. 553, 577.) The language of that decree is as follows: "The land of which confirmation is made is a tract situated within the county of San Francisco, and embracing so much of the extreme upper portion of the peninsula above ordinary high-water mark (as the same existed at the date of the conquest of the country, namely, the seventh of July, A. D. 1846), on which the city of San Francisco is situated, as will contain an area of four square leagues—said tract being bounded on the north and east by the bay of San Francisco; on the west by the Pacific Ocean; and on the south by a due east and west line drawn so as to include the area aforesaid," subject to certain exceptions and deductions not necessary to be stated.

Both the United States and the city appealed from that decree—the United States from the whole decree, and the city from so much of it as included the aforesaid deductions and exceptions in the estimate of the quantity of land confirmed. While these appeals were pending Congress passed the Act of March 8, 1866, "to quiet the title to certain lands within the corporate limits of the city of San Francisco." This Act is as follows:

"Be it enacted, etc., that all the right and title of the United States to the land situated within the corporate limits of the city of San Francisco, in the State of California, confirmed to the city of San Francisco by the decree of the Circuit Court of the United States for the Northern District of California, entered on the eighteenth day of May, one thousand eight hundred and sixty-five, be, and the same are hereby, relinquished and granted to the said city of San Francisco and its successors, and the claim of the said city to said land is hereby confirmed, subject, however, to the reservations and exceptions designated in said decree, and upon the following trusts, namely, that all the said land not heretofore granted to said city shall be disposed of and conveyed by said city to parties in the bona fide actual possession thereof, by themselves or tenants, on the passage of this Act, in such quantities and upon such terms and conditions as the Legislature of the State of California may prescribe, except such parcels thereof as may be reserved and set apart by ordinance of

said city for public uses; Provided, however, That the relinquishment and grant by this Act shall not interfere with or prejudice any valid adverse right or claim, if such exist, to said land or any part thereof, whether derived from Spain, Mexico or the United States, or preclude a judicial examination and adjustment thereof." 14 Stat. 4.

The appeals to this court were thereupon dismissed. The measure of the city's title to the four square leagues of land is to be found in the decree of confirmation and the Act of Congress just recited. The question of the city's title having been settled, it became necessary to fix the boundaries of its lands by a survey. This duty, under the law, devolved upon the political department of the general government having charge of the public lands. Accordingly, in 1867 and 1868, under instructions of Surveyor-General Upson, Deputy Surveyor Stratton made a survey of the confirmed claim, and the same was approved by the Surveyor-General, and subsequently, after lying in the General Land Office, at Washington, for about ten years, it was confirmed by the Commissioner on the 11th of November, 1878. (2 C. L. L., 1234.) In making this survey Stratton ran its lines along the line of ordinary high-water mark of the bay of San Francisco until he came to Mission Creek, a small stream or estuary of the bay, and then followed the tide line up the creek, and, crossing over, ran down on the other side. This plan seems also to have been followed with reference to a few other small estuaries. The city protested against this method of survey, and, through her attorney of record, gave notice of appeal from the action of the Commissioner of the General Land Office to the Secretary of the Interior, claiming that the proper method of running the line along the bay was to follow the tide line of the main body of water and cut across the mouths of all estuaries or creeks which are arms of the bay. The Board of Supervisors of the city, however, decided not to appeal from the decision of the Commissioner of the General Land Office confirming the Stratton survey, and, declaring that the action of the attorney was unanthorized, discharged him. Thereafter the board passed a resolution, addressed to the Secretary of the Interior, in which it was stated that, in its opinion, the Stratton survey was entirely correct and legal, and should be approved.

Notwithstanding this action of the board, the Secretary of the Interior sent for the papers in the case, and, upon an elaborate examination of the points involved, reversed the action of the Commissioner of the General Land Office approving the Stratton survey, thus substantially sustaining the original protest of the city to the running of the boundary line of the grant up the estuaries of the bay.

Upon the motion for review, a subsequent Secretary of the Interior sustained the action of his predecessor, and ordered a survey made in conformity with the views of the Department, 2 Land Dec., 346. It was under those instructions that the Von Leicht survey was made, upon which the patent was issued. Subsequently an application was made to a succeeding Secretary to have the patent recalled and cancelled, and a new patent issued; but it was denied, the Secretary holding that he had no power under the law to grant the application, and that even if he had, he should decline to exercise it, because he considered the views of his predecessors sound and correct. 5 Land Dec., 483.

The case as presented by this record involves some very interesting questions. Ever since the decision in Polk's Lessee v. Wendal, 9 Cranch, 87, it has been the settled law of this court that a patent is void at law if the grantor State had no title to the premises embraced in it, or if the officer who issued the patent had no authority so to do, and that the want of such title or authority can be shown in an action at law. Patterson v. Winn, 11 Wheat., 380, 384; Stoddard v. Chambers, 2 How. 284, 318; Easton v. Salisbury, 21 How., 426; Reichart v. Felps, 6 Wall, 160; Best v. Polk, 18 Wall. 112; Smelting Co. v. Kemp, 104 U. S., 636; Steel v. Smelting Co., 106 U. S., 447, 453; Wright v. Roseberry, 121 U. S., 488, 519; Doolan v. Carr, 125 U. S., 618, 625, and authorities there cited.

It is sought by the plaintiffs to bring this case within that rule; and it is, therefore, strenuously insisted that the patent for the San Francisco pueblo is void to the extent that it embraces lands below ordinary high-water mark of Mission Creek as that line existed at the date of the conquest from Mexico in 1846. In order to sustain this proposition the claim is put forth that the Stratton survey was correct, and was never legally set aside; that the Von Leicht survey, upon which the patent was issued, was wholly unauthorized in law and void; and the premises in dispute being excluded by the Stratton survey, and being proved by parol evidence to have been below the line of ordinary high-water mark, were never legally included in the patent, and were not included in the decree of confirmation.

It is a well-settled rule of law that the power to make and correct surveys of the public lands belongs exclusively to the political department of the Government, and that the action of that department, within the scope of its authority, is unassailable in the courts except by a direct proceeding. Cragin vs. Powell, 128 U. S., 691, 699, and

cases cited. Under this rule it must be held that the action of the Land Department in determining that the Von Leicht survey correctly delineated the boundaries of the pueblo grant, as established by the confirmatory decree, is binding in this court, if the department had jurisdiction and power to order that survey. It is claimed, however, and the referee so determined, that no such power or authority existed in the department, because it had been exhausted by the action of the Commissioner of the General Land Office in approving and confirming the Stratton survey in 1873. This contention is based upon the proposition that the Secretary of the Interior had no authority to set aside the Order of the Commissioner approving and confirming the Stratton survey, especially in view of the fact that no appeal was taken from such order and the authorities of the city acquiesced in that survey. This proposition is unsound. If followed as a rule of law, the Secretary of the Interior is shorn of that supervisory power over the public lands which is vested in him by section 441 of the Revised Statutes. That section provides as follows: "The Secretary of the Interior is charged with the supervision of public business relating to the following subjects: .....Second. The public lands, including mines." Sec. 453 provides: "The Commissioner of the General Land Office shall perform, under the direction of the Secretary of the Interior, all executive duties appertaining to the surveying and sale of the public lands of the United States, or in anywise respecting such public lands, and also such as relate to private claims of land, and the issuing of patents for all [grants] of land under the authority of the Government." Sec. 2478 provides: "The Commissioner of the General Land Office, under the direction of the Secretary of the Interior, is authorized to enforce and carry into execution, by appropriate regulations, every part of the provisions of this title (the public lands) not otherwise specially provided for."

The phrase, "under the direction of the Secretary of the Interior," as used in these sections of the statutes, is not meaningless, but was intended as an expression in general terms of the power of the Secretary to supervise and control the extensive operations of the Land Department of which he is the head. It means that, in the important matters relating to the sale and disposition of the public domain, the surveying of private land claims and the issuing of patents thereon, and the administration of the trusts devolving upon the Government, by reason of the laws of Congress or under treaty stipulations, respecting the public domain, the Secretary of the Interior is the supervising agent of the Government to do justice to all claimants and preserve the rights of the people of the United States. As was said by the Secretary of the Interior on the application for the recall and cancellation of the patent in this pueblo case (5 Land Dec., 494): "The statutes in placing the whole business of the department under the supervision of the Secretary, invest him with authority to review, reverse, amend, annul, or affirm all proceedings in the department having for their ultimate object to secure the alienation of any portion of the public lands, or the adjustment of private claims to land, with a just regard to the rights of the public and of private parties. Such supervision may be exercised by direct orders or by review on appeals. The mode in which the supervision shall be exercised in the absence of statutory direction may be prescribed by such rules and regulations as the Secretary may adopt. When proceedings affecting titles to lands are before the department the power of supervision may be exercised by the Secretary, whether these proceedings are called to his attention by formal notice or by appeal. It is sufficient that they are brought to his notice. The rules prescribed are designed to facilitate the department in the despatch of business, not to defeat the supervision of the Secretary. For example, if, when a patent is about to issue, the Secretary should discover a fatal defect in the proceedings, or that by reason of some newly ascertained fact the patent, if issued, would have to be annulled, and that it would be his duty to ask the Attorney-General to institute proceedings for its annulment, it would hardly be seriously contended that the Secretary might not interfere and prevent the execution of the patent. He could not be obliged to sit quietly and allow a proceeding to be consummated which it would be immediately his duty to ask the Attorney-General to take measures to annul. It would not be a sufficient answer against the exercise of his power that no appeal had been taken to him and therefore he was without authority in the matter."

There is authority in this court for this holding. Magwire vs. Tyler, 1 Black, 195, was a case involving the right of the Commissioner of the General Land Office, under the Act of July 4, 1836, (5 Stat., 107,) reorganizing that bureau, and of the Secretary of the Interior, under the Act of March 3, 1849, (9 Stat., 395,) establishing that department, to take jurisdiction of surveys made in the upper Louisiana country upon confirmed Spanish titles. One of the questions presented was whether the Secretary of the Interior could reject such a survey and order a new one of the same claim, and issue a patent upon the second survey. By the Act of March 3, 1807, the board of commissioners appointed to pass upon the merits of such claims was required to deliver to each party whose claim was confirmed a certificate that he was entitled to a patent for the tract of land designated. This certificate was to be presented to the Surveyor-General, who proceeded to have the survey made

and returned, with the certificate, to the Recorder of Land Titles, whose duty it was to issue a patent certificate, which being transmitted to the Secretary of the Treasury, (then the head of the Land Department,) entitled the party to a patent. By the Act of April 25, 1812, the duty of the Secretary of the Treasury was transferred to the Commissioner of the General Land Office. The Act of April 18, 1814, required that accurate surveys should be made, according to the description in the certificate of confirmation, and proper returns should be made to the Commissioner, of the certificate and survey, and all such other evidence as the Commissioner might require. The court said: "These acts show that the surveys and proceedings must be, in regard to their correctness, within the jurisdiction of the Commissioner; and such has been the practice. Of necessity he must have power to adjudge the question of accuracy preliminary to the issue of a patent."

After referring to the Act of July 4, 1836, which conferred plenary powers on the Commissioner to supervise all surveys of public lands, "and also such as relate to private claims of land and the issuing of patents," and also to the Act of March 3, 1849, the third section of which vested the Secretary of the Interior, in matters relating to the General Land Office, including the power of supervision and appeal, with the same powers that were formerly discharged by the Secretary of the Treasury, the court said: "The jurisdiction to revise on the appeal was necessarily coextensive with the powers to adjudge by the Commissioner. We are, therefore, of the opinion that the Secretary had authority to set aside Brown's survey of Labeaume's tract, order another to be made, and to issue a patent to Labeaume, throwing off Brazeau's claim." 1 Black, 262. See also S. C., 8 Wall., 661.

A similar question arose in Snyder v. Sickles, 98 U. S., 203, 211, and was decided in the same way, the court going into an elaborate examination of the powers of the Secret ry of the Interior to review the action of the Commissioner of the General Land Office and reaffirming the doctrines of Magwire v. Tyler

In Buena Vista County v. L. F. & S. C. R. R. Co., 112 U. S., 165, 175, a question arose whether the decision of the Commissioner of the General Land Office under the act of March 5, 1872, (17 Stat., 37,) was intended to be final, from which no appeal would lie to the Secretary of the Interior. That act provides: "That the Commissioner of the General Land Office is hereby authorized and required to receive and examine the selections of swamp lands in Lucas, O'Brien, Dickinson, and such other counties in the State of Iowa as formerly presented their selections to the Surveyor-General of the district including that State, and allow or disallow said selections and indemnity provided for according to the acts of Congress in force touching the same at the time such selections were made, without prejudice to legal entries and rights of bona fide settlers under the homestead or pre-emption laws of the United States at the date of this act." It is to be observed that there was nothing in that act expressly giving an appeal from the Commissioner's decision to the Secretary. But the Court said: "There is nothing in the act which alters the relation between the two officers as otherwise established, or puts the decisions of the Commissioner, under that act, upon a footing different from his other decisions."

The powers and duties of the Secretary of the Interior were no greater under the acts under consideration in the cases to which we have referred than they are under sections 441, 453, and 2478 of the revised statutes. They were practically, and to all intents and purposes, the same. The general words of those sections are not supposed to particularize every minute duty devolving upon the Secretary and every special power bestowed upon him. There must be some latitude for construction. In the language of this Court in the late case of Williams v. United States, 138 U. S., 514, 524: "It is obvious, it is common knowledge, that in the administration of such large and varied interests as are intrusted to the Land Department, matters not foreseen, equities not anticipated, and which are, therefore, not provided for by express statute, may sometimes arise, and, therefore, that the Secretary of the Interior is given that superintending and supervising power which will enable him, in the face of these unexpected contingencies, to do justice. ee also, Lee v. Johnson, 116 U. S., 48.

It makes no difference whether the appeal is in regular form according to the established rules of the department, or whether the Secretary on his own motion, knowing that injustice is about to be done by some action of the Commissioner, takes up the case and disposes of it in accordance with law and justice. The Secretary is the guardian of the people of the United States over the public lands. The obligations of his oath of office oblige him to see that the law is carred out, and that none of the public domain is wasted or is disposed of to a party not entitled to it. He represents the Government, which is a party in interest in every case involving the surveying and disposal of the public lands.

Furthermore, the power of supervision and control exercised by the Secretary of the Interior over all matters relating to the disposition and sale of the public lands, under Section 453, Rev-

Stat., is substantially the same as his power over the Bureau of Pensions, under Section 471. That section provides: "The Commissioner of Pensions shall perform, under the direction of the Secretary of the Interior, such duties in the execution of the various pension and bounty laws as may be prescribed by the President."

There is nowhere any express power given to the Secretary of the Interior to hear and determine appeals from the Commissioner of Pensions; and yet the power is exercised daily without question. And such power was expressly asserted in United States ex rel. Dunlap v. Black, 128 U. S., 40, and impliedly recognized in Miller v. Raum, 135 U. S., 203.

The same remarks apply to the powers of the Secretary of the Interior, under a similarly worded section of the Revised Statutes, (§ 463,) to supervise and control the management of the Bureau of Indian Affairs, which powers, so far as we are advised, have never been questioned.

But even if there was any doubt of the existence of such power in the Secretary of the Interior, as an original proposition, still the exercise of it for so long a period—going back to the organization of that department—without question, ought to be considered as conclusive as to the existence of the power. Hastings, &c., R. R. Co. v. Whitney, 132 U. S., 357, and authorities there cited.

We conclude, on this branch of the case, that the Secretary of the Interior had ample power to set aside the Stratton survey and order a new survey by Von Leicht; and that his action in such matter is unassailable in the courts in a collateral proceeding. The Von Leicht survey, therefore, must be held as a correct survey of the pueblo claim as confirmed by the Circuit Court. Moreover, the method of running the shore line of the Bay of San Francisco, adopted by the Von Leicht survey, was approved by the Circuit Court itself in Tripp v. Spring, 5 Saw., 209; and on this point we entertain no doubt.

The only remaining question in the case, as we understand it, and as we desire to consider it, may be thus stated: Admitting that the Von Leicht survey is correct and follows the decree of confirmation; admitting, also, that the patent followed the survey and the decree, and that the premises in dispute are embraced in the patent: Was parol evidence admissible to show that these premises were below the ordinary high-water mark—not of the Bay of San Francisco, but of Mission Creek, a navigable arm of the bay, as that line existed at the date of the conquest from Mexico in 1846? The contention on this branch of the case is, that, if all these admissions be taken as true, yet the land in dispute never was a portion of the pueblo of San Francisco, because, at the date of the conquest, it was below the ordinary high-water mark of Mission Creek, and, therefore, upon the admission of California into the Union in 1850, passed to the State in virtue of its sovereignty over tide lands.

To this contention we cannot give our assent; and in the view which we take of the question, we think there was error in admitting evidence to show that the land was below high-water mark of the creek, and that the Supreme Court erred in sustaining this ruling. For this and other reasons hereinbefore stated the judgment should have been for the defendant.

It is the settled rule of law in this court that absolute property in, and dominion and sovereignty over, the soils under the tide waters in the original States were reserved to the several States, and that the new States since admitted have the same rights, sovereignty and jurisdiction in that behalf as the original States possess within their respective borders. Martin v. Waddell, 16 Pet., 367, 410; Pollard v. Hagan, 3 How., 212, 229; Goodtitle v. Kibbe, 9 How., 471, 478; Mumford v. Wardwell, 6 Wall., 423, 436; Weber v. Harbor Commissioners, 18 Wall., 57, 65. Upon the acquisition of the territory from Mexico the United States acquired the title to tide lands equally with the title to uplands; but with respect to the former they held it only in trust for the future States that might be erected out of such territory. Authorities last cited. But this doctrine does not apply to lands that had been previously granted to other parties by the former government, or subjected to trusts which would require their disposition in some other way. San Francisco v. Le Roy, 138 U. S., 656. For it is equally well settled that when the United States acquired California from Mexico by the treaty of Guadalupe Hidalgo, (9 Stat., 922,) they were bound, under the 8th article of that treaty, to protect all rights of property in that territory emanating from the Mexican Government previous to the treaty. Teschemacher v. Thompson, 18 Cal., 11; Beard v. Federy, 3 Wall., 478.

Irrespective of any such provision in the treaty, the obligations resting upon the United States, in this respect, under the principles of international law, would have been the same. Soulard v. United States, 4 Pet., 511; United States v. Percheman, 7 Pet., 51, 87; Strother v. Lucas, 12 Pet., 410, 436; United States v. Repentigny, 5 Wall., 211, 260.

These observations lead directly to the determination of the force and effect of the title of the pueblo of San Francisco, derived from the former government of Mexico, as opposed to the title which it is insisted passed to the State of California upon its admission into the Union, by virtue

of its sovereignty over all tide lands in the State below the high-water line, even including such as are situated within the limits of the pueblo.

If we have succeeded in showing that the tract in dispute was part of the land claimed by the city of San Francisco as successor of the Mexican pueblo of that name; that is within the four square leagues described in the decree of the United States Circuit Court for the District of California, entered May 18, 1865; that that court decided and decreed that the claim of title was valid under the laws of Mexico; that the official survey of the United States officers is correct and followed the decree of confirmation; and that the patent of the government of the United States, following the survey and decree, embraced within its calls the property in dispute: We think it clearly follows that the patent of the government is evidence of the title of the city under Mexican laws, and is conclusive, not only as against the government and against all parties claiming under it by titles subsequently acquired, but also as against all parties except those who have a full and complete title acquired from Mexico anterior in date to that confirmed by the decree of confirmation. This conclusion is fully sustained by the decisions of this court.

The case of San Francisco v. Le Roy, 138 U. S., 656, 670-2, is directly in point. That was a bill by Le Roy against the city of San Francisco to quiet his title to certain property within the limits of the city. The plaintiff below claimed at the trial the benefit of a deed to the land from the Tide Land Commissioners of the State, which purported, for a consideration of $352.80, to release to the grantee the right, title and interest of the State of California to the premises therein described, The city relied on the patent of the Government based on the confirmation of the United States Circuit Court for the District of California.

The court held that the title of the city rests upon the decree of the court recognizing the title to the four square leagues of land and establishing their boundaries; and that even if there were any tide lands within the pueblo the power and duty of the United States under the treaty to protect the claims of the city of San Francisco as successor to the pueblo were superior to any subsequently acquired rights of California over the tide lands. Upon the question involved the court said:

"We do not attach any importance, upon this question of reservation, to the deed of the Tide Land Commissioners, executed to Sullivan on the 3d of December, 1870, for the State did not at that time own any tide or marsh lands within the limits of the pueblo as finally established by the Land Department. All the marsh lands, so-called, which the State of California ever owned, were granted to her by the act of Congress of September 28, 1850, known as the Swamp Land Act, by which the swamp and overflowed lands within the limits of certain States, thereby rendered unfit for cultivation, were granted to the States to enable them to construct the necessary levees and drains to reclaim them. 9 Stat., chap. 84, p. 519. The interest of the pueblo in the lands within its limits goes back to the acquisition of the country, and precedes the passage of that act of Congress. And that act was never intended to apply to lands held by the United States charged with any equitable claims of others, which they were bound by treaty to protect. As to tide-lands, although it may be stated as a general principle—and it was so held in Weber v. Board of Harbor Commissioners, 18 Wall., 57, 65—that the titles acquired by the United States to lands in California under tide-waters, from Mexico, were held in trust for the future State, so that their ownership and right of disposition passed to it upon its admission into the Union, that doctrine cannot apply to such lands as had been previously granted to other parties by the former government, or subjected to trusts which would require their disposition in some other way. When the United States acquired California it was with the duty to protect all the rights and interests which were held by the pueblo of San Francisco under Mexico. The property rights of pueblos, equally with those of individuals were entitled to protection, and provision was made by Congress in its legislation for their investigation and confirmation. Townsend v. Greely, 5 Wall., 326, 337. The duty of the government and its power in the execution of its treaty obligations to protect the claims of all persons, natural and artificial, and, of course, of the city of San Francisco as successor to the pueblo, were superior to any subsequently acquired rights or claims of the State of California, or of individuals. The confirmation of the claim of the city necessarily took effect upon its title as it existed upon the acquisition of the country. In confirming it, the United States, through its tribunals, recognized the validity of that title at the date of the treaty—at least, recognized the validity of the claim to the title as then existing, and in the execution of its treaty obligations no one could step in between the government of the United States and the city seeking their enforcement. It is a matter of doubt whether there were any lands within the limits of the pueblo, as defined and established by the Land Department, that could be considered tide lands, which, independently of the pueblo, would vest in the State. The lands which passed to the State upon her admission to the Union were not those which were affected occasionally by the tide, but only those over which tide-water flowed

so continuously as to prevent their use and occupation. To render lands tide-lands, which the State by virtue of her sovereignty could claim, there must have been such continuity of the flow of tide-water over them, or such regularity of the flow within every twenty-four hours, as to render them unfit for cultivation, the growth of grasses, or other uses to which upland is applied. But even if there were such lands, their existence could in no way affect the rights of the pueblo. Its rights were dependant upon Mexican laws, and when Mexico established those laws she was the owner of tide-lands as well as uplands, and could have placed the boundaries of her pueblos wherever she thought proper. It was for the United States to ascertain those boundaries when fixing the limits of the claim of the city, and that was done after the most thorough and exhaustive examination ever given to the consideration of the boundaries of a claim of a pueblo under the Mexican government. After hearing all the testimony which could be adduced, and r peated arguments of counsel, elaborate reports were made on the subject by three Secretaries of the Interior. They held, and the patent follows their decision, that the boundary of the bay, which the decree of confirmation had fixed as that of ordinary high-water mark, as it existed on the 7th of July, 1846, crosses the mouth of all creeks entering the bay. There was therefore nothing in the deed of the Tide Land Commissioners which could by any possibility impair the right of the city to exercise the power reserved in the Van Ness ordinance over such portions of the lands conveyed to occupants under that ordinance as had been occupied or set apart for streets, squares, and public buildings of the city. Such a reservation should have been embodied in the decree in this case."

In the case of Beard vs. Federy, 3 Wall., 478, 491, the court, upon a question very similar to this in many of its aspects, followed a similar course of reasoning, from which we think the conclusion we have reached is logically deducible. In that case the court uses the following language:

"The position of the defendants is, that as against them the patent is not evidence for any purpose; that as between them and the plaintiff the whole subject of title is open precisely as though no proceedings for the confirmation had been had, and no patent for the land had been issued. Their position rests upon a misapprehension of the character and effect of a patent issued upon a confirmation of a claim to land under the laws of Spain and Mexico. In the first place, the patent is a deed of the United States. As a deed its operation is that of a quit-claim, or rather a conveyance of such interest as the United States possessed in the land, and it takes effect by relation at the time when proceedings were instituted by the filing of the petition before the Board of Land Commissioners. In the second place, the patent is a record of the action of the Government upon the title of the claimant as it existed upon the acquisition of the country. Such acquisition did not affect the rights of the inhabitants to their property. They retained all such rights, and were entitled by the law of nations to protection in them to the same extent as under the former Government. The treaty of cession also stipulated for such protection. The obligation to which the United States thus succeeded was, of course, political in its character, and to be discharged in such manner, and on such terms, as they might judge expedient. By the Act of March 3, 1851, they have declared the manner and the terms on which they will discharge this obligation. They have there established a special tribunal, before which all claims to land are to be investigated; required evidence to be presented respecting the claims; appointed law officers to appear and contest them on behalf of the Government; authorized appeals from the decisions of the tribunal, first to the District and then to the Supreme Court; and designated officers to survey and measure off the land when the validity of the claims is finally determined. When informed, by the action of its tribunal and officers, that a claim asserted is valid and entitled to recognition, the Government acts, and issues its patent to the claimant. This instrument is, therefore, record evidence of the action of the Government upon the title of the claimant. By it the Government declares that the claim asserted was valid under the laws of Mexico; that it was entitled to recognition and protection by the stipulations of the treaty, and might have been located under the former Government, and is correctly located now, so as to embrace the premises as they are surveyed and described. As against the Government, this record, so long as it remains unvacated, is conclusive. And it is equally conclusive against parties claiming under the Government by title subsequent. It is in this effect of the patent as a record of the Government that its security and protection chiefly lie. If parties asserting interests in lands acquired since the acquisition of the country could deny and controvert this record, and compel the patentee, in every suit for his land, to establish the validity of his claim, his right to its confirmation, and the correctness of the action of the tribunals and officers of the United States in the location of the same, the patent would fail to be, as it was intended it should be, an instrument of quiet and security to its possessor. The patentee would find his title recognized in one suit and rejected in another, and if his title were maintained, he would find his land located in as many different places as the varying prejudices, interests or notions of justice of witnesses and

jurymen might suggest. Every fact upon which the decree and patent rests would be open to contestation. The intruder, resting solely upon his possession, might insist that the original claim was invalid, or was not properly located, and, therefore, he could not be disturbed by the patentee. No construction which will lead to such results can be given to the fifteenth section (meaning the fifteenth section of the Act of 1851, for the purpose of ascertaining and settling private land claims in California). The term 'third persons,' as there used, does not embrace all persons other than the United States and the claimants, but only those who hold superior title, such as will enable them to resist successfully any action of the Government in disposing of the property."

Judgment reversed and cause remanded with directions for further proceedings in conformity with this opinion.

The CHIEF JUSTICE, Mr. Justice BRADLEY, and Mr. Justice GRAY did not hear the argument or participate in the decision of this case.

SUPREME COURT OF THE UNITED STATES.

No. 824.—OCTOBER TERM, 1891.

THOMAS KNIGHT, Plaintiff in Error,

vs.

THE UNITED LAND ASSOCIATION AND CLINTON C. TRIPP.

In error to the Supreme Court of the State of California.

[December 21, 1891.]

Mr. Justice FIELD concurring.

I concur in the judgment of this court and in the views expressed in its opinion. As a correct solution of the questions involved is of vital importance to the security of titles claimed under confirmed Mexican grants in California, followed by a survey made and a patent issued under the Land Department of the Government, and as I have had personal knowledge of all legal proceedings touching the claim of the pueblo of San Francisco from their commencement, I will venture to make some observations, in addition to those of my brethren, upon the propositions of law advanced by the court below. Those propositions, if maintained, would, in my judgment, unsettle titles held under patents issued upon such confirmed grants, and lead to great litigation in the State, to the serious detriment of its interests and those of its people.

The action is ejectment for the possession of certain premises within the limits of the City and County of San Francisco, and also within the boundaries of the tract of land confirmed to the city, as successor of a Mexican pueblo, as they are described in the official survey of the tract made under the direction and authority of the Land Department, and carried into the patent of the United States.

The tract confirmed is designated in the decree of confirmation rendered by the Circuit Court of the United States on the 18th of May, 1865, as "a tract situated within the County of San Francisco, and embracing so much of the extreme upper portion of the peninsula, above ordinary high-water mark, (as the same existed at the date of the acquisition of the country, namely, the seventh day of July, A. D., 1846), on which the City of San Francisco is situated as will contain an area of four square leagues; said tract being bounded on the north and east by the Bay of San Francisco; on the west by the Pacific Ocean, and on the south by a due east and west line drawn so as to include the area aforesaid," subject to certain deductions not material to be mentioned here. The decree declares that the "confirmation is in trust for the benefit of the lot-holders under grants from the pueblo, town, or City of San Francisco, or other competent authority, and as to any residue, in trust for the use and benefit of the inhabitants of the city."

A survey and plat purporting to be of the tract were made by one Stratton, a Deputy of the Surveyor-General of the United States for California, and was approved by the latter officer in August, 1868. The survey, instead of following from its commencement on the east side of the tract to its termination the line of ordinary high-water mark of the Bay of San Francisco, as it existed on the seventh of July, 1846, followed such line only a part of the way. Of its departure from that line, it is sufficient to mention that, when the survey reached the mouth of the estuary or stream entering the bay, known as Mission Creek, it left the shore of the bay and ran up along the bank of

the creek on its right side from its entrance for a distance of over a mile, then crossing the creek passed down on the other side to the bay, extending back from the creek on each side so as to exclude from the survey a large tract of what was called marsh land.

To the approval of the survey and plat, the City and County of San Francisco filed their protest and objections. The military officer of the United States in command of the Department of California also filed objections to so much of the survey as related to the military reservation within the limits of the tract.

Surveyor-General Day succeeded the officer who had approved the survey, and he forwarded the protest and objections to the Commissioner of the General Land Office, accompanied by his opinion that the objections were well taken in several particulars, and recommended, among other things, that the plat and survey should be amended so as to include the marsh land lying on Mission Creek within the four square leagues, and by the resurvey of the southern and eastern boundary of the military reservation. The Commissioner, however, disregarded the objections and approved the survey, founding his conclusion upon the alleged long acquiescence of the City and County of San Francisco, from which he inferred a recognition of its correctness and a waiver of the protest and objections.

The confirmation was, as already stated, "in trust for the benefit of the lot-holders under grants from the pueblo, town or city of San Francisco, or other competent authority, and as to any residue, in trust for the use and benefit of the inhabitants of the city." The legislation of Congress releasing the interest of the United States to the city was also in trust for the beneficiaries named (14 Stat., 4); so that the City of San Francisco had no interest in the lands within the confirmed tract other than as a trustee, except where parcels had been acquired by purchase or conveyance from other sources than the pueblo. All pueblo lands she held simply in that character. It was incumbent upon her, therefore, to take such steps as were necessary to secure and perfect the the title of her cestuis que trust. She accordingly retained counsel to protect their interests as well as her own, and he made a formal appeal for the benefit of both to the Secretary of the Interior from the decision of the Commissioner.

Certain lot-holders were also permitted to appear before the Secretary and argue the case, as parties interested in the title. An appeal was also taken by the military commander of the department, on behalf the United States, to correct alleged errors in the survey of the military reservation, which kept the whole survey open before the Secretary until it was finally determined. Any change, either by the enlargement or diminution of the reservation, necessarily affected other lines of the survey, reducing or extending them as the quantity embraced within the tract surveyed was increased or diminished.

Mr. Schurz was then at the head of the Interior Department, and he examined at great length the action of the Commissioner and of the Surveyor-General upon the survey; received a large amount of testimony upon the objections presented, and heard arguments of counsel thereon. And he held that the treatment of the survey by the Commissioner proceeded on the assumption that the United States had no interest in the matter, and that if the State and city were satisfied, the duty of the department was to approve the survey. This the Secretary held to be a grave error, observing that if the excluded tracts which the city claimed under the protest were above high-water mark in 1846, they ought to be included in the survey, and then the southern boundary line would have to be moved further north, excluding a corresponding quantity, which would fall into the public lands of the United States. No stipulation or agreement, therefore, said the Secretary, between the State and the city and county could estop or relieve the officers of the department from the duty of executing the decree or of protecting the interests of the Government, adding, that if the city and county should ask to withdraw the protest or to have the same dismissed the Government would still have the right to make use of the objections, and of the evidence filed in their support for its own protection as well as for properly surveying the claim in accordance with the decree. He therefore discarded entirely the ground which the Commissioner had advanced as the principal reason for approving the survey.

The protest and objections of the city and county referred to the tracts of marsh land lying near and south of Mission Creek. They alleged that such lands were not overflowed by tide water, except at the spring tides; that the line of ordinary high-water mark upon them on the side of the bay was sharply defined by a growth of samphire, a marine reedy plant which grows down to such line and no further. The testimony before the Secretary showed that the line thus defined was traced with a blue pencil on the engraved map of the coast survey, made by officers of the United States between 1850 and 1857, and that the marsh lands, including the premises in controversy, were above the line thus designated. Testimony of old residents of San Francisco, some of whom had resided there as early as 1842 and others in 1849, and down to a period long after 1851, and were

familiar with the character of the land fronting on the bay, corroborated from their personal knowledge the evidence of this map, as to the marsh lands excluded from the survey being above the ordinary line of high-water mark of the bay.

It also appeared before the Secretary, that by an act of the legislature of California, passed March 26, 1851, the State had granted to the city of San Francisco the use and occupation for ninety-nine years of certain lands designated as Beach and Water lots; and that in describing those lands it had made one of their boundaries the natural high-water mark of the bay, the line of such high-water mark extending to its point of intersection with the southern boundary of the city. The act provided that, within thirty days after its passage, the city of San Francisco should deposit in the offices of the Secretary of State and of the Surveyor-General, and in the office of the Surveyor of the city of San Francisco, "a correct map of said boundary line, distinctly and properly delineated by a red line."

Such maps were made and deposited as required, and from that time afterwards they were referred to by all parties in the city as determining the true line of ordinary high-water mark as it had previously existed. A copy of one of them was before the Secretary. They represented, as he held, the line of the ordinary high-water mark which had been established, sanctioned and recognized in the most solemn manner by the State and city for years, and was the best available evidence of ordinary high-water mark of 1846 around that portion of the city. That line, as traced on the maps, crossed the mouth of Mission Creek and the mouths of all other creeks which in 1851 emptied into the bay of San Francisco. He, therefore, ordered the Commissioner to direct the Surveyor-General to secure a correct and authentic copy of the map, designating the line of natural high-water mark, in accordance with the act of 1851, and make it the basis of a survey of so much of the exterior boundary of the claim as it represented, and to modify the Stratton survey in accordance therewith.

Subsequently, after Mr. Schurz had ceased to be the head of the Interior Department and Mr. Teller had become Secretary, application was made to the latter officer to review the decision of the former, and upon such application argument of counsel was heard and a most extended consideration of the whole matter was had. Secretary Teller observed that all the material questions relating to the boundaries of the tract confirmed were settled, except the single enquiry whether or not, in running the line of ordinary high-water mark of the ocean, and especially of the bay, the main shore or course line of such body of water identified by its larger description should be followed, cutting across the mouths of streams, estuaries and creeks which, intersecting the body of the peninsula, find their entrance into the ocean or bay, or whether such estuaries as fall below high tide should be segregated by following up the tide line on one side and down on the other, so as to make them as it were a part of the sea. He said that his predecessor had decided that the former was intended by the decree and expressed its true construction, and, after mature deliberation, he adhered to the same view.

"When we look," said the Secretary, "at the calls for boundary, there is no ambiguity, no doubtful phraseology. Said tract being bounded on the north and east by the bay of San Francisco; on the west by the Pacific Ocean. The tract bounds upon the bay and ocean, not upon estuaries, creeks, and streams intersecting such tract, even though they be navigable and technically termed arms of the sea." The boundary, he added, was not the stream, but the bay; consequently the ordinary high-water mark must be the high-water mark of the shore as pertaining to the sea, and not the high-water mark of the bank as pertaining to a river or stream; so that although Mission Creek was alleged to have been as well a tidal inflow as an outlet for the inland waters, it nevertheless fell within banks instead of resting upon shores, and must be considered an inland water for all purposes. He added that it was plain that the high-water mark extended to the shore of the bay, leaving out any reference whatever to the inland channels of the streams intersecting the granted peninsula. He accordingly directed a substantial adhesion to the decision of his predecessor, and overruled the application for its review.

After much difficulty with the surveying officers a survey was made pursuant to the directions given and was approved by the then Commissioner of the General Land Office, and upon that survey a patent was issued to the city of San Francisco, bearing date the 20th day of June, 1884. This patent was forwarded to the Mayor of San Francisco, and was accepted on behalf of the city and county.

When Mr. Lamar succeeded Mr. Teller as the head of the Interior Department, application was made to him to recall the patent and issue a new one in accordance with the Stratton survey. In support of the application it was strenuously contended by the same parties who had resisted the action of his predecessors, that there was a want of jurisdiction on their part to review the decision of the Commissioner of the Land Office. Such contention was urged upon the supposed meaning

of the statute, and on the ground that the supervisors of the city and county of San Francisco had by resolution directed that no appeal should be taken from his decision, and, when it was taken by counsel retained for the protection of the interests of the lot-holders as well as of the city, had declared that his action was unauthorized.

The Secretary, in considering the objections, referred to the fact that the supervisors, subsequently to those resolutions, had requested him, before whom they admitted the case was then pending relating to the boundaries of the military reservation, to take up and decide the case without further delay. And after a careful review of the question of jurisdiction, and the proceedings preliminary to the issue of the patent, he refused to recall the patent, holding that an order by him to that effect would be illegal and void, and that the matter presented for his consideration in the past proceedings of the case did not justify any recommendation to the legal department of the government to institute proceedings to recall, or modify, or in any manner interfere with the patent.

I have stated with as much brevity as possible the steps taken for the confirmation of the title of the city as successor of the Mexican pueblo, which are set forth more in detail in the opinions of the different Secretaries of the Interior laid before us on a hearing, for the statement is important to a clear perception of the character and import of the rulings of the referee and of the court below. An extended narrative of the proceedings would occupy a much greater space and would show that the parties claiming an interest in the lands left out of the Stratton survey, and resisting the approval of the official survey subsequently made, had also applied to the Supreme Court of the District of Columbia and to Congress for aid to carry out their pretensions, and were met by the declaration that to obtain a remedy for any errors alleged, resort should have been had to the Secretary of the Interior as the only revisory authority over the action of the inferior officers of the Land Department. It would also show that in obtaining a recognition of its claim, the city had met from them at every step the most strenuous opposition, and that every possible objection taken to the claim and survey since, was then presented and fully considered by the different Secretaries of the Interior; so that with truth was it said in the recent decision of this court in San Francisco v. Le Roy, (138 U. S. 656, 672,) that the boundaries of the pueblo were established by the United States after the most thorough and exhaustive examination ever given to the consideration of the boundaries of a claim of a pueblo under the Mexican government.

The parties who carried on the long and protracted contest in the Land Department, against the confirmation of the claim and its survey as finally approved, asserted the acquisition of an interest in those premises under certain deeds of the Tide-Land Commissioners created by the legislature of California.

On March 30, 1868, that legislature passed an act to survey and dispose of certain salt marsh and tide-lands belonging to the State. It empowered the Governor to appoint three persons, who were to constitute a Board of Tide-Land Commissioners, and authorized them to take possession of all the marsh and tide lands, and lands lying under water, situate along the bay of San Francisco and in the city and county of San Francisco, belonging to the State; to have the same surveyed and maps of the property prepared; to sell the interest of the State therein, and to execute conveyances to the purchasers. (Laws of Cal. 1867-8, chap. 543.)

At that time one George W. Ellis had settled upon lands excluded from the Stratton survey, and after its passage he applied to the Board of Tide-Land Commissioners and obtained from it two deeds, dated in November, 1875, covering the premises. His grantees carried on the contest, but not in their own names, against the location and survey of the tract confirmed before the Interior Department, and in every possible way sought to defeat its action and secure such a survey as would leave the lands claimed by them without the limits of the pueblo. The interest which the plaintiffs below, the United Land Association, and Clinton C. Tripp, had or claimed in the premises covered by the patent to the City of San Francisco was founded upon these conveyances of the Tide-Land Commissioners. Relying upon a title from that source the present action was brought.

As stated above, it is an action of ejectment for the possession of premises within the limits of the pueblo survey and covered by the patent to the city of San Francisco. After issue was joined it was by consent of parties referred to a referee.

The plaintiffs claimed title to the premises in controversy under the deeds mentioned. The defendant relied upon the fact that the premises were within the boundaries of the tract patented. They were situated in what constituted in 1854 the channel of Mission Creek, above its mouth. A witness produced by the plaintiffs testified that he knew their location and had made surveys in their neighborhood in that year, and that they were then below the line of ordinary high-water mark. He did not add "of the bay;" but as the premises were where the water of the creek formerly ran

and where, for aught that appears in evidence, it may now run, it was to the high-water mark of that creek to which he had reference.

The plaintiffs also gave in evidence the final decree of confirmation of the claim of the city of San Francisco rendered by the Circuit Court of the United States, and the Stratton survey, mentioned above, with the certificate of approval of the Surveyor-General and the confirmation thereof by the Commissioner of the General Land Office. Objection was made to the introduction of this survey on the ground that it was not competent evidence, not being matter of record; and that it had been canceled and superseded by another survey made in accordance with instructions of the Secretary of the Interior. The referee overruled the objections under the exception of the defendant, admitted the rejected survey, and, among other things, held that in approving that survey the Commissioner was acting in a judicial capacity, and that his judgment thereon was not reversible and was not legally reversed.

The defendant, to show that no title ever vested in the plaintiffs under their alleged deeds from the Tide-Land Commissioners, gave in evidence the patent of the United States issued to the city of San Francisco, dated the 20th of June, 1884; also the plat of the pueblo lands finally confirmed to the city under instructions of the United States Surveyor-General, ordered by the Secretary of the Interior and approved by the Commissioner of the General Land Office, upon which the patent issued.

It was conceded that the patent included within its boundaries the premises in question. The referee admitted the evidence thus offered of the patent and survey, with the concession that they included the demanded premises, but refused to find for the defendant thereon, and the defendant excepted.

The decree of confirmation, as seen above, bounds the tract confirmed on the north and east side by ordinary high-water mark of the bay of San Francisco. The Stratton survey and the proofs before the referee did not show that the premises in controversy were below that water mark of the bay, but only that they were below that water mark at a point in the channel of Mission Creek, and yet the referee held that the Stratton survey and the parol proof in the case showed that the premises were outside of the specific boundary of the decree, and therefore remained the property of the State. He accordingly gave judgment for the plaintiffs.

His rulings on the trial exhibited several errors. He gave no effect to the general rule that in actions of ejectment a patent of the United States, issued upon a confirmation of a land claim to which protection had been guaranteed by treaty, cannot be collaterally assailed for mere error alleged in the action of the officers of the government. He admitted in evidence, against the objections of the defendants the rejected survey of Stratton, in contravention of the principle that a rejected survey of officers of the Land Department is in law no survey, and inoperative for any purpose. It has so been held in numerous instances and never to the contrary. In the particulars in which the Stratton survey was modified by direction of Secretaries Schurz and Teller, it was of no more efficacy as a legal document than so much waste paper. He apparently perceived that there was something bizarre in receiving as evidence a rejected survey, or a modified survey, except in the particulars in which the modification was had, and sought to avoid this position by holding that the action of the Commissioner in approving the survey was beyond the reach of the Interior Department, and that it was not, therefore, legally reversed; thus brushing aside the important functions of that department over the surveys of private land claims, which it has exercised since its organization, and which has been always recognized by the Courts of the United States. (Cragin v. Powell, 123 U. S., 691, 697.) In answer to his erroneous conclusions in this respect, nothing can be added to the force of the statement in the opinion of the majority.

There were several hundred claims to land in California, under Mexican grants, presented for confirmation to the Board of Land Commissioners created by the act of 1851. They embraced many millions of acres of land, and in a large number, probably the majority of cases, where the claim was confirmed, the survey thereof by the Surveyor General of the State, after being considered and approved or rejected by the Commissioner of the General Land Office, passed under the supervision of and were in some respects modified by the Secretary of the Interior as the head of the Land Department of the United States. If the position taken by the referee, that the action on the survey of such claims by the Commissioner was final, could be sustained, every patent issued upon a survey of a claim which had been in any respect modified or changed by direction of the Secretary of the Interior would be open to attack, to the frightful unsettlement of titles in the State and to the infinite disturbance of the peace of its people.

When the patent to the city was brought before the referee, and it was conceded that the land in controversy was included within the boundaries embraced by the survey embodied in it, judgment should have been rendered for the defendant. The title under the patent necessarily ante-

dated any possible claim of the State of California to the lands within the limits of the pueblo. It went back to the acquisition of the country from Mexico. When the United States acquired California the inhabitants were entitled by the laws of nations to protection from the new government in all rights of property then possessed by them. Jurisdiction and sovereignty passed from one nation to the other by the cession, but not private rights of property; their ownership remained as under the former government. And by the term property, as applied to land, all titles are included, legal or equitable, perfect or imperfect. "It comprehends," as said by this Court in Soulard v. The United States, (12 Pet., 436,) "every species of title inchoate or complete. It is supposed to embrace those rights which are executory, as well as those which are executed. In this respect the relation of the inhabitants to their government is not changed. The new government takes the place of that which has passed away."

By the treaty of Guadaloupe Hidalgo, the United States also stipulated for such protection and that implied that rights of property, perfect or imperfect, held by the inhabitants previous to the acquisition of the country should be secured to them, so far as such property was recognized by the laws and constitution of the new government; and for that purpose that the holders should receive from the new authorities such official and documentary evidence of their rights as would assure their full possession and enjoyment. Pueblos in that respect stood in the same position as private individuals. All their rights of property, legal or equitable, were alike entitled to protection. Whatever property was ceded to the United States from Mexico, whether marsh lands or tide lands, passed subject to the obligation to protect existing claims to them of all parties. The State could take no greater interest than the United States acquired; all lands she received went under her control charged with the equitable claims of others, which the United States were bound by the treaty and the laws of nations to protect. The marsh lands granted to her by the act of Congress of September 28, 1850, were thus affected. And the same was true of the tide lands. Whatever lands of that nature passed to the United States were held for the future State, subject, however, to any trust from the former government which might require their disposition in some other way. The duty and power of the United States in the execution of their treaty obligations to protect the property claims of all persons, natural or artificial, were superior to any subsequently acquired interest of the State or of individuals. Mexico owned the tide lands as well as the uplands, and it was, of course, in her power to make such disposition of them in the establishment and organization of her pueblos as she may have judged expedient. And whether she did make such disposition by her laws was a matter exclusively for the United States to ascertain and determine. As said by the Supreme Court of California in Ward v. Mulford, (32 Cal., 372): "In private proprietorship and in sovereign right the United States succeeded the Mexican Government, and in both these respects California, so far as she acquired any right in either, succeeded the United States and became privy to the latter in estate in respect to all lands within her borders, whether such as may be held in private or sovereign right. In this respect no distinction can be made between the lands acquired by her through Federal grants and such as she took by virtue of her sovereignty."

The obligation of protection imposed upon the United States by the law of nations, and assumed by the treaty, was political in its character, to be performed in such a manner and on such terms as the United States might direct. As held by this Court in Beard v. Federy, (3 Wall., 478, 492,) they declared by the act of March 3, 1851, to settle private land claims in California, the manner and the terms upon which they would discharge this obligation. They there established a special tribunal or board of commissioners, before which all claims to land in that State derived from Spanish or Mexican authority were to be investigated; they required evidence to be presented respecting the claims; appointed law officers to appear and contest them on behalf of the Government; authorized appeals from the decisions rendered by the Commissioners to the District Court, and from the decisions of that court to the Supreme Court of the United States, and declared that in the determination of the claims presented, the Commissioners and those tribunals should "be governed by the treaty of Guadaloupe Hidalgo, the law of nations, the laws, usages and customs of the government from which the claim is derived, the principles of equity, and the decisions of the Supreme Court of the United States, so far as they were applicable." (9 Stats., chap. 41, sec. 11, p. 633). It also made provision for the investigation and determination of the property rights of pueblos; and designated the officers who should in all cases survey and measure off the land when the validity of the claim presented was finally determined. When it appeared by the action of their officers and tribunals that the claim asserted was valid and entitled to recognition, and that its boundaries were ascertained, the Government was to issue its patent to the claimant.

And what was the effect and operation of this instrument? It was not merely a quit-claim or conveyance of whatever interests the United States held in the lands embraced; it was something more; it was, as declared in the case cited, record evidence upon the title of the claimant from the

former government. As there said: "By it the Government declares that the claim asserted was valid under the laws of Mexico; that it was entitled to recognition and protection by the stipulations of the treaty, and might have been located under the former government, and is correctly located now so as to embrace the premises as they are surveyed and described. As against the Government, so long as it remains unvacated, it is conclusive. And it is equally conclusive against parties claiming under the Government by title subsequent." The patent being thus conclusive, can only be resisted by those who hold paramount title to the premises from Mexico antedating the title confirmed, that is by persons who can successfully resist any action of the United States in disposing of the property or in perfecting the title of the claimant.

In the case from which I have cited the court added, in order to impress the importance of this doctrine for the stability of titles in the State resting upon confirmed and patented Mexican grants: "It is in this effect of the patent as a record of the Government that its security and protection chiefly lie. If parties asserting interest in lands acquired since the acquisition of the country could deny and controvert this record, and compel the patentee in every suit for his land to establish the validity of his claim, his right to its confirmation, and the correctness of the action of the tribunals and officers of the United States in the location of the same, the patent would fail to be, as it was intended it should be, an instrument of quiet and security to its possessors. The patentee would find his title recognized in one suit and rejected in another, and, if his title were maintained, he would find his land located in as many different places as the varying prejudices, interests, or notions of justice of witnesses and jurymen might suggest."

The doctrine of that case has never been departed from, but, on the contrary, has always been followed and approved. Numerous decisions of the Supreme Court of California, commencing with the 13th volume of its reports and extending down to a late period, express the same doctrine with equal clearness and emphasis. (Moore vs. Wilkinson, 13 Cal. 484; Yount vs. Howell, 14 Id. 463; Teschemacher vs. Thompson, 18 Id. 11; Leese vs. Clark, 18 Id. 535; Ward vs. Mulford, 32 Id. 365; Chipley vs. Farris, 45 Id. 528; People vs. San Francisco, 75 Id. 388.)

But notwithstanding the superior and conclusive character of the title presented by the patent and the emphatic decision of the highest tribunal of the country, and repeated decisions of the State Supreme Courts to the same effect, that until vacated that instrument was conclusive against the Government and parties claiming by title subsequent, the referee found otherwise and held that the plaintiffs, who derived whatever interest they possessed twenty-nine years subsequently to that of the city, held the better right and were entitled to judgment for the demanded premises; and such judgment was entered in one of the Superior Courts of the city. From that judgment an appeal was taken to the Supreme Court of the State, where it was affirmed. A rehearing being granted, a reargument was had, and a second time the judgment was affirmed by four judges of the court, the remaining three dissenting. From the latter judgment the case is brought to this court on a writ of error.

From the opinions upon both affirmances it appears that the court below, equally with the referee, lost sight of the principle that in actions at law a patent of the United States, upon a confirmation of a private land claim asserted by virtue of rights acquired under a foreign Government, is not open to collateral attack, but must be taken as correct until vacated, not only as to the validity of the claim confirmed, but as to the boundaries established. It is hardly necessary to say that any attempt to overthrow these conclusions in either particular, where the tribunal affirming the validity of the claim and the department establishing the boundaries had jurisdiction, is collaterally attacking the patent.

That the Land Commissioners and the Circuit Court of the United States had jurisdiction to hear and determine the validity of the claims asserted by the City of San Francisco is not open to question. The laws of the United States gave them such jurisdiction, and when that claim was confirmed the law directed by what officers its boundaries should be established and surveyed. It was the exclusive province of those officers to ascertain where the line of true boundary ran, subject to the control and supervision of the Interior Department. To say that those who directed and supervised the survey had not jurisdiction to perform that duty, is to deny efficacy to the laws of Congress.

The court below, upon the first affirmance, rejected the boundary as established and surveyed by the officers appointed by law for that purpose, and assumed that the line of ordinary high-water mark of Mission Creek running into the bay, was, as far as such line extended, the true boundary designated by the decree, and held that the land below such line was the property of the State. In other words, it assumed that the boundary of the pueblo was to follow the line of high-water mark of the creek, and not be confined to the high-water mark of the bay. It thereupon stated that the

question involved was whether the officers of the Land Department had power to patent land outside of the natural boundaries given in the decree of confirmation.

In this statement the learned court fell into an error. No such question was involved in the case. The approved survey upon which the patent was issued crossed the mouth of Mission Creek and included the lands above its mouth, among them the premises in controversy. The question involved, therefore, was whether in an action of ejectment for the possession of those lands the plaintiffs could collaterally assail the correctness of the official survey upon which the patent was issued and establish another line as the true boundary, and then recover the lands on showing that they were outside of the new boundary thus established. I do not think that such a position was ever successfully asserted in any court. If there was error in the survey embodied in the patent it could not have been shown in this action. It could only have been corrected by direct proceedings for that purpose instituted by the Government or by its authority. This is elementary law, and in vain will authorities be sought to contradict this view.

Proceeding on the assumption that a different line from the one officially established constituted the true boundary line of the tract confirmed, the court below declared that it was the duty of the surveyor to follow such different line—though otherwise directed by the highest officer of the Land Department, who had the sole right of control in the matter—and, that as the surveyor did not follow that different line, he included, according to his judgment, lands within his description not within the decree of confirmation.

I may speak of the decree with some confidence as a member of the court by which it was rendered, and a distinct recollection remains with me of the circumstances under which the language used was adopted. The original decree of confirmation was rendered in October, 1864, and stated the land confirmed to be "a tract situated within the county of San Francisco, and embracing so much of the upper portion of the peninsula on which the city of San Francisco is situated as will contain an area of four square leagues," as described in the petition. A motion for a rehearing was made, which kept the case open until the following spring, the judge who pronounced the decree being absent from California in Washington in attendance upon the Supreme Court. On his return the question of a rehearing was brought up, when it was suggested by counsel that the decree needed correction, so as not to include in the claim confirmed the beach and water lots conveyed to the city by the act of the legislature of 1851. Reference was made to the map prepared under the directions of that act, on which a line was drawn in red ink, marking the separation of lands above the ordinary high-water mark of the bay and lands below it, and it was suggested that the insertion in the decree of the words "above ordinary high-water mark, as the same existed at the date of the conquest of the country, namely, the seventh of July, 1846," would establish the line as indicated on the map, and that thus in the decree of confirmation lands granted to the city by the State would not be affected. Upon that suggestion, made by Mr. Gregory Yale, a lawyer of distinction at the bar, whose clients had become alarmed at the language of the original decree, the change was made.

In addition to this fact it may be observed that at the time the Circuit Court was not ignorant of the universal rule governing the measurement of waters, to which the Supreme Court of the State makes no reference in its decision, and of which it seems to have been entirely oblivious, that where a water of a larger dimension is intersected by a water of a smaller dimension, the line of measurement of the first crosses the latter at the points of junction, from headland to headland. The existence of tide-lands in the intersecting water in no respect affects the result. For illustration, in the measurement of a body of water like Long Island Sound, when the Connecticut River is met the line of survey does not follow up that river to Hartford because the tide is felt at that place, but it crosses the mouth of the river from headland to headland. So, too, the measurement of Chesapeake Bay does not include the Potomac River up to Washington because the tide is felt at the site of the capital. It would be absurd to include in the measurement of the bay of San Francisco the waters of the river Sacramento as far as the city of that name, nearly a hundred miles above the bay, because the tide is felt there; or to embrace the river San Joaquin as far as Stockton because the tide reaches to that place. This is so plain that it excites surprise that any question should have been made upon the subject. And if a river extending a hundred miles or more could not be included in the bay, even though affected by the tides, neither can a stream of less dimensions, though not exceeding over one or two miles. Not only has this rule in the measurements of waters prevailed on the continent of Europe from the time of the Roman Empire, but it has been always accepted as controlling in England and in the United States, and never been, that I am aware, questioned except in the present case.

When the survey here was pending before one of the Secretaries of the Interior application was made to the head of the Coast Survey of the United States for the rule adopted by that Bureau in

the measurement of waters, and the answer was the statement of the rule which I have given; and it is a singular fact that, as an illustration of its application, reference was had to the bay of San Francisco and Mission Creek, and the declaration made that in the measurement of the bay the line of the survey would cross the mouth of that creek. Admiral Rodgers, who was at one time the head of the Coast Survey in California, and had surveyed the line of ordinary high-water mark of the bay of San Francisco, filed his affidavit to the effect that he had since 1851 been stationed in California in charge of the United States survey of the coast thereof, including the peninsula of San Francisco; that the traced chart or map showing the line of ordinary high water along the eastern side of the peninsula of San Francisco from Rincon Point to and including Islais Creek, as surveyed by the Coast Survey of the United States in 1852, was prepared from the published surveys of the Coast Survey of the United States, and that the line laid down on that map in blue pencil, from Rincon Point, around Mission Bay, to and including Islais Creek, and crossing Mission and Islais Creeks, was a true delineation of the line of ordinary high-water mark as it existed when he first knew it in the year 1852. He added that "in determining a boundary line stated as the line of 'ordinary high-water mark,' on the bay of San Francisco, there can be no other course than to follow the stated line of ordinary high tide on the shore of the bay, crossing the mouths of all inferior tidal streams or estuaries, many of which enter into San Francisco Bay at different points, and not to follow the meanders of any such inferior tidal streams or estuaries."

The assumption, therefore, of the court below, that the decree of confirmation called for any other line than the one actually surveyed and embodied in the patent was an error. It was founded upon a misapprehension of the law governing the surveys of waters of that kind, or from overlooking its existence. The statement in the opinion of the court as to the requirement that the Surveyor-General in making the survey of a confirmed claim should follow the boundaries of the decree as near as practicable, whenever the decree specifically designates them, is undoubtedly correct, and it was the duty in this case of the surveying officers of the Land Department, under the supervision of the Secretary of the Interior, to ascertain what those boundaries were, and to follow the decree in making the survey. That they accomplished this is conclusively established, so far as the present action is concerned, by the official survey itself returned by them, and subsequently approved by the Commissioner of the Land Office.

The question as to what was the boundary line of the tract confirmed also became the subject of judicial enquiry in the Circuit Court of the United States in 1878. An action was brought by one Tripp, who is one of the plaintiffs in this case, for a parcel of land constituting a portion of a block in the city of San Francisco. The premises were situated where Mission Creek formerly ran, and distant about a mile from its mouth. All that part of the stream covered by the block in which the premises were situated had been filled in and buildings erected thereon, which were occupied as private residences. The plaintiff claimed title under the same conveyances of the Board of Tide Land Commissioners upon which the plaintiffs below rely in this case, and the same contention was made there as here. The question presented was whether the title to those premises passed by the Tide Land Commissioners' deeds or whether they were within the limits of the pueblo claim as confirmed, although not at that time patented. The court said: "Whether the waters of the bay were ever carried by the tide over the lands is a matter upon which the evidence is conflicting. The creek was often swollen by water from the adjacent hills so as to overflow its banks, and the tide sometimes, though not regularly, forced back the waters of the creek so as to cause a similar overflow. But, from the view we take of the case, it is immaterial whether the lands could ever properly be termed tide lands or marsh lands, whether they were at any period covered by the daily tides, or lay beyond their reach at their highest flood. The record of the proceedings and the final decree in the Pueblo case have been given in evidence, and from them it appears that the premises are situated within the limits of the tract confirmed to the city of San Francisco." The court added: "Mission Creek never constituted any portion of the bay of San Francisco any more than the Sacramento River constitutes a portion of the bay of Suisun, or the Hudson River a portion of the bay of New York. As the demanded premises lie where Mission Creek formerly existed, or where its banks were, they necessarily fall within the tract confirmed to the city. The boundary of that tract runs along the bay on the line of ordinary high-water mark, as that existed in 1846, crossing the mouths of all creeks running into the bay, and that of Mission Creek among others. The boundary would have been a very singular one had it followed the windings of that creek and its branches wherever the tide waters of the bay may have flowed. The laws of Mexico relating to lands to be assigned to pueblos required that such lands should be laid out in a square or prolonged form, according to the nature of the country, and, so far as practicable, have regular lines for boundaries. The decree of the United States Circuit Court in confirming the claim of the city followed this requirement, and gave the boundaries which could be easily ascertained, and which formed as com-

pact a body as the situation of the country would permit." (Tripp v. Spring, 5 Sawyer C. C. Rep. 209, 212.)

As thus appears, the identical question involved in this case was decided in that. No case was ever tried with more care, or greater consideration, and at the conclusion of a trial of several days the court decided that the judgment must be entered for the defendant. The presiding justice stated the grounds of the decision orally, and observed that as the questions involved were deemed of great importance he would at a subsequent day file an opinion embodying their substance. It is a common practice with judges of the highest courts to give opinions orally and write them out subsequently, after the decision is rendered, and that fact in no way affects their authoritative character. The pressure of business before the court may often prevent any other course being pursued.

Counsel for the plaintiff then stated that special findings in the case were desired, in order that should the case reach the Supreme Court it might be finally determined there. Upon that suggestion the entry of judgment was stayed, and an adjournment of the court had, that such findings might be prepared. On the next day the case was dismissed by stipulation of parties.

The opinion of the court, pronounced at the close of the trial, and subsequently written out was, notwithstanding the dismissal, as much authority on the questions of law presented as though a formal judgment had been entered, although the judgment ordered, because not entered on account of the dismissal, could not be pleaded in bar of a future action.

The court below having assumed that another line than the one officially established was the true one, took the extraordinary ground that the error committed in that respect by the surveying officers, though acting under the express directions of the Land Department, was jurisdictional and fatal to their action, rendering it void, and opening the patent embodying the survey to collateral attack. And it proceeded to cite several decisions in supposed support of this view, but which only were to the effect that where the Land Department had no jurisdiction of the subject-matter considered its patent could be assailed collaterally.

In thus holding, the Court failed to distinguish between what was upon its own statement mere error in the action of the Land Department and matters which were entirely beyond its jurisdiction. The ascertainment of the true line of the boundaries of the claim confirmed was a matter especially entrusted to that department by the laws of Congress, as already stated. If the officers of that department in executing the survey made mistakes, ran erroneous lines, and included lands which they should have excluded, those facts did not justify the assertion that they acted without jurisdiction in making the survey, and that, therefore, their whole proceedings were void. If all that is asserted be true they only erred in the exercise of their jurisdiction, and the remedy for their errors before the issue of the patent lay in an appeal to higher officers of the department—from the Surveyor-General to the Commissioner, and from his decision to the Secretary of the Interior; and if after the issue of the patent like objections were urged, the remedy could be sought only by direct proceedings.

The distinction between errors committed where jurisdiction exists to take the proceeding in which the alleged error arises, and where there is an entire want of jurisdiction over the subject-matter considered, is too familiar to be discussed. The distinction is constantly applied with reference to the proceedings of ordinary tribunals. If they have jurisdiction of the subject-matter and the parties, their judgment cannot be collaterally assailed for mere errors committed in the proceedings leading to it. The remedy for errors must be sought by application for a new trial or by appeal for a review to an appellate court. The same distinction prevails with reference to the proceedings of the special tribunal or department of the Government to which is entrusted the supervision of measures for the issue of its patent.

The cases referred to and dwelt upon as supposed to support the opposite doctrine are not susceptible of the meaning attributed to them. The principal cases cited are Smelting Co. v. Kemp, 104 U. S., 641,) Wright v. Roseberry, (121 U. S., 488,) and Doolan v. Carr, (125 U. S., 618). They assert no new doctrine, but law which has always existed and been recognized, though seldom more misapplied than here. That the United States cannot convey by patent what it never owned, or has already parted with, no matter with what formality the instrument is issued, is a self-evident proposition. The Government in that respect is under the same limitations as an individual. That is the only purport, so far as the point raised here is concerned, of the decision in Wright v. Roseberry, where a patent of the United States for land claimed under the pre-emption laws was defeated by showing that the premises in controversy were swamp and overflowed land previously conveyed to the State by the swamp land act of September 28, 1850. (9 Stat., 519). Nor could the United States authorize a patent for land to the pueblo, or to its successor the city, if the former government of Mexico had conveyed the property to others. There are such cases within the limits of the pueblo, and the claims have been confirmed and patented under the Land Department to

the grantees or their representatives. Whenever in the pueblo case it could be shown that grants had been made by Mexico of portions of the land claimed by the pueblo to other parties, such grants were excepted from the confirmation to the city. Nor can a patent of the United States be issued by officers of the Land Department for lands reserved from settlement and sale; and the want of authority in the officers can be shown at law to defeat a patent of that character. It is in such case an attempted conveyance of land not open to sale; as would be a patent for land within the Yellowstone or Yosemite Park. It was of land within the limits of a valid Mexican claim excluded from grant to the Central Pacific Railroad Company that the decision in Doolan v. Carr had reference. It was there held that the patent to the railroad company could be defeated by showing that the lands conveyed were thus excluded. There was nothing new in the doctrine that it could be shown in an action at law that the property patented was not subject to grant. Nor can it be questioned that if parties, not authorized by law to supervise the proceedings to a patent, should assume that function, that the objection might be taken when the patent was offered in evidence. As, for instance, if the Supervisors of San Francisco should undertake to exercise the functions of the Land Department, any one prosecuted under their patent could assail it by showing the power to execute such an instrument was vested in a different body. So, too, if the estate which the Land Department was authorized to convey was different from that transferred by the patent—as, for instance, a lease-hold interest, instead of the fee—that fact could be shown and the patent limited in its operation.

In Smelting Co. v. Kemp, the Court treated at large of the conclusive presumptions attending a patent of the United States for lands, but added, that in thus speaking of them it assumed "that the patent was issued in a case where the department had jurisdiction to act and execute it; that is to say, in a case where the lands belonged to the United States and provision had been made by law for their sale. If they never were public property, or had previously been disposed of, or if Congress had made no provision for their sale, or had reserved them, the department would have no jurisdiction to transfer them, and its attempted conveyance of them would be inoperative and void, no matter with what seeming regularity the forms of law may have been observed. The action of the department would, in that event, be like that of any other special tribunal not having jurisdiction of a case which it had assumed to decide. Matters of this kind, disclosing a want of jurisdiction, may be considered by a court of law. In such cases the objection to a patent reaches beyond the action of the special tribunal, and goes to the existence of a subject upon which it was competent to act."

The attempt is futile to use these cases, or any other case, to establish the proposition that if an error can be shown in the action of an officer of the Land Department in a matter subject to its jurisdiction the proceeding of the officer may be treated as a nullity and the patent issued thereon be collaterally assailed. This view is untenable, and does not merit serious consideration. If it could be sustained it would be subversive of all security in the judgments of ordinary tribunals, as well as in those of special tribunals like the Land Department. Nor is there any pertinency in the observations as to the reservation from grant of the seashore under the law of the former government. No claim was ever made in the pueblo case for any part of the seashore. Those terms apply in this country only to land covered and uncovered by the daily tides. They cannot possibly have any application to the banks of creeks or to land under their waters. The rule of the civil law of Europe, that lands covered and uncovered by the tides at their highest flood during the year constitute the shore of the sea, has never been applied to that portion of this country ceded to the United States by Mexico. The claim of the pueblo was for land above the ordinary high-water mark of the bay, not for any land covered and uncovered by the tides, either daily or when they reach their highest point during the year. As said in San Francisco v. Le Roy (138 U. S. 656-671): "The lands which passed to the State upon her admission to the Union were not those which were affected occasionally by the tide, but only those over which the tide-water flowed so continuously as to prevent their use and occupation. To render lands tide-lands, which the State, by virtue of her sovereignty, could claim, there must have been such continuity of the flow of tide-water over them, or such regularity of the flow within every twenty-four hours as to render them unfit for cultivation, the growth of grasses or other uses to which upland is applied."

The reasons given by the court below on the second affirmance of the judgment of the referee are marked by the objections stated to its former opinion. The true doctrine as to the effect of patents in actions at law is stated in a decision of the court below in De Guyer v. Banning—rendered whilst this case has been pending here, in which that court, following a long line of previous adjudications, unbroken except by this case, declares that upon a confirmation of a Mexican grant the patent issued by the United States to the claimant is the only evidence of the extent of the grant, and that if there is a conflict as to its location and extent between it and the decree of con-

firmation, the patent must control. It is the only doctrine which will insure peace and tranquillity to parties holding under patents issued upon confirmed Mexican grants. Any other doctrine would introduce endless confusion and perplexity as to all such titles. If there be, in fact, any material conflict between the boundaries given in the decree of confirmation and those described in the official survey, the only remedy is to be sought by direct proceedings instituted by the government, or by its authority. Until the alleged conflict is thus determined and adjusted, the patent must control.

From the views expressed I am clearly of opinion that the Supreme Court of the State erred in affirming the judgment of the Superior Court entered upon the report of the referee; it should have reversed that judgment and ordered judgment for the defendant. This conclusion is, I think, established beyond all controversy in the opinion of the court. But it is unnecessary to pursue this case further. I have treated it at much length because the title of the city has been a subject of consideration in one form or another for now over thirty-nine years, and the questions presented have been discussed by counsel with marked ability and learning. The claim was originally presented to the board of commissioners in 1852, and it was decided by that board in 1854. It was then appealed to the District Court of the United States, and there remained unacted upon for over eight years. An act of Congress then authorized it to be transferred to the Circuit Court of the United States, to which court it subsequently passed in September, 1864. In October following a decree of confirmation was entered, which was modified May 18, 1865, and then entered in its final form. An appeal from that decree was taken to the Supreme Court of the United States, and was dismissed by that court in December, 1866, on motion of the Attorney-General, upon stipulation of parties. A survey was made of the confirmed claim in 1868, and that survey, being appealed from, remained unacted upon before the Commissioner of the General Land Office for over nine years. After it was acted upon by him an appeal was taken from his decision to the Secretary of the Interior, and it was before one Secretary after another for five years, so that the patent was not issued until 1884.

Even then the opposition to the just claim of the city and of parties holding under the city did not cease, but has been continued in one form or other ever since. It is to be hoped that all annoyances and litigation from such opposition will now be ended.

Opening and Extending Streets.

In this matter the City and County of San Francisco has been mulcted for the cost and expenses of proceedings to open and extend streets in all cases where the proposed or purported improvement as projected by the Board was not consummated. The expenses paid were for the services of Commissioners and for all incidental expenses connected with the proceedings up to the time the labors were concluded. The main expenditures imposed upon, and heretofore paid for by the city and county up to the time of the passage of the statute of March 6, 1889, omitting incidental expenses of the proceedings of the Board of Supervisors and expenditures made consequent on said proceedings, are as follows:

Montgomery and Connecticut Extension	$ 54,812 13
Laguna Survey	34,350 03
Montgomery street south, Market to Howard	13,598 03
Montgomery street south, Howard to Townsend	32,639 22
Montgomery avenue (First proceeding)	108,380 31
	$243,779 72

In the second proceedings taken under the special statute wherein Montgomery avenue was opened, in addition to the incidental expenses caused by the proceedings, the city and county was awarded $12,000 in bonds for property taken. The proceedings being void under the decision of Courts, the bonds have no value.

Since the passage of the present statute in addition to paying assessments for property deemed benefited in the matter of widening Mission street, the city and county has paid $1,977 70 to meet a deficiency in the Mission Street Fund to cover expenditures not otherwise provided for, in addition to other pending liabilities.

The following is a copy of the Act passed by the State Legislature in 1889 for the opening, etc., of streets. It provides solely for acquiring the land necessary for the purpose and does not contemplate or authorize in any way any street work to be done.

The grading or improvement of a street after the land is acquired must be done under the so-called Street Law, and the proceedings are entirely separate and distinct from that to acquire the lands:

AN ACT TO PROVIDE FOR LAYING OUT, OPENING, EXTENDING, WIDENING, STRAIGHTENING OR CLOSING UP IN WHOLE OR IN PART ANY STREET, SQUARE, LANE, ALLEY, COURT OR PLACE WITHIN MUNICIPALITIES AND TO CONDEMN AND ACQUIRE ANY AND ALL LAND AND PROPERTY NECESSARY OR CONVENIENT FOR THAT PURPOSE.

Approved, March 6, 1889.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Whenever the public interest or convenience may require, the City Council of any municipality shall have full power and authority to order the opening, extending, widening, straightening or closing up in whole or in part of any street, square, lane, alley, court or place within the bounds of such city, and to condemn and acquire any and all land and property necessary or convenient for that purpose.

SECTION 2. Before ordering any work to be done or improvement made which is authorized by Section 1 of this Act the City Council shall pass a resolution declaring its intention to do so, describing the work or improvement and the land deemed necessary to be taken therefor, and speci-

fying the exterior boundaries of the district of land to be affected or benefited by said work or improvement and to be assessed to pay the damages, cost and expenses thereof.

SECTION 3. The Street Superintendent shall then cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than 300 feet in distance apart, but not less than three in all, notices of the passage of said resolution. Said notice shall be headed, "Notice of Public Work," in letters not less than one inch in length, shall be in legible characters, state the fact of passage of the resolution, its date, and, briefly, the work or improvement proposed, and refer to the resolution for further particulars. He shall also cause a notice similar in substance to be published for a period of ten days in one or more daily newspapers, published and circulated in said city, and designated by said City Council; or if there is no daily newspaper so published and circulated in said city, then by four successive insertions in a weekly or semi-weekly newspaper so published, circulated and designated.

SECTION 4. Any person interested objecting to said work or improvement, or to the extent of the district of lands to be affected or benefited by said work or improvement, and to be assessed to pay the cost and expenses thereof, may make written objections to the same within ten days after the expiration of the time of the publication of said notice, which objection shall be delivered to the Clerk of the City Council, who shall endorse thereon the date of its reception by him, and at the next meeting of the City Council, after the expiration of said ten days, lay said objections before said City Council, which shall fix a time for hearing said objections not less than one week thereafter. The City Clerk shall thereupon notify the persons making such objections, by depositing a notice thereof in the Postoffice of said city, postage prepaid, addressed to such objector.

SECTION 5. At the time specified or to which the hearing may be adjourned, the said City Council shall hear the objections urged and pass upon the same, and its decisions shall be final and conclusive. If such objections are sustained all proceedings shall be stopped, but proceedings may be again commenced at any time by giving notice of intention to do said work or make said improvement. If such objection is overruled by the City Council the proceedings shall continue the same as if such objection had not been made. At the expiration of the time prescribed during which objections to said work or improvement may be made, if no objections shall have been made, or if an objection shall have been made and said Council, after hearing, shall have overruled the same, the City Council shall be deemed to have acquired jurisdiction to order any of the work to be done, or improvements to be made, which is authorized by Section 1 of this Act.

SECTION 6. Having acquired jurisdiction, as provided in the preceding section, the City Council shall order said work to be done, and unless the proposed work is for closing up, and it appears that no assessment is necessary, shall appoint three Commissioners to assess benefits and damages, and have general supervision of the proposed work or improvement until the completion thereof, in compliance with this statute. For their services they shall receive such compensation as the City Council may determine from time to time; provided, that such compensation shall not exceed two hundred dollars per month each, nor continue more than six months, unless extended by order of the City Council. Such compensation shall be added to and be chargeable as a part of the expenses of the work or improvement. Each of said Commissioners shall file with the Clerk of the City Council an affidavit and a bond to the State of California, in the sum of five thousand dollars, to faithfully perform the duties of his office. The City Council may at any time remove any or all of said Commissioners for cause, upon reasonable notice and hearing, and may fill any vacancies occurring among them for any cause.

SECTION 7. Said Commissioners shall have power to employ such assistants, legal or otherwise, as they may deem necessary and proper; also to rent an office and provide such maps, diagrams, plans, books, stationery, fuel, lights, postage, expressage, and incur such incidental expenses as they may deem necessary.

SECTION 8. All such charges and expenses shall be deemed as expenses of said work or improvement, and be a charge only upon the funds devoted to the particular work or improvement, as provided hereinafter. All payments as well for the land and improvements taken or damaged, a for the charges and expenses, shall be paid by the City Treasurer, upon warrants drawn upon said fund, from time to time, signed by said Commissioners or a majority of them. All such warrants shall state whether they are issued for land or improvements taken or damaged, or for charges and expenses, and that the demand is payable only out of the money in said fund, and in no event shall the city be liable for the failure to collect any assessment made by virtue hereof, nor shall said warrant be payable out of any other fund, nor a claim against the city.

SECTION 9. Said Commissioners shall proceed to view the lands described in the resolution of intention, and may examine witnesses on oath to be administered by any one of them. Having viewed the land to be taken and the improvements affected, and considered the testimony presented, they shall proceed with all diligence to determine the value of the land and the damage to improvement and property affected, and also the amount of the expenses incident to said work or improvement, and, having determined the same, shall proceed to assess the same upon the district of lands declared benefited, the exterior boundaries of which were fixed by the resolution of intention provided for by Section 2 hereof. Such assessment shall be made upon the lands within said district in proportion to the benefit to be derived from said work or improvement, so far as the said Commissioners can reasonably estimate the same, including in such estimate the property of any railroad company within said district, if such there be.

SECTION 10. Said Commissioners having made their assessment of benefits and damage, shall, with all diligence, make a written report thereof to the City Council, and shall accompany their report with a plat of the assessment district, showing the land taken or about to be taken for the work or improvement, and the lands assessed, showing the relative location of each district, block, lot or portion of lot, and its dimensions, so far as the Commissioners can reasonably ascertain the same. Each block and lot, or portion of lot, taken or assessed, shall be designated and described in said plat by an appropriate number, and a reference to it by such descriptive number shall be a sufficient description of it in any suit entered to condemn and in all respects. When the report and plat are approved by the City Council a copy of said plat appropriately designated shall be filed by the clerk thereof in the office of the Recorder of the county.

SECTION 11. Said report shall specify each lot, subdivision, or piece of property taken, or injured by the widening or other improvement, or assessed therefor, together with the name of the owner or claimant thereof, or of persons interested therein, as lessees, incumbrances or otherwise, so far as the same are known to such Commissioners, and the particulars of their interests so far as the same can be ascertained, and the amount of value or damage, or the amount assessed, as the case may be.

SECTION 12. If in any case the Commissioners find that conflicting claims of title exist, or shall be in ignorance or doubt as to the ownership of any lot of land, or of any improvements thereon, or any interest therein, it shall be set down as belonging to unknown owners. Error in the designation of the owner or owners of any land or improvements, or of the particulars of their interest, shall not affect the validity of the assessment or the condemnation of the property to be taken.

SECTION 13. Said report and plat shall be filed in the Clerk's Office of the City Council, and thereupon the Clerk of said City Council shall give notice of such filing by publication for at least ten days in one or more daily newspapers published and circulated in said city; or if there be no daily newspaper, by three successive insertions in a weekly or semi-weekly newspaper, so published and circulated. Said notice shall also require all persons interested to show cause, if any, why such report should not be confirmed, before the City Council, on or before a day fixed by the Clerk thereof and stated in said notice, which day shall not be less than thirty days from the first publication thereof.

SECTION 14. All objections shall be in writing and filed with the Clerk of the City Council, who shall, at the next meeting, after the day fixed in the notice to show cause, lay the said objections, if any, before the City Council, which shall fix a time for hearing the same, of which the Clerk shall notify the objectors in the same manner as objectors to the original resolution of intention at the time set, or at such other time as the hearing may be adjourned to, the City Council shall hear such objections and pass upon the same; and at such time, or if there be no objections, at the first meeting after the day set in such order to show cause, or such other time as may be fixed, shall proceed to pass upon such report, and may confirm, correct or modify the same, or may order the Commissioners to make a new assessment, report and plat, which shall be filed, notice given and hearing had as in the case of an original report.

SECTION 15. The Clerk of said City Council shall forward to the Street Superintendent of the city a certified copy of the report, assessment and plat, as finally confirmed and adopted by the City Council. Such certified copy shall thereupon be the assessment roll. Immediately upon receipt thereof by the Street Superintendent the assessment therein contained shall become due and payable, and shall be a lien upon all the property contained or described therein.

SECTION 16. The Superintendent of Streets shall thereupon give notice by publication for ten days in one or more daily newspapers published and circulated in such city, or city and county, or

by two successive insertions in a weekly or semi-weekly newspaper so published and circulated, that he has received said assessment roll, and that all sums levied and assessed in said assessment roll are due and payable immediately, and that the payment of said sums is to be made to him within thirty days from the date of the first publication of said notice. Said notice shall also contain a statement that all assessments not paid before the expiration of said thirty days will be declared to be delinquent, and that thereafter the sum of 5 per cent. upon the amount of each delinquent assessment, together with the cost of advertising each delinquent assessment, will be added thereto. When payment of any assessment is made to said Superintendent of Streets, he shall write the word "paid" and the date of payment opposite the respective assessment so paid, and the names of persons by or for whom said assessment is paid, and shall, if so required, give a receipt therefor. On the expiration of said thirty days all assessments then unpaid shall be and become delinquent, and said Superintendent of Streets shall certify such fact at the foot of said assessment roll and shall add 5 per cent. to the amount of each assessment so delinquent. The said Superintendent of Streets shall, within five days from the date of said delinquency, proceed to advertise and collect the various sums delinquent and the whole thereof, including the cost of advertising, which last shall not exceed the sum of fifty cents for each lot, piece or parcel of land separately assessed, by the sale of the assessed property in the same manner as is or may be provided for the collection of State and county taxes; and after the date of said delinquency, and before the time of said sale herein provided for, no assessment shall be received unless at the same time the 5 per cent. added thereto, as aforesaid, together with the costs of advertising then already incurred, shall be paid therewith. Said list of delinquent assessments shall be published daily for five days in one or more daily newspapers published and circulated in such city, or by at least one insertion in a weekly newspaper so published and circulated, before the day of sale of such delinquent assessment. Said time of sale must not be less than seven days from the date of the first publication of said delinquent assessment list, and the place must be in or in front of the office of said Superintendent of Streets. All property sold shall be subject to redemption in the same time and manner as in sales for delinquent State and county taxes; and the Superintendent of Streets may collect for each certificate fifty cents, and for each deed one dollar. All provisions of the law in reference to the sale and redemption of property for delinquent State and county taxes in force at any given time shall also then, so far as the same are not in conflict with the provisions of this Act, be applicable to the sale and redemption of property for delinquent assessments hereunder, including the issuance of certificates and the execution of deeds. The deed of the Street Superintendent made after such sale, in case of failure to redeem, shall be prima facie evidence of the regularity of all proceedings hereunder and of title in the grantee. It shall be conclusive evidence of the necessity of taking or damaging the lands taken or damaged, and of the correctness of the compensation awarded therefor. The Superintendent of Streets shall, from time to time, pay over to the City Treasurer all moneys collected by him on account of any such assessments The City Treasurer shall, upon receipt thereof, place the same in a separate fund, designating such fund by the name of the street, square, lane, alley, court or place for the widening, opening or other improvement of which the assessment was made. Payments shall be made from said fund to the parties entitled thereto upon warrants signed by the Commissioners, or a majority of them.

SECTION 17. When sufficient money is in the hands of the City Treasurer in the fund devoted to the proposed work or improvement to pay for the land or improvements taken or damaged, and when in the discretion of the Commissioners, or a majority of them, the time shall have come to make payments, it shall be the duty of the Commissioners to notify the owner, possessor or occupant of any land or improvements thereon to whom damages shall have been awarded, that a warrant has been drawn for the payment of the same, and that he can receive such warrant at the office of such Commissioners upon tendering a conveyance of any property to be taken; such a notification, except in the case of unknown owners, to be made by depositing a notice, postage paid, in the postoffice, addressed to his last known place of abode or residence. If at the expiration of thirty days after the deposit of such notice he should not have applied for such warrant and tendered a conveyance of the land to be taken, the warrant so drawn shall be deposited with the County Treasurer and shall be delivered to such owner, possessor or occupant upon tendering a conveyance as aforesaid, unless judgment of condemnation shall be had, when the same shall be canceled.

SECTION 18. If any owner of land to be taken neglects or refuses to accept the warrant drawn in his favor, as aforesaid, or objects to the report as to the necessity of taking his land, the Commissioners, with the approval of the City Council, may cause proceedings to be taken for the condemnation thereof, as provided by law under the right of eminent domain. The complaint may

aver that it is necessary for the city to take or damage and condemn the said lands, or an easement therein, as the case may be, without setting forth the proceedings herein provided for, and the resolution and ordinance ordering said work to be done shall be conclusive evidence of such necessity. Such proceedings shall be brought in the name of the municipality, and have precedence so far as the business of the court will permit; and any judgment for damages therein rendered shall be payable out of such portion of the special fund as may remain in the treasury, so far as the same can be applied. At any time after trial and judgment entered, or preceding an appeal, the Court may order the City Treasurer to set apart in the city treasury a sufficient sum from the fund appropriated to the particular improvement to answer the judgment and all damages, and thereupon may authorize and order the municipality to enter upon the land and proceed with the proposed work and improvement. In case of a deficiency in said fund to pay the whole of said judgment and damages, the City Council may, in their discretion, order the balance thereof to be paid out of the General Fund of the Treasury or to be distributed by the Commissioners over the property assessed by a supplementary assessment; but in the last-named case, in order to avoid delay, the City Council may advance such balance out of any appropriate fund in the treasury and reimburse the same from the collections of the assessment. Pending the collection and payment of the amount of the judgment and damages, the Court may order such stay of proceedings as may be necessary.

SECTION 19. The Treasurer shall pay such warrants out of the appropriate fund, and not otherwise, in the order of their presentation; provided, that warrants for land or improvements taken or damaged shall have priority over warrants for charges and expenses, and the Treasurer shall see that sufficient money is and remains in the fund to pay all warrants of the first-class before paying any of the second.

SECTION 20. If after the sale of the property for delinquent assessments there should be a deficiency, and there should be unreasonable delay in collecting the same, or if for the purpose of equalizing the assessments supplying a deficiency, or for any cause it appears desirable, the Commissioners may so report to the City Council, who may order them to make a supplementary assessment and report the same in manner and form as the original and subject to the same procedure. If by reason of such supplementary assessment, or for any cause, there should be at any time a surplus, the City Council may appropriate the same and declare a dividend pro rata to the parties paying the same, and they, upon demand, shall have the right to have the amount of such pro rata dividends refunded to them, or credited upon any subsequent assessment for taxes made against said parties in favor of said city.

SECTION 21. If any title attempted to be acquired by virtue of this Act shall be found to be defective from any cause, the City Council may again institute proceedings to acquire the cause as in this Act provided, or otherwise, or may authorize the Commissioners to purchase the same and include the cost thereof in a supplementary assessment, as provided in the last section.

SECTION 22. If the City Council deem it proper that the boundaries of the districts of lands to be affected and assessed to pay the damages, cost and expenses of any work or improvement under this Act shall include the whole city, then the Commissioners appointed shall proceed in a summary manner to purchase the lands to be taken and condemned from the owners and claimants thereof. If said Commissioners and the owners and claimants cannot agree upon the price to be paid for said lands, they shall proceed to view and value the same, and shall thereupon make a summary report to the City Council. Upon final confirmation of the report the City Council, if there be not sufficient money available in the City Treasury, shall cause the cost and expenses of the contemplated public improvement to be assessed upon the whole of the taxable property of said city, and to be included in and form part of the next general assessment roll of said city, and with like effect in all respects as if the same formed a part of the city, State and county taxes; and when the same shall have been collected the said City Council shall cause the land required to be paid for or the value thereof tendered, and the said contemplated public improvement to be forthwith made and completed. All the provisions of the preceding sections not in conflict with this section shall be applicable thereto.

SECTION 23. 1. The words "work" and "improvement," as used in this Act, shall include all work mentioned in Section 1 of this Act.

2. In case there is no daily or weekly or semi-weekly newspapers printed and circulated in the city, then such notices as are herein required to be published in a newspaper shall be posted and kept posted for the length of time required herein for the publication of the same in a weekly newspaper, in three of the most public places in such city. Proof of the publication or posting of any notice provided for herein shall be made by affidavit of the owner, publisher or clerk of the newspaper, or of the poster of the notice.

3. The word "municipality" and the word "city" shall be understood and so construed as to include all corporations heretofore organized and now existing, or hereafter organized, for municipal purpose.

4. The term Street Superintendent and Superintendent of Streets, as used in this Act, shall be understood and so construed as to include, and are hereby declared to include, any person or officer whose duty it is, under the law, to have the care or charge of the streets, or the improvement thereof, in any city. In all those cities where there is no Street Superintendent or Superintendent of Streets, the City Council thereof is hereby authorized and empowered to appoint a suitable person to discharge the duties herein laid down as those of Street Superintendent or Superintendent of Streets, and all the provisions hereof applicable to the Street Superintendent or Superintendent of Streets shall apply to such persons so appointed.

5. The term "City Council" is hereby declared to include any body or board which, under the law, is the legislative department of the government of any city.

6. The term "Clerk" and "City Clerk" as used in this Act, is hereby declared to include any person or officer who shall be Clerk of said City Council.

7. The term "Treasurer" or "City Treasurer" as used in this Act shall include any person or officer who shall have charge and make payment of the city funds.

8. No publications or notice other then that provided for in this Act shall be necessary to give validity to any proceedings had thereunder.

SECTION 24. The proceedings in any work or improvement such as is provided for in this Act, already commenced and now progressing under any other Act now in force, or by virtue of any ordinance passed by any City Council, or Board of Supervisors of any city, county, or city and county, by virtue of any other Act now enforced, may, from any stage of such proceedings already commenced and now progressing, be continued under this Act by resolution of the City Council. The said work or improvement may then be conducted under the provisions of this Act, with full force and effect in all respects, from the stage of such proceedings under such other Acts or ordinances at and from which such resolutions shall declare an election or intention to have said work or improvement cease under such other Act or ordinance and continue under this Act; and from such election so made all proceedings theretofore had under such other Act or ordinance are hereby ratified, confirmed and made valid, and it shall be unnecessary to renew or conduct over again proceedings had under such other Act or ordinance. This section shall not apply to any work or improvement proceedings in which were commenced more than eighteen months prior to the passage of this Act.

SECTION 25. The provisions of this Act shall be liberally construed to promote the objects thereof. This Act shall take effect and be in force from and after its passage.

OPENING OF HOWARD STREET

FROM TWENTY-SIXTH STREET TO NORTH AVENUE.

On July 26, 1889, a petition was received by the Board from residents and owners of property within the district lying south of Twenty-sixth street and between Folsom and Mission streets, representing that they were subject to serious inconvenience and loss caused by their total isolation from the city proper and their inability to pass to and from their property without taking a long and circuitous route and requesting the condemnation of the necessary property upon the line of Howard street south from Twenty-sixth street for the projection of said street to North Avenue.

The petition was referred by the Board to its Committee on Streets (consisting of Supervisors Bingham, Barry, Pilster and Noble) who on September 1, 1889, reported in favor of the proposed extension, and pursuant to the recommendation the Board by Resolution No. 2344 (Third Series) referred the application to the Surveyor with instructions to report a description of the land to be taken, also a description of the property deemed interested or affected, and which should be assessed to pay for the land to be taken and the damages to improvements, if any, caused by the projection.

On November 25, 1889, a survey of the proposed line having been made, a petition was received from property owners interested, requesting the assessment district be fixed as follows: "For one

thousand feet upon both sides of that portion of the projected street from Twenty-sixth street south to its intersection with North avenue, and for one thousand feet upon both sides of North avenue from its point of intersection with the proposed street to its extreme southerly limit on the Holly Park Tract. Said assessment to be graduated, each block upon the entire line and lying within the thousand feet, both east and west, of the said Howard street and North avenue extension to be assessed differently (or as the Act approved March 6, 1889, Section 9, requires) in proportion to the benefits derived by proximity to or by remoteness from the proposed improvement." The petitioners further desired that the commissioners to be appointed be chosen and selected from actual residents and property holders in the assessment district.

The Committee on Streets, who were in receipt of the description of the land to be taken as prepared by the City and County Surveyor on December 12, 1889, instructed the Superintendent of Streets to act in conjunction with the committee in making an examination into and in designating the district to be benefited and assessed for said improvement. On December 23, 1889, the Resolution of Intention (No. 2817, Third Series) having been prepared, its passage was recommended to the Board, who adopted the same on the above date.

In conformity with the provisions of the Act of the Legislature of 1889, notices of such projection of Howard street were posted along the line of said street and also published by the Superintendent of Public Streets, as the preparatory step in this proceeding.

On January 9, 1890, a protest of property owners was filed against the extent of the assessment district and representing that said district was too small, and that a large tract of land and property on both sides of North avenue, between Courtland avenue and Holly Park, is excluded from the said original proposed assessment district, although said land and property will be equally benefited by said proposed extension, and requesting that the said land be included in the district benefited. The protest was referred to the Committee on Streets, and after hearing the property owners and examining the extent of the district described, reported to the Board of Supervisors on January 27, 1890, in favor of the said protest and of the repeal of all proceedings heretofore had, also in favor of the Board declaring its intention to open and project said street and of defining the extent of the district to be assessed, in accordance with the petition of property owners, which action as recommended was taken by the Board. The following is a copy of Resolution No. 2940 (Third Series), declaring the intention of the Board to extend said street, to wit:

RESOLUTION No. 2940 (THIRD SERIES).

HOWARD STREET EXTENSION.

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the opening and extending of Howard street from its present termination southerly to North avenue, within the boundary of said city and county, through the land and lots of land hereinafter described, and to condemn and acquire for public use a strip of land eighty-two (82) feet and six (6) inches in width, and all property within the lines of said Howard street so extended southerly, as proposed herein, deemed necessary and convenient for the said opening and extending of said street.

Resolved, That the land and property deemed necessary to be taken for the said opening and extending of said Howard street from its present termination southerly to North avenue comprises all the land and property included within the following described boundaries which are not already held by the said city and county and by the People of the State of California as open public streets or highways, to wit: Commencing at a point on the northwesterly line of North avenue, where the westerly line of Howard street, if projected southerly, will intersect the said northwesterly line of North avenue; thence running northerly along the said westerly line of Howard street, if the same be projected southerly from its present termination to its point of intersection with the southerly line of Twenty-sixth street; thence running easterly along the said southerly line of Twenty-sixth street to its point of intersection with the easterly line of Howard street, if projected in a southerly direction; thence running southerly along the said easterly line of Howard street, if projected in a southerly direction from its present termination and parallel to said first above-described course to the point of intersection of said easterly line of Howard street, if projected southerly, with the said northwesterly line of North avenue, and thence running southwesterly along said northwesterly line of North avenue to the said point of commencement.

Resolved, That it is the intention of said Board to order that the said land and property as herein described, deemed necessary as aforesaid, be taken for the said opening and extending of said Howard street, be condemned, appropriated, acquired, set apart and taken for public use for the said opening and extending of said Howard street, as aforesaid; and further,

Resolved, That the exterior boundaries of the district of lands to be affected and benefited by said work and improvement, and to be assessed to pay the damages, cost and expenses thereof, are as follows, to-wit:

Commencing at a point on the southerly line of Twenty-sixth street, distant one thousand (1000) feet easterly from the easterly line of Howard street, if the same be projected southerly to intersect said line of Twenty-sixth street; thence running southerly on a line parallel to easterly line of Howard street if produced southerly, to a point where said line parallel to said easterly line of Howard street will intersect a line parallel to the southeasterly line of North avenue and distant therefrom one thousand (1000) feet in a southeasterly direction; thence running southwesterly on a line parallel to said southeasterly line of North avenue and distant therefrom one thousand (1000) feet in a southeasterly direction to a point of intersection with a line projected at right angles to the southeasterly line of North avenue and intersecting said southeasterly line of North avenue at its southwesterly termination; thence running at right angles northwesterly to a point distant one thousand (1000) feet northwesterly from the northwesterly line of North avenue; thence running northeasterly on a line parallel with the northwesterly line of North avenue and distant therefrom one thousand (1000) feet in a northwesterly direction to its point of intersection with a line parallel to the westerly line of Howard street, if projected in a southerly direction, and distant therefrom one thousand (1000) feet in a westerly direction; thence running northerly on a line parallel with the westerly line of Howard street, if projected in a southerly direction, and distant therefrom one thousand (1000) feet in a westerly direction to a point on the southerly line of Twenty-sixth street, distant one thousand (1000) feet westerly from the westerly line of Howard street, if projected in a southerly direction, and running thence easterly along said southerly line of Twenty-sixth street two thousand and eighty-two (2082) feet and six (6) inches to the point of commencement.

And the Clerk is hereby directed to advertise this resolution in the San Francisco Daily Report newspaper, as required by law.

In Board of Supervisors, San Francisco, January 27, 1890.

Adopted by the following vote:

Ayes—Supervisors Bingham, Wright, Boyd, Ellert, Wheelan, Becker, Pilster, Kingwell, Barry.

Absent—Supervisors Pescia, Bush, Noble.

JNO. A. RUSSELL, Clerk.

On January 28, 1890, a petition was received from the Howard Street Improvement and Extension Club requesting the appointment of Messrs. J. W. Sandy, R. Doran and S. Peterson as Commissioners to assess the benefits and damages resulting from such extension, which petition was received and after reference to the Committee on Streets, duly considered and ordered placed on file. On February 8, 1890, a protest was received from David N. Walter, the owner of lots No. 114 to 118, inclusive, of the Precita Valley Lands, representing that said lands front on Folsom street and Precita avenue and that Folsom street is a parallel street with Howard street and affords all the facilities and benefits a main thoroughfare possibly could give; also that as the contemplated opening of Howard street could not in any wise benefit his property requesting the same to be excluded from the assessment district. On Monday evening, March 3, 1890, by Resolution 3088 (Third Series) the Board provided for giving notice to, and for hearing David N. Walter on Monday evening, March 10, 1890; at which time the said objector and R. H. Lloyd Esq., his attorney, were heard. Jefferson Martenet, President of the Howard Street Extension and Improvement Club, was also heard, who urged the carrying out of the improvement as projected. The whole matter was referred to the Committee on Streets to consider and report upon the proper action to be taken, who at a meeting of the Board held on March 17, 1891, reported in favor of overruling the objections, also that the Commissioners to be appointed are the parties to determine the amount of benefits, if any, and to adjust the same so that no unjust burden shall be imposed. On March 31, 1890, the Board by Resolution No. 3246 (Third Series) overruled the objections and on the same date by Resolution No. 3247 appointed Frank McCoppin, D. J. Toohy and J. Downey Harvey as the Commissioners to assess the benefits and damages resulting from the opening and extending of Howard street to a uniform width of eighty-two and one-half (82½) feet from its present termination southerly to North avenue. Subsequently,

on April 14, 1890, the Board adopted Order No. 2204, opening and extending Howard street and again appointing the gentlemen heretofore designated as the Commissioners, the following being a copy of the said order, to wit:

ORDER No. 2204.

OPENING AND EXTENDING HOWARD STREET FROM ITS PRESENT TERMINATION SOUTHERLY TO NORTH AVENUE, WITH A UNIFORM WIDTH OF EIGHTY-TWO FEET SIX INCHES.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Howard street is hereby declared to be an open public street of the City and County of San Francisco from its present southerly termination to North avenue.

The said street as extended, embracing all the land included in the boundaries hereinafter described, is hereby condemned, appropriated, acquired, set apart and taken for public use, except those portions of said lands included therein and now held by the city and county as open public streets or highways, to wit:

Commencing at a point on the northwesterly line of North avenue, where the westerly line of Howard street, if projected southerly, will intersect the said northwesterly line of North avenue; thence running northerly along the said westerly line of Howard street, if the same be projected southerly from its present termination to its point of intersection with the southerly line of Twenty-sixth street; thence running easterly along the said southerly line of Twenty-sixth street to its point of intersection with the easterly line of Howard street, if projected in a southerly direction; thence running southerly along the said easterly line of Howard street, if projected in a southerly direction from its present termination, and parallel to said first above-described course to the point of intersection of said easterly line of Howard street, if projected southerly with the said northwesterly line of North avenue, and thence running southwesterly along said northwesterly line of North avenue to the said point of commencement.

SECTION 2. Frank McCoppin, D. J. Toohy and J. Downey Harvey, all of the City and County of San Francisco, are hereby appointed Commissioners to assess the benefits and damages resulting from the opening and extending of said Howard street as provided for in Resolution No. 2940 (Third Series) of this Board, and to have and to exercise general supervision of the proposed work or improvement until the completion thereof, pursuant to the provisions of the Act of the Legislature of the State of California, entitled, "An Act to provide for laying out, opening, extending, widening, straightening or closing up in whole or in part any street, square, lane, alley, court or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose." Approved March 6, 1889.

And the Clerk is hereby directed to advertise this order as required by law.

In Board of Supervisors, San Francisco, April 14, 1890.

Adopted by the following vote:

Ayes—Supervisors Bingham, Wright, Boyd, Bush, Wheelan, Becker, Pilster, Kingwell, Barry, Noble.

No—Supervisor Ellert.

Absent—Supervisor Pescia.

JNO. A. RUSSELL, Clerk.

The Commissioners appointed filed oaths of office and bonds in the sum of $5,000 each on April 24, 1890; that of Frank McCoppin with Lloyd Tevis and Thomas Brown as sureties; that of D. J. Toohy with J. L. Flood and M. Hart as sureties, and that of J. Downey Harvey with L. L. Robinson and J. B. Randol as sureties.

On September 29, 1890, the Board of Supervisors by Order No. 2269 extended the time allowed the Commission for a period of six months from and after October 14, 1890, at a compensation of $200 per month, and on April 13, 1891, by Resolution No. 5011 (Third Series) a further extension of sixty days' time was granted, in which to enable the Commissioners to complete their labors.

On June 1, 1891, the Commissioners filed their report of the assessment of benefits and damages, with map book containing plats of the assessment district, showing the land taken or to be taken for the extension of Howard street and the lands assessed therefor; the total amount assessed aggregating $82,500, of which $62,281 was for the payment for land taken and damages to improvements, $15,944 for the expense of the Commission, and $4,275 for incidental and contingent

expenses required to defray expenditures to accrue to carry out the provisions of the statute and complete the work.

The following is a copy of the Report of the Commissioners, viz:

REPORT OF COMMISSIONERS.

To the Honorable the Mayor and the Board of Supervisors
Of the City and County of San Francisco, State of California:

GENTLEMEN: Your Commissioners, the undersigned, appointed by your Honorable Board under the provisions of an Act of the Legislature of California, en titled "An Act to provide for the laying out, opening, extending, widening, straightening or closing up, in whole or in part, any street, square, lane, alley, court or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose," approved March 6, 1889, and by Order No. 2204 of your Honorable Board and all subsequent orders thereto relating, in conformity with which said act and orders your Commissioners were authorized and directed to take the necessary steps thereunder for the opening and extension of Howard street from Twenty-sixth street to North avenue, beg leave respectfully to report that in pursuance of said appointment and the provisions of said act and orders they have had proper surveys made by a competent civil engineer, S. H. Smith, Esq. of the lands necessarily included in the district created and designated for the purposes aforesaid; that they have made, as they believe, a just and equitable appraisement of damages for the land and other property required to be condemned and acquired for the opening and extending of said Howard street between Twenty-sixth street and North avenue, and have also assessed the benefits thereby accruing and to accrue to the land and other property within said designated district; and your Commissioners have ascertained the probable amount of all the damages and expenses incurred and to be incurred, as nearly as may be, for the carrying out and completion of the matters so intrusted to them, all of which damages, expenses and assessed benefits are fully set forth in the accompanying volume, prepared under the direction of and by your Commissioners.

The accompanying maps, made under and by virtue of the authority vested in your Commissioners, contain a full and complete outline and detail of said district, together with the pending improvements, and are made part of this report.

The appraisement of the value of the lands and improvements to be condemned and acquired amounts to	$62,281 00
Commissioners' salaries	8,400 00
Attorney's fees for examining and passing upon titles and preparing deeds	900 00
Experts and clerk hire	3,000 00
Surveys, map and block books	1,700 00
Abstract of property condemned	450 00
Stationery, printing and books	94 00
Secretary's salary	1,400 00
	$78,225 00
The aggregate assessment, covering 2,186 lots	$82,500 00

Expenses other than those already ascertained by the Commissioners are liable to be incurred for advertising and other incidental matters, which must necessarily be provided for by the assessment, hence the apparent surplus of $4,275 00 over the amount definitely ascertained at this date.

No part of the cost and expense of the work can be made a charge against the city and county. Your Commissioners are confident that the assessment will be ample for all necessary purposes.

Respectfully submitted,

FRANK McCOPPIN,
J. DOWNEY HARVEY,
D. J. TOOHY,
Commissioners for the Extension and Opening of Howard Street from Twenty-sixth Street to North Avenue.

Dated San Francisco, May 22, 1891.

After the filing of the foregoing report the following notice, as required by law, was published in the Daily Morning Call, Evening Post and S. F. Daily Report newspapers:

NOTICE

OF THE FILING OF REPORT OF COMMISSIONERS FOR THE OPENING AND EXTENDING OF HOWARD STREET FROM ITS PRESENT TERMINATION TO NORTH AVENUE.

CLERK'S OFFICE BOARD OF SUPERVISORS,
CITY AND COUNTY OF SAN FRANCISCO, JUNE 9, 1891.

In compliance with law and the direction of the Board of Supervisors of said city and county, public notice is hereby given that the Commissioners heretofore appointed for the opening and extending of Howard street from its present termination to North avenue, filed in this office on June 1, 1891, their report of the assessment made for benefits and damages in the opening and extending of the street herein named, accompanied by plats, maps, plans and diagrams of the assessment district, showing the land taken or to be taken for said opening and extending of said street and the lands assessed therefor. Also that said report and plans, etc., are and will be open for inspection in this office, and all persons interested are hereby required to show cause on or before July 13, 1891, if any, why such report should not be confirmed by the Board of Supervisors of said city and county. All objections to the confirmation of said report, etc., must be made in writing and filed with the Clerk of said Board on before Thursday, the 9th day of July, 1891.

JNO. A. RUSSELL, Clerk.

Various property-owners filed objections to the confirmation of the said report and assessment, and on July 20, 1891, the Board of Supervisors, by Resolution No. 5510 (Third Series), provided for issuing notice to said objectors and set the time for hearing all parties interested on Monday evening, July 27, 1891, which notices were mailed, postage paid, to each of said objectors.

The reasons given by objectors being substantially as follows:

First—Eliza M. Sanborn, June 30, 1891, that said Commissioners have not valued her lot of land and improvements thereon at their full cash value.

Second—Peter Healey, June 30, 1891, that the assessments upon lots are not in equal ratio; that the allowance made to the Secretary of the Commission for services is excessive; that no fees should be allowed as attorney's fees, one of the Commissioners being an attorney.

Third—Mrs. A. Sykes, June 30, 1891, that the assessments upon lots are not in equal ratio.

Fourth—Bartholomew Healey, June 30, 1891, that the assessments upon lots are not in equal ratio; that the allowance made to the Secretary of the Commission is excessive, and that no allowance should be made for attorney's fees.

Fifth—N. Jung; sixth, Emma E. Gilmore; seventh, Theresa Smith; eighth, Bridget Stender; ninth, Catherine Delaney; filed on June 30, 1891; that the assessments upon the lots are not in equal ratio.

Tenth—Mrs. H. F. Sanborn; Eleventh, August Voss and Paulina Voss, his wife, on June 30, 1891; that the valuation of the strips of land to be taken from their lots is too low; and for other reasons.

Twelfth—Property owners (by K. M. Smith, attorney for protestants, July 8, 1891), that Commissioners have not been impartial in levying assessments and have allowed excessive damages for lands to be taken; that the assessments on lots and lands are not in equal ratio.

Thirteenth—James Daley, July 13, 1891—That the assessment is excessive and disproportionate.

Fourteenth—Charles S. Capp, July 13, 1891—That the land adjoining his on every side is appraised higher than his and that the allowance to him is therefore unfair because unequal and insufficient.

Fifteenth—Peter T. Seculovich, July 13, 1891—That the law under which proceedings heretofore had is illegal and void; that the price proposed to be paid for his property is inadequate, unjust and illegal, and the property proposed to be taken is worth, with damages, $5,000.

Sixteenth--Mrs. T. Price; seventeenth, Marie L. Ross; eighteenth, Thomas Shore and wife; filed July 13, 1891—That their assessment is excessive and unjust, and for other reasons.

On Monday evening, July 27, 1891, and on Wednesday forenoon, July 29, 1891, E. J. Mize and K. M. Smith, attorneys for some of the property owners, were heard. Jas. Daley, J. H. Henderson Chas. S. Capp, Peter T. Seculovich, Thos. Shore, O. B. Rogers, Peter Healey, Thos. Brown, M. Bohen, Mrs. A. M. Nichol, Mary A. Mertes, Bridget Hughes and other property owners were heard. At a meeting of the Board held on August 3, 1891, the Board, by Resolution No. 5563 (Third Series), after reciting that all objections had been heard, referred the whole matter to the Street Committee to examine said assessment, etc., and report the proper action to be taken.

On October 12, 1891, the Committee on Streets presented a report embodying various alterations in the assessments, which their investigation justified as to various portions of the district deemed benefited, recommending their adoption and the confirmation of the report as so amended. At the same meeting the Board by Resolution No. 5865 (Third Series) recited that, having heard and considered the objections to the report, the Board would pass upon the said report and objections on Monday evening, October 19, 1891. On said last named date Messrs. James Noonan, Thos. Brown, M. Bogue and other property owners were heard in opposition to the confirmation of said report as modified and corrected. Also, Mr. R. H. Sinton, expert, on behalf of the Commissioners as to the principles of valuation adopted and as to the assessments made. After consideration a motion by Supervisor Burling that the report as modified by the Board be confirmed, was lost; Supervisors Jackson, Burling, Hunt, Taber and Wilkinson voting in favor; Supervisors Ellert, Carnes, Coffee and Heyer voting against, and Supervisor Curtis being excused from voting; Supervisors Evans and Ayer being absent. At a meeting of the Board, held on October 26, 1891, on motion of Supervisor Taber, the report, assessment and plat of the Commissioners for the opening of Howard street were referred back to the Committee on Streets, and the members of the Board requested to attend a meeting of said committee, to be held on Thursday afternoon, October 29, 1891, at 2 o'clock, Supervisors Jackson, Curtis, Carnes, Coffee, Hunt, Taber and Wilkinson voting in favor; Supervisors Burling, Ayer, Ellert and Heyer voting against; Supervisor Evans being absent.

On November 16, 1891, the Committee on Streets presented a report to the Board on this matter, of which the following is a copy:

"In the matter of the extension of Howard street and the report and assessment made by the Commissioners, which have been under consideration and engaged the attention of your Committee for some time past, and whilst every effort has been made by the property owners for and against the confirmation of the report, no entirely satisfactory conclusion could be reached. The modifications recommended from time to time supposed to correct or modify assessments for benefits, have only disclosed other matters requiring revision, and the result has not been satisfactory. At a meeting held on the 13th instant, the Commissioners, Messrs. McCoppin, Toohy and Harvey appeared before your Committee and, after a general review of some of the recommendations of your Committee, to which the Commissioners objected, the attention of the Commissioners was called to the assessments for benefits south of the Bernal Heights, which were deemed to be excessive, and to the valuations of the land taken, which in the opinion of your Committee were increased by taking into consideration the expense of grading the street, etc. The Commissioners expressed their willingness and desire to review their work, and make a thorough examination of the valuations and assessments of all the property affected, and for that purpose to have the report, etc., referred back to the Commissioners. Your Committee, therefore, report in favor of ordering the Commissioners to make a new assessment, report and plat in the matter of the opening and extending of Howard street from its present termination to North avenue."

C. W. TABER,
JAS. W. BURLING,
D. B. JACKSON,
W. WILKINSON.

The following is a copy of the resolution adopted by the Board instructing the Commissioners to make a new assessment, report and plat, to-wit:

RESOLUTION No. 6020 (Third Series.)

RESOLVED, That the report of the Commissioners appointed to assess the benefits and damages which would accrue by reason of the extension of Howard street from its present termination southerly to North avenue, filed with the Clerk of this Board on June 1, 1891, be and the same is hereby referred back to the said Commissioners, who are hereby ordered to make a new assessment, report and plat in the matter of the extension of said Howard street, in accordance with the provisions of Section 14 of the Act providing for the laying out, opening, extending, etc., streets within municipalities, etc., approved March 6, 1889.

In Board of Supervisors, San Francisco, November 16, 1891.

Adopted by the following vote:

Ayes—Supervisors Jackson. Burling, Curtis, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

Absent—Supervisors Ayer, Ellert.

JNO. A. RUSSELL, Clerk.

The Commissioners pursuant to the instructions contained in the above resolution proceeded with the work, and on December 21, 1891, filed a report of the assessment of benefits and damages.

The total amount assessed aggregating $33,550, of which $62,831 was for the payment for land taken and damages to improvements, $15,944 for the expense of the Commission, and $4,775 for contingent and incidental expenses to be incurred.

In the last report the only change in the awards for land taken and improvements taken or damaged was in the award to C. S. Capp, whose allowance was increased from $2,700 to $3,250.

The following is a copy of the report of the Commissioners filed on December 21, 1891, to-wit :.

REPORT OF COMMISSIONERS FOR OPENING OF HOWARD STREET.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

In compliance with your Resolution No. 6020, dated November, 1891, the undersigned, your Commissioners, appointed by your Honorable Board under the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide for the laying out, opening, extending, widening, straightening or closing up, in whole or part, of any street, square, lane, alley, court or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose," approved March 6, 1889, and by Order 2204 of your Honorable Board and all subsequent orders thereto relating, in conformity with said act, orders and resolutions, your Commissioners were authorized and directed to take the necessary steps thereunder for the opening and extension of Howard street from Twenty-sixth street to North avenue, beg leave respectfully to submit this, their second and amended report, in pursuance of said act, orders and resolution, that they have had proper surveys made by a competent civil engineer, S. H. Smith, Esq., of the lands necessarily included in the district created and designated for the purposes aforesaid, that they have made, as they believe, a just and equitable appraisement of damages for the land and other property required to be condemned and acquired for the opening and extending of said Howard street between Twenty-sixth street and North avenue, and have also assessed the benefits thereby accruing and to accrue to the land and other property within said designated district, and your Commissioners have ascertained the probable amount of all the damages and expenses incurred, and to be incurred, as nearly as may be, for the carrying out and completion of the matters so intrusted to them.

All of which damages, expenses and assessed benefits are fully set forth in the accompanying volume, prepared under the direction of, and by, your Commissioners.

The accompanying maps made under, and by virtue of, the authority vested in your Commissioners, contain a full and complete outline of said district, together with the pending improvements, and are made part of this report :

The appraisement of the value of the lands and improvements to be condemned and acquired amount to	$62,831 00
Commissioners' Salaries	8,400 00
Secretary's Salary	1,000 00
Attorney	900 00
Experts	3,000 00
Clerk	400 00
Surveyor, Maps, etc	1,700 00
Abstracts of Titles	450 00
Stationery and Report Books	94 00
Contingent Expenses	4,775 00
Total new assessment	$83,550 00

Expenses other than those already ascertained by the Commissioners are liable to be incurred for advertising and other incidental matters, which must necessarily be provided for by the assessment ; hence, the apparent surplus of $4,775 over the amount definitely ascertainable at this date.

Your Commissioners are confident that the amended assessment will be ample for all necessary purposes.

Respectfully submitted,

FRANK McCOPPIN,
D. J. TOOHY,
J. DOWNEY HARVEY,

Commissioners for the extension and opening of Howard street, from Twenty-sixth street to North avenue.

Dated San Francisco, December 21st, 1891.

The report was presented to the Board on Monday evening, December 21, 1891, and by Resolution No. 6179 (Third Series) the clerk was directed to publish the notice, as required by law, for ten days in the San Francisco Daily Report, the Chronicle and the Evening Bulletin newspapers. The notice was published as directed, and various objections were made, upwards of 500 property owners availing themselves of the privilege to protest against the assessments. The objections were all embraced in the following reasons as containing the principal objections to this street extension:

First—Margaret Jones, on January 22, 1892: "That the assessment levied is exorbitant when compared with the present value of the land; that the assessments are not uniform."

Second—Mrs. A. Kernan, on January 23, 1892: "That the proposed improvement does not benefit her and is not a public necessity."

Third, Fourth and Fifth—Property owners, on January 9, 14 and 18, 1892: "That the assessment will amount almost to confiscation; that the Commissioners have not levied assessments upon the land within the said assessment district in proportion to the benefits to be derived from said work and improvements, and for other reasons."

On Monday evening, February 15, 1892, all the objectors and persons interested were heard by the Board. Mrs. Margaret DeCartage, Miss May Eldridge, Mrs. G. Smith, Miss Annie E. Wise, Mrs. Bridget Hughes, Mrs. Loughran, Mrs. Grayer, Mrs. Niebel, Mrs. Rooney, Thomas Shore, Behrend Joost, G. J. McKay, Joseph Laurie, Henry Mayer, Michael O'Keefe, E. M. West, J. H. Cox, P. B. Rogers and other property owners were heard.

The Hon. Frank McCoppin, one of the Commissioners, stated that he had been instructed by Jane S. Peterson to withdraw her protest against the assessment of her lot, No 104 Precita avenue; he also desired to say that the district was fixed by the Board, with which the Commissioners had nothing to do. What ought to be done is, that when streets are to be opened, it should be done by the municipality. No provision of that kind, however, was made by the Legislature, and therefore, if proceedings are to be taken, they must be under the statute. It is utterly impossible to divide the assessment so as to be satisfactory. The assessment was modified as suggested by the Street Committee, the lowest assessment 25 cents and the highest $196. If this report and assessment is thrown out, the municipality will have to pay the expenses—in the vicinity of $21,000. Clerks have been employed, experts hired, advertising done in papers, and bonds exacted from Commissioners to insure the performance of the work, all of which will have to be provided for. This improvement can never be done cheaper.

After consideration the Board by a unanimous vote sustained the objections, the following being a copy of the Resolution No. 6461 (Third Series) adopted by the Board:

RESOLUTION No. 6461 (Third Series).

SUSTAINING THE OBJECTIONS TO THE ASSESSMENTS FOR THE OPENING AND EXTENDING OF HOWARD STREET, FROM ITS PRESENT TERMINATION SOUTHERLY TO NORTH AVENUE.

WHEREAS, Certain objections to the assessments for the opening and extending of Howard street, from its present termination southerly to North avenue, were filed in the office of the Clerk of this Board on January 9, 14, 18, 22 and 23, 1892, by property owners on the line of the street mentioned; and

WHEREAS, This Board did at a meeting held February 1, 1892, by Resolution No. 6396 (Third Series), fix the time for the hearing of said objectors at 8 o'clock on Monday evening, February 15, 1892; and

WHEREAS, The Clerk did notify each and all of said objectors to said work, by notice mailed to their several addresses, to be and appear before this Board on the day and hour above named, to state the reasons for their said objections, etc.; and

WHEREAS, This Board heard and considered all objectors who appeared in conformity with said notice, at a meeting held on the 15th day of February, 1892; therefore,

RESOLVED, That the objections to the work above named be and are hereby sustained, the same being in the opinion of this Board well taken.

And the Clerk is hereby directed to advertise this resolution in the San Francisco Daily Report newspaper as required by law.

In Board of Supervisors, San Francisco, February 15, 1892.

Adopted by the following vote:

Ayes—Supervisors Artigues, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

Absent—Supervisor Jackson.

JNO. A. RUSSELL, Clerk.

EXTENDING POST STREET

FROM CENTRAL TO FIRST AVENUE.

The Board of Supervisors, acting under the provisions of the Act of the Legislature for opening, extending, etc., in whole or in part any street, and for acquiring all land and property necessary for the purpose, approved March 6, 1889, provided for the opening and extending of Post street from Central to First avenue by the passage of Resolution No. 3519 (Third Series) on June 19, 1890, declaring the intention of said Board to make such extension, of which the following is a copy:

RESOLUTION No. 3519 (Third Series.)

POST STREET EXTENSION.

RESOLVED, That it is the intention of this Board to order the opening and extending of Post street, from Central avenue to First avenue, within the boundary of the City and County of San Francisco, through the lands and lots of lands hereinafter described, and to condemn and acquire for public use a strip of land sixty-eight feet and nine inches (68 9-12 feet) in width, and any and all property within the lines of said Post street extended westerly in a straight line from the westerly line of Central avenue to the easterly line of First avenue opposite the intersection of Clement street with said First avenue, deemed necessary and convenient for the said opening and extending of said Post street, except such lands as are now parts of open public streets which the said strip of land within the lines of Post street, extended as aforesaid, intersects, to-wit, Josephine, Eugenia, Wood, Blake, Cook, Boyce, Williamson, Chase, Merrifield and Mears streets.

RESOLVED, That the land deemed necessary to be taken for the opening and extending of said Post street westerly comprises the land and lots of land described as follows:

All the land included within the following boundaries which is not already held by the city as open public streets or highways, to-wit:

Commencing at a point where the northerly line of Post street extended westerly would intersect the westerly line of Central avenue; thence running westerly in a straight line to a point on the easterly line of First avenue five feet seven and one-half inches south of a point where the northerly line of Clement street projected easterly would intersect said easterly line of First avenue; thence southerly along said easterly line of First avenue sixty-eight feet and nine inches; thence in a straight line easterly to a point on the westerly line of Central avenue where the southerly line of Post street projected westerly would intersect the same

RESOLVED, That the exterior boundaries of the district of lands to be affected and benefited by said work and improvement and to be assessed to pay the damages, cost and expense thereof are as follows, viz:

Commencing at a point on the westerly line of Octavia street, one hundred feet north of Post street, running thence westerly parallel with the north line of Post street and with the northerly line of Post street, if projected westerly, to a point 100 feet east of the easterly line of First avenue; thence northerly parallel with First avenue 205 feet 7½ inches; thence at right angles westerly 300 feet; thence at a right angle southerly parallel with First avenue 200 feet; thence at a right angle westerly parallel with Clement street and 100 feet northerly therefrom to Golden Gate Cemetery; thence at right angles southerly 280 feet; thence at right angles easterly parallel with Clement street and 100 feet southerly therefrom to a point 100 feet west of First avenue; thence at right angles southerly and parallel with First avenue 200 feet; thence at right angles easterly 300 feet; thence at right angles northerly and parallel with First avenue 205 7½-12 feet to a point 100 feet south of the southerly line of Post street, if projected in a straight line westerly, as provided in this resolution, and distant also 100 feet easterly from the easterly line of First avenue; thence easterly parallel with Post street and with Post street projected, as provided in this resolution, and 100 feet southerly therefrom to Octavia street, and thence northerly along the westerly line of Octavia street to the point of commencement.

And notice is hereby given that all interested persons objecting to said work or improvement, or to the extent of the district of lands to be affected or benefited by said work or improvement, and to

be assessed to pay the cost and expense thereof, are required to file their objections in writing in the office of the Clerk of the Board of Supervisors, as required by law.

And the Clerk is hereby directed to publish this resolution for five days in the San Francisco Daily Report newspaper, also to post this resolution as required by law.

The San Francisco Daily Report newspaper is hereby designated as the paper in which to publish the notices required by law to be published by the Superintendent of Streets of said city and county, in relation to the work or improvements described as aforesaid.

In Board of Supervisors, San Francisco, June 9, 1890.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bingham, Wright, Boyd, Pescia, Bush, Becker, Pilster, Kingwell, Barry.

Noes—Supervisors Ellert, Wheelan.

Absent—Supervisor Noble.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, June 19, 1890.

E. B. POND,
Mayor and ex-officio President Board of Supervisors.

The Superintendent of Public Streets, etc., Thos. Ashworth, caused the notice of said proposed extension and improvement to be posted, and also published a notice calling attention to the same, as required by law. Objections were filed by C. C. Butler, Jno. H. Mitchell and Mary A. Avery, owners of property, setting forth that the proposed opening would be of no benefit to their property and that the district to be assessed to pay damages, costs and expenses was too limited in extent and should be enlarged.

In conformity with the statute the Board, by Resolution No. 3808 (Third Series), fixed Monday evening, August 4, 1890, as the time for hearing said objectors, who were notified thereof. At the time fixed C. C. Butler appeared and was heard, and the whole matter was referred to the Committee on Streets to report the proper action to be taken.

On August 25, 1890, the Committee on Streets, etc., reported in favor of overruling objections to the work of extending Post street and to the district to be assessed to pay the cost of such extension, and on said recommendation the Board of Supervisors, by Resolution No. 3889 (Third Series), overruled said objections, Supervisor Ellert voting against such action.

The Board, at a meeting held September 29, 1890, adopted Order No. 2270, providing for opening and extending said street, and appointed Hugh Crummey, Thos. G. Parker and Joseph P. Kelly as Commissioners to assess the benefit and damages resulting from the opening and extending of said street; of which the following is a copy:

ORDER No. 2270.

OPENING AND EXTENDING POST STREET FROM CENTRAL AVENUE TO FIRST AVENUE WITHIN THE BOUNDARY OF THE CITY AND COUNTY OF SAN FRANCISCO.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Post street is hereby declared to be an open public street of the City and County of San Francisco from the westerly line of Central avenue to First avenue.

The said street as extended, embracing all the land included in the boundaries hereinafter described, is hereby condemned, appropriated, acquired, set apart and taken for public use, except those portions of said lands included therein and now held by the city and county as open public streets or highways, to wit:

Commencing at a point where the northerly line of Post street extended westerly would intersect the westerly line of Central avenue; thence running westerly in a straight line to a point on the easterly line of First avenue five feet seven and one-half inches south of a point where the northerly line of Clement street projected easterly would intersect said easterly line of First avenue; thence southerly along said easterly line of First avenue sixty-eight feet and nine inches; thence in a straight line easterly to a point on the westerly line of Central avenue where the southerly line of Post street projected westerly would intersect the same.

SECTION 2. Hugh Crummey and Thos. G. Parker and Joseph P. Kelly, all of the City and County of San Francisco, are hereby appointed Commissioners to assess the benefits and damages resulting from the opening and extending of said Post street, as provided for by Resolution No.

3519 (Third Series) of this Board, and to have and exercise general supervision of the proposed work or improvement until the completion thereof in compliance with the statute aforesaid.

And the Clerk is hereby directed to advertise this order as required by law.

In Board of Supervisors, San Francisco, September 29, 1890.

Adopted by the following vote:

Ayes—Supervisors Bingham, Wright, Boyd, Bush, Wheelan, Becker, Pilster, Kingwell, Barry.

No—Supervisor Ellert.

Absent—Supervisors Pescia, Noble.

JNO. A. RUSSELL, Clerk.

The Commissioners appointed, duly qualified by filing their bonds and oath of office as required by law; the bond of Thos. G. Parker being filed on October 6, 1890, with Henry Vorrath and Geo. L. Fletcher as sureties; of Joseph A. Kelly on October 7, 1890, with Thos. W. Brennan and Joseph Goetz as sureties, and of Hugh Crummey on October 7, 1890, with T. J. Lowney and John Moholy as sureties.

On March 30, 1891, the Board by Resolution No. 4930 (Third Series) granted the Commissioners an extension of sixty days' time in which to complete their labors. The Commissioners filed on May 25, 1891, their report, accompanied with map book, Assessment Roll showing benefits and damages assessed and index thereto. The total amount assessed aggregated $169,500, of which $150,736 93 was for the property taken and damages to improvements; $12,346 85 for the expense of the Commission and $6,416 22 for incidental and contingent expenses required to defray expenditures to accrue to carry out the provisions of the statute and complete the work.

The following is a copy of the report of the Commissioners:

REPORT OF ASSESSMENT

OF THE BOARD OF COMMISSIONERS FOR THE EXTENSION OF POST STREET, BETWEEN CENTRAL AVENUE AND FIRST AVENUE, IN THE CITY AND COUNTY OF SAN FRANCISCO, IN COMPLIANCE WITH ORDER NO. 2270 OF THE BOARD OF SUPERVISORS OF THE CITY AND COUNTY OF SAN FRANCISCO, STATE OF CALIFORNIA.

To the Honorable Mayor and Board of Supervisors
of the City and County of San Francisco:

GENTLEMEN: Your Commissioners appointed under Order No. 2270 of your Honorable Board, of September 29th, 1890, do hereby report to your Honorable Board of their proceedings as follows:

Said Commissioners were appointed on the 29th day of September, 1890, pursuant to said order, to assess the benefits and damages resulting from the opening and extending of Post street, in the City and County of San Francisco, State of California, as provided for by Resolution No. 3519 (Third Series) of your Honorable Board, and to have and to exercise general supervision of the proposed work or improvement until the completion thereof. The appointment of said Commissioners and the functions thereof have been made and discharged under and pursuant to the law of the State of California, being an Act of the Legislature of said State, entitled "An Act to provide for the laying out, opening, extending and widening, straightening or closing up in whole or in part any street, square, lane, alley, court or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose." Approved March 6th, 1889. Your Commissioners duly qualified under their aforesaid appointment, and proceeded to the discharge of their duties conformably to law. T. G. Parker was appointed Chairman of said Commission, Charles Armager was appointed Secretary, and P. F. Dunne was appointed Attorney. Clerical assistance was also engaged, the same being necessary and expedient in the business of the Commission; appraisers were appointed, surveys, maps, assessment books, warrant book, stationery and the like accessories procured, and arrangements made with the California Title Insurance Company of said city and county for searching titles to the lands embraced within the scope of the operations of this Commission.

Your Commissioners are now ready to report to your Honorable Board their assessments of the benefits and damages resulting from the opening and extending of said Post street as provided for in the aforesaid resolution, together with the expenses incident to the said work of assessment and extension up to the time of the filing of this report.

The value of the land taken, and the damages to the improvements thereon or adjacent thereto, or injured thereby, and the expenses incident to the said work of assessment and extension up to the time of the filing of this report, with the assessments for benefits, are set out and detailed in the

schedule herein exhibited, and in that certain book and volume accompanying this report and herewith filed, designated "Assessment Book Post Street Extension," under the respective heads, "Assessments of Benefits," "Assessments of Damages," and amount respectively to the total sums of $169,500 62, being benefits assessed, and $150,737.55, being damages assessed; the difference, $18,763 07, representing the amount raised for expenses.

The exterior boundaries of the district of land declared to be affected and benefited by the work and improvement of this extension, and to be assessed to pay the damages, cost and expense thereof, are set out in Resolution No. 3519 (Third Series) of your Honorable Board, as follows:

Commencing at a point on the westerly line of Octavia street, 100 feet north of Post street; running thence westerly, parallel with the north line of Post street and with the northerly line of Post street, if projected westerly, to a point 100 feet east of the easterly line of First avenue; thence northerly, parallel with First avenue, 205 feet and 7½ inches; thence at right angles westerly 300 feet; thence at right angles southerly, parallel with First avenue, 200 feet; thence at right angles westerly, parallel with Clement street and 100 feet northerly therefrom, to Golden Gate Cemetery; thence at right angles southerly 230 feet; thence at right angles easterly, parallel with Clement street and 100 feet southerly therefrom, to a point 100 feet west of First avenue; thence at right angles southerly, and parallel with First avenue, 200 feet; thence at right angles easterly 300 feet, thence at right angles northerly, and parallel with First avenue, 205 7½-12 feet to a point 100 feet south from the southerly line of Post street, if projected in a straight line westerly, as provided in this resolution, and distant also 100 feet easterly from the easterly line of Fiist avenue; thence easterly, parallel with Post street and with Post street projected, as provided in this resolution, and 100 feet southerly therefrom to Octavia street; and thence northerly along the westerly line of Octavia street to the point of commencement.

Your Commissioners conclude and find that the total sum of $169,500 62 should be assessed, and they assess the same upon the said land in your resolution described and declared to be benefited by said extension, in the manner and to the extent and for the amounts set out and itemized in the aforesaid Assessment Book filed herewith and under the aforesaid head of "Assessment of Benefits."

Your Commissioners have viewed the lands described in the said resolution, and have examined witnesses in reference thereto, and have called public meetings of the property owners in said district, to whom they have afforded full opportunity to be heard upon the valuation of their respective properties, and whose estimates they have received and duly considered. They have been further assisted in the work of assessments by the services of three competent real estate experts, and have made their assessments after due consideration of the statements of property owners and the advice of experts and their own views based thereon, and upon personal examination and consideration of the affected district.

Thereupon your Commissioners proceeded with all diligence to determine the value of the land and the damage to improvements and property affected, and also the amount of expenses incident to said work or improvement, and have assessed the same, and do hereby assess the same, upon the aforesaid district of land, the exterior boundaries of which have, by said resolution and in this report, been set out and described. Your Commissioners have made the assessment upon the lands within said district in proportion to the benefit to be derived from the said extension of Post street as far as your Commissioners could reasonably estimate the same.

Your Commissioners report that within said district there is no property of any railroad company.

Your Commissioners have caused to be prepared, and they present with this report suitable maps, plats and diagrams of the said assessment district, showing the land appropriated for the said extension and the land assessed, and showing the relative location of each district, block or lot or portion of lot, and its dimensions, so far as they could reasonably ascertain. Each block and lot, or portion of lot, taken or assessed is described in the accompanying maps, plats and diagrams by an appropriate number, and the said Assessment Book, which is filed herewith and made a part of this report, specifies each lot, subdivision or piece of property taken or injured by the aforesaid extension, or assessed therefor, together with the name of the owner or claimants thereof, or the persons interested therein as lessees, incumbrancers or otherwise, so far as known to your Commissioners, and the particulars of their interests so far as the same can be ascertained, and the amount of value or damage, and the amount assessed.

Wherever your Commissioners have found that conflicting claims of title exist, or have been in

ignorance or doubt as to the ownership of any lot of land, or of any improvements thereon or of any interest therein, they have set the same down as belonging to unknown owners.

The following is a description of the entire tract set apart and taken for the said extension, namely: Post street, in said City and County of San Francisco, as extended, embracing all of the land included in the boundaries described, as follows:

Commencing at a point where the northerly line of Post street extended westerly would intersect the westerly line of Central avenue; thence running westerly in a straight line to a point on the easterly line of First avenue 5 feet 7½ inches south of a point where the northerly line of Clement street projected easterly would intersect said easterly line of First avenue; thence southerly along said easterly line of First avenue 68 feet 9 inches; thence in a straight line easterly to a point on the westerly line of Central avenue where the southerly line of Post street projected westerly would intersect the same.

And whereas, in the said Assessment Book filed herewith and made part hereof there is no itemized account of the expenses incident to the extension of said Post street up to the filing of this report, your Commissioners herewith submit to your Honorable Board the following detailed statement of expenses, the same being part of the total amount assessed by them upon the district affected by the improvement in hand, as provided by law:

Salary of Commissioners, eight months to May 30, 1891	$4,800 00
Salary of Secretary, eight months to May 30, 1891	1,200 00
Clerical assistance, three months	1,050 00
Three real estate experts	1,500 00
Attorney for Commission	1,500 00
Preliminary survey, maps, plats and diagrams	1,200 00
Three assessment books	51 00
One warrant book	12 00
Stationery	33 85
California Title Insurance Company, searching of titles to lands in district affected	1,000 00
Contingent expenses subsequent to filing of report	6,416 22
Total	$18,763 07

RECAPITULATION.

Total amount of value, damages and expenses	$169,500 00
Total amount to be received by assessment	169.500 00

Respectfully submitted,

THOMAS G. PARKER,
JOSEPH A. KELLY,
H. CRUMMEY,
Commissioners.

P. F. DUNNE,
Attorney for Commission.

Adopted as ordered filed by resolution passed at meeting of Commissioners for Extending Post Street, held Saturday, May 23, 1891.

CHAS. W. ARMAGER, Secretary.

The total amount to be provided for, as per report of the Commissioners, aggregated $169,500 62, as follows:

Amount allowed for land taken	$127,597 55
Amount allowed for improvements taken	23,140 00
Expenses of Commission	18,763 07

The report was presented to the Board of Supervisors at a meeting on Monday evening, May 25, 1891, and by Resolution of said Board No. 5240 (Third Series) the Clerk was directed to publish the notice required by law for ten days in the San Francisco Daily Report, the Chronicle and Evening Bulletin newspapers. The following is a copy of the notice published as directed, to-wit:

NOTICE

OF THE FILING OF REPORT OF COMMISSIONERS FOR OPENING AND EXTENDING POST STREET, FROM CENTRAL TO FIRST AVENUE.

CLERK'S OFFICE BOARD OF SUPERVISORS,
CITY AND COUNTY OF SAN FRANCISCO, Wednesday, May 27, 1891.

In compliance with law and the direction of the Board of Supervisors of said city and county public notice is hereby given that the Commissioners heretofore appointed for the opening and extending of Post street, from Central to First avenue, filed in this office on May 25, 1891, their report of the assessment made for benefits and damages in the opening and extending of said Post street, from Central to First avenue, accompanied by plats, maps, plans and diagrams of the assessment district, showing the land taken or to be taken for said opening and extending of said streets and the lands assessed therefor. Also that said report and plans, etc., are and will be open for inspection in this office, and all persons interested are hereby required to show cause on or before June 30, 1891, if any, why such report should not be confirmed by the Board of Supervisors of said city and county. All objections to the confirmation of said report, etc., must be made in writing and filed with the Clerk of said Board on or before Tuesday, the 30th day of June. 1891.

JNO. A RUSSELL, Clerk.

Various objections were filed by property-owners affected, to the confirmation of said report, and on July 6, 1891, the Board of Supervisors, by Resolution No. 5429 (Third Series), provided for issuing notice to and set the time for hearing the objectors on Monday evening, July 13, 1891, which notice was mailed on to each of said objectors.

The reasons given by objectors being substantially as follows:

First—J. M. Wood—That the Commissioners have made no allowance to him for the value of that portion of his said land which it is proposed to take for said Post street; that the allowance made to Mr. J. C. Jordan, an adjoining proprietor in the same block, is $10,312; that by said report Mr. Jordan's land is valued at $1,680, whereas the land of protestants is valued at $4,550; that the valuation for either benefits or damages as far as lots of protestant and said Jordan are concerned is neither equitable nor proper.

That the maps and plats filed with the report of said Commissioners are insufficient and incorrect, in that the location of the proposed extension of Post street is not shown. Neither are the lands to be taken shown upon said maps and plats. That the allowances made to searchers of record, preliminary surveys, maps, plats, etc., with clerical assistance and incidental expenses, are excessive and exorbitant, and for other reasons.

Second—Annie Butler, Katie M. Butler and others—That the said Commission has allowed excessive damages to property owners within the condemned district; that said damages are not just or equitable; that the assessment district does not include property that is undoubtedly benefited.

That the percentage of assessments levied on property east and west of proposed extension is not in an equal ratio to the benefits to be derived.

That the assessment district is too limited and the assessments so high that property owners will be compelled in many instances to surrender their lots, and for other reasons.

Third—Ludwig Altschul—That he had no notice of the proposed extension of Post street; otherwise he would have protested against the district to be assessed; that the notices posted by the Superintendent of Streets were posted on private property and were not sufficient notice to the public interested in said extension of Post street.

That the line of the proposed extension of Post street is not a good or desirable line, as it does not run parallel with any other street, and cuts up the lots through which it runs into irregular blocks.

That the Commission have allowed excessive damages to property owners within the condemned district.

That the benefits are not equitably divided; that the assessment is unjust, unequal, exorbitant, unreasonable, and above the necessary cost of the work to be performed, and for other reasons.

On Monday evening, July 13, 1891, the Board of Supervisors heard all objectors who appeared. J. M. Wood, Chas. H. Hubbs, attorney for protestants Jas. J. Brady, Ludwig Altschul, Jas. Dickson, P. J. Flannigan, attorney for some of the protestants, were heard, and after consideration the whole matter was referred to the Committee on Streets to examine and report the proper action to be taken.

The Committee on Streets, to whom said report and assessment were referred, examined very carefully the assessment made, visited the property and after consideration prepared such corrections as seemed in accord with their conception as to values, and on February 1, 1892, reported back to the board the result of the labors, recommending the adoption of such corrections, which reduced the total amount of the assessment from $169,500 62 to $89,103, the following being a copy of said report, to wit:

REPORT OF COMMITTEE ON STREETS.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN: Your Committee on Streets, etc., to whom was referred the matter of the report, assessment and plat filed by the Commissioners appointed to open and extend Post street, from Central avenue to First avenue, and the objections filed against said report, assessment and plat, beg leave to report

That said objections, so far as they refer to the damages to be paid for the lands to be taken, or to the amounts assessed upon the individual lots in the district to be assessed, are in part well taken; and your committee has prepared certain modifications and corrections in accordance with the general tenor and spirit of said objections in this regard.

	ORIGINAL REPORT.	COMMITTEE'S REPORT.
Amount allowed for land taken	$127,597 55	$51,305 00
Amount allowed for improvements taken	23,140 00	18,452 00
Total expense	18,763 07	19,346 00
Total	$169,500 62	$89,103 00

Reductions made by Committee from original report	$80,397 62
Actual levy for benefits from Octavia street to Central avenue, at an average of $1 75 per front foot	$17,064 00
Actual levy from Central avenue to First avenue	23,639 00
Actual levy from First avenue to Twenty-third avenue at $3 50 per front foot to Twenty-first avenue, and $2 50 per front foot from Twenty-first avenue to Thirty-third avenue	48,400 00
Total amount raised from benefits	$89,103 00

Your committee find that the most benefit by the opening of Post street is derived by the district west of First avenue, and has therefore modified the assessment accordingly.

Your committee recommend that said modifications and corrections be copied into said report, assessment and plat, and that the said report, assessment and plat heretofore filed by the Commissioners be confirmed as so modified and corrected.

C. W. TABER, Chairman.

On said last named date the Board of Supervisors by Resolution No. 6405 (Third Series) declared that, having heard and considered the objections to the report of the Commissioners ap-

pointed to assess benefits and damages resulting from the opening of Post street, the Board would pass upon said report and objections on Monday evening, February 8, 1892, at 8 o'clock.

On February 4th and 8th, 1892, protests of J. M. Wood, Ludwig Altschul, the Post Street Extension Association and other property owners, against the confirmation of the report and assessment of the Commissioners as modified and corrected, were received. On February 8, 1892, the Board referred the whole matter back to the Committee on Streets, with instructions to hear all protestants on Thursday afternoon, February 18th, 1892, at 2 o'clock. In the meantime a petition was presented of property owners requesting that the protestants be heard before the Board, and in compliance therewith the Street Committee so reported at a meeting held on February 23, 1892, at which meeting all persons protesting, who desired, were heard.

In addition, Mr. F. G. Parker, one of the Commissioners, was heard; also, Mr. R. H. Sinton, the expert, employed by the Commission to adjust valuations.

After hearing and considering the statements made the Board, by resolution, of which the following is a copy, sustained the objections by a unanimous vote, to-wit:

RESOLUTION No. 6510 (Third Series.)

SUSTAINING THE OBJECTIONS TO THE ASSESSMENT FOR THE OPENING AND EXTENDING OF POST STREET, FROM CENTRAL AVENUE TO FIRST AVENUE.

WHEREAS, Certain objections to the work of opening and extending Post street, from its present termination at Central avenue westerly to First avenue, and to the report of the Commissioners appointed to assess the benefits and damages resulting therefrom, were filed in the office of the Clerk of this Board on June 23d and 29th, 1891, by property owners on the line of the street mentioned; and

WHEREAS, This Board did at a meeting held July 6, 1891, by Resolution No. 5429 (Third Series), fix the time for the hearing of said objectors at 8 o'clock on Monday evening, July 13, 1891; and

WHEREAS, The Clerk did notify each and all of said objectors to said work, by notice mailed to their several addresses, to be and appear before this Board on the day and hour above named to state the reasons for their said objections, etc.; and

WHEREAS, This Board heard and considered all objectors who appeared in conformity with said notice, at a meeting held on the 13th day of July, 1891; and

WHEREAS, The Street Committee of this Board, to whom the said report and assessment of said Commissioners together with plats and diagrams were referred, presented a report to this Board at the meeting held February 1, 1892, wherein certain corrections and modifications were recommended to be made to said report and assessment of said Commissioners; and

WHEREAS, At a meeting held on the 1st day of February, 1892, this Board by Resolution No. 6405 fixed Monday evening, February 8, 1892, as the time for finally passing upon said report and objections; and

WHEREAS, Other interested parties filed certain objections to said report and assessment and to said proposed modifications and corrections to said report and assessment; and

WHEREAS, The consideration of the whole matter was laid over until February 23, 1892, to afford other interested parties an opportunity to be heard in open board, which parties were duly heard and their objections considered on the said 23d day of February, 1892; therefore

RESOLVED, That the objections to the work of extending Post street as above stated, and to the report of the Commissioners appointed to assess the benefits and damages for the cost of said improvement, be and the same are hereby sustained, the same being in the opinion of this Board well taken.

And the Clerk is hereby directed to advertise this resolution as required by law.

In Board of Supervisors, San Francisco, February 23, 1892.

Adopted by the following vote:

Ayes—Supervisors Artigues, Jackson, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

JNO. A. RUSSELL, Clerk.

A communication, of which the following is a copy, was received by the Board of Supervisors on February 29, 1892, from the Commissioners appointed requesting information as to the intention of

the Board in its action sustaining the objections made to the report, which was referred to the Committee on Streets, to-wit:

COMMUNICATION FROM COMMISSIONERS.

To the Honorable Board of Supervisors of the
City and County of San Francisco:

GENTLEMEN: We, the undersigned Commissioners appointed for the opening and extending of Post street, respectfully ask your honorable body, if by sustaining the protest on Tuesday, February 23, 1892, have you decided to nullify all proceedings to extend said street.

In the discharge of our duties we have incurred the necessary expense thus far, and do not desire to increase it should your honorable body decide not to accept any amended report of said work.

T. G. PARKER, Chairman.
JOSEPH A. KELLY.

February 29, 1892.

The Committee on Streets, etc., on March 14, 1892, reported that "the action of the Board (of Supervisors), in the opinion of your Committee, in sustaining the objections and stopping further proceedings is final and conclusive in the matter," which report was adopted by the Board at said meeting as its action by a unanimous vote.

The Commissioners, by their attorneys, Messrs. Pierson and Mitchell, on June 7, 1892, made application for a writ of mandate in the Superior Court to compel the Board of Supervisors to either confirm, correct or modify the said report of the Commissioners or to order a new assessment, report and plat, and after reciting the proceedings alleged:

"That these applicants, as such Commissioners, are beneficially interested in this proceeding, and in the matter of the opening and extending of said Post Street, and are aggrieved by the refusal of said Board of Supervisors to farther proceed in the said matter; and in this behalf these applicants aver as follows: that since the date of their appointment and qualification as such Commissioners, these applicants as such Commissioners, believing it to be necessary for the proper discharge of their duties unto said Commission that they should have legal advice, retained and employed a firm of attorneys and counselors at law, doing business in said city and county, to act as legal advisers for said Commission, to bring such suits as might be necessary, and to defend all suits brought against said Commission where a defense existed, and to generally render such services as attorneys and counselors at law as might from time to time be necessary and proper for said Commission in the premises; and said attorneys thereupon accepted said employment and have at various times furnished legal advice to said Commission, and in the course of their retainer they rendered other professional services to said Commission, all of which were proper and necessary, and there is now due and owing by said Commission for said legal services so as aforesaid rendered, certain sums of money, no part of which have been paid, but the whole whereof is unpaid. That these applicants, as such Commissioners, have since the date of their appointment and qualification, as aforesaid, incurred further and incidental expenses in the prosecution of their official duties on said Commission, all of which were proper and necessary in the discharge of their said official duties, no part of which has been paid, and the whole remains unpaid. That these applicants, as such Commissioners, found it necessary to employ civil engineers and surveyors for the purpose of making maps and diagrams of the land described in said resolutions and orders of said Board of Supervisors, hereto attached, as well as maps and diagrams of the property to be affected and benefited by said resolutions and orders of said Board of Supervisors, hereto attached, as well as maps and diagrams of the property to be affected and benefited by said resolutions and orders, and to be assessed to pay the damages, expenses and cost thereof, and did so employ such civil engineers and surveyors to do and perform said work; and these applicants, as such Commissioners, have entered into various contracts with said engineers and surveyors to pay them for their said services what the same are reasonably worth. That these applicants as such Commissioners are entitled to compensation for their services as such, no part of which compensation has ever been paid to them. That these applicants as such Commissioners have paid, laid out and expended considerable sums of money in and about various incidental expenses of said Commission, all of which were necessary and proper, and which could not be procured by them without being paid for in cash, no part of

which said sums has ever been repaid to these applicants. That all of the charges and expenses incurred in the hire of said attorneys and of said civil engineers and surveyors, and the necessary incidental expenses above mentioned, as well as the compensation due these applicants as such Commissioners, constitute a charge only upon the funds to be provided for said proposed work, and said fund can only be derived from an assessment upon the land to be benefited by said contemplated improvement, and situated within the exterior boundaries of the lands described in said resolutions, and the orders of said Board of Supervisors. And such charges and expenses can be paid out of no other fund, and as these applicants are informed and believe, and upon such information and belief aver, do not and cannot in any event constitute any claim against the City and County of San Francisco, and can only be paid and discharged by these applicants as such Commissioners being permitted to proceed with their work without let or hindrance, and to levy the assessment upon the lands described in said resolutions and orders of said Board of Supervisors under the provisions of said Act of the Legislature hereinbefore referred to.

"That by the action of said Board of Supervisors these applicants, as such Commissioners, have been delayed, hindered, embarrassed and prevented from discharging their duty as such Commissioners, and have rendered themselves and their sureties liable to a suit upon their official bonds as such Commissioners, and will involve them in a multiplicity of suits and vexatious and almost endless litigation, and have been unnecessarily delayed, hindered, embarrassed and prevented from proceeding with their duties as such Commissioners in opening and extending said street, and has worked a lasting and irreparable injury to these applicants as such Commissioners and to the owners of the land to be benefited by said work and improvement, and whose lands are liable for the cost and expenses thereof, as well as to the parties with whom these applicants as such Commissioners have entered into contracts, and who have proceeded in good faith under said contracts to do, perform and complete the work therein contracted for; and these applicants have been and will be deprived thereby of the salaries already earned by them as such Commissioners.

"And these applicants further aver that said Act of the Legislature hereinbefore referred to specially enjoins upon the said Board of Supervisors the duty of either confirming, correcting or modifying the report of these applicants as Commissioners, as aforesaid, hereinbefore referred to, or of ordering these applicants as such Commissioners to make a new assessment, report and plat, and that these applicants have no plain, speedy or adequate remedy in the ordinary course of law for the redress of the grievances aforesaid."

An alternative writ of mandate was issued by the Hon. Jas. M. Troutt, Presiding Judge, directing the Board to either confirm, correct or modify the said report of the said Commissioners, or to order the said Commissioners to make a new assessment, report and plat, or show cause in Superior Court, Department No. 7, on July 29, 1892, why said action was not taken.

The question raised will therefore be as to the power of the Board to stop further proceedings, and if said power is possessed the liability to pay the expense incurred will necessarily be another important question to be adjudicated.

Personal Property Assessment.

The amendments to the Revenue Code made at the last session of the Legislature appeared to materially change the mode of assessment and collection of taxes in this city and county in that they provided for one Assessment Book, in which would be contained the assessments of all real and personal property. These amendments appeared to undo the system dictated by experience of making, under the Act of 1873-74, collections of the personal property taxes due the city and county between the second Monday in July and the first Monday in August of each year to defray the current expenses of the government. These amendments were so far-reaching and important that the opinion of Jno. H. Durst, Esq., the City and County Attorney, was requested and obtained, in which it was held that the provisos making a different provision for cities and counties having a population of over 250,000 inhabitants were unconstitutional, and that the only effect of the amendments was to provide for the payment of taxes in installments.

The following extract from the opinion of the City and County Attorney as furnished the Tax Collector, as conclusive of this matter, is as follows:

"My conclusions * * * * are that the provisos to the amended Sections 3746, 3756, 3758, 3797, 3764 and 3714, providing different times of maturity and delinquency, and for the performance of certain acts in the course of the assessment and collection of the taxes, and a different penalty in the case of taxes levied for county and State purposes, within counties and cities and counties having a population of over two hundred and fifty thousand, are void, as repugnant to Sub. 10th of Sec. 25 of Art. IV of the Constitution of California.

"Those provisos are separable from the general provisions of the Code as amended in the Statute of 1891, and not necessarily or inseparably connected with the general purpose and object of the Legislature embodied in that enactment.

"As a consequence they fall, and the general provisions, as appearing in the new revenue law divested of those provisos, now stand as the law of this State, applicable without exception to every county and city and county of this State.

"To resume, my conclusions are: First—that the Act of 1873-4 for the assessment of and collection of personal property taxes in the City and County of San Francisco for city and county purposes is consistent with the Code as amended by the so-called new "revenue law," and is not repealed or abrogated.

"Second—That the new revenue law is valid except in so far as it attempts to make special provisions for counties and cities and counties having a population of over two hundred and fifty thousand inhabitants. The sections of the Code as amended by the said new law (but divested of the provisos stand in place of the sections of the Political Code thus amended.

"Third—The provisos to certain of the amended sections purporting to make a special provision for counties and cities and counties having more than two hundred and fifty thousand inhabitants are unconstitutional and void.

"It is the duty of the various officers of the City and County of San Francisco having charge of matters connected with the assessment and collection of taxes, to conform to the general provisions, of the Political Code as amended by the so-called new revenue law, and applicable to all counties throughout the State.

"The result of the foregoing is that the uniformity in the revenue laws heretofore existing still continues, while the object of the Legislature the payment of taxes in installments is accomplished."

The assessment of Personal Property in this City and County of San Francisco and the collection of taxes therein are as formerly, made under the provisions of the following statute, to-wit:

ACT OF THE LEGISLATURE.

An Act in Relation to the Assessment and Collection of Taxes upon Personal Property in the City and County of San Francisco.

[Approved March 18, 1874.]

The People of the State of California, represented in Senate and Assembly, do enact as follows:

Section 1. The City and County of San Francisco is hereby exempted from the provisions of the Political Code relating to the assessment and equalization of Personal Property for taxation and the collection of taxes thereon, but only in so far as to give force and effect to the provisions of this Act hereinafter contained.

Section 2. The Assessor of said City and County must complete the assessment of personal property on or before the first Monday of June in each year, and enter the same in a separate assessment book, to be known as "The Assessment Book of Personal Property." As soon as completed, the said assessment book must be delivered to the Clerk of the Board of Supervisors, who must immediately give notice thereof, and of the time the Board will meet to equalize said assessment, by publication in some daily newspaper printed in said City and County; and in the meantime, until the Board meets to equalize said assessments, the assessment book must remain in his office, for the inspection of all persons interested.

Section 3. The Board of Supervisors shall meet on the second Monday of June, and must examine and equalize said assessments in the same manner as required by the Political Code, and must complete the equalization of said assessment on or before the fourth Monday in June, and the Clerk of the Board must record, in a book to be kept for that purpose, all changes, corrections and orders made by the Board, and during its session must enter in said assessment book all changes and corrections made by the Board, and must deliver the said assessment book, so corrected, to the Auditor of said City and County on the fourth Monday of June, with an affidavit in substance the same as that required by section three thousand six hundred and eighty-two of the Political Code.

Section 4. The Board of Supervisors must, on the fourth Monday of June, fix the rate of City and County taxes for the current fiscal year, and the Auditor must, on or before the second Monday of July, prepare and deliver to the Tax Collector a copy of said corrected assessment book, to be styled, "Duplicate Assessment Book of Personal Property," in which shall be computed and entered, in separate money columns, the respective sums, in dollars and cents, rejecting the fractions of a cent, to be paid as a tax on the property therein enumerated, and to which must be attached his affidavit, subscribed and sworn to as follows: "I, ...Auditor of the City and County of San Francisco, do swear that I received the Assessment Book of the Personal Property of the City and County of San Francisco from the Clerk of the Board of Supervisors, with his affidavit thereto affixed, and that I have corrected it and made it conform to the requirements of the Board of Supervisors; that I have reckoned the respective sums due as taxes, and have added up the columns of valuations and taxes, as required by law, and that the copy to which this affidavit is attached is a true, full and correct copy thereof." Said duplicate assessment book must contain columns for entry, as hereinafter provided, for the State tax upon the property therein assessed.

Section 5. The said duplicate assessment book must thereupon be delivered to the Tax Collector, and all the acts required by the Political Code to be performed by the Auditor and Tax Collector in relation to the duplicate assessment book and the taxes therein mentioned, must be performed by said officers in relation to the assessment book herein provided, so far as the same can be made applicable.

Section 6. The Tax Collector, immediately upon receiving said assessment roll, must publish in one or more of the daily newspapers of said City and County, that the taxes therein mentioned are due and payable at the office of the Tax Collector of said City and County, and will become delinquent on the first Monday of August, and that unless paid on or before the last mentioned date, five per cent will be added to the amount thereof. The Tax Collector may, at any time after said taxes become delinquent, collect the same by seizure and sale of any personal property owned

by the delinquent, and in proceedings for that purpose must be governed by sections from three thousand seven hundred and ninety-one to three thousand seven huudred and ninety-six, inclusive, of the Political Code.

SECTION 7. On the Wednesday following the fourth Monday of September, the Tax Collector must return the said duplicate assessment roll to the Auditor, who must, at the time provided in the Political Code for computing and entering the State and County taxes, add to or deduct from the valuation of the property enumerated in said assessment book any per centum which may have been required by the State Board of Equalization, and compute the State taxes to be paid on said personal property, and enter the same, with all delinquent taxes which may appear in said book, in the proper columns. After completing such computations and entries, the Auditor must annex his affidavit to said book, stating that he has truly and correctly made all reductions and additions required by the State Board of Equalization, and computed, entered and added all the State taxes, and all the delnquent City and County taxes, and the per centum due on the property therein enumerated, and return the same to the Tax Collector at the time when the duplicate assessment book of taxes upon real estate is required by law to be delivered.

SECTION 8. The Tax Collector must collect said State taxes, and said delinquent City and County taxes and per centum, at the time and in the same manner as he is by law required to collect other State and County taxes.

SECTION 9. The Assessor may, at any time prior to the fourth Monday in October in each year, specially assess any property which may have been omitted and which shall not be entered upon the regular assessment roll; and if he makes any such special assessment he shall forthwith deliver a copy thereof to the Tax Collector, and the original to the Auditor, who shall charge the Tax Collector with the amount of taxes due thereon, and all such special assessments shall be as valid and shall have the same force and effect as regular assessments.

SECTION 10. All the provisions of the Political Code and other laws relating to State and County revenue, except where they are in conflict with, are made part of this Act.

SECTION 11. This Act shall take effect immediately.

Under Section 9 of the foregoing Act the Assessor formerly prepared a Supplemental Roll containing assessments of property claimed to have been omitted from the original Assessment Book. This practice has been discontinued, the Supreme Court of this State having rendered the following decision on October 30, 1885, in the case of the People, etc., versus Pittsburg Railroad Company, in which it is held that said supplemental assessment made by the Assessor was arbitrary and absolute and in violation of the Constitution of this State, etc., to wit:

PEOPLE, ETC., v. PITTSBURG RAILROAD COMPANY.

IN BANK. FILED OCTOBER 30, 1885.

Supplemental Tax Roll. Assessment void if no opportunity is given to contest amount.

Section 9 of the Act of April 18, 1874, which attempts to provide for an assessment by the Assessor of the City and County of San Francisco, which is arbitrary and absolute, without the possibility of equalization by the Board of Supervisors, as it provides for assessment to be made after the time within which the Board can act, is violative both of the Constitution of the State and of the fourteenth amendment of the Constitution of the United States, in that it deprives the person assessed of an opportunity to appear before the Board for the purpose of contesting the amount assessed against him.

The same. Failure to furnish statement does not validate assessment.

An assessment so made is invalid, although the person assessed failed to furnish the Assessor with a list of his taxable property, as provided for by Section 3,629 of the Political Code.

Appeal from a judgment and order of the Superior Court of the City and County of San Francisco, entered in favor of the plaintiff. The opinion states the facts.

W. T. Baggett for the plaintiff-appellant.

John B. Harmon for the defendant-appellant.

McKINSTRY, J. The action is to recover City and County and State taxes for the fiscal year 1880-1, as entered upon the "Supplemental Tax Roll" under the Act of April 18, 1874, Stats. 1873-4, p. 477. The assessment was made after the Board of Equalization had finally adjourned, and under the ninth section of the Act above cited.

The Constitution of the State contemplates: First, assessment by the Assessor; Second, action by the County Board of Equalization; Third, action by the State Board of Equalization. Under Section 9 of Article XIII the taxpayer is entitled to notice of the meetings of the County Board at which his taxes may be increased. But the ninth section of the Act of 1874 attempts to provide for an assessment by the Assessor of the City and County of San Francisco which is arbitrary and absolute, without the possibility of equalization by the Board of Supervisors, as it provides for assessments to be made after the time within which the Board can act. The Legislature has no power thus to deprive the citizen of an opportunity of appearing before the Board for the purpose of contesting the amount assessed against him. The ninth section is violative both of the Constitution of the State and of the fourteenth amendment of the Constitution of the United States.

It is urged that defendant cannot rely upon the invalidity of the Statute, because he failed to furnish the Assessor with a list of his taxable property. The Political Code makes it the duty of the Assessor "to exact" from each person a statement, under oath, setting forth specifically all his real and personal property, etc.; Section 3,629. And Section 3,633 provides:

"If any person, after demand made by the Assessor, neglects or refuses to give, under oath, the statement herein provided for, or to comply with the other requirements of this title, the Assessor must note the refusal on the assessment book, opposite his name, and must make an estimate of the value of the property of such person; and the value so fixed by the Assessor must not be reduced by the Board of Supervisors.

There is no finding in the transcript that the Assessor demanded or attempted to exact from defendant the statement mentioned in Section 3,629, or that defendant neglected or refused to give, under oath, the statement "after demand made by the Assessor."

Moreover, the Statute provides the penalties for a failure to furnish the statement after demand made by the Assessor. First, the person refusing to make the statement is liable to pay one hundred dollars. Political Code, 3,682. Second, he is deprived of the right to have reduced the valuation placed upon his property by the Assessor prior to the adjournment of the County Board of Equalization. Political Code, 3,633. That such is the meaning of Section 3,633 is apparent from the language therein employed. The last clause declares "the value so fixed by the Assessor must not be reduced by the Board of Supervisors," and clearly indicates the valuation referred [to] must be made before the adjournment of the Board as a Board of Equalization.

We are not authorized to add any third consequence as resulting from a failure to furnish a list of property, even where a list or statement has been demanded by the Assessor, A FORTIORI, under the pretense of imposing a third and distinct penalty upon a failure to furnish the statement of property, to vitalize and render operative a provision of the Statute clearly violative of the Constitution.

Neither City and County of San Francisco v. Flood, 1 West Coast Rep., 567, nor Orena v. Sherman, 9 Pacific Coast Law Journal, 814, is in conflict with the views above expressed. In both, the assessment was made by the Assessor prior to the meeting of the County Board of Equalization. In Orena v. Sherman it appeared that the Assessor had entered in his Assessment Book that the party assessed had refused to furnish a statement of his property, and thereby declared and determined that demand had been made and the list refused.

Judgment reversed.

McKee, J., Morrison, C. J., Sharpstein, J. and Ross, J., concurred.

Myrick, J., and Thornton, J., dissented.

The question as to whether, under the law, the amount of a mortgage held by the Regents of the University of California should be deducted from the assessed value of the real estate and improvements subject to such mortgage was presented to the Board of Supervisors in July, 1888, on application made by the owners of property for such deduction. After consultation with the City and County Attorney the Board granted all applications made for a reduction of the assessments to the amount of the mortgages so held. The Board of Supervisors further held that a mortgage on real estate and improvements in the City and County held by the Regents of the University of California was not taxable. The status of such mortgages with reference to taxation was brought

before, and a decision thereon rendered by the Supreme Court on a writ of certiorari, sustaining the position taken by the Board of Supervisors, to wit:

PEOPLE, ETC., v. BOARD OF SUPERVISORS.

IN BANK. FILED SEPTEMBER 27, 1888.

Taxation—Taxable Property—Mortgage to State.

Const Cal., Art. 13, §4, provides that a mortgage shall, for the purpose of taxation, be treated as an interest in the property, and, with certain exceptions, the value of the property so affected, less the value of such security, shall be taxed to the owner. Section 1 provides that property belonging to the State shall be exempt from taxation. Held: that the owner of land on which there is a mortgage to the Regents of the University is entitled to have the amount of the mortgage deducted from the value of the property for the purposes of taxation, notwithstanding the fact that such an amount, as an interest of the State, will not be otherwise taxed.

In bank. On certiorari.

George A. Johnson, Attorney General, and Langhorne & Miller, for petitioner. George Flournoy Jr. (Flournoy & Mhoon, of counsel) for respondents.

MCFARLAND, J. Mrs. C. L. Tams is, and during the fiscal year 1888 has been the owner of certain real property of the value of $142,845, situated in the City and County of San Francisco, upon which there was and is a mortgage executed to and held by the Regents of the University of California to secure the sum of $63,000. The Assessor of said City and County assessed said property to Mrs. Tams for said fiscal year at its full value, viz., $142,845, and refused to deduct therefrom the amount of said mortgage, or any part thereof. Upon application duly made to the respondent, sitting as a Board of Equalization, the latter ordered the amount of the mortgage ($63,000) to be deducted from the full cash value of the land, thus establishing the value of the latter to be assessed to the mortgagor at $79,845. To review this action of the Board this writ of certiorari was sued out, the petitioner contending that the Board had no power to deduct the mortgage, because, being held by the Regents of the University, it is the property of the State (as decided in Hollister v. Sherman, 63 Cal., 38), and therefore not taxable. And, as the point is not made here that the question thus presented cannot be reached on certiorari, we will examine it on the merits.

Section 4 of Article 13 of the Constitution provides that "a mortgage * * by which a debt is secured shall, for the purposes of assessment and taxation, be deemed and treated as an interest in the property affected thereby. Except as to railroad and other quasi public corporations, in case of debts so secured, the value of the property so affected by such mortgage, * * * less the value of such security, shall be assessed and taxed to the owner of the property." Section 1 of the same article provides that the property belonging to the State shall be exempt from taxation. And it is argued by petitioner, as before stated, that, in the case before us, the whole value of the land should be assessed to the mortgagor, because the mortgage is exempt from taxation. But the real question is, not what property is exempt from taxation, but what property is assessable to the mortgagor? Section 4, therefore, governs the case, and not Section 1. And the rule established by Section 4, that the value of the property, less the value of the mortgage, shall be assessed to the mortgagor, is general, and applies to all mortgages not especially excepted, the only exceptions being those made by railroad and other quasi public corporations. All mortgages are given the benefit of the rule, except the corporations above named. It is true that Section 4 also provides that the value of the mortgage shall be assessed and taxed to the owner thereof; but the fact that the mortgage happens to belong to the State, and is therefore exempt from taxation, does not render nugatory the provision that there shall be assessed to the mortgagor only the value of the land less the value of the mortgage. If the mortgage were held by an individual, it would be assessed to him. Being held by the State, it is not taxable; but that is the case with every kind of property. If private property, it is taxable; if public property, it is not taxable. And the right of the mortgagor is not affected at all by the circumstance that the mortgage is or is not assessable and taxable. It is urged that under this rule the State will lose a great many taxes. But the State should not expect to collect taxes on her own property; much less should she expect somebody else to pay them. Under the rule contended for by petitioner Mrs. Tams would have to pay taxes on $63,000

belonging to the State. The anticipated losses of the State will therefore simply be like the fancied losses of other people who fail to get what they ought not to have. In our opinion the value of the mortgage to the Regents of the University was properly deducted from the full value of the property; and the order of the Board of Equalization sought to be reviewed is affirmed.

We concur: Searls, C. J.; McKinstry, J.; Sharpstein, J.; Thornton, J.

In the matter of the Assessment of Personal Property of the Fiscal Year 1891-92 various complaints were made on the part of the members of the State Board of Equalization as to the inequality and insufficiency of assessments and some research was made, but for want of time no satisfactory evidence could be produced in favor of or in contravention of this contention.

On December 23, 1891, Horace D. Dunn, Esq., made the following complaint of certain assessments, to-wit:

COMMUNICATION FROM HORACE D. DUNN.

To the Honorable the Mayor and Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN:

I herewith most respectfully call your attention to the fact that the late Nicholas Luning made a statement of his personal property in March, 1890, as being of the value of $93,006, on which sum taxes were collected for this city and county and State.

That after the death of said Nicholas Luning an inventory of his estate was made and filed January 20, 1891, showing the following assets, personal property, solvent credits and money as stated therein as forming a part of said estate, to wit:

Promissory notes, worth full face value	$2,826,741	
Moneys belonging to deceased which have come into the hands of executors of will	1,355,169	
Total amount		$4,181,910

Thus showing that the sum of $4,088,904 had escaped assessment and taxation.

That the said solvent credits and money under the provisions of the revenue laws of this State are liable to reassessment in double the amount as stated, as property discovered by the Assessor, to wit: the sum of $8,363,820 for taxes for the fiscal year 1890-91 due this city and county and State.

Further, that the Assessor of this city and county arbitrarily assessed the personal property of the firm of Whittier, Fuller & Co., for the fiscal year 1890-91 in the sum of $174,000, on which taxes have been paid.

That subsequently thereto W. P. Fuller, owning a three-eighths interest in said firm, died and an inventory of his estate, filed June 28, 1890, shows that said three-eighths interest in said firm was valued at $1,334,332.

That as shown by this inventory the personal property of said firm of Whittier, Fuller & Co. was about $3,500,000, a large portion of which, presumably one-half, was liable to assessment and was taxable in this city and county, say the sum of $1,750,000.

That deducting from this said sum the amount of assessment, $174,000, on which taxes were paid in the year 1890-91, leaves the sum of $1,576,000, double which amount, or $3,152,000, is liable to reassessment and taxation for said year.

Also that in the present year 1891-92, the said firm of Whittier, Fuller & Co. were arbitrarily assessed for personal property in the sum of $200,000. That, presumably, the solvent credits and money of said firm were as great or greater than in the preceding year, and therefore the said sum of $1,750,000, less the $200,000 already assessed, is liable for reassessment in double the amount, to wit, the sum of $3,100,000, for taxation for the present year.

That the Assessor of this city and county, John D Siebe, up to the present time has neglected or refused to make the reassessments of the personal property of the estate of said Nicholas Luning, deceased, and of the firm of Whittier, Fuller & Co., as aforesaid.

That as the time during which said reassessments can be legally made will soon expire, to wit, upon the first Monday of March, 1892, and there being no Grand Jury empaneled at the present time to take action thereon, the undersigned requests your Honorable Body to give official notice to the said John D. Siebe, Assessor of the city and county, to make said reassessments, failing of which, his bondsmen will be liable to this city and county and this State for the loss that may result therefrom.

That such reassessments are legal has been shown in the case of the estate of the late Michael Reese, where the taxes were paid to the County of San Mateo some years since.

Very respectfully,

HORACE D. DUNN,

Expert for the late Grand Jury.

San Francisco, December 28, 1891.

This communication was referred to the Finance Committee of the Board, who, after a tedious and exhaustive examination into the complaints, made the following report on February 23, 1892, which report was adopted as the action of the board as reflecting their opinion and conclusions, to wit:

REPORT OF FINANCE COMMITTEE.

To the Honorable the Board of Supervisors

Of the City and County of San Francisco:

GENTLEMEN:

Your Finance Committee, in the matter of a communication from Horace D. Dunn, "expert for the late Grand Jury," calling attention to assessments of personal property on the assessment roll of this city and county, as made against the late Nicholas Luning, for the fiscal year 1890-91, claiming that the statement so made by the late Nicholas Luning for the said year did not embrace all his personal property liable to assessment, as shown by the inventory of his estate, filed in the Superior Court on January 20, 1891, and requiring this Board to notify the Assessor to reassess, for the ensuing fiscal year, the solvent credits and money in double the amount claimed to have escaped assessment, to wit, the sum of $8,363,820, as shown by his deductions, based on the inventory of said estate, would respectfully report that while there can be no question that, like other capitalists, the late Nicholas Luning so controlled and disposed of his personal property as to place the same beyond the power of the Assessor to assess, and to that end made such a disposition of his property under the revenue laws of this State and the statutes of the United States as to exempt the largest portion of his assets from State and county taxation, it does not appear that the late Nicholas Luning made any erroneous statement of his assets liable to taxation, as intimated. Presuming, however, that in any similar case personal property had escaped assessment in any one year and the owner died prior to the succeeding year, no power exists to make any reassessment, as the title to the property passed to the decedent's heirs or devisees; they are distinct persons under the law and cannot be assessed under the provisions of the Revenue Code, and any such assessment, if made, would be void. (Vide opinion of the City and County Attorney, appended hereto.)

A similar demand was also made by Mr. Dunn in the matter of the assessment of Whittier, Fuller & Co.

It appears that said firm was assessed for merchandise, etc., on the personal property roll of 1890-91 in the sum of $174,000, the present Assessor arbitrarily assessing the same firm for the fiscal year 1891-92 in the sum of $200,000. In this case the demand is that the Assessor be instructed to reassess said firm in double the amount that escaped taxation for the ensuing fiscal year—to wit, the sum of $3,100,000—predicating the valuation of the merchandise and personal property of said firm on a three-eighths interest in said firm owned by the late Wm. P. Fuller, as valued in the inventory of his estate filed in the Superior Court on June 23, 1890. The investigation in this case disclosed the fact that this firm owned and conducted business houses in all the principal cities in the State; also a house in Portland, Oregon, etc.

Thus, in addition, the property of the firm comprised goods and merchandise in transit, goods in unbroken packages not liable to assessment, etc. All this property and the good-will entered into and constituted the valuation of the interest of Wm. P. Fuller in the firm of Whittier, Fuller & Co. This presentation of the case had no bearing whatever upon the assessment of the firm, for Wm. P. Fuller, who had purchased the interest of the estate of his father, and who had been connected and familiar with the business appeared before your committee, made a statement under oath and answered all questions pertain

ing to the merchandise and personal property of said firm on the first Monday in March, 1891, liable to taxation, showing conclusively that the assessment made by the present Assessor of $200,000 was a just and proper assessment and the cash value of all property liable to taxation. The testimony taken in this investigation is a part of this report, and it is unnecessary to further amplify upon the facts.

HOW CAPITALISTS AVOID TAXATION.

It is conceded that capitalists and other rich men take advantage of the exemption from taxation of United States certificates of deposit and United States notes and make deposits in the United States Sub-Treasury or exchange their coin into United States notes to evade taxation, but these parties having the legal right to so dispose of their property, it is beyond the control or power of the Assessor to make such evidences of personal property assessable any more than it would be to assess deposits in savings banks, and while this is the law these evidences of wealth are not liable to taxation.

This inquiry, if nothing else, has demonstrated that specious pleas and invidious comparisons, made perhaps with innocent or sinister motives, have somewhat embarrassed your committee in properly characterizing this new feature of an attack made upon the assessments of property in this city and county, in connection with the action of the State Board of Equalization in increasing the assessment-roll of this city and county 30 per cent for the last fiscal year.

It may be stated that while inequalities exist in assessments of personal property and in real estate, it has been the purpose and intention of this and other administrations to adjust and equalize all assessments so as to conform to the cash value of the property, and to this end the Assessor has been and is now earnestly and systematically engaged in doing this work. It must be understood that the present Assessor assumed his office on January 5, 1891, and consequently had no opportunity or time to revise in a thorough manner the assessments on the roll which had to be made as of the first Monday in March of that year, but in so far as the assessments were made the same were determined in consonance with the desire not to oppress but to intelligently adjust valuations with the intention which is now being carried out, of completing an entire revision of the work in the assessment-roll of the next fiscal year.

If the action of the State Board of Equalization in increasing the assessment-roll was because of a non-assessment of personal property which was unassessable, and it may be predicated as at least one of the reasons for this action, then it was most unjust to this city and county, for however desirous it might be to swell the assessment-roll by assessing the millions that prior to the first Monday in March are converted into United States securities, it would not avail to increase the revenue, as such assessment would be void. One of the peculiar features of this inquiry has developed the fact that the funds of the city and county have been expended in the preparation of data from the assessment-roll, tending to show that such assessments ought to but have not been made, and by deceptive or monomaniacal comparisons, without so expressing, tend to offer a justification of the action of the State Board.

THE BOARD OF EQUALIZATION'S ACTION.

Your committee attach no importance to the fact of Mr. Dunn being paid in this connection by the State Board of Equalization for services performed at the request of, or for information furnished the said State Board in reference to assessments in this city and county, for it is the duty of all good citizens who have knowledge thereof to call attention to errors or mistakes, if any there be, but these events happening so soon after the action of the State Board of Equalization might tend to indicate that said Board, conscious of the great injustice done the tax-payers of this city and county by their action, were desirous of obtaining some showing to palliate their action and make the same appear justifiable. If the two cases presented and reported upon are, as they must be, cases selected which, in the judgment of Mr. Dunn, were erroneous assessments and did not embrace all the assessable property, it has been clearly demonstrated by this investigation how incorrect this presumption was, and how fallacious was the reasoning that the entire assessment of property was not based on its cash value.

The peculiarities of this autocratic power exercised by the State Board may be better illustrated by its action in determining cash values of the property on the assessment-rolls of the last three years.

The assessment-roll of 1889–90 aggregated $306,040,405; in this year the extension of our street railway lines had stimulated values by making outside property accessible. This was the cash valuation of the property as determined by the Assessor and after equalization by the Board of Super-

visors. The State Board ordered a decrease of 5 per cent from a caprice wholly unaccountable. The assessment-roll of 1890-91 aggregated $304,444,100, a decline in the cash valuation of the last year. No action was taken by the State Board, that assessment representing the cash valuation of the property assessed. The assessment-roll of 1891-92 aggregated $311,509,034, a great increase over the prior year. Although outside property values, in spite of the most strenuous efforts of real estate dealers, were declining, the State Board ordered an increase of 30 per cent to conform to cash values, which values were as imaginary as their action was erratic.

The obligation devolves upon San Francisco to have all property fully and fairly assessed as contemplated by law and to adjust separate assessments to conform to cash values is the only object actuating the Assessor or the Board of Supervisors in the performance of this duty. While the total valuation of the entire property as shown on the last assessment-roll as made by the Assessor is contended to be correct and in conformity with the principles of law, there can be no doubt that some disproportionate assessments exist, and probably instances of this character will always exist notwithstanding the greatest care and scrutiny. The purpose is and has been to correct such errors as soon as ascertained. The fluctuations in value of all property also renders frequent changes necessary, and no fixed standard of values can be adopted and adhered to year after year without doing great injustice.

THE RAISING OF THE ENTIRE ROLL.

It may be under the circumstances proper to call attention to and review the action of the State Board of Equalization in raising or lowering the entire assessment-rolls of the various counties in the State, and to ascertain whether or not the said Board has the power to so act, regardless of the fact that, while a portion of the assessable property is assessed at its cash value and in excess thereof, the remaining portion is assessed below its cash value. That this is the case in this county cannot be disputed, and it necessarily must be so in every other county of the State. The owners of property, therefore, throughout the State who have their property assessed at its full cash value or in excess thereof, are summarily dealt with, and because of the fact that other property is assessed (or claimed to be assessed) lower than its cash value, are by action of the State Board of Equalization compelled, on a fictitious valuation of from 10 to 30 per cent (as the case may be) to pay taxes in excess of their just burden without being heard; without a remedy, and without the right of appeal from this unjust discrimination.

The Supreme Court, in the case of Wells, Fargo & Co. vs. State Board of Equalization, in construing the powers of said Board held "that the power of the State Board was to equalize the assessment rolls of the various counties, by comparing the assessment roll of each county with the roll of each and all the others and thus to make the assessment conform to the true value in money of the property contained in the respective rolls, and that to justify this construction of the Constitution that Section 9 of Article XIII had to be read distributively. In other words, the State Board of Equalization had no power over the separate assessments contained in said assessment, that being within the province and within the scope and power of the County Board of Equalization but said Board had unlimited and unrestricted power over the entire assessment-roll.

It was generally understood by those who did not probably possess any legal acumen, that Section 9 of Article XIII of the Constitution not read distributively as construed by the Supreme Court, contemplated that the power so conferred enabled the State Board of Equalization to increase or lower any property assessment contained in any assessment roll, to make it conform to its cash value. As this arbitrary power in the hands of ignorant, unreliable or unscrupulous men who might accidentally compose the State Board, could be wielded in such a manner as to effect great injustice and oppression, the decision of our Supreme Court in the above-entitled case was conceded to have been made to relieve property-owners from results which could not be tolerated, and a politic and salutary interpretation of this constitutional provision.

This danger being removed, the State Board has exercised the power of increasing the entire assessment-rolls, and it has now become so oppressive and unjust that it is well to ascertain and, if necessary, have determined whether this constitutional power is not violative of the Fourteenth Amendment of the Constitution of the United States, in that it deprives the person who is assessed in excess of the cash valuation of his property, of the equal protection of the laws—without any remedy or redress or right to contest the unjust burden imposed.

The Supreme Court, in the case of the People vs. Dunn, wherein the Auditor of this city and county refused to add a per centum to assessments for money on the order of the State Board of Equalization, stated: "We take notice as a matter of fact that a dollar in money cannot be assessed at more than a dollar, and that to assess a dollar in money at more than a dollar cannot make it conform to its true value in money. When money is assessed at its nominal value, it conforms to

its true value and from the very nature of the case the State Board cannot change the assessment without making it cease to conform to its true value in money. To hold that the State Board was authorized to add to the valuation of money already assessed to the full value it represents, would be so to construe a provision of the Constitution, intended by its terms to produce a certain result, as that it shall bring about a result directly the contrary to that intended."

This action of the State Board of Equalization in attempting to add to value of money being void, then it should follow that any increased value placed upon an assessment of other property by the action of the State Board of Equalization, assessed at its full cash value by the Assessor, necessarily brings about a result directly contrary to that intended by the Constitution, and by this reasoning such assessment is therefore void. Since this decision, it may be proper to state that this article of the Constitution was amended by providing "that no Board of Equalization shall raise any mortgage, deed of trust, contract or other obligation by which a debt is secured, money or solvent credits above its face value."

The Supreme Court, recognizing the injustice of this system in their decision in the case cited state "whatever injustice may follow from an arbitrary increase of all assessments to which the language of the Constitution applies, since men already assessed to the full value of their property may have imposed upon them an additional burden—such an objection, if it be made, is an objection to the system; and with the policy or wisdom of a provision of the Constitution we have nothing to do. In considering a statute which attempted to establish a like system, passed while the former Constitution was the organic law, and, in response to a suggestion that a statute so beneficent in its operation ought, if possible, to be sustained, the Supreme Court said: "The individual whose property has been assessed at a fair cash valuation has no occasion to appeal to the Board, of Supervisors; but if, in the opinion of the members of the State Board, the property in a county as a whole, has been assessed too low, they may summarily raise the valuation of all the property in the county—thus unjustly adding to the tax of those whose property has already been assessed at its full value. Where, in such a case, is the equality or uniformity which is the controlling idea of the Constitution? (Houghton vs. Austin, 47 Cal., 673.) Since that decision the system has been engrafted in the Constitution, and bowing to behests of that instrument, it is our simple duty to carry it into effect. We must accept an artificial system, whose evident intent is that the equalization by the Board of Supervisors shall conclusively determine that all individual assessments within the county have been made—relatively to each other—equal and uniform—leaving to the State Board simply the task of equalizing assessments as between the several counties."

The question presents itself. Is there no relief from an artificial system engrafted on the Constitution which deprives persons and property of equal protection? If it is presumed that the separate assessments are made relatively to each other—equal and uniform—then it must also be presumed that the Assessor has assessed the property at its full cash value, as this duty is as incumbent upon the Assessor (under severe penalties) as it is upon the State Board of Equalization to ascertain and determine whether or not the assessment has been so made. The tenure of this artificial system has been engrafted upon the counties and in the construction of the constitutional powers granted all are liable to suffer and be oppressed. The power is not one that in its exercise some individuals may suffer, but all are subject to the same despotic sway and injustice, which is subversive of the rights of every citizen.

It must not be presumed that your committee do not recognize the necessity of a State Board of Equalization with proper powers to supervise the assessment of property throughout the State, and compel every Assessor, if needs be, to perform his duty; but it must be a self-evident proposition that no power should be conferred that can be used to punish a taxpayer for the laches of an Assessor. At present, with intelligent supervision only, there are effective measures embodied in provisions of the Revenue Code which, if enforced by the State Board (if any reason exists therefor), to compel every Assessor in the State to conform to all the requirements imposed in the assessment of property. The Constitution of the State in this particular ought to be amended by striking out the power of the State Board to increase or decrease the valuation of the entire assessment-roll of any county, so that no person, either directly or indirectly, could be deprived of his just rights by any arbitrary method of determining values. If required, other summary and effective means could be embodied in the Revenue Code to afford all the necessary safeguards to protect the rights of the State as well as those of the taxpayer.

It appears to your committee that the power exercised by the State Board of Equalization under the Constitution of this State is in violation of that portion of Article 14 of the Constitution of the United States which declares that "No State shall make or enforce any law which shall abridge the privileges or immunities of the United States, nor shall the State deprive any person of life,

iberty or property without due process of law, nor deny to any person within its jurisdiction its equal protection of the laws."

Your committee think that at this time no further argument is required to demonstrate the unconstitutionality of this provision of our State Constitution, which in its operations imposes unequal burdens upon the citizens of this State.

While there are decisions of our Supreme Court other than those cited, which, when analyzed, sustain the views herein expressed, our only remedy is to have an action brought involving this question, and on a decision which may be readily obtained, take the case on a writ of error to the Supreme Court of the United States for final adjudication.

In conclusion, your committee have only to state that for want of time they have but crudely presented their views, as evincing the earnest feeling shared in common with our citizens, at the unjust exactions imposed upon this city and county, and are forced to reprehend any acts of which this Board cannot be made a party, which attempt to justify the recent action of the State Board of Equalization in adding thirty per cent to the valuation of our assessable property.

The opinion of the City and County Attorney, in answer to questions propounded in connection with this investigation, is herewith appended and made a part of this report.

L. R. ELLERT,
JAMES W. BURLING,
D. B. JACKSON.

February 23, 1892.

The question as to the right of citizens, although not so avowed, to invest for the purpose of evading taxation in United States securities was called to the attention of the Finance Committee while investigating the complaints made of assessments being wholly irreconcilable with the known and reputed wealth of some of our citizens. In order to ascertain the rights and privileges of this character which were and had been exercised for many years, the opinion of the City and County Attorney was requested and obtained, as referred to in the foregoing report, of which the following is a copy, to wit:

OPINION OF THE CITY AND COUNTY ATTORNEY.

SAN FRANCISCO, February 15, 1892.

Jno. A. Russell, Clerk Board of Supervisors:

I have examined the questions presented for my opinion by the Honorable the Finance Committee of the Board of Supervisors, and present herein, with as much brevity as the case will permit, my conclusions upon the various questions of law presented.

The questions as formulated in your communication are as follows:

First—"Are certificates of deposit of moneys in the Sub-Treasury of the United States, or United States bonds or notes, liable to taxation?"

Second—"In case it should be shown that moneys were deposited in the Sub-Treasury of the United States within thirty days prior to first Monday in March in any year, and within two weeks from that date, the certificates cashed and the money drawn from the Sub-Treasury, or the certificates negotiated or used for exchange purposes within that time, could such action be deemed and held to be transferring property to evade taxation, and could such property be assessed under the provisions of Section 3648 of the Political Code or under any other provision of the Revenue Code?"

Third—"If a statement is made by a taxpayer of his personal property prior to his decease, and it is afterwards ascertained from the inventory of his estate that the statement was incorrect and did not list all the property, can his estate be subsequently assessed therefor, on a succeeding year under the provisions of Section 3649 of the Political Code, or under any other provision of the Revenue Code?"

Fourth—"If, in the disposition of the moneys or bonds of an estate in certificates of deposit of the same in the United States Sub-Treasury or United States notes or bonds, authority therefor is granted by the Superior Court within thirty days or less time prior to the first Monday in March in any one year: is it the province or within the power of said Court to provide or make any order whereby such moneys shall be liable to, and not escape taxation?"

Fifth—"Has the Board power at any time to direct the Assessor to assess any taxable property that has escaped assessment, or to add to the amount, number or quantity of property when a false or incomplete list has been rendered?"

FIRST.

United States bonds and notes are, beyond question, exempt from State taxation. On general principles of constitutional law, in the absence of congressional legislation to that effect, they would be exempt as federal agencies from State taxation. But Congress has expressly provided for such exemption. Section 3701 of the Revised Statutes of the Uuited States provides as follows:

"All stocks, bonds, treasury notes and other obligations of the United States shall be exempt from taxation by or under State, municipal or local authority."

My examination, in the brief period of time allowed, constrains me to the same conclusion with reference to certificates of deposit in the United States Sub-Treasury.

Such certificates of deposit are provided for by Section 254, Revised Statutes of the United States.

The coin deposited, of course, ceases to be the property of the depositor. It is mingled with the residue of the coin belonging to the United States, and on deposit in the Sub-Treasury. As the property of the United States, it is not subject to State taxation.

The certificate of deposit is in effect a certificate of indebtedness by the United States to an individual, and is in consequence an obligation of the United States.

It is true that it does not bear interest, but that does not relieve or remove it from the exemption. [Bank of N. Y. vs. Supervisors, 7 Wallace Rep. 26.]

I find no federal statute subjecting such certificates to State taxation. It follows that such certificates are "obligations" of the United States coming within the exemption provided for in Section 3701 Rev. Stat. above referred.

The allowed exemption, in the case of such certificates, may be as a result the means of defeating the revenue laws of the States. But if such be the unfortunate result, Congress must be looked to to adopt such regulations as shall prevent the Treasury of the United States from being used as a means of depriving the States of their just revenues.

But whether such certificates are exempt or not (and, as above stated, I have had brief time for examination) the question is comparatively immaterial, inasmuch, as will appear hereafter, there is no re-assessing power exercisable in the case under investigation, by the Assessor or Board of Supervisors.

SECOND.

Certainly the mere fact that moneys were deposited in the Sub-Treasury within thirty days prior to the first Monday in March, and certificates of deposit received therefor, and that the said certificates were negotiated or used, or surrendered to the Sub-Treasury and moneys withdrawn within two weeks after that date, would not be sufficient evidence to establish that there had been a transfer of property in order to evade taxation within the provisions of Section 3648.

The transaction in itself is legitimate and allowed by the laws of the United States, and before the conclusion referred to could be drawn, for the purpose of invoking the assessing power conferred by Section 3648 of the Political Code, it would be necessary to present other and affirmative evidence that the actual intent existed to evade taxation.

But were such actual intent and fact proved by other and affirmative evidence, it is a question whether the money, if withdrawn from the Sub-Treasury, or the proceeds of the certificates, if negotiated, could be assessed under said Section 3649, on the ground that by the transaction the owner had sought to evade taxation.

Aside from questions as to the identity of the property, to allow such property to be assessed under said Section 3649 would be to allow the exercise of a power by the State calculated to interfere with one of the chief agencies of the National Government, to wit: the National Treasury.

The Government has especially authorized such deposits. The operation of its fiscal policy requires that citizens shall not be hampered by State regulations, or even by duties and obligations to the State, from availing themselves of the privilege of making deposits in the Sub-Treasury.

If it is competent for any purpose for State authorities, under State authority, to look into the motives prompting such deposits, then it is competent for the State to substantially prohibit such deposits, by prohibiting certain motives for making the same and by prescribing certain rules of evidence.

The fiscal policy of the Government, involved in the provision as to such deposits, would or might be defeated.

It matters not that the State authority as actually exercised would not so result. Its tendency would be in that direction, and that tendency is the test of the unconstitutionality of the assumed State power.

I answer, therefore, as to the second question, that the transaction stated would not be transferring property to "evade taxation" within the meaning of Section 3648 of the Political Code.

THIRD.

The third question presented is easy of disposition. It is only when property not assessed in one fiscal year, is in the "ownership" or under the control of the "same person" in the subsequent fiscal year that it can be assessed during such second year at double its value under Section 3648, Political Code. But where the owner dies prior to the second fiscal year, the property is not as a matter of unquestionable law "owned or controlled" by the same person within the meaning of said Section 3649. Upon the death of the owner the title passes at once to his heirs or devisees, subject of course to the power of administration vested in the Probate Court. They are in the eye of the law distinct persons from the decedent.

An assessment made in such case by the Assessor would be absolutely void. If in such cases the power of assessment is desirable, the law must be changed by the Legislature.

With the reasons for this state of the law, I have no concern at present, Suffice it, that such a case does not come within said Section 3649 of the Political Code.

FOURTH.

With reference to the fourth question, my response is, that, while the Probate Court might have regard to the receipt of revenue by the State in authorizing a certain disposition of the property of an estate, yet no duty in that respect rests upon such Court. Its duty is to procure such disposition of the estate as will secure its safety to the heirs. If such Court thinks due safety requires the deposit of moneys in the Sub-Treasury, its judgment is conclusive and its duty is a discharge.

Such deposit having been made under its authority, it could not compel the payment of taxes thereon, inasmuch as the said taxes, if levied at at all, would be void and no charge against the estate. It might make the order, but on appeal its order would be reversed.

FIFTH.

The Act of 1873–4, entitled "An Act in Relation to the Assessment and Collection of Taxes in the City and County of San Francisco," provides that the Board of Supervisors shall sit as a Board of Equalization for the equalization of personal property assessments between the second and fourth Mondays of June. Worley's Consolidation Act, p. 406.

It is only between those dates that it possesses the functions and powers of a Board of Equalization, so far as personal property is concerned. So far as real property is concerned it sits as a Board of Equalization between the first and third Mondays in July only. Political Code, Section 3672.

This time, and the character and existence of the Board as a Board of Equalization, may be extended thirty days by the State Board of Equalization. Political Code, Section 3705.

At all other periods it sits as a Board of Supervisors merely, in other words, as the legislative body of the city. It has none of the powers of a Board of Equalization.

It may conduct inquiries into the affairs and conduct of the various municipal offices. But the inquiries are in the nature of inquisitions for the purpose of informing that municipal governing body with a view to the enactment of such municipal legislation as should be necessary to the proper administration of the affairs of the city.

As a Board of Supervisors it has no inherent or granted power to equalize assessments or to direct the assessment of property.

The only power to direct the Assessor to assess any taxable property, or to add to the amount, number or quantity of property, is given to the Board as and when acting as a Board of Equalization.

Section 3681 of the Political Code provides that "During the session of the Board" (as a Board of Equalization) it may so direct the Assessor.

The power conferred by Section 3679 is conferred upon the Board as a Board of Equalization only.

It follows that inasmuch as at this period of the year the Board is no longer a Board of Equalization, it has no power to give the direction mentioned. The assessment has gone beyond its control and beyond the control of the Assessor.

Were this not the law, the assumed power could and might be used throughout the year capriciously to harass and annoy individual property owners at the instance of suspicion or malice.

Respectfully submitted,

JOHN H. DURST,
City and County Attorney.

The Assessment Roll of Personal Property for the Fiscal Year 1892, embracing seventeen volumes, was received from the Assessor on June 6, 1892, accompanied by the following communication stating that the aggregate assessment amounted to the sum of $74,452,347, as follows:

COMMUNICATION FROM ASSESSOR.

OFFICE OF THE CITY AND COUNTY ASSESSOR,
SAN FRANCISCO, June 6, 1892.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—I beg to inform your Honorable Body that I have this day delivered to John A Russell, Clerk of your Board, seventeen (17) volumes, containing the Personal Property Assessment of this City and County for the year 1892, amounting to $74,452,347.

The roll as compared with last year shows an increase of $6,969,869.

JOHN D. SIEBE, Assessor.

The Board of Supervisors met on Monday, June 13, 1892, and examined the Assessment Book, and continued in session from time to time until Monday, June 27, 1892, and heard all applicants who had filed sworn applications for correction of assessments, who appeared for examination.

The action of the Board on the applications, and the clerical errors presented by the Assessor, resulted in reducing the Assessment Book, $5,540,021.

STATISTICS—ASSESSMENT BOOK OF PERSONAL PROPERTY OF 1892.

Total Number of Assessments	50,211
Total Number of Assessments (Statements Filed)	39,591
Total Number of Assessments (Arbitrary Assessments)	10,620
Total Number of Assessments (Less than $2,500)	47,380
Total Number of Assessments ($2,500 and over)	2,831
Total Number of Assessments, Chattel Mortgages	91
Total Valuation of Chattel Mortgages	$548,172
Total Number of Mortgages on Shipping	35
Total Valuation of Mortgages on Shipping	$48,890
Total Number of Assessments, Chinese	1,148
Total Valuation of Assessments against Chinese (Money, $77,565)	$935,367
Total Number of Assessments, Shipping	1,067
Total Valuation of Assessments of Shipping	$5,474,478
Total Valuation of Assessments of Solvent Credits	$8,508,780
Total Amount of Money Assessed	$7,009,436

NAMES AND ASSESSMENTS.

The following table contains the names of persons, firms and corporations assessed for the sum of $2,500 and over, for personal property, on the Assessment Book of Personal Property of the City and County of San Francisco for the fiscal year 1891:

NAME.	DESCRIPTION OF PROPERTY.	AMOUNT.
Abbott, George	Fixtures, $50; Machinery, $2,450	$2,500
Abrahamson, Bacon & Heinish	Wagon, $50; Bottles and Corks, $14,000; Fixtures, $300; Solvent Credits, $900; Horse, $40; Harness, $20	15,310
Ackerman, C. L., Executor of the Estate of Louis Greenbaum, Deceased	Personal Property as per Inventory on file in Superior Court, Department No. 9 — Merchandise, $2,500; Fixtures, $200; Furniture, $500	3,200
Ackerman & Kohn	Merchandise, $5,000; Fixtures. $40; two Wagons, $60	5,100
Adams & Carter	Merchandise, $770; Machinery, $900; Solvent Credits, $6,775; Office Furniture, $100	8,545
Adams, Jacob	Beer, $400; Brewery Machinery, $2,750; four Horses, $600; Harness, $50; two Wagons, $500; Malt and Hops, $500	4,800
Adcock, Edwd	Merchandise, $3,000; Fixtures, $250	3.250
Aera Motor Company	Machinery, $3,000; Furniture. $200; Franchise, $150	3,350
Ætna Insurance Company	Fixtures, $500; Solvent Credits, $265; Money, $3,050; Franchise, $1,500	5,315
Ætna Life Insurance Company	Fixtures, $250; Money, $1,285; Franchise, $1,500	3,035
Alaska Commercial Company.	Merchandise, $8,400; Fixtures, $700; Solvent Credits, $4,250; Money, $14,700; Horse, $100; Buggy, $100; Franchise, $200	28,450
Alaska Package Association	Merchandise, $300,000; Fixtures, $75; Franchise, $150	300,225
Alexander, Geo. W., and Thos. A. Proctor, Executors Estate of James McEwen, Deceased	Personal Property as per Inventory on file in Superior Court, Department No. 9—Solvent Credits, $7,350; Furniture, $150	7,500
Allen, Charles R.	Merchandise, $3,362; Fixtures, $550; Solvent Credits, $3,073; Horses, $795; Wagons, $475; Piano, $125; Franchise, $150	8,255
Allen, E. T. & Co.	Merchandise, $10,120; Fixtures, $50; Solvent Credits, $880; Money, $120; Furniture, $300; Library, $25; Watch, $5	11,775
Allen & Higgins Lumber Company	Merchandise, $5,600; Fixtures, $150; Money on hand, $135; Money in bank, $160	6,045
Allen & Lewis	Canned Fruits	3,000
Allen & Lewis	Consigned Goods, $18,789; Machinery, $2,500; Fixtures, $100	21,389
Alliance Assurance Company of London	Fixtures, $800; Money, $2,695	3,495
Allison, Gray & Co	Merchandise, $4,500; Consigned Goods, $4,500; Fixtures, $200; Solvent Credits, $3,500; Money, $465.	13,165
Allison, Heff & Co.	Merchandise, $3,500; Fixtures, $75; Solvent Credits, $3,000; Money, $125; Franchise, $150	6,850
Alpha Consolidated Mining Company	Money	7,384
Alta Silver Mining Company	Money	38,390
Althof & Bahls	Machinery, $3,900; Money, $200	4,100

NAMES AND ASSESSMENTS—CONTINUED.

NAME.	DESCRIPTION OF PROPERTY.	AMOUNT.
Altschul, L. & Co.	Merchandise, $1,930; Fixtures, $200; Furniture, $350; Piano, $75; Sewing Machine, $20	$2,575
Alvord, William	Money, $850; Furniture, $1,200; Library, $1,500; Jewelry, $400; Watch, $50; two Horses, $300; Harness, $75; Buggies, $125; two Sewing Machines, $30	4,530
American Bank and Trust Company	Franchise	2,500
American Bank and Trust Company	Fixtures, $100; Solvent Credits, $10,640; Money, $38,182	48,922
American Biscuit Company	Franchise	2,500
American Biscuit Company	Merchandise, $12,000; Machinery, $15,000; Solvent Credits, $24,000; Fixtures, $300; Money, $16,400; three Horses, $300; Harness, $100; Wagons, $300.	68,400
American Champagne Company (Limited)	Champagne, $3,000; Machinery, $5,000; Money, $830	8,830
American Exchange Hotel	Furniture, $2,500; four Horses, $250; Harness, $75; three Wagons, $350	3,175
American Oil Company	Merchandise, $11,600; Machinery, $500; Fixtures, $900; Harness, $10; Wagons, $40; Franchise, $150	13,200
American Salt Company	Merchandise, $1,000; Machinery, $2,000; Fixtures, $50; Franchise, $150	3,200
American Straw Works	Merchandise, $7,500; Safe, $50; Fixtures, $150; Furniture, $50	7,750
American Sugar Refinery	Machinery, $38,000; Money, $1,000	39,000
American Sugar Refinery	Franchise, $10,000	10,000
American Tobacco Company	Cigarettes and Tobacco, $33,360; Fixtures, $200; Solvent Credits, $11,339; Money, $1,706	46,605
American Tract Society	Solvent Credits, $1,100; Books, $5,900; Fixtures, $500	7,500
Ames & Detrick	Solvent Credits, $11,000; Money, $1,000; Merchandise, $17,000; Machinery, $7,500; Office Furniture, $1,000	37,500
Ames, E. E., et Al., Executors of the Estate of Mark A. Miller, Deceased	Personal Property as per Inventory on file in Superior Court, Department No. 9—Jewelry, $385; Promissory Note, $3,000	3,385
Ammerup, Gottlieb	Merchandise, $5,500; Fixtures, $200; Watch, $50; Horse, $50; Harness, $25; Wagon, $50; Machine, $15; Money, $2,680; Solvent Credits, $1,630	10,200
Anaconda Mining Company	Money	10,000
Anderton, Fred C	Furniture, $50; Tanners' Stock, $2,500; Machinery, $2,000; Two Horses, $100; Harness, $25; Buggy, $100	4,775
Andrews, A	Watches and Jewelry, $20,000; Fixtures, $2,000, Money, $4,000	26,000
Andros, Milton	Money, $745; Furniture, $400; Library, $1,200; Watch, $50; Jewelry, $200; Piano, $250; Sewing Machine, $15; Fire Arms, $20; Property of Others, $25	2,905
Anglo-American Crockery and Graniteware Company	Crockery and Glassware, $9,000; Fixtures, $200; Solvent Credits, $4,500; Money, $100	13,800
Anglo-American Gas Control Company	Money, $10,000; Merchandise, $4,500; Furniture, $500	15,000
Anglo-Californian Bank	Solvent Credits, $280,000; Money, $107,240; Fixtures, $3,000	390,240
Anglo-Californian Bank (Limited)	Franchise	10,000
Anspacher, P., Executor of the Estate of H. H. Myers, Deceased	Personal Property as per Inventory on file in Superior Court, Department No. 9—Money	20,000

The Board of Supervisors, in addition to hearing applicants for correction of assessments on the Assessment Book of Personal Property, examined the various assessments and issued citations in thirty cases, requiring the parties to appear before the Board to show cause why the assessments in said cases should not be increased. The parties appearing were heard, and the various assessments analyzed and investigated to ascertain the cash value of the property; in all the cases cited, except one the assessments made were approved. In that particular case the assessment was increased from $25,240 to $50,000.

The Board, on sworn applications, acting under the opinions of the City and County Attorney, made reductions aggregating $5,265,461 in the following cases:

On application of the Pacific Mail Steamship Company the assessments, aggregating $1,752,000, on their steamers were canceled on the ground that they were registered in New York, the home of the owners, and their vessels were therefore not liable to assessment in this city and county.

The following is a copy of the opinion of the City and County Attorney:

OPINION OF THE CITY AND COUNTY ATTORNEY.

LAW DEPARTMENT,
CITY AND COUNTY OF SAN FRANCISCO,
SAN FRANCISCO, June 27, 1892.

John A. Russell, Clerk of the Board of Supervisors of the City and County of San Francisco:

DEAR SIR—By your communication of the 22d of June, in accordance with the instructions of the Honorable the Board of Supervisors of this city and county, sitting as a Board of Equalization, you request my opinion as to whether the steamers of the Pacific Mail Steamship Company, plying between this and other ports outside the State of California, are assessable in the City and County of San Francisco.

The said Pacific Mail Steamship Company is a corporation organized and existing under the laws of the State of New York, and having its principal place of business therein.

The said vessels are engaged in plying between this port and other Pacific ports outside of the State of California. They are registered in the city of New York.

The said steamers call at this port for the purpose only of the receipt and discharge of passengers and freight, and the provisioning and repairs necessary to the pursuit of the commerce in which they are engaged.

It is manifest that, if by reason of the fact that said steamers stop at this port for the purpose above stated, the same can be here taxed, they can be likewise taxed in any other State—Oregon or Washington, for instance; at those ports they may likewise call for the same purposes.

The question of law is not a new one; it has been settled by the Supreme Court of the United States, against the right of the State of California, or the City and County of San Francisco, to pay and collect such taxes.

In the fiscal year 1851-2, the Assessor of this city and county assessed twelve steamships belonging to the said Pacific Mail Steamship Company. The said ships were, as in the present case, engaged in plying between this and other ports, and were likewise registered in New York.

The said company paid the taxes under protest, and brought suit for the recovery of the money so paid. Appeal was taken to the Supreme Court of the United States, and judgment in favor of the steamship company was there affirmed.

The decision of that court was placed upon the ground that the ships, being owned by the New York corporation, and being registered in New York, their situs was in the said home port, the city of New York, and the State of California had no jurisdiction over said vessels for the purpose of taxation.

Hays vs. The Pacific Mail Steamship Company; 17 Howard United States Supreme Court Reports, 596.

The Court ruled that the Assessor of the City and County of San Francisco exceeded his power in making the assessment and awarded a recovery of the money paid.

This doctrine was affirmed by the same court in Morgan vs. Parham; 83 N. S. 69. See People ex rel. Pacific Mail Steamship Company vs. Commissioner of Texas; 58 N. Y. Reports, 242.

Under these decisions of the Supreme Court of the United States any assessments levied upon

the said steamers will be void, and any moneys paid for taxes upon such assessments will be recoverable from the Treasurer of this city and county.

The Assessor has placed the vessels upon the assessment roll of this city and county for the reason that a statute of New York passed in the year 1881 exempts vessels owned and registered in that State, from State and local taxation in New York.

But the voluntary exemption by New York of such steamers having their situs in that State does not render such vessels subject to taxation elsewhere. If the State of New York does not see fit to exercise its right of taxation it is the loss of that State and of the city of New York.

It does not aid the State of California in its desire to so tax. The decision of the Supreme Court of the United States proceeds upon the ground that the State of California "has no jurisdiction or power to tax such vessels, because they are owned and registered elsewhere."

The action of New York does not render this State less important in the premises.

I am, therefore, of the opinion that the City and County of San Francisco has no power to assess and tax the vessels in question.

If such assessment is made, it will but involve the city and county in cost and expense.

I have consulted and advised with Hon. William S. Barnes, District Attorney of this city and county, concerning the above matter, and I am authorized by him to state that he confirms and concurs in the conclusions stated herein.

Respectfully submitted,

JOHN H. DURST,
City and County Attorney.

Also, on the application of the estate of Teresa Fair, deceased, the assessment of $1,998,893 was reduced to $1,921,893, and on the application of the estate of George Hearst, deceased, the assessment was reduced from $3,872,721 to $436,260, as advised by the City and County Attorney, in the following opinion:

OPINION OF THE CITY AND COUNTY ATTORNEY.

LAW DEPARTMENT,
CITY AND COUNTY OF SAN FRANCISCO,
SAN FRANCISCO, June 27th, 1892.

John A. Russell, Clerk of the Board of Supervisors
Of the City and County of San Francisco:

By instruction of the Honorable the Board of Supervisors, you request my opinion as to whether certain bonds and stocks belonging respectively to the estate of Teresa Fair and George Hearst, can be legally assessed in this city and county.

You refer me to the statements on file in the Assessor's office for the description and character of such bonds and stocks.

It appears from the statement in the Fair estate that the said estate is concerned exclusively with railroad and cable bonds.

That statement shows the Fair estate to hold bonds as follows:

One thousand nine hundred and fifteen Southern Pacific Railroad bonds of Arizona of $1,000, assessed at $1,915,000.

Twenty-seven West Shore Railroad bonds of New York of $1,000 each, assessed at $27,000.

Five hundred shares Commercial Cable stock of $100 each, assessed at $50,000.

Each of the companies whose bonds are held by the Fair estate are companies incorporated outside of the State of California.

In the case of the bonds of the Southern Pacific Company of Arizona the company is an Arizona corporation, and the railroad properties mortgaged to secure said bonds are situated in Arizona.

The West Shore Railroad Company is a New York corporation, and its properties are situated in that State.

The Commercial Cable, in other words the Mackay Cable Company, is incorporated outside of the State, but may have some properties here.

It is admitted by the executors of the Fair estate that the 1,915 Southern Pacific of Arizona bonds were, on March 1st of this year, actually in this State.

It is claimed, however, that the other bonds were not then, are not now, and never have been in this State, but have always been in New York.

I have no means of knowing where the several bonds were actually situated on March 1st, 1892, other than the candid and fair admissions and representations of Richard Dey, one of the executors of the estate of Teresa Fair, and Mr. Mesick, attorney for said estate. I base my opinion, therefore, upon those representations and statements so made.

With reference to the Fair estate two questions arise:

First.—Are the bonds of a corporation organized in another State, whose properties mortgaged to secure such bonds are situated in another State, assessable in this State, when those bonds are owned in this State, and were actually in this State on March 1st, 1892?

Second.—Are such bonds assessable in this State, when they were not on March 1st, 1892, are not now, and never have been in fact or actually in this State, but always have been in New York or elsewhere?

The estate of Teresa Fair claims that all of said bonds are exempt from assessment under Section 4 of Article 13 of the Constitution, and Section 3627 of the Political Code, and that the Commercial Cable and West Shore bonds are also beyond the reach of taxation in this State, because always actually situated outside this State.

Section 4 of Article 13 of the Constitution provides that;

"A mortgage, deed of trust, contract or other obligations, by which a debt is secured, shall for the purposes of assessment and taxation, be deemed and treated as an interest in the property affected * * * * the value of the property affected by such mortgage, deed of trust, etc., less the value of the security, shall be assessed and taxed to the owner of the property, and the value of such security shall be assessed and taxed to the owner thereof, in the county, city or district in which the property affected thereby is situated."

Section 3627 is substantially the same.

Under this section of the Constitution an obligation, mortgage, bonds, etc., by which a debt is secured is made an interest in the property mortgaged or bonded, and is to be assessed to the owner of such bond or mortgage, not in the place where the owner lives or where the bond or mortgage is actually in custody, but in the place where the property pledged is situated.

The estate of Fair contends that the Arizona Railroad bonds are, by this section of the California Constitution, made an interest in the Arizona Railroad, which railroad is situated exclusively in Arizona.

They maintain by the same section it is provided that the assessment, if made at all, must be made where the property pledged is situated, to-wit, in Arizona.

They say, that inasmuch as no California authority can assess the bonds in Arizona, the City and County of San Francisco is legally disabled from assessing the bonds.

If the said section of the Constitution is to be deemed to apply to bonds, mortgages, etc., upon properties outside of this state, then the position is correct.

But in my opinion the Constitution must be deemed to enact only as to bonds, mortgages, etc., upon properties in this State.

The object was to prevent double taxation by this State of the properties in this State.

See City and County of San Francisco vs. Fry, 63 Cal., R. 470.

The Constitution makers must be presumed, as must the Legislature in similar cases, to be providing for properties in this State and subject to mortgages and deeds of trust.

See City and County vs. Fry, supra.

The Constitution of this State could not make mortgages upon a railroad in Arizona an interest in that Arizona railroad.

That the Constitution only intended to speak as to mortgages, etc., upon properties in this State is evident from another consideration.

It not only declares what shall be the legal character of the mortgage, etc., and where it shall be assessed, but it declares how the property pledged shall be assessed. The Constitution would certainly not assume to declare how the properties in Arizona should be assessed. But it manifestly intended to declare how mortgages, deeds of trust, etc., should be assessed in those cases only where it could also declare how the property mortgaged could be assessed.

Without further discussion I will state therefore that I am of the opinion that none of the bonds in the Fair estate come within the operation of Section 4 of Article 13 of the Constitution or of corresponding provision of section 3627 of the Political Code.

Section 1 of Article 13 of the Constitution provides that "All property in the State not exempt

* * * shall be taxed," etc. The word property as used in this Article and Section is hereby declared to "include moneys, credits, bonds, stocks," etc.

Sections 3607 and 3617 of the Political Code are substantially the same.

The Constitution and Code in express terms provide, therefore, that bonds in the State shall be assessed. The Arizona Railroad bond not coming within the operation of Section 4 of Article 13 of the Constitution, they are clearly assessable in this State, if found here on the 1st day of March.

These bonds, assessed at $1,915,000, were actually in the City and County of San Francisco on the 1st day of March, 1892, were properly assessed, and the Assessor and the assessment should be sustained.

Second—The bonds of the West Shore Railroad and of the Commercial Company were not in this State at said date and never have been.

The Constitution and Code only provide for the assessment of property in this State. (See above provisions.)

If they attempted to provide for the assessment of property situated in other States their provisions would be void.

An assessment could not be made in the City and County of San Francisco for moneys, or greenbacks, or bullion, or merchandise, or other personal property situated in Nevada or New York city, simply because it was owned by a person residing in San Francisco. An assessment can no more be made in this city and county of bonds actually deposited in New York city.

The bonds are assessable there, not here

I am, therefore, of the opinion that the West Shore bonds, assessed at $27,000, and the Commercial Cable bonds, assessed at $50,000, are illegal and should be canceled.

The properties of the estate of George Hearst, deceased, concerning the assessment of which a question is raised, consist exclusively of stocks in mining corporations.

They fall within three classes.

First—California corporations having some property in this State as follows:

Ontario Mining Co	$807,025 00	
Homestake Mining Co	193,370 25	
Highland Mining Co	171,425 00	
Father De Smet Mining Co	4,902 30	
Clara Mining Co	50,000 00	
Phœnix Silver Mining Co	2,238 10	
Black Hills and Port Pierce Mining Co	125,000 00	
Black Hills Canal and Water Co	245,000 00	
Total California Mining Corporation Stock		$1,598,960 00

Second—Stock of mining companies incorporated under the laws of other States, whose properties are situated in other States, and which stock is not now and never has been in California, but was on March 1st, 1892, and is now pledged for loans in New York:

Anaconda Mining Co. of Montana	$1,800,000	
Brewer Mining Co	37,500	
		$1,837,500

Third—Stock of mining corporations incorporated in other States, whose properties are in other States, but in which the stocks were in California in the hands of the executors of the Fair estate on March 1st, 1892:

Daly Mining Co	$414,501 50	
Deadwood Ferra Mining Co	21,209 06	
		$435,710 56

It is represented that the California corporations have property in this State. That being so the matter is easily disposed of. Section 3608 of the Political Code provides that:

"Shares of stock in corporations possess no intrinsic value over and above the actual value of the property of the corporation which they stand for and represent, and the assessment and taxation of such shares and also of the corporate property would be double taxation. Therefore all property belonging to corporations shall be assessed and taxed, but no assessment shall be made on shares of stock, nor shall any holder thereof be taxed therefor."

This certainly applies to California corporations having property in this State. The property is taxable in the county where situated. But the Code expressly forbids the assessment of the shares of stock.

It is to be noticed that Section 3703 has been enacted since the decisions of S. F. vs. Fry, 63 Cal., and S. F. vs. Flood, 64 Cal.

I am of opinion, therefore, that the assessment as to shares of stock in California corporations should be canceled.

The stock in corporations organized in and having their properties in other States stands upon a different footing.

The Legislature must be deemed when enacting Section 3703 to be dealing with California corporations having property in this State. It was seeking to prevent double taxation of properties situated in this State. S. F. vs. Fry, 63 Cal., 470.

The reason hereinbefore assigned for excluding foreign bonds from the operation of Section 4 of Article 13 of the Constitution apply also at this point; this being so, shares of stock in corporations organized under the laws of other States, where the companies' properties are situated exclusively in other States are liable to assessment if those shares of stock are actually in this State.

The stock of the Daly Mining Company and of the Deadwood Ferra Mining Company, assessed at $414,501.50, is admitted to have been in this State on that date and was properly assessed.

The stock of the Anaconda Mining Company and Brewer Mining Company was at that time and is now, situated in New York and pledged there.

That being so, the stock is not assessable under the Consitution and Code in this State. The company is not here, the mining properties are not here, the stock is not here. The laws provided for the assessment of properties in this State. That stock has never been incorporated with the personal property of this State.

The assessment as to such stock should be canceled.

To resume: The assessment in the Fair estate of the West Shore and Commercial Cable bonds assessed at $77,000 should be canceled.

The same is true in the Hearst estate as to the stock in California corporations, and the stock in these last two foreign corporations pledged in New York.

The Southern Pacific of Arizona railroad bonds, assessed to the Fair estate at $1,917,000, and the stock assessed to the Hearst estate in the the Daily and Deadwood Ferra mining companies, assessed at $435,710.56, were properly put on the assessment roll by the Assessor and should be sustained.

If by the assessment of these stocks double assessment is in fact worked upon the owners and injustice is thereby done, it is the fault of the law and can only be corrected by legislative action.

For the purpose of the foregoing, I have relied upon the statement of facts contained in the sworn statements filed. It is to be remarked, that although the appraisements in the several probate cases include the stocks and bonds pledged in New York, yet in fact the said stock and bonds are in point of law in the custody of the New York Probate Court, and the executors that Court has or shall appoint.

In conclusion, I shall state that I have consulted and advised with Hon. William S. Barnes, District Attorney of this city and county, concerning the foregoing matters, and I am permitted to state that he concurs in the positions herein taken.

Respectfully submitted,

JOHN H. DURST,
City and County Attorney.

Police Telephone and Signal System.

In the annual report of P. Crowley, Esq., the Chief of Police, for the fiscal year 1887-88, that officer strongly recommended the introduction of this system in connection with ambulance and police patrol wagons as useful adjuncts to increase the efficiency of the Police Department. In said report extracts were given from reports of the Police Departments of Chicago, St. Louis, Cincinnati, Milwaukee, Boston, New York, Philadelphia, Jersey City and other cities, all concurring in the fact that the introduction of this system demonstrated it was as necessary to the Police Department as the Fire Alarm was to the Fire Department, and thus the greater protection to life and property consequent upon its use more than compensated the public for the outlay.

The Chief of Police, in presenting the advantages of the system, represented as follows: "I desire to urge on your attention the necessity of a police patrol wagon and signal system for rapid and efficient service at riots, fires and other places where the prompt appearance of police squads may prevent loss of life, destruction of property, as well as secure the arrest of murderers, burglars and other criminals before they have time to escape from the scene of the crime."

The Finance Committee of the Board of Supervisors, in reciting the various expenditures necessary to be met in the fiscal year 1889-90, reported in favor of including in the levy the sum of $20,000 to aid in the institution of the Police Patrol, and that amount was provided by the Board of Supervisors.

In accordance with invitations of the Chief of Police, on November 25th and December 9, 1889, the members of the Board of Supervisors visited the Old City Hall on Monday afternoon, December 11, 1889, where they examined the Gamewell and Municipal systems of Police Alarm, respectively, the agents of the respective companies being present and explaining the operations and results to be attained.

The Committee on Health and Police received on March 28, 1890, proposals of the Municipal Signal Company and of the Gamewell Fire Alarm Telegraph Company to supply the electric plant required. The Municipal Signal Company offered to supply the eighty street police boxes at $125 each and the three Central Office systems fully equipped at $1,000 each, a total of $13,000; while the Gamewell Police Telephone and Signal Company offered to furnish the eighty street police boxes at $120 each and the three Central Office systems fully equipped at $750 each, a total of $11,850. The proposals were transmitted to the committee by the Chief of Police, accompanied with a communi cation, of which the following is a copy, to wit:

COMMUNICATION FROM THE CHIEF OF POLICE.

OFFICE CHIEF OF POLICE,
SAN FRANCISCO, MARCH 25, 1890.

To the Hon. Henry Pilster, Chairman Committee on Health and Police, Board of Supervisors:

DEAR SIR: You will find herewith the bid of the Municipal Signal Company, also the bid of the Gamewell Fire Alarm Telegraph Company, to supply the electric plant for the Police Patrol System.

I have in conjunction with the Police Commissioners examined the workings of both.

We have concluded that either of the plants above named would be thoroughly effectual for the purpose for which they are intended.

The Municipal Signal Company claims that the Gamewell system is an infringement on their patent and the Gamewell Fire Alarm Telegraph Company claim that the Police Alarm and Inter-

communication system (the exhibit of the Municipal Signal Company) is an infringement on their patent, and that law suits are now pending, brought by each company against the other to determine the matter.

We respectfully request that your committee select either the Municipal or Gamewell systems, and cause such action to be taken in the matter as will be the means of putting one of them into operation as soon as possible.

In the bids herewith submitted no estimate has been made for the strechting of wires to operate the system, as it is presumed that this can be done as expeditiously and cheaply by the city in the same manner as done for the Fire Department.

Very respectfully,

P. CROWLEY,

Chief of Police.

On March 31, 1890, the Committee on Health and Police, by Supervisor Pilster, Chairman, presented a report that both the systems submitted, one by the Municipal Signal Company and the other by the Gamewell Police Telegraph and Signal Company, after examination by the Board of Police Commissioners, were equally recommended as being thoroughly effectual for the purpose for which they were intended, and recommended that the Board of Police Commissioners and the Chief of Police be requested to furnish the Board with a statement of all the apparatus required for the Police Patrol System in detail, so that proposals might be invited to furnish the same and the competing companies enabled to bid understandingly. A resolution (No. 3222, Third Series), embodying the above recommendations was adopted by the Board at the said meeting. In response to the foregoing the Board of Police Commissioners and the Chief of Police transmitted exhibits showing in detail all the material and articles required to fully equip and put the Police Patrol Telegraph System in operation, accompanied by a communication, of which the following is a copy, to-wit:

{ OFFICE OF THE BOARD OF POLICE COMMISSIONERS,
{ SAN FRANCISCO, April 7, 1890.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In compliance with your resolution in relation to the Police Patrol System, we respectfully submit to you in detail the names of the articles neeessary to operate the Municipal Electric System; also the Gamewell system.

We have determined from our investigation of the matter that these systems are the best, the articles in both systems produce the same results, and that they are the most complete of any in use. The amount of money appropriated will equip three central stations and about eighty boxes.

* * * Very respectfully,

RICHARD P. HAMMOND,
President Board of Police Commissioners.
P. CROWLEY, Chief of Police.

On March 24, 1890, the Municipal Signal Company presented a proposal to furnish three circuit central office outfits complete and eighty signal boxes or street stations for the sum of $13,000, the Gamewell Police Telegraph and Signal Company offering as per their former proposal to supply their system as specified for the sum of $11,850.

On April 21, 1890, the Committee on Health and Police reported as follows, recommending the adoption and purchase of the Municipal Signal Company's system, to-wit:

REPORT OF COMMITTEE ON HEALTH AND POLICE.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Your Committee on Health and Police, to whom was referred several petitions, communications, etc., respectfully report thereon as follows: * * *

In favor of placing on file the proposition of the Gamewell Police Telephone and Signal Company to furnish apparatus for the Police Patrol; also,

In favor of placing on file the proposition of the Municipal Signal Company to furnish apparatus for the Police Patrol, a subsequent proposition having been filed; also,

In favor of recommending the purchase by the city and county of the Municipal Police Alarm and Intercommunication system for the sum of $13,000. The selection was based principally on the fact that this system is successfully in operation in Boston, while the Gamewell system, which is offered for the sum of $11,850, in all its parts as submitted, is not in operation in any city. As the Board is aware the question of selection was left to the Board of Police Commissioners, but without recommendation; they simply submitted both systems, claiming that they were equally effective; that both systems were automatic and produced the same results.

It being necessary that a selection should be made, your committee considered it to be indispensable to select the system that was in successful operation elsewhere, and therefore selected that of the Municipal Signal Company, the difference in price of $1,150 being of very little object to induce the selection of an apparently untried system.

The systems are owned by rival companies, who each claim the other to be an infringement in some respects upon patents owned by them respectively.

This being the case your committee resolved and had it conceded by the Municipal Signal Company to retain the sum of $5,000 of the price agreed upon to protect the city and county against all damages in the selection and use of said apparatus until the questions at issue were finally determined.

The plant consists of eighty standard street stations or police boxes and three central office systems complete, with the appliances and appurtenances, etc., to effectually operate the same, all to be furnished under the supervision and to the satisfaction of the Board of Police Commissioners and the Chief of Police. Supervisor Wright dissents from the views of your committee.

HENRY PILSTER, Chairman.

At the same meeting a resolution was presented by the committee providing for the adoption and purchase of the Municipal Police Alarm and Intercommunication System of Boston, which resolution after discussion was re-referred back to the Committee on Health and Police, who on April 28, 1892, presented the following report, reiterating their former recommendation of adopting the Municipal Signal Company's System, that company having in the meantime reduced their aggregate bid from $13,000 to $11,850, the latter being the price bid by the Gamewell Police Telegraph and Signal Company, to-wit:

REPORT OF COMMITTEE ON HEALTH AND POLICE.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Your Committee on Health and Police, etc., in the matter of the resolution presented and recommended to your Honorable Board for the adoption and purchase of the Municipal Police Alarm and Inter-communication System of Boston, re-referred to your committee at the last meeting of your Honorable Board,

Would respectfully report that your committee, having no other object than to select and recommend the best system, at their meeting called for the purpose of reviewing their former action and getting additional information, examined Captain Douglass of the Police Department, who visited the Eastern cities to investigate the merits of the several systems in use. His personal opinion after a thorough examination was, that he would prefer the Municipal Signal Company's System, giving the results of his enquiries and the opinion entertained of the superiority of the Municipal Signal Company's apparatus in its results.

In addition, the only contest really was the difference in price, the Municipal Signal Company charging the sum of $1,150 in excess of what the Gamewell system was offered for to the city. Some benefit has accrued to the city and county by this re-reference, as the Municipal Signal Company have reduced their aggregate bid to that of the Gamewell Company and signify their willingness to allow the city and county to retain the sum of $5,000 as an indemnity against any damages for an infringement of patent or patent rights that might be claimed for the adoption or use of the apparatus of the Municipal Signal Company.

The question therefore was narrowed down to a selection of the best system; the Municipal System, as heretofore stated, as offered being in successful operation in Eastern cities, while the Gamewell system as presented for adoption is not in operation in all its parts in other cities; it is therefore practically an untried system.

The Board of Police Commissioners recommended both systems, while the Chief of Police and Captain Douglass favor the Municipal System.

Your committee therefore report in favor of the adoption of the Municipal Signal Company's System and of its purchase by the city and county of the same for the sum of $11,850, and have so amended the resolution referred; also by inserting the sum of $5,000 in lieu of the sum of $4,000 as the amount of the purchase money to be retained to indemnify the city and county against loss, and as amended recommend the passage of the resolution.

HENRY PILSTER, Chairman.

At the same meeting the committee introduced a resolution adopting the Municipal Police Alarm and Intercommunication System of Boston, and providing for the purchase of eighty signal boxes and three central stations of said system which was passed for printing and re-referred back to the committee, who at the next meeting of the Board held on May 5, 1890, presented a report recommending the final passage of the resolution, of which the following is a copy, to-wit:

REPORT OF THE COMMITTEE ON HEALTH AND POLICE.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Your Committee on Health and Police, in the matter of the resolution relative to the adoption and use of the Municipal Police Alarm and Intercommunication System of Boston by the San Francisco Police Department, respectfully report.

That at the last meeting of the Board your committee reported in favor of adopting the Municipal Signal Company's system for police signals. The Board duly passed to print an order adopting such system for this city and county according to the terms mentioned in said report of your committee, and also referred the entire matter back to your committee for further consideration, if necessary.

Your committee again report in favor of said municipal system. In the first place it is the best system now in use and which has been presented to the attention of your committee. The two systems that have been competing before your committee are the Gamewell and the Municipal. Some months ago Captain Douglass of the Police Department of this city and county was sent East for the purpose of inspecting the police signal systems in use in the different cities of the Eastern States. He performed this duty, returned to this city, and as a result of his investigation most emphatically endorsed the Municipal as superior to the Gamewell. In the cities of Washington and Baltimore, where the Gamewell system has been for some time in operation, he was informed by the officials in charge of the Police Departments of those cities that, if they were to purchase a system to-day, they would abandon the Gamewell and adopt the Municipal system. In the city of Boston, where the Municipal System is in extensive operation, he was informed by the officials in charge that it gave entire satisfaction. In Chicago he saw the Gamewell system at work and found it extremely unsatisfactory. He stated to your committee that, if he were purchasing a system out of his own purse, he would unhesitatingly decide in favor of the Municipal.

In the fifth annual report of the Board of Police of the City of Boston, dated December, 1889, and made to the Governor of Massachusetts, the Board states that there are 411 Municipal Signal Boxes in service in Boston and say, "The system has given perfect satisfaction, and has proved of great value to the public. It is now possible to communicate any information to the entire force on street duty inside of thirty minutes, and this has, in several cases, been of great service in facilitating the arrest of criminals and the recovery of stolen property."

On March 30, 1889, this same Board of Police Commissioners made a special report to the Governor of Massachusetts in reply to a communication from him, asking for a statement of the workings and results of the Police Signal System. After commenting at some length on the general advantages of the system, they conclude their report with the following language: "In conclusion the Board would say that this application of electricity to police work has more than realized the expectations which were formed in regard to the same, and it is certain that the increased efficiency of the force and other good results that have followed the introduction of the Signal System could not have been obtained in any other way except with a much greater expenditure of money." In the second place it has been charged that the Municipal Signal System Company is financially insolvent, and therefore probably unable to carry out any contract they may make with the city

Since the last meeting of the Board the following two telegrams have been received by the representative of the Municipal Company in this city:

"Municipal Signal Company perfectly responsible. We will guarantee contract.

"POPE MANUFACTURING CO., ALBERT A. POPE, President."

"Chadbourne and Bradstreets will give standing and responsibility of Pope Manufacturing Company. Gamewell statements malicious inventions. Municipal Signal Co. ready to give satisfactory bonds. Gamewell made contract in Newton eight months ago to supply imitation Municipal System. Aldermen have voted appoint Committee investigate why contract not fulfilled.

"JOHN C. WILSON."

We are satisfied as to the solvency of this company. They offer to give a bond of five thousand dollars that they will complete their contract.

The Pope Manufacturing Company of Boston, which is rated by Bradstreet Commercial Agency as of the very best credit, guarantees their contract. The city does not pay until the works are complete, and then retains five thousand dollars to protect the city against any litigation growing out of the use of this system.

Your committee again recommend an adoption of the Municipal Signal Co.'s system for this city and county, and the final passage of the resolution providing for its purchase.

HENRY PILSTER, Chairman.

The Board on May 5, 1890, finally passed the resolution of award providing for the purchase of the boxes and stations as recommended, which received the approval of the Mayor on May 9, 1890. The following is a copy of the said award, to-wit:

RESOLUTION No. 3357 (Third Series).

RESOLVED, That the Municipal Police Alarm and Intercommunication System of Boston for use of the San Francisco Police Department be and is hereby adopted, and the Committee on Health and Police, etc., be and are hereby empowered to purchase eighty signal boxes and three Central stations, with the appliances and appurtenances complete, for the sum of $11,850, on condition that the sum $5,000 of said amount shall be retained to indemnify the city and county against loss in the event of any of the apparatus used being an infringement upon the patent rights of any other person or company and until the final determination of all litigation relative thereto.

The system hereby ordered purchased consists of the following:

First—Eighty signal boxes, embracing:

Eighty (80) boxes (case).

Eighty (80) set top and bottom pipes.

Eighty (80) ground plates with wires attached.

Eighty (80) multiple signal movements.

Eighty (80) polarized bells for receiving return signals.

Eighty (80) condensers for telephones.

Eighty (80) cells battery for telephones.

Eighty (80) cords and weights for telephones.

Eighty (80) hangers for telephones.

Eighty (80) lightning arresters.

Cable for connecting boxes to main line.

Second—Three central stations, embracing:

Three (3) Automatic Recording Registers (4 Pen).

Mechanism which, in connection with an alarm bell, automatically distinguish between "silent" and alarm signals.

Mechanism which, in connection with the electro-magnet of a time-stamping service, automatically impresses upon the signal the time of its reception.

Mechanism which, in connection with a switch moved at the will of an operator, automatically sounds a return signal at the street box when a signal is transmitted therefrom.

Three (3) automatic time stamps.

Three (3) cords and weights for same.

Three (3) paper rests.

Three (3) paper reels.

Three (3) rotary telephone switches.

Three (3) swinging arm supports for telephone.
Three (3) cords for telephone.
Three (3) condensers for telephone.
Three (3) alarm bells.
Twelve (12) double contact relays.
Twelve (12) pole changers.
Three (3) Bunnell improved three (3) coil galvanometers.
Thirty-six (36) cells local battery for working instruments.
Six (6) cells local battery for working telephones.
Three (3) four circuit cherry cabinet desks.
One (1) ground switch on local battery for testing.
Four (4) ground switches on main line for testing.
One (1) three-point switch on galvanometer for testing.
Four (4) switches used in connection with the register.
Four (4) switches used in connection with return signal.
Twelve (12) line spring jacks.
Four (4) line plugs, with cords attached.
One (1) galvanometer plug, with cord and weight.
Four (4) sets line plates.
Four (4) sets ground plates.
Four (4) sets telephone plates.
One (1) set identification charts.
One (1) double contact annunciator drop.

In Board of Supervisors, San Francisco, May 5, 1890.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bingham, Wright, Boyd, Bush, Ellert, Wheelan, Becker. Pilster, Kingwell, Barry, Noble.

Absent—Supervisor Pescia.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, May 9, 1890.

E. B. POND,
Mayor and ex-officio President Board of Supervisors.

As each signal box required a telephone and transmitter, the committee corresponded with the Pacific Telephone and Telegraph Co. to ascertain the lowest terms for which the same would be furnished for fire alarm and police purposes. The following is a copy of the communication received from the Pacific Telephone and Telegraph Co. on June 20, 1890, through its Superintendent, from John I. Sabin, the General Manager of the Company, in answer to the enquiries and reciting the rates that would be charged and collected from the city and county, to-wit:

COMMUNICATION FROM THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY.

PACIFIC TELEPHONE AND TELEGRAPH CO.,
SAN FRANCISCO, June 19, 1890.

Telephones for Fire Alarm and Police Purposes, Mr. L. H. Jacobi Sup't.

DEAR SIR: On the understanding that the instruments are to be used only on lines owned and operated by the City of San Francisco, upon its own business, and that none of such lines or stations connect with or in any sense form a part of the Telephone Exchange, you can furnish under our regular form of private line lease, the instruments for police and fire alarm purposes at $10 per annum, where a single telephone is used, and $15 per annum where a set of instruments, consisting of a telephone and transmitter, is used.

Yours truly,

JNO. I. SABIN,
Vice-President and General Manager.

The Committee on Health and Police, by virtue of authority granted from time to time as required, provided for the appointment of line men and the purchase of supplies to put the system into operation under the charge and supervision of the Superintendent of the Fire Alarm and

Police Telegraph, who by virtue of his office was declared to be Superintendent of the Police Patrol Telegraph (Resolution No. 3515, Third Series). Proposals were called for and a contract awarded to furnish copper wire, which was supplied under the award, of which the following is a copy, to-wit:

RESOLUTION OF AWARD No. 3625 (Third Series).

RESOLVED, That the contract to furnish 100 miles of No. 12 B. and S. gauge hard-drawn copper (Lake Superior) wire, also 6,000 feet of No. 12 B. and S. insulated Roebling compound, or safety seamless rubber, as may be called for, for use of the Police Patrol Telegraph, be and the same is hereby awarded to John A. Roebling's Sons' Company, provided their sureties on their bond, which is hereby fixed at $1,500, are satisfactory to the Committee on Health and Police, etc., of this Board, who are hereby authorized to enter into said contract, they being the lowest responsible bidders therefor, at the following price, viz:

For No. 12 B. and S. gauge hard-drawn copper (Lake Superior) wire, at 4½ mills per foot, 100 miles, at $21.78 per mile	$2,178 00
For No. 12 B. and S. gauge insulated Roebling compound, 6,000 feet, at 2 2-5 cents per foot	144 00
For No. 12 B. and S. gauge safety seamless rubber, 6,000 feet, at 2½ cents per foot	150 00

In Board of Supervisors, San Francisco, June 23, 1890.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bingham, Wright, Boyd, Pescia, Bush, Ellert, Wheelan, Becker, Pilster, Kingwell, Barry.

Absent—Supervisor Noble.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, June 27, 1890.

E. B. POND,
Mayor and ex-officio President Board of Supervisors.

In July, 1890 (Resolutions No. 3656 and 3743, Third Series) a horse, wagon and harness were purchased for the Superintendent of the Fire Alarm and Police Telegraph, at an expense of $550 to be used in the construction and repair of the Police Patrol Telegraph System.

On September, 21, 1891, the Clerk was directed by Resolution No. 5742 (Third Series) to advertise for proposals to furnish an additional eighty signal boxes and one central station for the Police Patrol System as per specifications furnished by the Superintendent; proposals were called for and the following were received on October 5, 1891.

Police Telephone and Signal Co., by F. C. Stover, agent	$10,974
Municipal Signal Co., by H. G. Phillips, agent	11,850

The contract was awarded to F. C. Stover, the lowest bidder, by Resolution No. 5875 (Third Series), was finally passed on October 19, 1891, which resolution was approved by His Honor the Mayor on October 20, 1891; the contract was executed on said last named date, with W. T. Y. Schenck and C. T. Ryland Jr. as sureties. The boxes and stations furnished were what were known as the Gamewell patents, and the system ordered purchased consisted of:

First—Eighty signal boxes, embracing 80 boxes (case); eighty set top and bottom pipes; eighty ground plates with heavy copper wire attached to each; eighty multiple signal movements, transmitting not less than seven signals, movements to have a burnished and lacquered finish and enclosed in a dust-proof glass case; eighty condensers for telephones; eighty cells dry battery for box telephones; eighty lightning arresters; eighty telephone attachments, including cards, weights and hangers.

Second—One central station, embracing one automatic recording register (4 pen); mechanism which in connection with a time stamping service automatically impresses upon signal the time of ts reception; one automatic time stamp complete; one paper reel; one support for desk telephones ione condenser for office telephone; double contact relays to accommodate the number of circuit; used; one improved galvanometer for line test; one 14-cell Le Clanche battery for local uses; one set identification charts; also improved appurtenances for locating breaks and grounds.

On February 29th, 1892, the Municipal Signal Co., that furnished the first eighty Signal Boxes and three Central Stations for the Police, Telephone and Signal System, presented a petition re-

questing payment of the sum of $5,000 due the said company, being the balance retained until pending litigation affecting patent rights was determined, which petition was referred to the Committee on Health and Police, and of which the following is a copy, to-wit:

PETITION MUNICIPAL SIGNAL COMPANY.

To the Honorable the Mayor and Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—The petition of the Municipal Signal Co. respectfully shows to your Honorable Board that a contract was heretofore awarded said company for Municipal Signal Boxes and necessary apparatus used in connection therewith, also Central Office Stations for the use of this city; that the same were furnished the city over one year ago, and that the sum of five thousand dollars was withheld by your Honorable Board from the money due for the boxes, etc., so furnished.

That no good reason exists for withholding said sum for any further period.

Therefore your petitioners ask that said sum may be ordered paid.

Respectfully,

THE MUNICIPAL SIGNAL CO.,
. Of Boston, Mass.
By H. G. PHILLIPS, Agent.

On March 7, 1892, the Committee on Health and Police presented a Report on the matter of the demands of the Municipal Signal Company and of the Gamewell Fire Alarm Telegraph Company, of which the following is a copy:

REPORT OF COMMITTEE ON HEALTH AND POLICE.

To the Honorable the Mayor and Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—Your Committee on Health and Police and House of Correction, to whom were referred the following, beg to report as follows:

With regard to the petition of the Municipal Signal Co. of Boston for the payment of the sum of $5,000, amount remaining unpaid on their contract for Signal Boxes, etc.:

The city purchased from the Municipal Signal Co., by Resolution No. 3357, approved May 9th, 1890, 80 Signal Boxes, and Apparatus, for the sum of $11,850, on condition that the sum of $5,000 of said amount should be retained to indemnify the city and county against loss in the event of any of the apparatus used being an infringement of any of the patent rights of any other person.

The city also purchased from the Gamewell Fire Alarm Telegraph Co., by Resolution No. 5875, approved October 20th, 1891, 80 Signal Boxes, etc., for the sum of $10,974.

These companies are now understood to be involved in litigation regarding the right to use certain portions of the system. The city should be protected against all judgments that may be recovered by either company for infringement of patent rights, and your committee recommend, that no further amounts be paid until a stipulation is signed by the contesting parties agreeing, that, in no event shall any claim be made on the city and county by either for infringement of patent rights, but that the Signal Boxes may be used, as at present, free of charge.

W. WILKINSON,
W. AYER,
G. A. CARNES,
A. HEYER,
D. D. HUNT.

Pursuant to the foregoing report the Board adopted a resolution at the same meeting as introduced by the committee, reciting that no further amounts would be paid to the Municipal Signal Co. or to the Gamewell Fire Alarm Telegraph Co. until the said companies executed an agreement whereby the city and county would not be held liable for the infringement of patent rights in the use of the Signal boxes purchased or erected. The following is a copy of the resolution referred to, to-wit:

RESOLUTION No. 6608—(Third Series.)

RESOLVED, That in view of the litigation now pending between the Gamewell Fire Alarm Telegraph Company and the Municipal Signal Company of Boston, respecting infringement of patent rights, and in order to protect the city from any injunctions or suits for damages by either company on the termination of said litigation, this Board will pay no further amounts to either of said companies on account of their claims against the city for Signal Boxes, etc., furnished, until both sign an agreement that in no event will they, or either of them, make any claim on the city for infringement of patent rights or prevent the use of the Signal Boxes, as at present, free of charge.

In Board of Supervisors, San Francisco, March 7, 1892.

Adopted by the following vote :

Ayes—Supervisors Artigues, Jackson, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

JNO. A. RUSSELL, Clerk.

On March 14, 1892, the Committee on Health and Police presented a report recommending the payment of the Gamewell Fire Alarm Telegraph Company's demand for Police Signal Boxes and against payment of the sum of $5,000 to the Municipal Signal Company. The agent of the Gamewell Fire Alarm Telegraph stipulated to file an agreement indemnifying the city and county in so far as the apparatus purchased from his company was concerned, but would not release the city and county from any liability that might occur by use of the boxes and central stations purchased from the Municipal Signal Company if pending litigaiion as to patent rights was decided in favor of the company he represented as against the Municipal Signal Company. This refusal necessitated the retention of the $5,000 belonging to the Municipal Signal Company until the pending litigation as to patent rights was determined.

The following is a copy of the report referred to, to-wit :

REPORT OF THE COMMITTEE ON HEALTH AND POLICE.

To the Honorable the Board of Supervisors:

GENTLEMEN—Your Committee on Health and Police and House of Correction, to whom various petitions, etc., were referred, beg leave respectfully to report them as follows :

In favor of the proposal of Frank C. Stover, agent and attorney-in-fact of the Gamewell Fire Alarm Telegraph Company, offering to indemnify the city for any loss which might accrue to her, by reason of the litigation now pending between said company and the Muncipal Signal Company in relation to infringement of patent rights pertaining to police signal boxes, the city having purchased such boxes from both companies, and on the filing of such agreement recommend the payment of the demand of said Gamewell Fire Alarm Telegraph Company, in the sum of $10,974 for 80 police signal boxes, purchased under contract awarded by Resolution No. 5875—(Third Series.)

Your committee report adversely to the petition of the Municipal Signal Company for payment of the sum of $5,000, the amount due on their contract to furnish certain other police signal boxes and apparatus connected therewith until such time as the suits for infringement of patent rights above referred to are determined, the said $5,000 being retained to secure the city and county against loss, that being one of the conditions upon which the purchase of signal boxes was made from said company.

GEORGE A. CARNES,
W. AYER,
D. D. HUNT,
A. HEYER.

On March 14, 1892, F. C. Stover, attorney-in-fact for the Gamewell Fire Alarm Telegraph Company, filed in accordance with the foregoing report an agreement of which the following is a copy binding said company to indemnify the city and county against any damage that might be sustained for the infringement of any patent combined in or a part of the apparatus furnished by him, to-wit:

AGREEMENT OF THE GAMEWELL FIRE ALARM TELEGRAPH COMPANY.

SAN FRANCISCO, March 11th, 1892.

Frank C. Stover, being duly sworn, affirms that he is a resident of the City and County of San Francisco, Cal., and is the Pacific Coast Agent of and Attorney-in-Fact for the Gamewell Fire Alarm Telegraph Company, a corporation duly incorporated under the laws of the State of New York, whose principal office is located in New York City, New York, and that a copy of the articles of incorporation of the Gamewell Fire Alarm Telegraph Company and the power of attorney of the said Gamewell Fire Alarm Telegraph Company to F. C. Stover are on file in the office of the Secretary of State at Sacramento, Cal., as required by the laws of the State of California.

The said Frank C. Stover affirms that he is the party who contracted with the City and County of San Francisco, Cal., on the 11th day of October, 1891, for the delivery of 80 police boxes, etc., as per Resolution No. 5875, and who made said delivery of said apparatus to the officers of the city authorized to receive it, whose certificate to that effect was filed with the Clerk of the Board of Supervisors of the City and County of San Francisco, February, 1892. The said Frank C. Stover affirms that he is the party referred to in Resolution No. 4852, authorizing the payment of $10,974.

Now, therefore, the said Frank C. Stover, as Attorney-in-fact for the Gamewell Fire Alarm Telegraph Company, hereby agrees and does bind the Gamewell Fire Alarm Telegraph Company to indemnify the said County and City of San Francisco for and against any damages that the said City and County of San Francisco may at any time have to pay to any person or persons for infringement of any patent, combined in or being a part of the apparatus furnished under contract dated October 11th, 1891, between Frank C. Stover and the City and County of San Francisco.

F. C. STOVER,
Attorney-in-Fact,
Gamewell Fire Alarm Telegraph Company.

Subscribed and sworn to before me, this 14th day of March, 1892.
[SEAL.] WALTER A. BATES,
Notary Public.

The authorization providing for the payment to the Gamewell Fire Alarm Telegraph Company was finally passed by the Board, receiving the approval of His Honor the Mayor on March 15, 1892; the demand on the Treasury for the said amount of $10,974 being also allowed and ordered paid.

AUTHORIZATION No. 4852.

RESOLVED, That an expenditure of ten thousand nine hundred and seventy-four (10,974) dollars be and the same is hereby authorized to be made out of the General Fund in payment to F. C. Stover for Gamewell police signal boxes furnished the Police Department, as per contract and bill rendered, viz.: 80 police signal boxes, 80 top pipes, 80 ground pipes, 80 copper ground plates, 80 cells, dry battery, 1 central office complete, 14 cells Le Clanche battery—$10,974.

In Board of Supervisors, San Francisco, March 14, 1892.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Artigues, Jackson, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber.

Absent—Supervisor Wilkinson.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, March 15, 1892.

GEO. H. SANDERSON,
Mayor and ex-officio President Board of Supervisors.

The compiler was furnished by Charles W. Thomas, Esq., the Superintendent of the Fire Alarm and Police Telegraph, with the following information relative to the districts embraced in the Police Patrol Signal System, in which the boxes are erected, and the number erected in each district:

Seventeenth Street Station—Number of boxes, 31. Commencing at Channel and Eleventh streets, to Market street, to Waller street, to Devisadero street, along Ridley street to Castro street, to Thirtieth street, to Mission street, along Precita avenue, to San Bruno Road, thence to Nebraska street, to Twenty-third street, to Potrero avenue, to Channel street.

New City Hall—Number of boxes, 46. Larkin and McAllister to Jones, to Turk, to Mason; back on Mason to Taylor, to Geary, down Geary to Mason, back on Geary to Leavenworth, to Union, to Fillmore, to Francisco, back to Greenwich, on Greenwich to Baker; Baker to Tonquin, back on Baker to Union, to Fillmore, to Pacific, to Scott, back to Fillmore, to Clay, to Broderick, Broderick to California, to Central avenue, to Geary, to Lobos avenue, to First avenue, back to Geary, to Devisadero, to Sutter, to McAllister, to Stanyan, to Haight, to Market, to Larkin, to Hall.

Old City Hall—Number of boxes, 34. Starting at Sacramento and East up Market to Stockton, along Stockton to Bush, up Bush to Powell, back on Bush to Stockton, to Clay, to Leavenworth, to Union, to Montgomery avenue, to Mason, down Mason to Bay, to Taylor, back on Bay to Sansome, Sansome to Lombard, to Battery, to Broadway, to Front, to Jackson, to Davis, to Clay, to Drumm to Sacramento, to East.

Southern Station—Number of boxes, 49. Market, East, Tenth, Channel streets and the Bay.

The first box put up was for Seventeenth and Howard streets station on the 27th of October, 1890. The last box for this station was put up November 6, 1890, and the system went into operation on the 27th of November, 1890.

At the New City Hall the first box was put up December 29, 1890, and the last box January 7, 1891. The system went into operation January 22, 1891.

At the Old City Hall first box put up February 18, 1891. The last box April 17, 1891. Went into operation April 18, 1891. Southern station, the first box put up January 15, 1892. The last box February 11, 1892, and went into operation February 13, 1892.

After the Southern station went into operation, the thirty-three boxes of the Municipal pattern originally put up at Seventeenth and Howard street station, were transferred to the Old and New City Hall stations and the last one of these was put up June 6, 1892.

The following is a copy of the estimate of the Chief of Police for the maintenance of the Police Patrol and Signal System, at present in operation for the fiscal year 1892–93.

ESTIMATE.

Rent of 166 telephones in signal boxed at $15 each	$2,490
Stabling and feed for thirteen horses at $300 each	3,900
Hire of stable at Seventeenth and Howard streets	540
Feed of four horses at Seventeenth and Howard streets at $180 each	720
Hire of eight drivers for Patrol wagons at $1,080 each	8,640
Hire of relief horses for Patrol wagons and Line wagons (estimated)	720
Hire of Line Inspectors, one at $1,500, one at $1,200	2,700
Hire of three linemen at $1,080 each	3,240
Repairs of wagons and harness	750
Battery material	400
Material and repairs to line	2,000
Tools	200
Storage of poles	60
Total	$26,360

The appropriation made for the Police Patrol and Signal System, was $35,000 for the fiscal year 1892–93.

POLICE PATROL AND AMBULANCE WAGONS.

In connection with and as a part of the Signal system, the Board, after examining into the operation of the police wagons in the Eastern cities, and the necessity for their introduction and use, determined to obtain the most approved wagon suitable, in the judgment of the Chief of Police, for service in this city and county. On January 27, 1890, at a meeting of the Board, Supervisor Ellert introduced a resolution instructing and empowering the Committee on Health and Police to have

plans and specifications prepared for the construction of two ambulances for use of the Police Department, which was passed to print and referred to the Committee on Health and Police. The Committee, on consideration of the matter, on the representations of the Police Department that the wagons built for and in service in the city of Chicago were most suitable, having all modern improvements, being adapted for police and ambulance purposes, on February 10, 1890, reported to the Board that they had amended the resolution referred by inserting a clause empowering the Board of Police Commissioners to telegraph to Chicago for a suitable ambulance wagon; also empowering the committee to purchase horses, harness and suitable equipments on receipt of said ambulance. The following is a copy of Resolution No. 3012, finally passed by the Board on February 17, 1890, receiving the approval of the Mayor on February 21, 1890, to wit:

RESOLUTION No. 3012 (Third Series).

WHEREAS, It is important and in the public interests that some provision be made for the proper conveyance and transportation to the City Receiving Hospital or to their home of persons who meet with accidents in the public streets and who require medical attention or treatment;

WHEREAS, In the judgment of this Board ambulances should be provided and used for the transportation of such persons requiring medical aid, etc., which ambulances should be under the charge and control of the Police Department to facilitate and extend relief in all exigencies in connection with and as forming a part of the proposed police patrol system; therefore,

RESOLVED, That the Board of Police Commissioners be and are hereby empowered to telegraph for an ambulance wagon from the manufacturers at Chicago.

RESOLVED, That the Committee on Health and Police be and is hereby instructed and empowered, on consultation with the Chief of Police, and on the receipt of the ambulance wagon herein provided for, to have plans and specifications prepared for two ambulances, and on the completion of said plans and specifications the Clerk is hereby directed to advertise for proposals to construct and furnish the same.

RESOLVED, That the said committee, on the receipt of the said ambulances, are further instructed, in conjunction with the Chief of Police, to purchase the horses, harness and all equipments required by the Chief of Police, to put the same into service.

RESOLVED, That said ambulances being furnished and equipped, the same shall be placed under the charge and control of the Chief of Police, to be operated under such rules and regulations as said Chief of Police may deem proper to render the service efficient.

The ambulance wagon for Chicago was received in May, 1890, payment being made therefor by authorization No. 4,495. The cost of the wagons was $600, and $26 for a tarpaulin cover used in shipping the same.

On May 19, 1890, the clerk was directed by the Board to advertise for proposals to construct two Police Patrol wagons in accordance with specifications to be furnished by the Committee on Health and Police. The specifications were submitted by the Chief of Police, approved by the Committee. Proposals were invited and received as follows:

O'Brien & Sons	$655 00 for each wagon
P. Grave & Co	656 00 for each wagon
H. M. Block	825 00 for each wagon
H. B. Holmes & Co	881 45 for each wagon

The contract to construct the two Police Patrol wagons was awarded by Resolution No. 3662 (Third Series) to O'Brien & Sons, the lowest bidders, on July 9, 1890; the wagons were built and furnished to the Department in the month of October, 1890, and paid for the ensuing month (authorization No. 4,582). On December 23, 1890, another Police Patrol wagon was ordered (Resolution No. 4,448 Third Series) from O'Brien & Sons, at a cost of $495, which was delivered the same month.

The Police Patrol wagons were located and respectively put in service as follows: Old City Hall Station, on September, 13, 1890; Folsom Street Station, October 21, 1890; New City Hall Station, November 1, 1890, and at Seventeenth Street Station on December 24, 1890. These wagons have two drivers and four horses, to admit of day and night service for police and ambulance purposes.

Although recommendations have repeatedly been made by the Chief of Police, nothing has been done for the purchase of lots where required, and the erection of suitable buildings for police

purposes, so that in addition to other police necessities being accommodated therein, etc., the Police Patrol wagons could be housed and ready for service at all times, and kept similar to the fire apparatus.

The drivers, horses and wagons standing in the streets awaiting calls in front of their respective stations are subjected to all the vicissitudes of the weather. Apart from any humane consideration the wear and tear of the wagons and the exposure of the horses, from an economical point of view, call for some action being taken for their proper care.

On November 6, 1890, the Mayor was authorized (Resolution No. 4,164, Third Series) to enter into a lease with Martha Deeney for lot and building on Howard street, south of Seventeenth street, for a term of five years on and from November 1, 1890, at a rental of $45 per month, for the purpose of a stable for the Police Patrol. The other horses attached to the wagons at other stations are boarded at livery stables at an average cost of $25 per month.

The average monthly expense of maintaining the present Patrol wagons in service are as follows:

Drivers' salaries, eight, at $90 each	$720
Boarding Horses, twelve, at $25 each	300
Shoeing Horses, sixteen, at $2 50 each	40
Rent of Stable for Horses, Seventeenth Street Station	45
Forage for four horses, Seventeenth Street station	65
Total	$1,170

In addition the wear and tear of wagons, etc., for the present service, will, in the near future add at least an average expense of $130 per month, making the total average monthly expense about $1,300.

Abolishment of the Industrial School.

The necessity of taking some steps in the interest of the wayward and vicious minors of both sexes taken in charge and supported by the City and County to accomplish reformation by education and discipline, had engaged the attention of members of the Board of Supervisors for some years.

The large increase from many causes of these waifs of society, who uncared for would ultimately add largely to the criminal class, made this a question of unusual importance, and rendered some action imperative, as much in the interest of these minors as of the community, especially when these results were largely brought about by the loss, culpability or dissolute habits of the parents. It had been clearly and convincingly demonstrated that the Industrial School originally designed with the best motives for a reformatory had from various causes no such characteristics and had become through political changes principally a place of imprisonment and, from the unrestricted communication between boys, become a nursery to inculcate criminal ideas, thereby making the institution a means of propagating what it was instituted to prevent.

The completion of the Reform School at Whittier, in Los Angeles county, as instituted by the State, was anticipated with great pleasure as the means whereby the care and solicitude of our citizens for the proper education, control and reform of wayward minors could be intelligently and beneficially effected.

The Finance Committee, consisting of Supervisors Ellert, Burling and Jackson, having this disposition of the minors in the charge of the City and County in view, on making recommendations as to the amount to be raised by levy for the year 1891-2, reported on the appropriation for the Industrial School as follows:

"The estimate of $40,000 was increased to $42,000, a sum deemed necessary to meet the expenses of this institution. This arises principally from the large number of girls who are committed to this school for leading idle and dissolute lives, and for which through an imperative arrangement are transferred to the Magdalen Asylum under the care of the Sisters of Mercy, and for whom the city is required to pay $15 per month for each girl, aggregating the sum of $15,602 for the year. This action was judicious and expedient, in view of the fact that the building owned by the city would not admit of proper care and scrutiny being exercised, and the separation of the sexes with the limited accommodation was practically impossible. The general results, so far as the girls are concerned, show a great and marked improvement, a large percentage, owing to the care and education received, are reclaimed, and while the expenditures are large, the results are gratifying. This is not the case, unfortunately, with the boys. Many of them are committed to the school for limited periods as a punishment, in many instances, for petty crimes, and, notwithstanding the greatest care, the association of the boys, as a general rule, debases and degrades. While there are some notable exceptions, yet, it must be acknowledged, the purpose, so far as reclaiming the boys, is a failure. This institution, like all others that fail of their mission, should be abolished. It is a disgrace to the city and an injury to the boys, and it is the duty of this Board, as soon as the State Reform Schools are in operation, to have the boys committed to one or the other of these institutions. These Reform Schools, when instituted, are modeled after those now in operation in the East, and are conducted so as to enforce education and military discipline, with means of learning trades, etc., so that the boys committed to those institutions are so trained, educated and disciplined to become a credit instead of a disgrace to the State."

"Your committee have corresponded with the Superintendent of the Whittier State Reform School, and will soon be advised as to the completion of that building, and the time, terms and conditions under which boys who are a public charge can be received."

The following is a copy of the Act of the Legislature providing for the erection and maintenance of a State Reform School:

AN ACT TO ESTABLISH A STATE REFORM SCHOOL FOR JUVENILE OFFENDERS, AND TO MAKE AN APPROPRIATION THEREFOR.

[Approved March 11, 1889.]

The People of the State of California, represented in Senate and Assembly, do enact as follows:

[Location of Reform School for Juvenile Offenders.]

SECTION 1. There shall be established and maintained in this State, and located in the County of Los Angeles, an institution to be known as the "Reform School for Juvenile Offenders," for the confinement, discipline, education, employment and reformation of juvenile offenders in the State of California.

[Board of Trustees.]

SEC. 2. The general supervision and government of said institution shall be vested in a Board of Trustees, consisting of three citizens of the State of California, who shall be appointed by the Governor, with the advice and consent of the Senate.

[Terms of Office.]

The members of said Board shall hold their offices for the respective term of two, three and four years from the first day of March, eighteen hundred and eighty-nine, and until their successors shall be appointed and qualified, said respective terms to be designated in their appointments; and thereafter there shall be one of said Board appointed in the same manner every two years, whose term of office shall continue four years, and until his successor is appointed and qualified.

[Vacancy, How Filled.]

If a vacancy shall occur in said Board by expiration of the term of any such Trustee, or otherwise, when the Senate is not in session, the Governor shall fill such vacancy for the unexpired term, subject to the approval of the Senate at its next regular session. Said Trustees, before entering on the discharge of the duties of their office, shall each take an oath faithfully to discharge the same.

[Powers.]

SEC. 3. The Trustees of such institution shall be a body corporate and politic for certain purposes, namely:

To receive, hold, use, and convey or disburse moneys or other property, real and personal, in the name of said corporation, but in trust and for the use and by the authority of the State of California, and to control, manage and direct the several trusts committed to them respectively, including the organization, government and discipline of all officers, employes and other inmates of said institution, with power to make contracts, to sue and be sued, plead and be impleaded, to have and to use a common seal, and to alter the same at pleasure, and to exercise all the powers usually belonging to said corporations and necessary for the successful discharge of the obligations devolved by law upon said members of trust; provided, that they shall not have power to bind the State by any contract or obligation beyond the amount of appropriations which may at the time have been made for the purposes expressed in the contract or obligation, nor to sell or convey any part of the real estate belonging to such institution without the consent of the Legislature, except that they may release any mortgage or convey any real estate which may be held by them as security for any money or upon any trust, the terms of which authorizes such conveyance; and provided urther, that the Legislature shall have power at any time to amend, alter, revoke or annul the grant of corporate powers herein contained.

[To Select Site.]

SEC. 4. The said Board of Trustees are hereby empowered with full power and authority to select a site for the permanent location of said Reform School in the County of Los Angeles. Said Trustees shall within thirty days after their appointment and qualification examine the different sites offered by the people of the County of Los Angeles for the location of the said Reform School, and select therefrom a suitable location for said buildings; and the site selected by them

shall be and remain the permanent site for said Reform School; said site to contain not less than forty nor more than one hundred and sixty acres, giving preference, other things being equal, to a location central and easy of access from all parts of the county or State; provided, that no buildings shall be commenced or erected in said County of Los Angeles until a deed in fee simple of the land selected by the said Board of Trustees shall be made to the State, and recorded in the records of the County Recorder of said Los Angeles county, and said deed deposited in the office of the Secretary of State.

[To Adopt Plans.]

SEC. 5. The said Board of Trustees shall prepare and adopt plans for the grounds, buildings and fixtures necessary and proper for such an institution, not in their judgment to exceed in cost the amount of money hereinafter appropriated, but if practicable of such description that other buildings can be added to or enlarged without injury to their symmetry or usefulness, and may let or make all necessary contracts, with the approval of the Governor, for the construction of such buildings and fixtures and the improvement of the grounds according to such plans. Said Board of Trustees shall use all practicable diligence in the commencement and completion of said buildings and fixtures and the improvement of the grounds, according to such plans.

[Trustee or Employe Not to be Interested.]

SEC. 6. No Trustee or employe of such institution shall be personally, directly or indirectly interested in any contract, purchase, or sale made, or any business carried on in behalf of or for said institution. All contracts, purchase or sales made in violation of this section shall be held and declared null and void, and all moneys paid to such Trustee, employe or any other person for his benefit, in whole or in part, in consideration of such purchases, contracts or sales made, may be recovered back by civil suit, to be instituted in the name of the State of California, against such Trustee, employe, or person acting in his behalf; and in addition it is hereby made the duty of the Governor and the Board of Trustees, as the case may be, upon proof satisfactory of the fact of such interest, to immediately remove the Trustee, or employe delinquent as aforesaid, and to report the facts to the Attorney-General, who shall take such legal steps in the premises as he shall deem expedient.

[Rules and Regulations.]

SEC. 7. The Board shall make all needful rules and regulations concerning their meetings and the modes of transacting their business, shall take charge of said institution to see that its affairs are properly conducted, that strict discipline is maintained, and that suitable employment and education are provided for its inmates.

[Contracts.]

They are authorized to make contracts for the purchase of furniture, apparatus, tools, stock, provisions and everything necessary to equip the institution for the purposes herein specified, and to maintain and operate the same; provided, said Board shall incur no expense nor contract any debt beyond appropriations made or donations given for the said Reform School, and then only in such manner as may be prescribed by the Act of appropriation or instrument of donation.

[Officers.]

SEC. 8. The Board shall annually elect from their own number a chairman and a vice-chairman, whose term of office shall be for one year, and until their successors shall be duly appointed and qualified. They shall also elect a treasurer, not one of their own number, whose term of office shall be for two years, and until his successor shall be duly elected and qualified, who shall be at all times subject to removal by the Board for good cause.

[Superintendent.]

SEC. 9. The Board shall appoint a Superintendent of said Reform School, not of their own number, whose salary shall be fixed by said Board, not to exceed three thousand six hundred dollars per annum, and shall also appoint such other officers and such assistants as the wants of the institution may from time to time require, and shall prescribe their duties and fix their salaries as may be reasonable.

[Report of Trustees.]

SEC. 10. Said Board of Trustees shall, on or before the first day of December, every two years, make to the Governor a full and detailed report of their doings as such trustees, and of the ex-

pense of said institution, with such other information relating thereto as they may think interesting or useful to the State; which report shall be communicated by the Governor to the next succeeding session of the State Legislature. Said Trustees shall receive no salary for their services as such from the State, but shall be allowed all necessary expenses incurred in the discharge of their duties.

[Meetings]

SEC. 11. The Board of Trustees shall have a regular meeting once every three months, at such time and place as they may direct; special meetings may be called by the President of said Board in all cases where it becomes necessary for such a meeting.

[Duty of Superintendent.]

SEC. 12. The Superintendent, before entering upon the duties of his office, shall take an oath faithfully to discharge the same and execute a bond, with sureties to be approved by the Board, in a sum to be fixed by the Board, conditioned for the faithful performance of all his duties as such Superintendent. He shall be a resident at the institution, and shall be ex-officio the Secretary of the Board, taking charge of all books and papers. He shall have charge of the land, buildings, furniture, apparatus, tools, stock, provisions, and every other species of property belonging to the institution, subject to the direction and control of said Board, and shall account to the Board in such manner as they may require for all property intrusted to him, and all moneys received by him from whatever source shall be deposited with the Treasurer. His books shall at all times be open to the inspection of the Board, who shall at least once in every three months carefully examine the same and all accounts, vouchers and documents connected therewith, and make a report of the result of such examination in a book provided for the purpose. He shall have charge of the inmates of said institution; he shall discipline, govern, instruct, employ and use his best efforts to reform the children and youth under his care, and shall at all times be subject to removal by the Board for incapacity, cruelty, negligence, immorality, or any other good cause.

[Duty of Treasurer.]

SEC. 13. The Treasurer, before entering upon the duties of his office, shall take an oath faithfully to discharge the same, and shall execute a bond to the people of California, with sureties to be approved by said Board, in at least double the sum of money for which he may be responsible as Treasurer, conditioned for the faithful performance of all his duties as such Treasurer; he shall take charge of all the funds of the institution, receiving the same and disbursing them on the written order of the Superintendent, and shall account to the Board in such manner as they may require for all funds intrusted to him from whatever source. His books shall at all times be open to the inspection of the Board and Superintendent, who shall at least once in every six months carefully examine the same and all the accounts, vouchers and documents connected therewith, and make a report of the result of such examinations. Such Treasurer must be a citizen of Los Angeles county, and shall receive for his services a salary of six hundred dollars per annum.

[Arrangement of Building to Suit Sexes.]

SEC. 14. Said Board of Trustees shall arrange the building or buildings to be used for said Reform School and the grounds about the same, so that a portion thereof may be used for the proper confinement, care and education of the male inmates and the remaining portion for the proper confinement, care and education of the female inmates, and to the absolute exclusion of all communication of any kind or character between the sexes.

[Proclamation When Ready to Commit Inmates.]

SEC. 15. Whenever said institution shall have been so far completed as to properly admit of the reception of inmates therein, the Governor shall make due proclamation of that fact; and thereafter it shall be lawful for said Board of Trustees to receive into its care and guardianship infants between the ages of ten and eighteen years, committed to its custody, as hereinafter provided.

[Committals.]

SEC. 16. Whenever any boy or girl between the ages of ten and sixteen years is convicted before any Court of competent jurisdiction, of any crime which, committed by an adult, would be punishable by imprisonment in the county jail or penitentiary, such juvenile offender shall be committed by the order of said Court to said State Reform School for a term of not less than one nor more than five years; provided, that when the crime for which such conviction is had is punishable

by imprisonment in the county jail the Court may, in the exercise of its discretion, commit said offender to the county jail for the time authorized by law for the punishment of the offence for which the offender is convicted; and provided further, that nothing in this Act shall be construed to debar any Court from punishing any capital offense, or attempt to commit a capital offense, in such manner as is or may be provided by law.

[Duty of Grand Jury,]

SEC. 17. If any accusation of the commission of any crime shall be made against any infant under the age of sixteen years before any Grand Jury, and the charge appears to be supported by evidence sufficient to put the accused upon trial, the Grand Jury may, in their discretion, instead of finding an indictment against the accused, return to the Court that it appears to them that the accused is a suitable person to be committed to the care and guardianship of said institution; the Court may thereupon order such commitment, if satisfied from the evidence that such commitment ought to be made, which examination may be waived by the parent or guardian of such infant.

[When Judge may Commit.]

SEC. 18. If any infant between the ages of ten and sixteen years shall be arraigned for trial in any Court having competent jurisdiction on a charge of any violation of any criminal law of this State, except for the commission of a capital offense, or an attempt to commit a capital offense, the Judge may, in his discretion, with the consent of the accused, arrest at any stage of the cause any further proceedings on the part of the prosecution, and commit the accused to the care and guardianship of this institution.

[Private Examination of Accused.]

SEC. 19. All infants between the ages of ten and sixteen years who may be accused of any offense punishable by imprisonment, shall with a view to the question whether they ought to be committed to said institution, be entitled to a private examination and trial before a Court having competent jurisdiction, to which only the parties to the case and the parent or guardian of the accused, and their attorneys, shall be admitted, unless one of the parents, the guardian, or other legal representative of the infant, demand a public trial; in such case the proceedings shall be in the usual manner.

[Receiving Inmates by Trustees.]

SEC. 20. It shall also be lawful for said Board of Trustees, under such rules as they may prescribe, to receive into the care and guardianship of this institution, whenever it may be convenient so to do, of infants between the ages of ten and eighteen years committed to its custody in any of the following modes:

1. Infants committed by any Judge of a Superior Court of this State on the complaint in writing filed, and due proof thereof by the parent or guardian of such infant, that by reason of the incorrigible and vicious conduct such infant has rendered his control beyond the power of such parent or guardian, and made it requisite that from a regard for the future welfare of such infant and for the protection of society that he be placed in such guardianship.

2. Infants committed by any Judge of the Superior Court of this State where complaint in writing has been filed and due proof of the same has been made, that such infant is a proper subject for the care and guardianship of such institution, in consequence of vagrancy, or of incorrigible or vicious conduct, and that from a moral depravity, or otherwise, the parent or guardian in whose custody he may be, such parent or guardian is incapable or unwilling to exercise the proper care or discipline over such infant.

3. Infants committed by any Judge of the Superior Court of this State where complaint in writing has been filed and due proof of the same has been made by the mother or guardian, when the father is dead or has abandoned his family or is an habitual drunkard or does not provide for the support of such infant, that such infant is destitute of a suitable home and of adequate means of obtaining an honest living, or is in danger of being brought up to lead an idle and immoral life, and where such mother or guardian is unable to provide the proper support and care for such infant.

[Ascertaining Whether Inmates Can Be Received.]

SEC. 21. Before conveying infants to said institution, as provided under section 20 of this Act, the person or persons having charge of said infants shall ascertain from the Superintendent whether they can be received; and if they cannot, then the case of such infants shall be disposed of as if this Act had never been passed, and no proceedings taken under it.

[Record of Inmates.]

SEC. 22. In all cases where the commitment is executed by the official person whose proceedings are usually evidenced by the record, or where the occasion of the commitment is a criminal charge or conviction against the infant, no other record shall be made (unless demanded by the infant, his parent, or guardian) than that, in substance, such infant (naming him), who on a day therein named was of the age of —— years, having been brought before said Court, or officer, and it having been ascertained by the testimony of the witnesses that such infant was a suitable person to be committed to the instruction and discipline of such institution, and in case of conviction for crime (naming the offense), therefore such infant was ordered to be committed to said institution,

[Credits—Discharges.]

SEC. 23. Every person committed to the Reform School shall, by good behavior, earn to himself, or herself, and be credited with time, as follows, to-wit:

Each month in the first year, five days.
Each month in the second year, six days.
Each month in the third year, seven days.
Each month in the fourth year, eight days.
Each month in the fifth year, ten days.

When such person shall be degraded for misconduct or violation of the rules of the institution, then for every time so degraded such person shall lose five days of the good time that may stand placed to his credit; and the Superintendent shall release every such person from the institution as many days before the expiration of the term of his sentence as such person shall have balance of good days to his credit. Upon the discharge of any person committed to the Reform School, except when committed under section 20 of this Act, the Superintendent shall provide him with suitable clothing and five dollars in money, and procure transportation for him to his home, if resident in this State, or to the county in which he may have been convicted, at his option.

[Estimate of Expenses, When and by Whom Paid.]

SEC. 24. Said Board of Trustees shall, with the approval of the Governor, estimate and determine, as near as may be, the actual expense per month of keeping and taking care of each infant committed to said institution, under the provisions of section 20 of this Act, not including the use of the grounds and building, and shall include a statement of such estimated price in each biennial report to the Governor. When any infant is committed to said institution at the instance of his or her parent or guardian, or other protector, the cost of keeping said infant, including the cost of transporting to and from the institution, shall be wholly paid by such parent or guardian, unless, by reason of the poverty of such parent or guardian, or other good cause, said Board of Trustees shall otherwise order and direct; in each case such expenses, including the cost of transportation, shall be borne one-half by the county from which such infant is committed, and the remaining one-half shall be borne by the State. The expense which any county may be liable to pay on account of any infant committed to said institution, under the provisions of this Act, shall be paid by the Board of Supervisors into the State Treasury on a certified and detailed statement as to the amount due therefor from such county being furnished to the Auditor of the county by said Superintendent; but in no case shall the amount charged to any county for the keeping of any infant exceed one-half of the estimated cost to the State of his or her support, exclusive of the use of the permanent property of the institution. All moneys paid by such counties, under the provisions of this section, into the State Treasury, shall be paid directly by the State Treasurer to the Superintendent of the Reform School for the use of said institution, as herein provided; provided, however, that no order shall be made by said Board of Trustees charging any county with one-half of the cost of keeping in the institution any infant committed at the instance of his or her parent or guardian, or other protector, unless a certificate in writing is first produced, signed by the President of the Board of Supervisors of such county, setting forth that the case is one in which the expense should be charged to the State and county, and also setting forth the reasons for their being so charged.

[Estimated Monthly Expenses]

SEC. 25. Immediately after the Governor shall make proclamation that said institution is ready for the reception of inmates, the Board of Trustees shall make the estimated actual expense per month of keeping and taking care of the infants, as required under section 24, which estimate shall control in such matters until the first biennial report of said Board is made.

[Aiding Escapes—Punishment For.]

SEC. 26. If any person procure the escape of any person committed to the Reform School, or advise or connive at, aid or assist in such escape, or conceal any such person so committed after such escape, he shall, upon conviction thereof in any Court of competent jurisdiction, be punished by a fine of not less than two hundred nor more than one thousand dollars, or be imprisoned in the county jail not less than two months nor more than one year, or by both such fine and imprisonment; or, if such person so convicted be under the age of sixteen years, then he shall be sentenced to the Reform School, as in this Act provided.

[Application for Discharge or Release of Inmates.]

SEC. 27. If any parent or guardian or master to whom an infant has been apprenticed, or any person occupying the position of parent, protector, or guardian, in fact or in reality, by blood or marriage, not more remote than first cousin to such infant, shall feel aggrieved by such commitment to such institution, when such commitment has been made under section 20 of this Act, he may make written application to the Board of Trustees of the Institution for the discharge of such infant, which application shall be filed with the Superintendent, who shall inform the Trustees thereof, and the same shall be heard and determined by such Trustees at such time and place as they shall appoint for that purpose, not later than the next regular meeting of the Board. Such application shall state the grounds of the applicant's claim to the custody of the infant and the reasons for claiming such custody. Within ten days after hearing said application the Trustees shall make and announce their opinion thereon, and if they shall be of the opinion that the welfare of such infant would be promoted by granting the application, they shall make an order to that effect; otherwise, they shall deny the application. The applicant may, upon the denial of his application, by first giving security for the payment of all costs (the security to be approved by the Clerk of the proper Court), commence an action in the Superior Court of the county in which the institution may be situated, for the recovery of the custody of such infant, against the Trustees of such institution. The complaint in said action shall state the fact and manner of the infant's commitment to said institution, the making of the applicant's application to the Trustees for the custody of such infant, and the overruling of such application by such Trustees, as well as the ground upon which the applicant relies for the recovery of the custody of such infant. Said action shall be prosecuted in like manner as other civil actions, and the cost thereof shall be paid by the applicant without reference to the result of the action, unless the Court shall state in the judgment that the refusal of the Trustees to grant the application of the applicant was plainly unreasonable, or that the original commitment was manifestly improper and unnecessary.

[Duty of Sheriffs.]

SEC. 28. It shall be the duty of the Sheriff of any county wherein an order is made by a Superior Judge committing any infant to such Reform School, to execute any and all writs of commitment issued by said Judge, and to receive as compensation therefor such fees as are now or may hereafter be provided by law for the transportation of prisoners to the State Prison; provided, that in all cases where the commitment shall be made under section twenty of this Act, the parent, guardian, or other protector of such infant may, at his option, and in all cases where he is able, or the estate of such infant is sufficient, shall, without expense to the county or State, execute said writ of commitment, after having been duly sworn therefor, with like powers and with like effect as the Sheriff would have.

[When Inmate Must Support Himself.]

SEC. 29. In all cases where an infant has been committed to said Reform School for any of the causes mentioned in section twenty of this Act, and such infant, at the time of his commitment, or afterwards, and during his term of confinement at said school, succeeds to any estate which is of sufficient value to cover his expenses to and from, and while at said school, the same shall become subject to such expense; and the said Superior Court shall, by a proper order therein entered, cause the parent or guardian to sell so much of said infant's estate (there not being sufficient money) to pay such expenses. In each case the proceedings thereon shall be similar to those required of guardians in ordinary sales of the property of wards. When any money is realized by virtue of such sales, the Court by proper order shall cause the same, or a sufficient amount thereof, to be paid to the Superintendent of such institution; or in case any expense of said infant has been borne already

by the State or county, then such Court shall order said county and State to be fully reimbursed for said expense by causing a sufficient amount therefor to be placed in the State and County Treasury.

[Appropriation.]

SEC. 30. The sum of two hundred thousand dollars ($200,000) is hereby appropriated out of the General Fund of the State of California for the erection, equipment, and maintenance of the building or buildings and grounds of said Reform School as herein provided, for the two years commencing April first, eighteen hundred and eighty-nine.

Said sum herein appropriated shall be expended pursuant to the provisions of this Act. The said Board of Trustees shall examine, audit, and allow all demands arising under this Act, and the State Controller shall thereupon draw his warrants therefor, payable out of the said General Fund, and the State Treasurer is hereby ordered to pay such warrants.

SEC. 31. This Act shall take effect and be in force from and after its passage.

The Whittier Reform School was opened for the reception of minors on July 1, 1891, of which the Finance and Industrial School Committee were advised. The proceedings necessary to effect the transmission of minors to that institution from the Industrial School were earnestly advocated and persisted in until all obstacles were removed.

The Reform School is located at Whittier, Los Angeles county, thirteen miles from the city of Los Angeles, on the Southern Pacific Railroad. The Trustees are Hervey Lindley, President, Jas. R. Lowe and E. L. Stern. The Superintendent is Walter Lindley, M. D. As shown in circular issued "the object of the school is education, development, reformation, not punishment; the minors are placed in a school similar to the public school, three and one-half hours daily, and are also taught some trade or useful avocation." In all cases where the parent or guardian is unable to pay the full cost of maintenance, which was fixed at $18 per month, the County pays one-half, the State the balance, and in all cases of commitments of minors each county defrays one-half the expense.

The appropriations made by the State for the erection of the building, its support and maintenance, are as follows:

For erection, equipment and maintenance of building for two years, commencing April 1, 1889 (Statutes 1889—120)	$200,000
For maintenance from January 1 to June 30, 1891 (Statutes 1891—131)	10,000
For furnishing and equipping building (Statutes 1891—484)	121,400
For support for 43d and 44th fiscal years	60,000
Total appropriations	$391,400

The Committee on Industrial School, on August 31, 1891, presented the following report, showing the progress made and representing the benefits to result from the care and education of the wayward and vicious at the State Reform School, to-wit:

REPORT OF COMMITTEE ON INDUSTRIAL SCHOOL.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—Your Industrial School Committee, in the matter of carrying out the views of your honorable Board relative to the consignment of boys and girls to the Whittier Reform School, who otherwise would be committed to and confined at the Industrial School,

Would respectfully report that a conference was had by your committee with the Judges of our Criminal Courts and the Hon. W. T. Wallace, Presiding Judge of the Superior Court, relative to the power and duty of the courts in aiding to carry out the beneficent work of educating and reforming the boys and girls at the Whittier Reform School. While some doubts were expressed as to the power of the courts in the case of the boys and girls now committed to and in charge of the Industrial School Department to change the place of detention, it was understood that no possible objection could be made in making commitments hereafter of boys and girls between the ages of ten and sixteen years to the Whittier Reform School.

This institution, built and maintained by the State is for the education, development and

reformation of the young, who, by reason of laxity in parental control, bad associations, etc., are about to enter or have entered upon a course which would tend to their downfall and irreparable disgrace, but for the good influences of an institution like the one now established.

Your committee find that some difficulty has apparently arisen in the minds of some of our Police Judges as to committing boys and girls to this institution, and several cases have lately occurred, where, notwithstanding the tacit understanding, minors have been sent to the Industrial School in lieu of the Whittier Reform School, notably in the case of a girl, who was committed to the Industrial School, it being understood that she was to be sent to the Whittier Reform School, and which disposition her parents acquiesced in.

On this view of the question it must be apparent that the Whittier Reform School is the only proper receptacle for the girls, the city and county being unable to maintain accommodations for their custody at the Industrial School, as it is evidenced by the custom of having them placed in charge of the Sisters for the last fifteen or twenty years. The question solely is, what is the best course to be pursued to aid in the reclamation of the boys and girls, who by idle and vicious or criminal habits become a charge to the community.

There can be but one answer—place them in a location far removed from their dissolute companions or associations, educate and improve their minds and fit them for the active pursuits of life. All of this will be done for the boys and girls who are sent to the Whittier Reform School, and it is the duty, as it is the intention of this Board, to aid in forwarding this laudable object and abolishing what has been known for years as the nursery of crime—the Industrial School. It is and has been used as a place of punishment for young criminals who, on serving their three or six months' sentence, are free to leave, to again prey upon the community, and who look forward with pleasure to their alternate period of imprisonment and release as creditable episodes of their existence. The young criminals narrate their experience and debauch other inmates who for other causes are maintained at the Industrial School, so that in spite of all efforts no successful results have been had in the treatment of the young at this institution.

The building is unsuited, the management and discipline cannot be effective when the institution is used as a prison or jail, and so the time has come for the sake of the wayward boy or girl to take some heed that they are, like us, God's creatures, and that it is our duty to help them out of a sink of iniquity and give them the opportunity to grow up and become good and honest men and women.

Your committee would report that five boys will be forwarded to the Whittier Reform School this week, and that the Police Judges being willing to observe the law and the best interests of the minors will be steadily increased by all commitments being hereafter made to the Whittier Reform School.

The expense of sending minors to Los Angeles is $10 each; the expenses of the Superintendent of the Industrial School who will accompany and deliver them to the Superintendent of the Whittier Reform School will be about $30 for each trip. It is intended to send them down from time to time in numbers not less than five or six.

The expense thereafter to be defrayed by the city and county during the period of their commitment will be $9 per month.

Your committee would further report, that as a vacancy has occurred in the position of tailor at the Industrial School, no reason exists for the same being filled at a compensation of $50 per month, as the present seamstress can perform all the duties required of making and repairing the clothing of the boys in addition to her duties of seamstress.

In order to pay a reasonable compensation for the service to be performed, your committee are in favor of increasing the salary of the seamstress from $30 to $50 per month, and so report.

L. R. ELLERT,
GEO. A. CARNES.

The first commitment of a minor to the Whittier Reform School from this city and county was on August 24, 1891, followed by others, and on September 9, 1891, five boys were delivered at said school.

The boys and girls after commitment were kept at the Industrial School building and were sent to the Whittier Reform School from time to time under charge of the Superintendent and Matron, respectively, of the former institution.

On October 19, 1891, the Committee on Industrial School presented a report, showing the progress made and the object to be attained by the abolishment of that institution, of which the following is a copy, to-wit:

REPORT OF COMMITTEE ON INDUSTRIAL SCHOOL.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Your Committee on Industrial School, in the matter of the conduct and management of said institution, would respectfully report that, in accordance with the action heretofore had and with the views expressed by your honorable Board, your committee have been carrying out the avowed intention of abolishing said department, in the interest of the tax-payers, and particularly for the benefit of the inmates, by causing the minors guilty of misdemeanor or of leading an idle and vicious life to be committed to the Whittier Reform School, and since the date of the last report some twenty minors—sixteen boys and four girls—have been delivered to that institution.

The efforts of your committee have been to bring about the abolishment of this department by gradually transferring such boys and girls as circumstances would permit to the Reform School, where good discipline, occupation, education and good surroundings can have but one effect, and that for their best interests. This action, necessarily, by relieving the school from time to time, justifies a slight diminution of the force employed by the city, and the lopping off of all ornamental and not strictly useful studies, it being the intention to simply maintain discipline and carry out the education of the minors to give them the necessary knowledge of the important branches of a common school education.

It appears, however, that notwithstanding the express views of the Board and the members of your committee, that the Superintendent of that institution during the past week has appointed a bandmaster, and it is understood will, at this meeting, obtain the ratification and approval of this appointment. While this is scarcely credible, it is of such importance as being the first deviation from the plan proposed of reducing this establishment, that it is indicative either of a disposition on the part of this Board to maintain the Industrial School as formerly, or is an unwarranted assumption on the part of the Superintendent in endeavoring to make and sustain this appointment.

If the Board is determined to carry out its good intentions, and there is yet no reason to doubt it, then this act of the Superintendent is censurable and that officer must, as your committee have been empowered, carry out its orders and directions in every particular.

The Industrial School is gradually being depleted of its inmates, and in due course will be a relic of the past, if this Board so will. One thing is certain, this Board can't assume to do two things in this connection; they can't keep and maintain the school as formerly and also pay for minors in the Whittier Reform School.

The Board having decided to abolish the school as soon as circumstances will permit, cannot turn the school into an eleemosynary institution for the purpose of finding places for the unemployed, nor can it afford to retain music as one of the studies to be taught.

Your committee, therefore, reports against the appointment of a bandmaster and in favor of abolishing said position, it being a useless and unnecessary appointment, and cannot be made, unless, as stated, the Board intend to maintain this school, as formerly, to the discredit of the municipality and to the injury of the inmates.

HENRY EVANS,
L. R. ELLERT.

The committee, animated with the good results to be accomplished, after persistent and strenuous efforts, were successful and were enabled to recommend the discontinuance of the school, and on November 23, 1891, the Finance and Industrial School Committee presented a Report recommending the abolishment of the Industrial School, the disposition of the personal property belonging thereto, and the dedication of the building so vacated as a Branch County Jail for the reception and detention of female prisoners sentenced to terms of imprisonment, which report was received and unanimously adopted as the action of the Board in this matter. The following is a copy of the report, to-wit:

REPORT OF THE FINANCE COMMITTEE.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—

Your Committee on Finance, in conjunction with the Committee on Industrial School, beg leave to state that the intention of the Board, as expressed from time to time, to make a proper

disposition of the minor children committed to the Industrial School, with the ultimate intention of abolishing that institution, has now practically been accomplished through the assistance and co-operation of the Judges of the Superior Court, Judges Wallace, Murphy, Troutt and Slack, District Attorney W. S. Barnes, and Assistant District Attorney, John Lord Love.

As herefore reported it has been demonstrated that the Industrial School as maintained and conducted did not and could not secure what was desired—the reformation of the boys committed thereto. The reasons why this institution was not a reformatory have been recited in previous reports, and notwithstanding all efforts no improvement could be effected. As the State provided the Whittier Reform School for the instruction, discipline and reformation of minors, and has established it on such a basis as to secure good results, it has rendered any action looking to a continuance and improvement of the institution carried on in this city and county wholly unnecessary. In the language of one of our Superior Judges, who has had great experience with the vicious and criminal class, the Industrial School has practically become "a nursery of crime," and it has become the duty of every humanist and good citizen to do something for the minors confined here, to assist in their improvement and elevation. The opportunity being afforded, this Board has availed itself of the assistance rendered and has provided for the departure of all the boys there confined.

Boys on hand in Industrial School August 1, 1891	94
Boys committed to school or to Whittier since above date	19
Total	113
Boys discharged	24
Boys on leave of absence	52
Boys sent en route to Whittier	35
Boys sent to Almshouse	1
Boys escaped	1
Total	113

The boy sent to the Almshouse is blind, is twenty years of age, and has been refused admission to the Home of the Industrial Blind. That refusal necessitates the placing of the boy in the Alms house until some other disposition can be made of him.

The boys heretofore the wards of the city and county and maintained at the Industrial School having been all disposed of, the institution, therefore, can be discontinued and abolished on and from December 1, 1891, and all the employes discharged except the Superintendent and Matron, who will for the present be retained to perform services incident to taking care of the boys and girls hereafter committed, and delivering them to the Whittier Reform School.

The girls now committed to and mantained at the Magdalen Asylum, numbering fifty-five, will be discharged, granted leave of absence or transferred to the Whittier Reform School, as circumstances and the requirements of each case may warrant, proceedings being now taken to make such disposition as may be determined for their best interests as soon as practicable. The Superintendent and Matron of the Industrial School will be charged with the duty of carrying out and delivering the girls as disposed of to their relatives, friends or to the Whittier Reform School.

The vacating of this building will afford much needed accommodation for the imprisonment of women convicted for petty offenses, who are now sentenced to and serve out their terms of imprisonment in the County Jail and the House of Correction. The limited accommodation for this class of offenders in the Connty Jail has been the reason why the Police Judges have committed these offenders to the House of Correction in lieu of the County Jail. There are at present sixty women in the House of Correction and thirty in the County Jail, all of which are confined in quarters either dangerous as in the House of Correction, in case of fire, or as in the County Jail in quarters wholly unfitted for their detention.

The necessity of segregation of the male and female prisoners limits the space necessarily allotted to the confinement of the women, and renders a separate place of detention absolutely imperative.

Your committee, therefore, recommends that the Industrial School building be designated as a branch county jail, be used during the pleasure of the Board for the detention of all women sentenced to imprisonment in the County Jail, and that your committee be instructed to confer with the Sheriff and be empowered to make such minor alterations as may be deemed judicious to insure the safe retention of the prisoners committed thereto. On the completion of said repairs or alterations that the Sheriff be requested to transfer the women now confined in the County Jail, who are serving out terms of imprisonment, to the said Branch County Jail, the matron now appointed

by that officer to be also transferred to said Branch County Jail to take charge of the prisoners as provided. The Superintendent of the Industrial School and the Matron thereof, by and with the approval of the Sheriff, to be appointed respectively as Deputy Sheriff and Assistant Matron, and under his orders to perform such duties as may be designated at the Branch County Jail in addition to their duties in attending to the discharge and removal of the girls at the Magdalen Asylum and the conveyance of minors when committed to the Whittier Reform School.

In addition and to afford adequate assistance to insure the safety of the institution and the custody of the inmates, it is recommended that the Sheriff be empowered to appoint three competent persons as watchmen and gate-keepers at a compensation of $55 each per month, their services to consist of serving eight hours in each twenty-four in that capacity. The said watchmen and gate-keepers, by and with the consent of the Sheriff, to board and reside at the House of Correction.

This, it appears, will be all the assistance necessary; the women confined there can perform all the culinary and other duties required, and from all that can be ascertained will be only too glad to be afforded the opportunity of performing such duties. The subsistence and supplies are furnished under contract and will not add anything to the present expense of maintenance.

There are corresponding advantages to be derived from this transfer of women from the County Jail in a pecuniary sense, which will counterbalance some of the expenditures.

The city is the recipient of about $4,000 per annum for the keeping of United States prisoners committed to the County Jail and which, on account of the lack of sufficient accommodations would be sent to other counties. This transfer will prevent any change being made, so far as the United States prisoners are concerned, as the accommodations for their retention will be sufficient.

Your committee also recommends the transfer of all the stock and farming implements to the House of Correction.

The change being made, the Superintendent of the House of Correction to be instructed to detail, from time to time, a sufficient number of the prisoners at that institution to perform the necessary work to cultivate and improve the tract of land surrounding the Branch County Jail building, also to convey to and from the Branch County Jail the prisoners committed or transferred to that institution in the van belonging to the House of Correction.

Your committee would also recommend that the Board call the attention of the Police Judges and the Judges of the Superior Court of Criminal Departments to the fact of the establishment of this Branch County Jail for the detention and imprisonment of women, and request them and each of them to hereafter sentence women convicted of offenses to the County Jail, in lieu of the House of Correction. This will relieve the last named institution and eventually result in all women convicted of offenses being sent to the Branch County Jail, and make a change highly advantageous to the prisoners, as well as to the officers in charge of our jails and prisons.

In closing up this Industrial School it may be well to remind the Board that this institution was originally instituted through the efforts of some of our charitable and philanthropic citizens who saw the beneficence of doing something for the welfare and improvement of the waifs who from various causes became street arabs and drifted from idle and vicious lives into petty criminals. The desire to do good and institute some institution which might prevent by education and discipline these minors from becoming criminals, was the motive power that induced efforts to be made to have some assistance from the city to aid in the noble work. Accordingly, in the year 1858, the Legislature of the State passed an Act providing that whenever the sum of $10,000 had been subscribed by members of the Industrial School department the Board of Supervisors was authorized to appropriate the sum of $20,000 toward the purchase of property and the erection of suitable buildings for an Industrial School.

At this time our citizens were so interested in the institution of such a school that the organization subscribed within a short time for life membership and dues the sum of $10,850, which with th appropriation made by the city of $20,000, placed at the disposal of the Board of Managers the sum of $30,850. The Board of Managers was constituted of seventeen members, fourteen elected by the members of the Department and three Supervisors appointed by the Board of Supervisors. The liberality in the contributions made by the members of this Department was a sort of spontaneous effort which did not continue, as in the thirteen years in which the school was governed and controlled by the Board of Managers so appointed, but $7,374 29 was contributed in addition to donations and dues outside of State and county aid for the maintenance and support of this institution.

The Board of Managers in the selection of a site met with some difficulty, in that the appropriation under their control was not deemed sufficient to purchase a site and erect a building; accordingly they selected and accepted a lot purchased for $15,000 in 1854 from John M. Horner, by the city and county, consisting of 100 acres on the Noe or San Miguel ranch, which had been dedicated for a "House of Refuge." (The tract now consists of 97.97 acres, 2.3 acres being granted to the San

Francisco and San Jose Railroad Company in 1865 for a consideration of $1,500.) This tract of land was conveyed to the Industrial School Department in July, 1858, about four years after the purchase by the city and county.

The erection of the building was at once proceeded with, and a 2-story brick-and-stone building with basement was erected near the center of the tract and opened for the reception of inmates on May 17, 1859. In 1865 the addition of the north wing of the building was contracted, the building and addition costing $46,000. The school was conducted by the Board of Managers over twelve years, when it became apparent that owing to an indebtedness of over $44,000 incurred outside the allowance made by the State and city and county for its support, that the management should be changed so as to secure a more liberal allowance for its support. It was deemed expedient to have the control and conduct of the institution placed with the Board of Supervisors.

In 1872 the Legislature passed an Act providing for the transfer of the school to the Board of Supervisors and for the payment of its indebtedness and authorizing a monthly appropriation of not to exceed $4,500 for its future maintenance. The transfer was made in conformity therewith and the building, etc., with the tract of land, then consisting of 97.97 acres, reconveyed to the city and county in April, 1872. The Industrial School has since April 9, 1872, to the date it is proposed to abolish said institution been under the control and management of the Board of Supervisors, and since the first-named date has gradually but surely and signally failed as a reformatory. The accomplishment of the intention of the Board and the abandonment of the school on December 1, 1891, will be considered commendable action on the part of the Board by all who feel an interest in and desire the reformation and elevation of the minors, who require care and attention at the hands of the municipality.

In this connection it may be stated that this institution, from first to last, in its maintenance alone, has cost the city and county considerably over one million of dollars.

The custody and care of minors convicted of offenses are now amply provided for, as, in cases where temporary restraint may be considered effectual, it is in the power of the Police Judges under Section 1,388 of the Penal Code, to suspend sentence and commit such offenders to the custody of the officers of any non-sectarian charitable corporation for a period of two months, for which such corporation is allowed $25, and if such minor be found incapable of reformation by such corporation, then it is in the power of said Judge to sentence the said minor to the Whittier Reform School.

This course will, it is presumed, be followed only in exceptional cases, as the Whittier Reform School possesses many advantages over other institutions for the reclamation of the wayward or vicious.

In this connection, when the attention of the public is directed to our navy and the importance of having trained seamen and officers for the purpose of manning our vessels, it seems unfortunate that through pique and want of judicious forethought that the training-ship Jamestown, placed at the disposal of this city and county and so successfully managed for a period of three year should have been abandoned. This vessel during her mission as a training-ship was the means of educating over seventy-five boys to be good average seamen, that number being sent aboard various vessels, and in all instances merited and received commendation for their knowledge and ability. It may be well to consider and if found expedient urge upon the next Legislature to enact a statute requesting the United States Government to furnish a training-ship to the State for the purpose of educating boys of good character who may be wayward and impulsive, and at the expense of the State in this practical manner to become good seamen and officers of the marine or naval service. Your committee are of opinion that no public moneys could be better expended in addition to the Reform School than to afford this State the opportunity of contributing some of our native sons to man and officer our navy, where distinction to themselves would be assured. It seems to your committee that some inducement and encouragement should be held out to the youth of this State, for in common with the citizens of this country we should hail with pleasure every effort that would lead to American ships being manned and officered by American seamen.

The abolishment of the Industrial School will be appreciated by all our worthy citizens as the first step to doing away with institutions which subserve no beneficial object.

Your committee in considering the object and purpose of the House of Correction, and in ascertaining results, are of the opinion as heretofore expressed, that as soon as the power can be obtained, this institution must also be abandoned.

As the code authorizes commitments to the House of Correction, this cannot be accomplished until the next meeting of the Legislature, when the codes can be so amended as to provide for commitment to the County Jail in lieu thereof. In many cases persons of known criminal character whose proper disposition ought to be the State Prison are sent to this institution. This,

however, can be remedied. The attention of the judges has been called to these cases, and unless a different course is pursued, it will become the duty of this Board to instruct the Superintendent not to receive any prisoners others than those that can be sentenced to the House of Correction. This will sensibly reduce the number of prisoners to be maintained at this institution at the expense of the county, as a number of criminals will be found, on investigation, of such a character as require to be relegated to the State Prison to be maintained at the expense of the State, and relieve the city and county of their care and support.

The object of the abolishment of the House of Correction is to utilize that building (which cost, when erected in 1875, the sum of $135,700) for the purposes of a County Jail for the imprisonment of persons who are under sentence or are sentenced thereto. The building is so constructed as to be enlarged from time to time, by the construction of additional wings, and the surrounding tract of land will afford opportunities for the employment of prisoners that in other more limited locations could not be obtained.

The present County Jail building, on Broadway, could then be used simply for the detention of prisoners awaiting trial.

Your committee have adverted to this matter simply that public attention may be called thereto, that when the time comes it will not be lost sight of, but will become a political necessity to make such disposition of this institution, if the project, as it must do, commends itself to our citizens.

L. R. ELLERT,
JAS. W. BURLING,
D. B. JACKSON.

The foregoing report was adopted by the Board as its action, and the following resolution was passed abolishing the Industrial School, turning over the stock, farming implements, etc., to the House of Correction, and declaring the position of all employees vacant, except those of the Superintendent and Matron, who were retained for the purpose of receiving minors committed to the Whittier Reform School and delivering them at said institution, to-wit:

ABOLISHING THE INDUSTRIAL SCHOOL.

RESOLUTION No. 6033—(Third Series)

RESOLVED, That the Superintendent of the Industrial School on or before December 1, 1891, is hereby directed to turn over to the Superintendent of the House of Correction all stock, farming implements, etc., belonging to said school, taking a receipt therefor and filing a duplicate thereof in the Clerk's office of the Board.

RESOLVED, That the position of all officers and employes of the Industrial School, except the Superintendent and Matron, be and are hereby declared vacant on and from December 1, 1891.

RESOLVED, That the Industrial School (as maintained for the care and detention of boys) is hereby discontinued and abolished on and from December 1, 1891.

The necessity existing to relieve the County Jail, as well as to provide for the detention of women prisoners in a separate building from male prisoners, caused the dedication of this structure as a Branch County Jail, the following action being taken:

DEDICATING AS A BRANCH COUNTY JAIL THE BUILDINGS, ETC., HERETOFORE USED FOR THE INDUSTRIAL SCHOOL, AND EMPOWERING THE SHERIFF TO TAKE CHARGE OF THE SAME.

RESOLUTION No. 6034 (Third Series).

RESOLVED, That the lot within the inclosure surrounding the building, with the building and improvements therein formerly used as and for an Industrial School, be and the same are hereby dedicated and set apart as a Branch County Jail for the reception and detention of female prisoners sentenced to terms of imprisonment in the County Jail on and from December 1, 1891.

RESOLVED, That the Finance Committee be and are hereby empowered to confer with the Sheriff and cause such alterations to be made to said building (if any are required) to insure the safe retention of the prisoners committed thereto.

RESOLVED, That on and from December 1, 1891, the Sheriff is hereby empowered to take charge of said Branch County Jail and to cause the removal of all women thereto, who are at present serving out sentences of imprisonment in the County Jail.

RESOLVED, That the Sheriff is hereby authorized and empowered to transfer the Matron of the County Jail to said Branch County Jail to act as Matron thereof; also to appoint * * * three watchmen to act as gatekeepers at a compensation of $55 each per month; the said watchmen to board and reside in the House of Correction.

RESOLVED, That the Sheriff be and he is hereby requested to appoint the Superintendent of the Industrial School and the Matron thereof respectively as Deputy Sheriff and Assistant Matron to perform such duties as may be designated at the Branch County Jail, in addition to their duties in attending to the removal of the girls at the Magdalen Asylum and the conveyance of minors committed to the Whittier Reform School.

RESOLVED, That the Superintendent of the House of Correction be and he is empowered and required to convey under the direction of the Sheriff to the Branch County Jail the female prisoners who may be transferred or committed from time to time to the County Jail.

RESOLVED, That the attention of the Police Judges and the Judges of the Criminal departments of the Superior Court be and is hereby called to the building dedicated and set aside by the Board as a County Jail for the special accommodation and confinement of women sentenced thereto, and said Judges are hereby respectfully requested to hereafter sentence all women convicted of offenses to the County Jail in lieu of the House of Correction in all cases where the statutes give the power to said Judges to determine the place of imprisonment.

On November 30, 1891, and February 23, 1892, the Board by Resolutions Nos. 6072 and 6536 (Third Series) provided for the disposition of the remaining property not formerly delivered to the House of Correction by Resolution No. 6033 (Third Series):

First—The musical instruments, music, books, etc., (formerly belonging to and used by the band) to the Superintendent of the Whittier Reform School.

Second—The clothing, etc., made for boys at the school and now on hand, to the Superintendent of the Boys and Girls' Aid Society.

Third—The tools, benches and other property belonging to the tailors' and shoemakers' department of said school to the Superintendent of the House of Correction.

Fourth—To the Board of Education the desks and school furniture in the building formerly used as an Industrial School, the same not being required for other purposes of the municipality.

The building as designated is now being used as a Branch County Jail, in which are confined women prisoners under sentence. The building is also used as a temporary detaining place for minors committed to the Reform School en route to Whittier.

The appropriation of $21,500 was made by the City and County for the fiscal year 1892-93 for the keeping of minors, transportation to and charges at the Whittier Reform School. The number of minors in the school from this city and county on June 30, 1892, were 121, embracing 92 boys and 29 girls.

System of Sewerage.

The absolute necessity of obtaining some comprehensive plan of sewering this city and county and of superintending the construction of sewers, has been a subject from time to time engaging the attention of the Board of Supervisors on all occasions when it was shown by a heavy rainfall or by an increase of zymotic diseases that the sewers constructed were wholly inadequate and dangerous to the health of our citizens.

As the action taken and the propositions advanced in this matter prior to the year 1887 are narrated in the reports of the recent action of the Board of Supervisors, any other reference thereto is unnecessary. The various proceedings taken by the Board during the last few years are herewith presented as showing the steps taken to effect the ultimate object of securing such systems, that after adoption could be adhered to, and secure an intelligent plan of sewerage.

On May 9, 1887, his Honor Mayor Pond transmitted the following communication to the Board, calling attention to the condition of the sewers and to the fact of Col. Waring, an eminent sanitary engineer, being in the city and suggesting that he be employed at least to the extent of examining and reporting upon the most feasible plans of putting our sewerage system in "a thoroughly good condition, to-wit:

COMMUNICATION FROM HIS HONOR MAYOR POND.

MAYOR'S OFFICE,
SAN FRANCISCO, May 9, 1887.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: I believe that the condition of our sewers is such as to call for earnest attention. Although I had scarcely expected that it would be possible for you to take any action in the matter during the remainder of this fiscal year, because of the lack of funds, yet the presence in our midst of an eminent sanitary engineer, Col. Waring, and the apparent wish of some of our citizens to secure the benefit of his experience and counsel, prompt me to bring the subject to your notice. It would seem desirable that he should be employed, at least to the extent of examining and reporting upon the most feasible plan, as well as an estimate of the probable cost of putting our sewerage system in a thoroughly good condition for the work that is expected of it.

At the same time I would recommend that another competent engineer, selected from our own residents, be chosen to go over the same ground in order that we may have the judgment of at least two experts upon a question of such grave importance.

If you think proper to accept these suggestions, I would recommend that a committee of your body be appointed to take immediate action.

I am, very respectfully,

E. B. POND,
Mayor.

The foregoing communication was referred by the Board to the Committee on Streets, who pursuant to the suggestion had an interview with Col. Waring, and after a discussion and representation as to the hap-hazard manner in which sewers were constructed of all sizes and character, that gentleman informed the committe, that if furnished at the expense of the city and county with the information relative to the condition of existing sewers, he would, for the sum of $5,000, make a report giving his opinion on the proper action to be taken, and of a system of sewerage generally

which would be adapted to the wants of the city and county. This, however, it was distinctly understood, would not embrace plans or estimates of expense, etc.

The Committee on Streets, at the meeting of the Board held on May 16, 1887, presented a report of which the following is a copy, reciting the conditions and terms upon which the services of Col. Waring could be obtained, to-wit:

REPORT OF COMMITTEE ON STREETS.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: In the matter of the communication from his Honor the Mayor, referred to your committee, with instructions to examine into the suggestions and report back to the Board, calling attention to the condition of our sewers and to the fact that Colonel Waring, an eminent sanitary engineer, being in the city, and suggesting that he be employed, at least to the extent of examining and reporting upon the most feasible plan, as well as an estimate of the probable cost of putting our sewerage system in thoroughly good condition—also, recommending the selection of another competent engineer from our own residents to go over the same ground, so as to obtain the judgment of at least two experts upon this important question.

Your committee would respectfully report that this subject is one that has been considered, and the imperative necessity of inaugurating some proceeding looking to the adoption of a system of sewerage is not alone conceded by all those who have given attention to the subject, but it is being demonstrated that in certain portions of our city the comfort and health of our citizens are being daily jeopardized, and is one of the self-evident reasons why some improvement should be instituted and a system evolved that would be effective and beneficial.

As recommended by his Honor the Mayor and acting under the instructions given by your honorable Board, your committee have conferred with Colonel Waring in reference to this matter, and while that gentleman does not, from his want of information relative to our sewers and their construction, volunteer any opinion, he very emphatically stated that, as economic, practical and satisfactory results were sought for, no opinion could be given until he was possessed of proper information as to the present condition and requirements of the sewers, so as to present an intelligent, scientific and comprehensive report, whereby the present system, so far as practicable, could be utilized in a general system to be recommended, based on correct data and information to be obtained by examination.

The general views enunciated by Colonel Waring were that, if he was to be engaged, he would occupy some six or eight months prior to making his report in examining the data acquired, the contour of our city and its requirements, the condition of our sewers during and after rainfalls, and how, if possible, the present sewers were or could be made adequate in certain districts in the system to be recommended; that when he had acquired all the data desired he would be enabled to make his examinations and formulate a general report, which would show the condition of the sewers, those inadequate to any practical system and those which could be made useful, with such recommendations as would, in his judgment, serve to effect what was desired—a thorough and intelligent system. In other words a preliminary report of the condition and what is necessary to be done to insure an efficient system of sewerage compatible with the wants of a great city and an estimate of probable expense. The data required he proposed to obtain by means of the services of three competent young men, graduates of engineering from our State University, who might be recommended for their competency and reliability by the Professor of Engineering of that institution. These young engineers would be detailed, two to examine the sewers, etc., and one in the office to perform the work under his direction, whose compensation would require to be paid by the city.

Your committee were impressed with the candid statements of Colonel Waring in reference to his conception of the work necessary to be done to enable him to furnish his report, and believe the compensation of $5,000, which he requires for his services, is reasonable, and will be well expended in obtaining the benefits of his experience in his report on the system to be adopted. The additional expense to be incurred, not to exceed $300 per month, to pay for services of three engineers to be employed by him and to cover other incidental expenses.

Your committee do not think it advisable to employ another engineer at the present time to do the same work, but will reserve any recommendations as to employment of another engineer until Colonel Waring's labors are completed and his report filed.

Your committee, therefore, recommend the employment of Colonel Waring to examine the condition of our sewers and to make a report upon the most feasible plan, as well as the probable cost, of putting our sewerage system in a condition to effect thorough and complete drainage, at a compensation of $5,000, and that he be empowered to employ such assistants as indicated in this report, the compensation of whom and the incidental expenses to be incurred not to exceed $300 per month.

As Colonel Waring has to leave for the East in a few days, to return in a short time, he has delayed his departure until the Board expresses its opinion, for, if retained, he will employ his assistants and set them to work under his instructions on the 1st of June.

The condition of the finances this fiscal year will require only the adoption of a resolution declaring the intention of the Board to employ Colonel Waring, which will be a guaranty that the Board will pass the proper resolution under the law at the commencement of the next fiscal year, in the levy for which year provision can be made for his payment, and similar action can be taken providing for an expenditure of not to exceed $300 per month out of the Street Department Fund to pay for services of assistants and other expenses to be incurred by Colonel Waring; while the expense of $300 for the month of June can be authorized by the adoption of a resolution of the Board in accord with the views expressed.

A. M. BURNS,
H. JOOST,
S. S. MORTON.

At the same meeting Supervisor Burns, Chairman of the Street Committee, presented resolutions providing for the payment to Col. Waring of the sum of $5,000, and for an expenditure of $300 per month for assistance required, respectively, of which the following are copies:

Resolved, That it is the intention of this Board to employ the eminent sanitary engineer Col. Waring, to examine the condition of our sewers and make a report upon the most feasible plan as well as the probable cost of putting our sewerage system in a condition to effect thorough and complete drainage, at a compensation for his services of the sum of $5,000, and to authorize him to employ three competent and reliable assistants, two for examination of the sewers and one for clerical work, whose compensation, together with the incidentals that may be incurred, shall not exceed the sum of $300 per month.

And further, that the Finance Committee be instructed to make provision in the tax levy of the next fiscal year to meet the expenses herein contemplated.

Resolved, That an expenditure of $300 be authorized out of the Street Department Fund in payment for services of three assistant engineers to be employed by Col. Waring in examining the sewerage system, and for incidental expenses to be incurred during the month of June.

After a discussion as to the propriety of the proposed action, as contemplated, the whole matter was continued and laid over for one week.

At the next meeting of the Board, held May 23, 1887, on a motion to pass the foregoing resolutions, Supervisor Boyd spoke adversely and introduced a substitute resolution providing for the reception of competitive plans, to-wit:

RESOLUTION No. ——.

Whereas, The question of the condition of our sewers is all important, one of vital importance to the welfare and sanitary well-being of the community, and requires intelligent action, based upon a thorough knowledge of the present condition and requirements of the sewers;

Whereas, The principal obstacle heretofore encountered in adopting a proper system or in remedying the defects in our present sewage facilities has arisen from apathy and inattention in ordering the construction of sewers independent of any consideration except the requirements of the immediate vicinity, and in many cases from faulty and improper construction of the sewers by a want of proper and intelligent supervision; and,

Whereas, At least one plan or system of sewerage was prepared at a cost of ten thousand dollars to the city and county, which so far has not been of any benefit, as the recommendations in said report contained have not been observed nor have any steps been taken, if the said plan so prepared was not deemed adequate and a proper system, to have the same modified or revised so as to accomplish what is now desired; and,

Whereas, There can be no doubt that there are many intelligent engineers in our midst who can prepare a plan or system of sewage which can be effective and adequate for all the present and future wants of this city and county and its inhabitants, and in so far as the present sewers are concerned can, if practicable, utilize and make the same subsidiary to any proposed system, where the sewers are constructed on the proper grade and the construction or material are not faulty and imperfect; therefore

Resolved, That the Clerk of this Board be and he is hereby empowered and directed to advertise once a week in each of the following daily papers, the Daily Report on Monday, Morning Call on Tuesday, San Francisco Chronicle on Wednesday, Evening Post on Thursday, the Alta California on Friday, the Bulletin on Saturday and the Daily Examiner on Sunday, a proper notice requesting civil engineers to submit plans and specifications with a report embracing an estimate of the cost of providing a system of sewerage for this city and county on the first Monday in February, 1888. The plans to show the material, condition and dimensions of the present sewers and the material and dimensions of the proposed sewers to be constructed in the districts now sewered where the sewers are inadequate to a proper system either from the grade, size or faulty construction of the same; also the material and size of sewers required in those portions of the city and county where no sewers are at present constructed.

The material, dimensions and the grade of the bottom of the sewers now constructed and of the proposed sewers to be constructed, the location and character of connections of and with sewers and of cesspools and manholes to be indicated upon a map of this city and county, to be made from and to be a copy of and the same size as the official map of 1870, on file in the office of the Surveyor of this city and county.

The specifications to be specific as to the character of material to be used in the construction or reconstruction of the sewers, the manner and character of foundations, the dimensions and shape thereof, the mode of and material to be used in the construction of ventilators, and in connections of and with sewers and of house-drains with sewers, with general recommendations as to the proper supervision to be exercised during (and the final inspection on) the construction of sewers.

The report to embrace the expense of adopting the system proposed in those portions of the city and county now sewered, to insure a complete and efficient system of sewerage.

Resolved, That the sum of $10,000 will be provided in the levy made for Street Department purposes for the fiscal year 1887-8 to pay awards for the best three plans, etc., presented, and other incidental expenses to be incurred, as follows:

For the plan, specifications and report adopted the sum of $2,500; for the second in merit the sum of $1,500; and for the third in merit the sum of $1,000.

Resolved, That the engineer whose plans are adopted shall be entitled to the appointment of supervising engineer, to prepare detailed plans and specifications and to supervise the construction and reconstruction of the sewers embraced in those portions of the city and county now sewered and in case two or more engineers are required then the engineers whose plans have received the second and third awards of merit shall, in the order named, be entitled to appointment as assistant engineers to supervise under the instructions of the engineer the performance of the work. The said appointments and the compensation of the engineers employed to be made whenever the Board has the means at its disposal to prosecute the work.

Resolved, That on the reception of the plans, specifications and estimates this Board will cause the same to be exhibited for public inspection in some office in the New City Hall for a period of thirty days for the purpose of receiving written suggestions and recommendations relative thereto, and thereafter this Board shall appoint three competent, disinterested persons at a compensation of $500 each, to be designated the Board of Selection and Revision of Sewer Plans, two of whom shall be civil engineers of at least ten years' practical experience, to whom the said plans, specifications and estimates shall be referred, in addition to all written suggestions and recommendations received, with instructions to examine the same and report as to the respective merits of the plans proposed.

The report of said Board of Selection and Revision, when received, shall be published for a period of ten days in the papers heretofore named, and at the expiration of said period this Board will declare the successful competitors, in accordance with said report, and shall adopt the plan determined the best, with such alterations as may be suggested and recommended by said Board.

Resolved, That this Board will provide in the tax levy for the fiscal year 1888-9 a sufficient amount to prosecute the work of constructing and reconstructing the sewers in those portions of the city now sewered, in accordance with the plan to be adopted.

In support of the foregoing resolution Supervisor Colin M. Boyd stated as follows: "I desire to say in this connection that, had I had the slightest idea that the Street Committee was about to offer at the last meeting an arbitrary resolution to pay Colonel Waring a large sum of money for his opinion, I would have had this resolution ready last Monday evening. Now, I am distinctly in favor of the improvement of the sewerage of this city, and I desire to place myself on record as such, but I am not in favor of the resolution offered by the Street Committee. I am not in favor of expending a total of about $8,000 to obtain an opinion from any man. It is true that Waring came to this coast with some high recommendations, but it is also true that Colonel Waring has never undertaken the sewerage of a city of the size of San Francisco. I believe the extent of his achievements was the sewering of a city one-fourth the size of San Francisco—the city of Memphis, Tennessee—and that he does not claim that the system he used there could be successfully applied to San Francisco. Colonel Waring, were the Street Committee's resolution adopted, would receive $5,000 for his opinion. Three assistants would receive $100 each, and there would be other expenses. What in return is Colonel Waring to give us? A simple opinion—no details, no explanation, just an opinion! I am not prepared to say that he is not entitled to this distinction. I am not prepared to say either that we have not as good men ourselves on this coast as Colonel Waring is. This resolution of mine proposes an entire system of sewering, which shall be set forth so plainly that almost the youngest will understand it. The money to be expended in getting plans is infinitesimal. The rewards themselves, will not attract the engineers, but the renown that would follow upon success. Colonel Waring expected to be assisted by three young men from our University. It is a compliment to the University. The young gentlemen, I suppose, would do the work and Colonel Waring would make the suggestions. I think there is talent enough in the State to do all the work we have to do here, and retain the reputation and money here. I ask that $10,000 be allowed in the next levy, and that in the levy of 1888-89 enough money may be raised to do all the sewering required. We shall have five engineers engaged in the work—three actively and two on the Board of Examiners. The resolution also provides for the receipt of suggestions from outside parties. Now I ask you whether this is not better—gathering in the skill and the thought of the whole State—than to center our convictions upon one man. I hope the resolution will pass, so that the Board may be put on record and all the needful information be obtained."

Supervisor A. M. Burns, Chairman of the Committee on Streets, in advocacy of the recommendation made by said committee, stated as follows:

"This Colonel Waring business seems to have aroused considerable opposition. Colonel Waring is a gentleman who has devoted many years of his life to sewerage. He is peculiarly a sanitary engineer. We have no such here. At the suggestion of the Mayor the Street Committee had a conference with the gentleman, and they were unanimous in the opinion that his opinion should be had and that it would be worth the money. The man does not live that knows anything about our sewerage as a whole. It is a mass of patchwork. All we wanted was Colonel Waring's opinion. After that we could act as we chose. This resolution offered by the gentleman from the Third really contemplates the expenditure of millions of dollars. It will lead us from one thing to another till we are committed to a system of sewerage devised by local engineers. If we adopt this resolution there is no knowing where the thing will stop. I hope the resolution offered will not pass. To pass it would, I think, be unwise and foolish."

The resolution introduced by Supervisor Boyd was passed for printing, the other resolutions providing for the employment of Colonel Waring and three assistants were indefinitely postponed, and at a subsequent meeting of the Board, held June 13, 1887, the resolution introduced by Supervisor Boyd was referred back to the author for amendment, tantamount to its indefinite postponement.

The question of effecting a change in the mode of providing sewers so that their construction might be in compliance with the requirements of some settled and well defined plan, remained in abeyance until the advent of the present Board. The Committee on Streets, consisting of Supervisors C. W. Taber (chairman), D. B. Jackson, Wm. Wilkinson, Jas. W. Burling and Jos. E. Artigues, with his Honor Mayor Sanderson and Supervisor Ellert and other members of the Board, had this subject under consideration and, after considerable research and consultation, presented to the Board at a meeting held on January 25, 1892, a report, of which the following is a copy, recommending the prosecution of the steps necessary as recited being put into immediate operation to bring about and lead to the adoption of an intelligent and comprehensive system of sewerage, to-wit:

REPORT OF STREET COMMITTEE TO OBTAIN A SEWERAGE SYSTEM.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—Your Committee on Streets, etc., begs leave to report that the importance of having devised a comprehensive system of sewerage for this city and county has from time to time been agitated and discussed and various modes suggested to accomplish the same, but with the exception of a plan proposed in 1876, which was not put in operation, nothing has been done to improve the sanitary condition of this city and county.

The sewers, with some exceptions, have been constructed principally for the purpose of providing a mode of removing the sewage of buildings on the respective blocks or portions of streets, but without any consideration looking to the general drainage of the city.

In the year 1869 the late Thomas H. Selby, then Mayor, after adverting to the condition of the sewers in his inaugural message in December of that year, stated: "I would recommend that the best engineering talent be employed to devise and perfect a system of sewerage adequate to present and future wants. Every street should be provided with a substantial sewer, to be built by the day, under the supervision of intelligent engineers of undoubted integrity, all the cesspools should be trapped and kept filled with water to prevent noxious odors escaping, and spreading poison and death in our midst."

Although this condition of the sewerage necessities was so strongly presented no movement was made upon this recommendation until the year 1875, when the Board of Supervisors authorized the then City and County Surveyor (William P. Humphreys, Esq.), at an expense of ten thousand ($10,000) dollars, to make the necessary surveys and prepare a sewer map showing the size and material of all sewers in public streets then constructed and to be thereafter constructed, so as to present a plan of sewerage to be adopted for that portion of the city and county where the grades were established. Further, to report a method to secure the ventilation of sewers, a system of house drainage, the connection of private with public sewers; also to report upon sewer crossings, cesspools, catch basins, manholes, chutes and connections; also the connection of lateral sewers with the main sewers, etc. The work was completed and the report, with plans and maps, filed on May 22, 1876, accompanied by a communication from General B. S. Alexander, U. S. A., indorsing the plan and report made as presenting "the necessity, advantages and mode of obtaining a proper system of sewerage for this city in a very clear and forcible manner."

While some effort was made in the construction of sewers subsequent to the filing of the plan and report, to adhere to and carry out the system proposed, yet it was gradually abandoned and lost sight of, one of the principal causes being the latitude given to contractors, who obtained private contracts with the property owners and constructed sewers of a different material and size from that provided for in the plan, and although strenuous efforts were made by William P. Humphreys, Esq., to have the plan adhered to and these matters remedied by compelling the construction of proper sewers and the tearing up of the sewers constructed in violation of the system, yet the importunities of property owners, representing their ignorance of the requirements of the sewer system and the hardship and loss it would cause them if they were compelled to take out the sewer and construct a sewer as required at their own expense, had its weight, and the sewers so laid were allowed to remain, and the precedent thus established continued to be followed.

Thereafter the sewers were constructed without any particular reference to the system, and the subject seemed to have elicited no further inquiry or notice until in the year 1885, at the instance of Supervisor Farwell, the Board adopted a resolution requesting Professor George Davidson, of the United States Coast Survey, to present his views as to the sewerage system of the city and its requirements. The report of Professor George Davidson was furnished on May 3, 1886 (without cost or charge), in which was embodied the result of his researches and the general principles which should govern and control any system for the sewerage of the city. As illustrative of the condition of San Francisco sewerage he stated: "I recall no city that is so peculiarly situated as San Francisco for its commercial and manufacturing advantages and for its high possibilities in the application of the principles of sanitation—the increase of population depending upon the former demands the development of the latter; yet I fail to recall but one other where the sewerage is in such a deplorably low condition. That exception is the City of Mexico, which is simply in a horrible plight; but it is so unfavorably situated, and the finances of the country are so low, that there

is the semblance of an excuse for its unfruitful efforts. In comparison we have no excuse whatever."

The reports of William P. Humphreys, Esq., and Professor George Davidson as to the sanitation of this city concur in asserting that there must be two systems—one to take care and provide for the disposition of part of the sewage by gravitation, and the other by gravitation and pumping, the latter being to relieve what is designated the tide-locked system of sewers. In reference to the sewerage of the low-lying districts, Professor George Davidson states: "That around the water front of the city of San Francisco, on and under the great thoroughfare (which was recommended by the United States Advisory Board of Engineers and adopted and being built by the State Harbor Commissioners), there should be constructed a continuous low-level sewer of ample dimensions to carry the present and the prospective sewage of all the low-lying districts of San Francisco. That this sewer shall be so low along the eastern and northern fronts of the city that all sewers running into it shall effectually drain every building and insure dry basements. That this sewer shall be projected from the vicinity of Hunter's Point; follow the line of the great thoroughfare round to the limit of the city at the eastern boundary line of the Presidio Reservation. That the gradient of this sewer shall be sufficient to guarantee the prompt passage of all matter properly admitted to the sewers. That at the western extremity of this sewer the sewage shall be pumped from the sewer into covered reservoirs whose bottoms shall be at the level of the higher tides of the bay. That these reservoirs can be readily located in the low grounds of the bay shore near the Presidio Reservation. That after the stand of each higher high tide of the twenty-four hours the reservoirs shall be opened and the sewage discharged into the strong current of the large ebb tide. Our tides are peculiarly favorable for this mode of discharging, because they afford an unusually long and large ebb in the twenty-four hours, with a very strong current that averages more than six miles per hour in the Golden Gate."

In the said report the whole subject is carefully and intelligently presented, and both engineers agree that each day's sewerage of each street and of each dwelling shall be removed the same day, so that it will be promptly discharged before decomposition begins, thereby preventing the accumulation, as at present, of garbage of all kinds and other deleterious matter to decompose and be the means of breeding and propagating disease. It is well established and settled by scientific investigation:

"First—That fresh sewage through a properly constructed sewer is not likely to be attended by the suspension of zymotic matters in the air of the sewer.

"Second—That if the sewage be allowed to stagnate, the evolution of gas results, and the breaking of gas bubbles on the surface projects liquid particles into the air, and is a potent cause of the suspension of zymotic particles in the air of the sewer.

"Third—That it is of the greatest importance that foul liquids should pass freely and quickly through sewers and drain pipes."

The question now presents itself to this Board as to what action shall be taken to obtain and adopt a comprehensive system of sewerage, before additional means are frittered away in the construction of sewers which in all probability will not be adapted to any plan hereafter adopted. It is conceded, beyond denial, that our sewers, in the main imperfectly constructed, are in such condition that it is the imperative duty of this Board to inaugurate proceedings whereby a system of sewerage may be outlined and prepared by competent engineers, and on the adoption of the same, to be carried out in all its details, so as to secure a complete and consistent scheme for the present as well as the future requirements of this city and county. The plans prepared by William P. Humphreys, Esq., and so highly commended, only embraced the sewage of that portion of the city and county where the grades were established, which, for reasons stated, were ignored. It is now proposed, the inhabitable area of the city and county, embracing almost the entire territory, to have grades established and systems of sewerage provided for the different districts, so that no portions of the city and county will be without an established grade or a plan of sewerage. This will prevent grades being established and sewers constructed wholly unsuited for any intelligent drainage system, which is now the case. It is scarcely necessary to state that no system of sewerage can be projected without the establishment of grades.

The city and county has been and is now afflicted with grades hastily and erroneously established, which have had the effect of impairing our sewerage from Montgomery street east and southeasterly of Ninth street south of Market street. The grades established have simply caused the sewers to be tide locked, inundating the basements of buildings at high tide, and for want of sufficient fall or flow of water retaining in these sewers filthy and deleterious matter; depositing in and along our water front the filthy and disease-breeding accumulations. The whole sewerage system in the lower portion of our city is defective, injurious to health and but for our summer winds

would be apt to distribute the pestilent odors over the entire city and propagate epidemics to injure the health and destroy the lives of our citizens.

There can be no question but our death rate has been sensibly increased by the continued slow poisoning engendered by the organisms and products of filth in the low-lying sewers.

It is undeniable that any system to be adopted must not interfere with the grades in the low lying sections of our city, the improvements made in these sections being of such value as to render any interference or material alteration of these grades to effect a gravitation system too costly and expensive; especially when a cheaper and, in the present condition, a more effective plan can be devised to obtain sufficient drainage for the subsoil and foundations of buildings, beside providing for a speedy and rapid discharge of all sewage matter. This it is believed can only be obtained by a system embracing gravitation and pumping. The opinions heretofore held contemplate for this purpose a large receiving sewer in the water front constructed at such a depth as to admit of the present sewers discharging into said receiving sewer, and by gravitation conveying the sewage to reservoirs on the northern portion of our water front and pumped into the bay every twenty-four hours at a time when the strong ebb tide would speedily carry it to the ocean.

The various sewerage district into which the city and county will necessarily have to be divided from its topography will require systems wholly independent of each other.

The Richmond district, being that portion of the city lying north of Golden Gate Park, has now in process of construction a system of sewerage which will require to be examined and considered in the preparation of plans; the capabilities and use of the Channel-street sewer in its connection with the sewage of the Mission district, and the utilization and, if needs be, the improvement and projection of the Army-street sewer. Our sewer work has been somewhat spasmodic and, while large amounts have been expended on the construction of a few special sewers, their utility has not equaled expectations and undoubtedly their extension or modification to render them effective must form a matter of consideration in the preparation of any plan.

The purpose being to have a comprehensive, scientific and efficient system, it must embrace specifications and detailed plans of the construction of all sewers; the ventilation of sewers; the disinfection of sewers; the disposition and the destruction of noxious gases; the flushing of sewers when and how often required; the connection of side sewers with the public sewers; the construction of house-drains, cess-pools, catch-basins, manholes, chutes; the connection of lateral with main sewers and main with intercepting sewers. Also a report as to the condition and adaptability of the present sewers, designating those that can be used for a temporary period and those that can permanently form a portion of the system, alterations, if any required, to be made to adapt any of the present sewers to the proposed system and all information that may be deemed applicable to make the entire plan fully commensurate to cover and provide for every contingency.

As one of the important factors to determine the condition and applicability of any of the present sewers now constructed to form a part of any proposed system, it follows that this Board must make provision for obtaining reliable information for competing engineers, as to the material, depth, size and condition of each sewer in each block and crossing. This can be readily procured by the employment of competent persons to make careful examinations of existing sewers, and upon receiving the results to have tabular statements made, arranged alphabetically (according to the names of the streets), detailing the information obtained. As such information is to be compiled for engineers, persons who have some engineering knowledge ought to be employed to obtain and compile it. In addition, a large map of the city and county should be made, showing the sewers constructed and those under construction, with all the established grades marked thereon, and the topography of the city and county delineated thereon.

Upon the compilation of the information as to the sewers, and the completion of the map, to invite competitive plans for a system of sewerage, embracing the grades to be established, where not already established, etc., with detailed plans and specifications for all sewers and appurtenances to be constructed or reconstructed; also, to state in their order the sewers to be constructed or reconstructed, the time required for their construction or reconstruction, and the estimated cost of each sewer. This will enable the city and county to make provision for the most urgent cases first, so that when the sewers are to be constructed or reconstructed by the city and county, the estimated amount required for the expenditure of any one year may be levied and provided for, and the expenditures to be made regulated year after year until the city and county's portion of this great and imperative work is completed.

The time for the reception of plans to be nine months, or such additional time as may be deemed sufficient from the time of the publication inviting the same; the premiums to be $25,000 for the first and accepted plan, $10,000 for the second, $5,000 for the third and $2,500 for the fourth best plan. No plan to receive a premium unless it provides for a complete system. The premiums are

recommended to be placed at these figures to invite the attention and enlist the services of, it is hoped, the best engineers in this country. They cannot be considered excessive, for in the establishment of grades alone, in the manner they have been established from time to time, it would cost the entire amount of the proposed premiums for that service. The want of established grades in portions of our city is a barrier to improvements, and until determined will prevent any system of sewerage being formulated.

On the reception of the plans, the same to be open for public inspection for a period of sixty days, and a competent Board of Engineers appointed, consisting of three civil engineers, who have practiced their profession for at least five years and are otherwise fully qualified, to examine, pass upon and report to this Board the best plan submitted. The said Board of Engineers to make such recommendations as to modifications and alterations in the said plans, etc., as may be in accord with their views to carry out the objects contemplated. The said engineers so selected to be qualified must not have prepared or submitted plans in part or in whole, and must be wholly disinterested in so far as said plans or the competitors are concerned. The compensation of $1,000 to be paid each engineer so appointed for the services performed.

The said Board of Engineers to report on said plans in the order of their merit to the Board of Supervisors, the said Board to determine and adjudge from the report of the said engineers the four best plans, and by order determine the same and designate the successful competitor; also the plans considered and determined to be the second, third and fourth in merit, provided that if for any cause it may be considered judicious to alter or amend the plans or specifications deemed the best, the Board of Supervisors on recommendation of the Board of Engineers shall refer the same back for correction or modification, and on the said plan, etc., being returned and reported by said Board of Engineers to be corrected and modified as directed, then the Board of Supervisors shall proceed to pass upon, approve and designate the same; and upon said determination and decision as aforesaid, the premiums shall be due and payable to the parties entitled thereto.

On and after the adoption of said plan as the "Sewerage System of San Francisco" all sewers to be constructed at the expense of the owners of property fronting thereon, as provided by law, shall be as designated in said plan, and all sewers to be constructed or reconstructed by the city and county shall also conform to and be designated and provided for in said plan.

The compilation of information presented and the views of competent engineers referred to, is principally to clearly show the great urgency of a sewer system and with the view of having proceedings taken to inaugurate a change before some epidemic may occur to decimate our population. It will be sufficient gratification to the members of this Board to have called attention to the condition of our sewerage and to have instituted steps which will ultimately terminate in so beneficent a result as aiding to procure adequate sewerage facilities.

There can be no particular instructions issued in reference to the sewerage, nor is there any desire to hamper engineers with any ideas or suggestions in reference to this matter except to call attention to certain conditions that exist and must necessarily enter into their systems and which are recited in this report. In case, however, that large intercepting sewers are to be constructed in any of our main streets, it seems that provision should be made in their construction for the accommodation of conduits, gas and water mains, so as to prevent tearing up the roadway from time time for these purposes, interfering with traffic and seriously incommoding the public. The extra cost in the construction of those sewers for these additional uses will be more than counterbalanced by the advantages gained in preventing the streets being disturbed, besides a revenue can be collected from the companies or persons for use of the same.

In the creation of a system of sewerage suited to the city and county, it is desirable that the expenditures shall not create any bonded indebtedness, for when the plan is adopted, the work can progress from year to year in the construction or reconstruction, as the case may be, of the sewers most important, to accomplish the desired results. In this way, appropriations can be made each year on the estimated expenditures and the work proceed under able and scientific scrutiny, with better results than if the entire construction or reconstruction were to be proceeded with at once and millions of money expended within a few years. What is now desired is an intelligent and comprehensive system to save expenditures, which otherwise under our present method of constructing sewers are practically for temporary makeshifts and probably the purpose of house sewerage in some particular block, useless in so far as forming part of any future system Under a system, all sewers to be constructed at the expense of property owners would be intelligently constructed.

A plan once adopted will have the most beneficial results, and in effect will lead to a sewer system being created at a comparative moderate and reasonable expenditure. A cardinal proposition must be observed that in the construction or reconstruction of sewers they must be subject to the supervision and inspection of a competent engineer.

The following extracts from a very able article on "Sewage Disposal in Cities," by J. S. Billings, M. D., are presented as showing very clearly the condition of sewerage in many cities and the Spartan method of remedying this evil and are applicable to our present condition:

"Some large cities have sewers badly planned and worse constructed, leaky, clogged; so nearly level in some places as to be little more than long cesspools, with outlets so placed as to silt up docks and befoul the sides of piers and shipping. * * * buried monuments of the ignorance of the men who planned them, of the rascality of those who constructed them, and of the blind folly of those who are responsible for their continuance. * * * To fully appreciate the loss of health and wealth which occurs in this way, we must study the vital statistics of different localities for long periods, and we shall then find that in all towns in which a proper system of sewerage has been introduced, the death rate has been reduced. In the preparation of plans for a system of sewerage for a city the following points must be considered, viz.:

"The ultimate disposition of the sewage, position of the outlet, area to be sewered, proportion of rainfall to be admitted to the sewers, nature and amount of water supply, population to be provided for, topography of the place, drainage, whether there is a necessity for pumping works means of flushing and cleansing the sewers and provisions for their ventilation. * * * No one system is best for all places. * * * Sewers cost money, but there is no better investment for property owners. The cost of a system of sewers for a city varies from five to fifteen dollars per head of population, and the increase in value of real estate, which they serve, varies from 10 to 25 per cent. It seems to be a common idea that any one who can run levels and plot contour lines can plan a system of sewerage; that the average contractor can be trusted to carry out the plans properly, and that when the work is completed anybody is fit to take care of it. All this is a great mistake. Properly constructed sewers are among the most permanent works of the engineer. They should last for hundreds of years, and be planned for the future as well as the present, and the employment of the best experts obtainable, both for the preparation of the plans and the careful superintendence of the construction, is the only true economy.

"The supervision of the sewers, after they are constructed, should also be given to a skilled engineer, and it should include all house connections. In a system of sewers thus planned, constructed and managed, there will be no collection of dangerous and offensive gases, and no risk of the causation and spread of disease through their agency. The greatest difficulty in the way of obtaining such a system in most of our large cities is the fact that they already have a number of underground channels, forming a dilapidated patchwork, which they are pleased to call a system of sewers, and which they are unwilling to abandon.

"The wisest course in such a case is often to begin entirely anew and carry out a proper plan. As such a plan is for the benefit of future generations, no less, and even more, than for the present one, it is eminently proper that a large part of the burden of the cost of its construction should be borne by the future population, and there are no objects of municipal expenditure for which it is more proper to defray the cost by borrowing money, than for a pure water supply and for sewerage.

"As regards water supply this is now generally admitted; but the public does not yet understand that sewers are equally important—that, in fact, the one necessitates the other; and the sooner that lesson is learned and acted upon, the better it will be for all concerned, but especially for four classes, viz.: owners of city real estate, merchants, the industrious poor and young children."

On the question of providing for the cost of the construction of a system of sewerage, while your committee differs for reasons given with the views expressed, yet Professor George Davidson in his report appears to agree with Dr. J. S. Billings, as the following extract shows, viz: "The question of the manner of paying for this important undertaking naturally comes to the front. The cost is a matter embraced in any project of engineering. In this case, if the limit of one dollar per hundred taxation be the inflexible rule of the city's financial policy, the sewerage must remain not only ineffective but destructive to property and to health. As the population increases all the disadvantages, and the cost, must be multiplied in even greater ratio. Other large municipalities have undertaken such works upon the same principle that the artisan, without present means, builds a home for his family and pays interest on the money advanced by the lender until the principal is paid off. In other words, the municipality can afford to mortgage its credit for such a substantial and necessary improvement by giving its bonds as consistently and safely as the mechanic can mortgage his lot and house whereby he may construct the latter. Such bonds would enable the city to obtain money as needed at the lowest possible rates."

The cost of the construction of sewers in this city and county, from the earliest record in the year 1858-59, so far as the same can be ascertained, up to June 30, 1891, is as follows:

Brick sewers	$3,761,447	
Cement pipe sewers	188,339	
Iron-stone pipe sewers	1,085.180	
Total	$5,034,966	
Intercepting sewers constructed by the city and county and known as the Channel street, Army street and Lombard street sewers	362,441	
Total		$5,397,407
Redwood sewers		448,550
Grand total		$5,845,957

From the fiscal year 1880-81 to June 30, 1891, inclusive, of the above amount there was expended in the construction of brick, cement pipe and iron-stone pipe sewers, cesspools and manholes and covers the sum of $1,631,909.

Thomas Ashworth, Esq., who filled the position of Superintendent of Public Streets for a period of four years, in his annual report for the fiscal year 1886-87, in calling attention to the want of a plan of sewerage, reported that during his administration he caused the sewers to be constructed so that the same could be utilized and form a part of any future plan, the following being an extract from said report applicable to the subject, viz.:

"Sewers.—Considerable public attention has been given lately to the question of designing and adopting a proper system of sewers, and I am satisfied that this will have to be done in the near future. I presume that the system or plan which will be most acceptable will be that which will aim to utilize, as far as possible, those which have already been constructed. With this idea in view, I have aimed to have all the sewers which have been constructed since my advent to this office built of sufficient capacity to suit the locality in which they are situated, and also large enough to receive and discharge the flow of all those which may be tributary to them."

The present Superintendent of Public Streets, James Gilleran, Esq., in his annual report of 1890-91 makes the following representations and recommendations in reference to a sewer system, viz.:

"Sewers.—The sewerage question still remains the most important of all questions which concern the public health. The formulation of a general plan adapted to the necessities of the inhabitants and the proper drainage of the city is still unperformed. This work your honorable Board should attempt in the near future. It is true that many of the outlying districts can be effectually sewered by special plans or local systems, as has been done in the Point Lobos district, and can be done in all portions of the city and county, outside the charter line of 1851, but the necessity for a general plan, embracing these local systems wherever their outlets come inside said charter line, is increased and not diminished by their construction. The sewers heretofore constructed in this city reach the waters of the bay through outlets which are all under water at high tide. The sewage matter is thus backed up along the lower levels, creating a nuisance which cannot be abated by any exertion I may make.

"To remedy this evil competent engineers should be employed to prepare a plan for the sewering of the entire city. The principal feature in any plan which may be presented will be the construction of a large receiving sewer adjacent to the water front, on a level low enough to insure the proper delivery of all sewers emptying into it, and terminating in a reservoir, from which the matter could be pumped into the bay."

The Hon. E. B. Pond, who as Supervisor for four years and Mayor for the same period had experience as to the requirements of the city in this respect, in his message to the Board on January 3, 1887, called attention to the matter as follows:

"It is to be expected that with a new charter we shall be able to carry out a thorough and intelligent reconstruction of our sewerage system, which is now much needed." And again on January 7, 1889, he called the attention of the Board to the necessity of taking action, as follows: "Urgent necessity, as well as your pledge, requires you to take up the question of the reformation of the sewerage system. Steps should be taken at once to carry out your pledge in this regard. No hasty or ill advised system should be adopted, and only after very careful consideration and under competent advice should you decide what steps are necessary to be taken."

Your committee in conclusion beg leave to state that while the matter presented may appear cumulative, it is pertinent in so important a matter, as expressing the opinions of experienced persons, who have given more or less attention to this subject, and the views expressed have been the means by which your committee have formulated (and now present for your action) the proposed method of ascertaining the condition of the present sewers, preparing the information for consideration of engineers, and then of inviting plans.

We also beg leave to state that his Honor Mayor Sanderson and other members of the Board with your committee have considered and discussed this subject from every possible standpoint since our advent into office, and we believe the conclusion reached as to the best mode of obtaining information and inviting plans will commend itself to those best qualified from experience to judge

In the matter of the preliminary expenses to obtain the information as to condition, character depth, etc., of the present sewers now constructed and appurtenances and its preparation in alphabetical form, with the map showing sewers, grades and topography of the city and county, it will be the duty of this Board to provide a sufficient amount therefor in the tax levy of the next fiscal year. As it may be reasonably expected, if the work progresses as proposed, that the plans will be received, passed upon and the best plan adopted by our successors in office about May or June, 1893, it will also be proper to provide in said levy sufficient to pay the premiums to be awarded.

In the mean time, your committee recommend that they be instructed to consult with and as certain from the Professor of Civil Engineering in the State University whether a sufficient number of the students are so far qualified and can be spared to make such examination of the sewers now constructed and prepare the data and the map required, and, if such there be, to ascertain the amount of monthly compensation to be paid therefor; also, if necessary, to then make application to the Board of Regents of said university for a detail of a sufficient number of students for the purpose, a competent person to be designated by said Professor of Engineering to take charge of said students to direct and supervise their labors.

As the information desired is for engineers, and skilled labor and ability is required, it would be best to have the data prepared by persons having some engineering knowledge; besides it would give some practical experience to the students, which cannot fail to be of benefit as well as a credit to them, if the work, as no doubt it will, be well performed.

This, in the opinion of your committee, is the first step to be taken in the proceeding.

D. B. JACKSON,
WM. WILKINSON,
JAS. W. BURLING,
JOS. E. ARTIGUES.

In the New York Engineering Record of February 13, 1892, the following article appeared deprecating the mode suggested of offering premiums for a system of sewerage:

GAMBLING FOR A SEWERAGE PLAN.

"A remarkable proposition is reported in our news columns of last week as emanating from the Street Committee of the Board of Supervisors of San Francisco. As is well known, that city is suffering from a most inadequate sewerage system, due primarily to wretched designs, or, indeed, no designs at all, to say nothing of poor construction. It is proposed by the committee to offer four premiums for plans and specifications for a new sewerage system; the author of the first and successful plan to receive $25,000; of the second, $10,000; of the third, $5,000; and of the fourth, $2,500. This seems a most effective way of throwing away more than $40,000 for plans which, in all reasonable probability, will be of very little use to the city. An engineer of the experience and capacity requisite for the formulation of suitable sewerage plans for San Francisco will not invest in a lottery of this sort the time and expense necessary to prepare a scheme to which he would feel safe in attaching his name. If the competition is to be honestly conducted, and it is not proposed to go a-fishing for information and then evade payment to the foolish men who may attempt to furnish it, upon the usual plea that none of the plans are satisfactory, and hence all must be rejected, $40,000 will be spent for a mass of suggestions which will leave the city in the same position it is in to-day. Indeed, if competent experts are to be employed to decide as to the merit of the plans, and to select one for execution, they will have to be paid about as much as if they were employed to prepare them outright, since it is a very different problem from the selection of a design for a building. It would seem much more sensible and to the point to appropriate $25,000, select three engineers of eminence in this branch of engineering, and employ them to prepare a plan. When

hey have agreed upon one, there is, doubtless, ample engineering ability in the city of San Francisco to see that it is properly carried out."

In connection with the foregoing report of the Committee on Streets the following resolution was introduced and adopted by the Board, on January 25, 1892, instructing the Street Committee to consult with Professor Soule of the Engineering Class of the State University in reference to obtaining the students to examine and compile information as to condition of existing sewers, to-wit:

RESOLUTION No. 6362—(Third Series.)

RESOLVED, That the Committee on Streets, etc., be and are hereby instructed to consult with and ascertain from the Professor of Civil Engineering in the State University whether a sufficient number of the students in the engineering class are so far qualified and can be spared to make such examination of the sewers now constructed to ascertain their condition, character and depth below grade; to prepare tabular statements of the data obtained arranged alphabetically according to the names of streets; also, to prepare a large map of the city and county showing the sewers constructed and those under construction; the established grades and the topography of the city and county.

RESOLVED, That if students in the engineering class can be obtained to ascertain the amount of monthly compensation to be paid for said services to be performed; also, if necessary, to then make application to the Board of Regents of the State University for a detail of a sufficient number of students for the purposes aforesaid; also, that said Professor of Civil Engineering be empowered to designate a competent person to take charge of said students to direct and supervise their labors under the instruction of the committee.

The Committee on Streets had a consultation with Professor Soule and other engineers in reference to the questions referred and as to the mode proposed to obtain a sewerage system, the result of which was to abandon the premium system and in lieu thereof to appoint a Board of Engineers to devise a system, which is embodied in a report made by said committee on March 7, 1892, of which the following is a copy:

REPORT OF COMMITTEE ON STREETS.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—Your Committee on Streets, Wharves, Grades and Public Squares, in the matter of inaugurating proceedings looking to obtaining a sewerage system for this city and county, would respectfully report that pursuant to instructions received from your honorable Board, as embodied in Resolution No. 6362 (Third Series), your committee had a conference with Professor Frank Soule of the State University in reference to whether a sufficient number of the students were qualified and could be obtained to assist in making an examination of the sewers now constructed and prepare the data required. It was learned from that gentleman that the students could not be spared until after their graduation, in the month of June next, at which time at least eight students would graduate, and then, undoubtedly, their services could be obtained, and that under the supervision of a competent engineer they could perform the work and collect all the data required.

It was ascertained that those students were bright, energetic young men, possessing considerable technical knowledge, and this opportunity would give them some practical work and experience alike advantageous to them and to the city.

Your committee was also favored with the Professor's views as to the best mode, in his judgment, to obtain a sewerage system, and while agreeing with your committee as to the necessity of first obtaining all information in reference to the condition of the present sewers, it was his opinion that after obtaining full and reliable data, the task of devising a system should be entrusted to a Board of Engineers of well known standing and experience. In this way the city and county could acquire a scientific system at about the cost of what it was proposed to pay as premiums for the plans to be invited. There was nothing, in the Professor's opinion, very profound about devising a sewer plan, as in addition to the practical experience of engineers, the literature of sanitary engineering was very extensive, and by judicious reading, engineers could learn all about the best results that have been obtained and indorsed in various large cities.

Your committee have also conferred with other eminent engineers, and the opinion of Professor Soule has been corroborated in this particular, that on obtaining the information required as to the existing sewers, a Board of Engineers should be appointed, consisting of two Government engineers, two other engineers of known ability and standing, and one business man, whose experience and position would fit him in every way to be an energetic and competent coadjutor in this eatly needed work.

Your committee, in making their recommendations in a former report as to the invitation of plans and suggesting premiums to be offered, were and are not in favor of any particular mode, being desirous only of proceeding in the most approved way to bring about the best results, and in this particular must defer to the opinions of practical and scientific engineers who are authorities upon this question. All your committee and this Board desire is, to forward this work so as to lead to the adoption of a system sufficient for the present and future requirements of this city.

Your committee are decidedly in favor of the appointment of five persons as suggested by engineers, as being the best means of obtaining what is wanted, and recognizing the importance of defining and securing at once the mode of devising a system and placing the same in the hands and under the charge and direction of competent scientific gentlemen, recommend that Professor George Davidson, Colonel Mendell and Irving M. Scott be empowered to select two engineers, who, with the gentlemen named, shall constitute a Board of Engineers to devise and provide a system of sewerage for this city and county. These appointments, it is believed from the known position and ability of the gentlemen selected, will be eminently satisfactory, and tend to insure the best results, free from all political or other considerations.

In order to facilitate this work, steps must be at once taken to commence operations to intelligently direct the force to be employed to obtain the data required, as indicated in a former report.

First.—A competent engineer must be appointed at once, to lay out the work to be done, to prepare instructions for working parties, to divide that portion of the city into districts where the sewers are to be examined, to provide for the compilation of the data obtained, also to make and furnish an estimate of the expense to be incurred, so that this expenditure may be included in the levy for taxes of the next fiscal year (to be made in the month of June) to allow the work to be commenced on the 1st day of July of this year.

Second.—On the said 1st of July the actual work will be commenced to ascertain the material, depth, size and condition of each sewer in each block and crossing, and their connections, etc. A large map of the city and county will also be commenced, on which will be shown the sewers constructed, and those under construction, the established grades, with the topography of the city and county delineated thereon .

As heretofore suggested, it is proposed to employ—first, a competent, experienced engineer at once to prepare and plan out the work to be done, and submit an estimate of the expense of obtaining the data; second, to employ the eight (more or less) graduates of the engineering class of the State University, with a sufficient force on and from July 1st to perform and complete all the work required within a period of from three to four months thereafter.

The question necessarily arising, in the judgment of your committee, of paramount importance was the selection of an experienced engineer to take charge of this work. The only object being to select a gentleman whose experience and ability as an engineer would be acknowledged and conceded by well known and distinguished engineers, whose opinions would be based on the qualifications and standing of the person recommended, and whose judgment and preference would be wholly independent of political and personal friendship, induced your committee to consult with Professor George Davidson of the United States Coast and Geodetic Survey, and Colonel Mendell of the United States Engineers and other gentlemen, who unqualifiedly recommended William P. Humphreys, Esq. (formerly and for many years Surveyor of this city and county) as an engineer of undoubted experience, to lay out and perform the work of obtaining and classifying all the required data as to the sewers now constructed.

On the completion of this work, as stated, it will then be in order to have the Board of Engineers devise a plan which, since your committee's consultation with the engineers named, seems to be best calculated to obtain a sewerage system.

Your committee have ascertained from Wm. P. Humphreys, Esq., that he will accept this appointment at a compensation of $300 per month for the present, and that in no event will the expense of preparing instructions, laying out the work, preparing estimates, etc., until July 1, 1892, exceed the sum of $600 per month, As this gentleman possesses surveyor's instruments, reference books, etc., relating to sewerage, and necessary surveyor's furniture and other data acquired by his former experience in sewerage matters, all of which will be used by him in his employment for this service, the expense of acquiring the information required will be reduced to a minimum.

Your committee, therefore, recognizing the importance of proceeding at once, recommend the appointment of Wm. P. Humphreys, Esq., as engineer in charge, to prepare for and to supervise the work to be performed in obtaining the data showing the condition, etc., of the existing sewers, etc.; and on his appointment by your honorable Board, that he be furnished suitable rooms to proceed with the proposed work.

Your committee beg leave to state that Supervisor Ellert has taken an interest by assisting your committee in this matter, and has advised with Professor George Davidson and Colonel Mendell in relation thereto.

The Board at the same meeting adopted by unanimous vote the following resolutions providing for the appointment of a Board of Engineers to devise a system of sewage; also appointing Wm. P. Humphreys, Esq., as engineer in charge to prepare for and supervise the work of obtaining and classifying the data showing the condition of the present sewers, to-wit:

RESOLUTION No. 6612 (Third Series).

Resolved, That Professor George Davidson, of the United States Coast and Geodetic Survey, Colonel George H. Mendell, of the United States Corps of Engineers, and Irving M. Scott, Esq., be and are hereby empowered to select and appoint two engineers, and when the same are so appointed that they, with the gentlemen named, shall constitute a Board of Engineers on and from September 1, 1892, to devise and provide a system of sewerage for this city and county, as proposed in the report of the Committee on Streets, etc., of this Board, made on January 25, 1892.

RESOLUTION No. 6613 (Third Series).

Resolved, That William P. Humphreys be and he is hereby appointed as engineer in charge to prepare for and supervise the work to be performed in obtaining and classifying the data, etc., showing the condition of the sewers now constructed and under construction in this city and county, and to furnish an estimate of the expense to be incurred in accordance with the report of the Committee on Streets, etc., of this date.

The "New York Engineering Record," the same authority as formerly quoted from, contained the following article on March 26, 1892, commending the action of the Board in abandoning the premium plan for obtaining a sewer system:

"We are glad to learn that the San Francisco Board of Supervisors has now determined upon a more sensible manner of procuring plans for the sewerage of the city than by the proposed competition referred to in our issue of February 13. It has authorized the formation of a Board of Engineers to study and report upon the problem. This Board will consist of Professor George Davidson, Colonel Mendell, U. S. A., Irving M. Scott and two engineers to be named by them. William P. Humphreys, formerly City and County Surveyor, will make an examination of and report upon the 227 miles of existing sewers, and this, together with the data bearing on their construction, will form the base of operations of the expert board. Mr. Humphreys' previous official labors are said to have comprehended a vast amount of work which will be available in the present inquiry. This work will probably be concluded by July, and the expert engineers are then expected to devise the plan best calculated to obtain a sewerage system ample for the present and future requirements of the city. This is in the line of the suggestion made in these columns, and is a dignified and business like way to secure an improvement of the present disgraceful condition of that city's sanitary works."

The proceedings necessary to obtain data were commenced under the direction of William P. Humphreys, Esq. On June 18, 1892, the following estimate of the amount required to prosecute the work during the fiscal year 1892-3 was filed with the Finance Committee, to-wit:

ESTIMATE OF WILLIAM P. HUMPHREYS.

San Francisco, Cal., June 17, 1892.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

Gentlemen: In conformity with instructions embodied in Resolutions Nos. 6612 and 6613 Third Series), adopted March 7, 1892, by your Honorable Body, the former resolution referring to

the appointment of a Board of Engineers to devise and provide a system of sewerage for this city and county, and the latter resolution to my appointment as engineer in charge to prepare for and supervise the work to be performed in obtaining and classifying the data, etc., showing the condition of the sewers now constructed and under construction in this city and county, and to furnish an estimate of the expenses to be incurred in accordance with the report of the Committee on Streets, etc., bearing date of March 7, 1892, I beg leave to report the following:

The early completion of a large map on which is shown all sewers constructed and being constructed as given in the official or other records, which aggregate approximately two hundred and fifty-two miles.

Also, a book of records giving all sewers with their size, depth, as recorded, and the material of which they are constructed.

Also, a smaller map on which is indicated all sewers, which map I have divided into twenty-eight districts, six of these districts being special, in order that the condition of the sewers, their material, size, depth, construction, connections, flow of sewerage, etc., may be more speedily and thoroughly examined.

All sewers in such streets as Market, Kearny and those north and east of the same, owing to the busy condition of these streets, will have to be entered and examined at night.

To accomplish this work speedily at least eight parties should be placed in the field and furnished with the necessary implements comprising picks, ladders, tapes, light iron rods, etc.

For the completion of all office work in regard to said sewers, including a large map showing the same, with their sizes, materials used in their construction, together with the city grades, as now established, including field books and office stationery, will require the sum of four thousand dollars ($4,000.00).

Before arriving at an estimate of the expenses to be incurred, including the preparation of the data and also the expenses of the commission, I have conferred with the gentlemen designated in your Resolution No. 6612 (Third Series) and later submitted to them an estimate of the amount required for the next fiscal year to consummate the work contemplated, which amount has received their written approval, and said estimate is herewith submitted:

Examination of all sewers, with maps and office work appertaining thereto.....	$4,000 00
Field work—lines, levels, stakes and stone monuments for 280 miles of streets.....	16,797 00
Office work—all plans, estimates, drawing of machinery, computations for sewerage system, together with maps and profiles for estabiishing grades..... ...	17,325 00
	$38,122 00

To which should be added the salaries of the commission to be determined by your Honorable Board.

I do not deem it proper to offer any suggestions regarding the proposed sewerage system, as in my opinion the matter can be safely left to the commission appointed by your Honorable Board to prepare the same.

In conclusion I beg to acknowledge the assistance so cheerfully rendered me by both the Street and City Engineers' Departments in the examination of their respective records.

All of which is respectfully submitted.

WM. P. HUMPHREYS,
Engineer in charge of collection of data for sewerage system.

At the request of His Honor Mayor Sanderson and the members of the Board of Supervisors, the President of the U. S. authorized the detail of Professor George Davidson of the Coast and Geodetic Survey, and Col. Geo. H. Mendell of the Engineer Corps, to supervise and assist in the preparation of a system of sewerage for San Francisco.

The amount of $35,500 was included in the levy for Street Department purposes and appropriated for the expense of the commission to devise a sewerage system for the fiscal year 1892-3.

Public Contracts Awarded

Under the Act of the Legislature of April 3, 1876 (Statutes 1875-6, page 854), the Board of Superiod than two years.

The following Schedule comprises a list of all the contracts awarded (annually, except where the different institutions enumerated, which are all required to be of the best quality; material for etc.; with the names of the contractors and the duration of the contracts. The Forage and Fuel enumerated and noted with a star are to be delivered by the contractors at the respective Engine, be delivered upon requisition approved by the proper standing committees of the Board of Super-

Street Railroad Corporations.

The following tables comprise all the existing franchises granted by the Board of Supervisors of the City and County of San Francisco to persons and corporations to construct, maintain and operate Street Railroads in said City and County, together with extracts from the Civil Code which confer authority upon the Board of Supervisors to make such grants; a copy of the Act of the Legislature fixing the rates of fare, with copies of orders passed by said Board providing general regulations and duties to be observed and performed in the conduct and operations of said roads:

PROVISIONS OF CIVIL CODE RELATIVE TO STREET RAILROADS.

§ 470. No railroad corporation must use any street, alley or highway, or any of the land or water within any incorporated city or town, unless the right to so use the same is granted by a two-thirds vote of the town or city authority from which the right must emanate.

§ 471. Repealed April 1, 1878. Amendments 1877-78, 84.

§ 497. Authority to lay railroad tracks through the streets and public highways of any incorporated city or town may be obtained for a term of years, not exceeding fifty, from the Trustees, Council or other body to whom is intrusted the government of the city or town, under such restrictions and limitations, and upon such terms, and payment of license tax, as the city or town authority may provide. In no case must permission be granted to propel cars upon such tracks otherwise than by electricity, horses, mules, or by wire ropes running under the streets and moved by stationary engines, unless for special reasons in this title hereinafter mentioned; provided, however, that such Board or body in granting the right, or at any time after the same is granted, to use electricity or any other of said modes, shall have power to impose such terms, restrictions and limitations as to the use of streets and the construction and mode of operating such electric and other roads as may, by such Board or body, be deemed for the public safety or welfare (as amended February 25, 1891, Statutes 1891, Page 12).

§ 498. The city or town authorities in granting the right of way to street railroad corporations, in addition to the restrictions which they are authorized to impose, must require a strict compliance with the following conditions, except in the cases of prismoidal or other elevated railways. In such cases said railway shall be required to be constructed in such a manner as will present the least obstruction to the freedom of the streets on which it may be erected, when allowed by the granting power:

First—To construct their tracks on those portions of streets designated in the ordinance granting the right, which must be as nearly as possible in the middle thereof.

Second—To plank, pave or macadamize the entire length of the street used by their track, between the rails and for two feet on each side thereof, and between the tracks, if there be more than one, and to keep the same constantly in repair, flush with the street and with good crossings.

Third—That the tracks must not be more than five feet wide within the rails, and must have a space between them sufficient to allow the cars to pass each other freely. [As Amended April 3, 1876. Amendments 1875-6, 77.]

§ 499. Two lines of street railway, operated under different managements, may be permitted to use the same street, each paying an equal portion for the construction of the tracks and appurtenances used by said railways jointly; but in no case must two lines of street railway, operated under different managements, occupy and use the same street or tracks for a distance of more than five blocks consecutively. [As amended February 25, 1891. Statutes 1891, Page 13.]

§ 500. Any proposed railroad track may be permitted to cross any track already constructed, the crossing being made as provided in Chapter II, Title III, of this part. In laying down the track and preparing therefor, not more than one block must be obstructed at any one time, nor for a longer period than ten working days.

§ 501. The rates of fare on the cars must not exceed ten cents for one fare, for any distance under three miles. The cars must be of the most improved construction for comfort and convenience of passengers and provided with brakes to stop the same, when required. The rate of speed must not be greater than eight miles per hour. A violation of the provisions of this section subjects the corporation to a fine of one hundred dollars for each offense. [See Act of January 1, 1878, for Rates of Fare.]

§ 502. Work to construct the railroad must be commenced within one year from the date of the ordinance granting the right of way and the filing of articles of incorporation, and the same must be completed within three years thereafter. A failure to comply with these provisions works the forfeiture of the right of way as well as of the franchise, unless the uncompleted portion is abandoned by the corporation, with the consent of the authorities granting the right of way—such abandonment and consent to be in writing.

§ 503. Cities and towns in or through which street railroads run, may make such further regulations for the government of such street railroads as may be necessary to a full enjoyment of the franchise and the enforcement of the conditions provided herein.

§ 504. Any corporation or agent or employee thereof, demanding or charging a greater sum of money for fare on the cars of such street railroad than that fixed, as provided in this Title, forfeits to the person from whom such sum is received, or who is thus overcharged, the sum of two hundred dollars, to be recovered in a civil action, in any Justice's Court, having jurisdiction thereof, against the corporation. [See Act of January 1, 1878, for Rates of Fare.]

§ 505. Every street railroad corporation must provide, and, on request, furnish to all persons desiring a passage on its cars, any required quantity of passenger tickets or checks, each to be good for one ride. Any corporation failing to provide and furnish tickets or checks to any person desiring to purchase the same at not exceeding the rate hereinbefore prescribed, shall forfeit to such person the sum of two hundred dollars; to be recovered as provided in the preceding section, provided that the provisions of this section shall not apply to such street railroad corporations as charge but five cents fare. [As Amended March 13, 1883; Amendments 1883-84.]

§ 506. Upon the trial of an action for any of the sums forfeited, as provided in the two preceding sections, proof that the person demanding or receiving the money as fare, or for the sale of the ticket or check, was at the time of making the demand or receiving the money, engaged in an office of the corporation or vehicle belonging to the corporation, shall be prima facie evidence that such person was the agent, servant or employee of the corporation, to receive the money, and give the ticket or check mentioned. [As Amended March 30, 1874. Amendments 1873-4, 213.]

§ 507. In every grant to construct street railroads, the right to grade, sewer, pave, macadamize or otherwise improve, alter or repair the streets or highways, is reserved to the corporation, and cannot be alienated or impaired; such work to be done so as to obstruct the railroad as little as possible, and, if required, the corporation must shift its rails so as to avoid the obstructions made thereby. [As Amended March 30, 1874. Amendments 1873-4, 214.]

§ 508. Each street railroad corporation must pay to the authorities of the city, town, county, or city and county, as a license upon each car, such sum as the authorities may fix, not exceeding fifty dollars per annum in the city of San Francisco, nor more than twenty-five dollars per annum in other cities or towns. Where any street railroad connects or runs through two or more cities or towns, a proportionate or equal share of such license tax must be paid to each of the cities or towns; and no such license tax is due the county authorities where the same is paid to any city or town authority.

§ 509. The right to lay down a track for grading purposes, and maintain the same for a period not to exceed three years, may be granted by the corporate authorities of any city or town, or city and county, or Supervisors of any city or county, but no such track must remain more than three-

years upon any one street; and it must be laid level with the street, and must be operated under such restrictions as not to interfere with the use of the street by the public. The corporate authorities of any city or town, or city and county, may grant the right to use steam or any other motive power in propelling the cars used on such grading track, when public convenience or utility demands it, but the reasons therefor must be set forth in the ordinance, and the right to rescind the ordinance at any time reserved.

§ 510. Street railroads are governed by the provisions of Title Three of this Part, so far as they are applicable, unless such railroads are therein specially excepted. [As Amended March 30, 1874. Amendments 1873-4, 214.]

§ 511. When a street railroad is constructed, owned or operated by any natural person, this Title is applicable to such person in like manner as it is applicable to corporations.

RAILROAD TRACKS TO BE LAID DOWN WITHIN TEN FEET OF CENTER OF STREET.

AN ACT CONCERNING RAILROAD COMPANIES IN THE CITY AND COUNTY OF SAN FRANCISCO.

[APPROVED MARCH 21, 1868.]

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. The Board of Supervisors of the City and County of San Francisco shall have, and is hereby granted, the power and authority to restrict all railroad companies, in laying down their tracks along the streets of said city and county, to a space of not more than ten feet on each side of the center of such street or streets; and for a violation of such restriction the said Board is hereby granted the power to prescribe and enforce such penalties as they may deem just and proper.

STEAM WEST OF EAST LINE OF LARKIN AND NINTH STREETS.

ACT OF THE LEGISLATURE.

An Act to confer additional powers upon and to authorize certain appropriation of money by the Board of Supervisors of the City and County of San Francisco.

(Approved March 26, 1878.)

SECTION 1. The Board of Supervisors of the City and County of San Francisco are hereby authorized and empowered * * * to exercise the following powers, to-wit: * * *

9th. To grant to street railroad companies the right to use steam to propel cars over such roads, or parts of roads, in the suburbs of the City and County, as in the discretion of the Board may be proper and for the public convenience, under such restriction as contained in those portions of the Civil Code applicable to streets or railroads; provided, that such privileges shall only be granted to roads operated west of the east line of Larkin street and west of the east line of Ninth street.

ACT OF THE LEGISLATURE FIXING RATES OF FARE.

An Act to limit and fix the rates of fares on Street Railroads in cities and towns of more than one hundred thousand inhabitants.

(Approved January 1, 1878.)

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. No street railroad in any city or town of this State, with more than one hundred thousand inhabitants, shall be allowed to charge or collect a higher rate of fare than five cents for each passenger per trip of any distance in one direction, either going or coming, along any part of the whole length of the road or its connections.

SEC. 2. Every violation of the provisions of Section 1 of this Act shall subject the owner or owners of the street railroad violating the same to a forfeiture to the person so unlawfully charged, or paying more than is therein allowed to be charged, the sum of two hundred and fifty dollars for each and every instance where such unlawful charge is made or collected, to be recovered by suit in any court of competent jurisdiction. Such causes of action shall be assignable, and the action may be maintained by the assignee in his own name, and several causes of action arising out of unlawful charges or collections from different persons may be vested in the assignee and united in the same action.

SEC 3. This Act shall be in force from its passage.

ACT OF THE LEGISLATURE.

VALIDATING FRANCHISES GRANTED TO USE ELECTRICITY—PROVISO.

AN ACT TO CONFIRM, RATIFY AND MAKE VALID ORDINANCES HERETOFORE PASSED BY THE TRUSTEES, COUNCIL, OR OTHER BODY INTRUSTED WITH THE GOVERNMENT OF ANY INCORPORATED CITY, CITY AND COUNTY, OR TOWN, GIVING AUTHORITY AND PERMISSION TO PROPEL CARS UPON RAILROAD TRACKS LAID THROUGH THE STREETS AND PUBLIC HIGHWAYS OF SUCH INCORPORATED CITY, CITY AND COUNTY, OR TOWN, BY ELECTRICITY.

(Approved February 25, 1891.)

The People of the State of California, represented in Senate and Assembly, do enact as follows:

AUTHORITY TO LAY RAILROAD TRACKS—ELECTRICITY.

SECTION 1. In all cases where, prior to the passage of this Act, authority to lay railroad tracks through streets or public highways of any incorporated city, city and county, or town, has been obtained for a term of years not exceeding fifty, from the Trustees, Council, or other body to whom was intrusted the government of the city, city and county, or town, and permission has been granted by such governing body to propel cars upon such tracks by electricity, such authority and permission shall be, and shall be held and deemed as valid and legal as the same would have been if, at the time of the obtaining thereof, section four hundred and ninety-seven of the Civil Code had expressly declared that permission might be given to propel cars upon such tracks by electricity, as well as by horses, mules, or wire ropes running under the streets and propelled by stationary steam engines; provided, that all such permissions or franchises heretofore granted shall be subject to the provisions of the laws of this State applicable to street railroads in general, and subject to the same regulations from city, city and county, and town authorities as if the said franchises were hereafter granted.

SECTION 2. This Act shall take effect and be in force from and after its passage.

The following Orders and extracts from Orders of the Board of Supervisors relative to Street Railroads are presented as their provisions apply to the franchises granted by the Board:

EXTRACT FROM "ORDER No. 1587."

(Approved July 28, 1880.)

* * * Prohibiting Street Cars from obstructing street crossings—or ringing bells or gongs when not in motion.

SECTION 16. * * * No person having the charge or control of any beast of burden shall cause or permit the same to stand or go upon any public sidewalk or to stand upon any street crossing or upon the crosswalks thereof, or so near a street crossing, or the crosswalks thereof, as to obstruct the same, nor shall any driver, engineer or conductor of any street car permit such car to stop or remain upon any street crossing or upon the sidewalks thereof, so as in any manner to obstruct the travel over such crossing or crosswalks; provided, however, that the foregoing provision shall not apply to cable lines, where the grade of the street is such that the car cannot be stopped beyond a crossing on account of the incline of the street.

No bell or gong of any street car shall be rung or sounded when such car is not in motion, except for the purpose of giving the usual signal for starting, nor shall such starting signal be sounded unless for the purpose of actually starting said car in motion. [As Amended May 8, 1883, by Order No. 1716.]

[To Regulate the Right of way over and upon the Public Streets, and to Prohibit the Obstruction of Street Railroad Cars.]

SECTION 45. When vehicles are about to meet on any of the streets in the City and County of San Francisco the drivers of such must turn to the right of the center of the street, except on streets where street railroads are maintained; on such streets the driver of any vehicle, except street cars, must, when about to meet any other vehicle (street cars included), turn his team and vehicle not only to the right of the center of the street, but also to the right of the outer rail of the railway upon that side of the street nearest the center thereof. And no person shall obstruct the track of any legally authorized street railroad, or hinder, impede or delay any street railroad passenger car. [As Amended May 8, 1883, by Order No. 1715.]

EXTRACT FROM "ORDER No. 1588."

(Approved July 28, 1880.)

[Regulating the Construction of Railroad Tracks on Public Streets.]

SECTION 34. It shall be unlawful in the construction or maintenance of street railroads under franchises granted to construct, lay down and operate street railroads in this city and county:

1st. To construct or maintain a turn-table on any public street within eleven (11) feet of the curb line of any sidewalk without the consent of the property owner or owners in front of which the said turn-table is proposed to be placed.

2d. To construct or maintain any railroad track or tracks on the roadway of a public street within a distance of eleven (11) feet of the curb line of the sidewalk.

3d. To construct, maintain or operate more than one railroad track on the roadway of any public street which is less than thirty-five (35) feet in width. [As Amended August 21, 1883, by Order No. 1729.]

EXTRACT FROM "ORDER No. 1589." (Imposing Municipal Licenses.)

(Approved July 28, 1880.)

[Street Railroad Passenger Cars.]

SECTION 10, Sub. 12. For street railroad passenger cars, for each car drawn or propelled by steam, or by means of wire rope or cable attached to stationary steam engines, or by two horses or mules, $15.00 per annum; and for each car drawn by one horse or mule, $10.00 per annum.

EXTRACT FROM "ORDER No. 1590."

(Approved August 19, 1880.)

[Providing for the Repair and Improvement of the Public Streets and Sidewalks for Public Convenience and Travel.]

SECTION 5. The Superintendent of Public Streets, Highways and Squares is hereby empowered at his option, by serving notice upon any railroad corporation or company having a railroad franchise to operate a railroad upon any of the streets of said City and County of San Francisco, to require said railroad corporation or company to grade or regrade to the official grade, plank or replank, pave or repave, macadamize or remacadamize, or to repair that portion of the roadway of any street in this city and county over which the franchise of said railroad corporation or company empowers them to lay down their tracks and to operate their road, for the space occupied or to be occupied by and between the rails of said track or tracks. Between said tracks, should there be more than one laid, or to be laid, and for a distance of two (2) feet on either side of said track or tracks if yet to be laid, and on either side of the space to be occupied by said track or tracks if yet to be laid. And any railroad corporation or company so notified shall within ten (10) days from and after the service of said notice by said Superintendent, cause to be commenced such grading or regrading to the official grade, planking or replanking, paving or repaving, macadamizing or remacadamizing or

repairing as may be specified in said notice of said Superintendent, and shall continuously prosecute such work and improvement to its completion within such a period of time as shall have been designated by the said Superintendent in his said notice. Provided, that the said Superintendent shall in all cases require in said notice that the work and repairs to be executed by said railroad corporation or company shall be of such a character as will make the space on the roadway of said street or streets which said railroad corporation or company are required to improve, to conform to the nature of the improvement contiguous thereto on said streets, or portions of streets, whether grading or regrading, planking or replanking, paving or repaving, macadamizing or re-macadamizing.

SEC. 9. Any person violating any of the provisions of this Order shall be deemed guilty of a misdemeanor and punished by a fine not exceeding one thousand dollars, or by imprisonment not to exceed six months, or by both such fine and imprisonment,

ORDER No. 1694.

PROVIDING FOR THE CARRYING OF A BELL OR GONG BY ALL STREET CARS, AND FOR THE SOUNDING OF THE SAME WHEN APPROACHING OR PASSING OVER STREET CROSSINGS; ALSO PROHIBITING CHILDREN FROM GETTING ON OR OFF STREET CARS OR TRUCKS WHEN IN MOTION.

The People of the City and County of San Francisco do ordain as follows:

BELLS OR GONGS TO BE CARRIED ON ALL STREET CARS.

SECTION 1. Every street car, grip car or dummy propelled by means of wire ropes attached to stationary steam engines, or by a locomotive engine, or by an electric motor, plying for hire over and upon the streets of the City and County of San Francisco, shall have attached thereto a bell or gong, of a size and weight sufficient to insure its being distinctly heard when rung or sounded, at a distance of at least one hundred feet. And the person, company or corporation owning such street car, grip car or dummy who shall fail or neglect to furnish each of the said street cars, grip cars or dummies with the necessary bell or gong provided for herein shall be deemed guilty of a misdemeanor and, on conviction, shall be punished by a fine not to exceed one hundred dollars.

BELL TO BE RUNG WHEN APPROACHING A CROSSING.

SEC. 2. It shall be unlawful for the engineer, driver, conductor or person in charge of any street car, train of street cars, grip car or dummy propelled by means of wire ropes attached to stationary steam engines or by a locomotive engine, or by an electric motor, to permit said street car, train of cars, grip car or dummy to approach any street crossing in this city and county within a distance of twenty-five feet without ringing a bell or sounding a gong, which bell or gong must be rung or sounded until said street car, train of street cars, grip car or dummy shall have passed over said street crossing.

PENALTY FOR VIOLATION OF ORDER.

Any engineer, driver, conductor or person in charge of such street car or train of street cars, grip car or dummy who shall fail or neglect to ring or sound such bell or gong while said street car, train of cars, grip car or dummy is in motion and approaching within a distance of twenty-five feet of or passing over any street crossing within this city and county, and until the same shall have passed over said street crossing, shall be deemed guilty of a misdemeanor, and on conviction shall be punished by a fine not exceeding one hundred dollars, or by imprisonment not more than thirty days, or by both such fine and imprisonment.

CHILDREN UNDER SIXTEEN MUST NOT GET OFF OR ON STREET CARS, WAGONS OR TRUCKS WHILE IN MOTION—PENALTY.

SEC. 3. It shall be unlawful for any child under the age of 16 years, within the City and County of San Francisco, to get on or attempt to get on, or to get off or attempt to get off, any street car, train of street cars, grip car or dummy propelled by wire ropes attached to stationary steam engines or by a locomotive engine, electric motor, horse or horses, or any wagon or truck drawn by one or more horses, while the same or either of them are in motion. And any child under the age of sixteen years who shall violate any of the provisions of this section shall be deemed guilty of a misde-

meanor, and shall on conviction be punished by a fine not to exceed fifty dollars, or by imprisonment not to exceed one month, or by both such fine and imprisonment.

In Board of Supervisors, San Francisco, October 30, 1882.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bodfish, McKew, Shirley, Carmany, Molineux, Torrens, Bradford, Merrill, Russ, Parrish, Kennedy.

Absent—Supervisor Fisher.

JNO. A. RUSSELL, Clerk.

The above Order, No. 1694, not having been approved by His Honor the Mayor and ex-officio President of the Board of Supervisors, or returned to this Board, with objections thereto, within ten days after the date of presentation thereof, has become valid, in accordance with the provisions of Section No. 68 of the Consolidation Act.

San Francisco, November 11, 1882.

JNO. A. RUSSELL, Clerk.

ORDER No. 2172.

RESCINDING PRIVILEGES TO USE THE PUBLIC STREETS GRANTED MORE THAN EIGHT YEARS BEFORE JANUARY 1, 1890, AND UPON WHICH WORK WAS NOT COMMENCED BEFORE OR ON SAID LAST-NAMED DATE.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Every permit, privilege or franchise to use the public streets, or any or the public streets, of the City and County of San Francisco, for any purpose whatsoever granted, extended or conferred by the Board of Supervisors of said city and county more than eight years before the 1st day of January, 1890, is hereby cancelled, repealed, annulled and vacated, unless the person or persons to whom the same was granted or extended, or upon whom the same was conferred, or his or their successors or assigns, did before the 1st day of January, 1890, actually begin work thereunder and continuously from the time when said work was begun have actually operated and conducted business under such permit, privilege and franchise.

SEC. 2. It shall be unlawful for the grantee or grantees named in any permit, privilege or franchise made or granted more than eight years before the 1st day of January, 1890, or the successors or assigns of any such grantee or grantees, to use the public streets or any of the public streets of the City and County of San Francisco under such permit, privilege or franchise for any purpose whatsoever, unless said grantee or grantees, or his or their successors or assigns, did, before the 1st day of January, 1890, actually begin work thereunder, and have continuously, from the time when such work was begun, actually operated and conducted business under the same.

In Board of Supervisors, San Francisco, February 3, 1890,

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bingham, Boyd, Pescia, Bush, Ellert, Wheelan, Becker, Pilster, Kingwell, Noble.

Absent—Supervisors Wright, Barry.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, February 5, 1890.

E. B. POND,

Mayor and ex-officio President Board of Supervisors.

ORDER No. 2369.

LIMITING THE RIGHT TO PROPEL RAILROAD CARS BY ELECTRICITY IN CERTAIN PORTIONS OF THE CITY AND COUNTY OF SAN FRANCISCO.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. No person or corporation to whom there has heretofore been or to whom there shall hereafter be granted the right, privilege or franchise to lay railroad tracks through or upon any

public steeet within that portion of the City and County of San Francisco, described as follows: Commencing at the intersection of the westerly line of Van Ness avenue with the shore line of the bay of San Francisco; running thence southerly along said line of Van Ness avenue to its intersection with the northerly line of Market street; thence southeasterly to the intersection of the southerly line of Market street with the westerly line of Eleventh street; thence in a southerly direction along said line of Eleventh street to its intersection with the center line of Bryant street; thence easterly along the center line of Bryant street to its intersection with the center line of Tenth street; thence in a southerly direction along the center line of Tenth street to Channel street; thence across Channel street to its intersection with the center line of Potrero avenue; thence along the center line of Potrero avenue to its intersection with the center line of Alameda street; thence in an easterly direction along the center line of Alameda street to its intersection with the center line of Eighth street; thence along the center line of Eighth street, in a southerly direction, to its junction with Channel street; thence along the center line of Channel street to its intersection with the street two hundred feet in width on the water front known as Water Front street, constructed and to be constructed along and upon the bulkhead line; thence along and upon the bulkhead line in a northerly and westerly direction to the point of commencement, shall run, operate or propel cars or dummies thereon by means of any overhead wire, cable or other electric conductor, nor by any system requiring the erection or planting of poles or posts in the public streets, or the running, or suspension, or maintenance of wires, cables or other electric conductors above the surface of the streets.

SEC. 2. No person or corporation shall run, suspend, keep or maintain over or above the surface of any public street, within the district described in Section 1, any wire, cable, or other conductor of electricity, for the purpose of running, operating or propelling, or supplying motive power to railroad or railway cars or dummies.

SEC. 3. All rights, privileges and franchises which have heretofore been or which may hereafter be granted to any person or corporation to lay down railroad tracks through or upon any public street within the district specified in Section 1, and to run, operate or propel cars thereon by electricity, shall be subject to and controlled by the provisions of this order as fully and to the same extent as if said provisions were set forth at length in the order or resolutions granting such rights, privileges and franchises.

SEC. 4. If any person or corporation who has heretofore been granted, or shall hereafter be granted, any right, privilege or franchise to lay railroad tracks within the district described in Section 1, and to propel cars thereon by electricity, shall violate any of the provisions of this order, then such right, privilege and franchise shall immediately cease and determine, and it is hereby declared to be the duty of the Superintendent of Streets, Highways and Squares of the City and County of San Francisco to immediately remove or cause to be removed all wires, cables and other conductors run or suspended, and all posts, poles and other erections placed, planted or constructed in violation of the provisions of this order.

In Board of Supervisors, San Francisco, April 13, 1891.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Jackson, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Wilkinson.

Absent—Supervisors Evans, Taber.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, April 13, 1891.

GEO. H. SANDERSON.
Mayor and ex-officio President Board of Supervisors.

ORDER No. 2564.

REPEALING ORDER NO. 2369, LIMITING THE RIGHT TO PROPEL RAILROAD CARS BY ELECTRICITY IN CERTAIN PORTIONS OF THE CITY AND COUNTY OF SAN FRANCISCO.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Order No. 2369, limiting the right to propel railroad cars by electricity in certain portions of the City and County of San Francisco, be and the same is hereby repealed.

And the Clerk is hereby directed to advertise this order, as required by law.

In Board of Supervisors, San Francisco, September 12, 1892.

Adopted by the following vote:

Ayes—Supervisors Burling, Curtis, Ayer, Carnes, Coffee, Hunt, Taber, Wilkinson.

Noes—Supervisors Artiguez, Ellert, Heyer.

JNO. A. RUSSELL, Clerk.

FRANCHISES

GRANTED BY THE BOARD OF SUPERVISORS TO CONSTRUCT AND LAY DOWN RAILROAD TRACKS AND RUN CARS ALONG AND UPON CERTAIN STREETS FOR THE TRANSPORTATION OF PASSENGERS,

NAMES.	Order.....	Year.....	STREETS.
California Street Cable Railroad Company. (System.)			
California Street Railroad Co.	1292	1876	California street, from Kearny street to First avenue. Franchise 25 years, from June 14, 1876. Work to be commenced within six months, the road to be finished and running to Fillmore street within one year, and the entire road to be completed within two years. Cars to be attached to endless ropes, moved by stationary steam engines.
Leland Stanford, Mark Hopkins, David Porter, Isaac Wormser, P. H. Canavan, Jno. E. Shawhan, R. N. Graves, Edward B. Pond, John Taylor, B. Adolph Becker, John H. Redington, Michael Reese, Louis Sloss, David D. Colton and Chas. Crocker.			
	1302	1877	Modifying provisions of Order 1292 so that penalties and forfeitures shall not attach or begin to run until the streets are sewered. Fare five cents, tickets with five coupons to be provided and sold for 25 cents. Order approved July 26, 1877.
California Street Railroad Co.	1489	1879	Authorizing the California Street Railroad Company to abandon a certain portion of its line of railroad, and to enable it to construct an extension to its present route, viz.: To all that portion of its present line lying west of Cemetery or Central avenue, and to construct an extension on California street from Central or Cemetery avenue, west to First avenue. The cars on said extension to be moved by dummy steam engines, or by wire cable moved by stationary steam engines. The work to be completed within one year. Franchise granted by this Order as well as by Order 1292 to continue for 25 years from February 21, 1879. Abandonment by grantees filed in Clerk's office, Board of Supervisors, February 24, 1879.
Leland Stanford, D. O. Mills, Lloyd Tevis and Isaac Wormser.	1537	1879	Commencing at the junction of California street and First avenue, at the terminus of the California Street Railroad Company's railroad line; thence along California street to Sixth avenue; thence along Sixth avenue to "D" or Fulton street. Franchise 50 years, from November 29, 1879. Cars to be moved

FRANCHISES—Continued.

NAMES.	Order.....	Year.....	STREETS.
California Street Cable Railroad Company—Continued. Leland Stanford, D. O. Mills, Lloyd Tevis and Isaac Wormser—Continued			by steam dummies, horses or mules, or by wire cables moved by stationary steam engines. Acceptance by grantees filed in Clerk's office, Board of Supervisors, December 8, 1879.
California Street Railroad Company.	1538	1879	The franchises and privileges heretofore granted to the California Street Railroad Company, in and by an order entitled "Order No. 1489, to authorize the California Street Railroad Company to abandon a certain portion of its line of railroad, and to enable it to construct an extension to its present railroad, and for other purposes," passed February 17, 1879, and approved February 21, 1879, as well as the franchises and privileges granted in and by that certain order entitled "Order No. 1292," passed June 12, 1876, and approved June 14, 1876, wherein and whereby certain franchises and privileges were granted to Leland Stanford, Mark Hopkins, David Porter, Isaac Wormser, P. H. Canavan, John E. Shawhan, R. N. Graves, Edward B. Pond, John Taylor, B. Adolph Becker, John H. Redington, Michael Reese, Louis Sloss, David D. Colton and Charles Crocker, their successors or assigns, or such corporation as might be incorporated and organized by them, shall endure, continue and be in full force and effect, for the term of fifty years, from the said 17th day of February, 1879. Order approved November 29, 1879.
	R. 770	1888	Permission in conjunction with the Ferries and Cliff House railway to construct and maintain a Signal Box upon the southeasterly corner of the crossing of Powell and California streets, to regulate the movement of the cars over said crossing, and to afford protection to the signal men employed. (Resolution No. 770 (Third Series), approved June 12, 1888.)
	2058	1889	Commencing at the intersection of Jones street with the northerly line of McAllister street; thence along and upon Jones street northerly to Bush street; thence westerly along upon Bush street to Hyde street, and thence northerly along and upon Hyde street to Jefferson

Acceptance by grantees filed in Clerk's office, Board of Supervisors, September 15, 1883.
Abner Doble, William Center and William H. Hanson.	1823	1885	Commencing at the intersection of Seventh and Channel streets; thence running northwesterly and along said Seventh street to Market street; thence along, upon and across Market street to the intersection of McAllister and Jones streets with said Market street; thence along and upon Jones street to a point where said street when extended northerly will intersect the line of property now under the control and supervision of the State of California. Also, commencing at the intersection of Market and Bush streets; thence along Bush street to Central avenue; thence along Central avenue to Sacramento street; thence along Sacramento street to First avenue; thence along First avenue to D street; thence along D street to the Ocean Beach. Also, to construct all necessary and convenient stations, switches, turnouts and appliances along and upon route. Motive power—horses, mules or by wire ropes running under said streets and moved by stationary steam engines, or engines operated by means of compressed air or by electricity, or by locomotives within the legal limits. Franchise 44 years from August 4, 1885.
Sutter Street Railway Company.	1907	1887	Commencing at the intersection of Polk street and Pacific avenue, with the right to curve into and connect with the tracks now laid on Polk street; thence westerly along and upon Pacific avenue to First avenue. Also, commencing at the intersection of the northerly line of Mission street with Ninth street; thence running southerly along and upon Ninth street to the southerly line of Brannan street.

Sutter Street Railway Company—Concluded.	2308	1890	Granting the right to pave with basalt blocks such portions of its railway tracks as by Paragraph 498 of the Civil Code of this State are required to be paved, planked or macadamized by the said railway company. Order approved December 11, 1890.
	2310	1890	Commencing at the southerly side of Union street, at its junction with Polk street, with the right to connect with the double track railroad now operated by the said Sutter Street Railway Company, and thence northerly across Union street and along Polk street to Tonquin street, for a period of thirty-nine years more or less from the date of the passage of this order, to the 14th day of November, 1929, being coterminate with the rights and privileges granted by Order No. 1525, passed November 14, 1879, a single or double track street railroad, with all necessary and convenient stations, turnouts, switches, appliances and devices. Motive power—horses, mules, or by wire ropes running under said streets, and moved by stationary steam engines, or engines or motors operated by means of compressed air or by electricity. Order became valid December 23, 1890. Acceptance filed by grantees December 29, 1890.
Telegraph Hill Railroad Company. F. O. Layman. (Name changed to Telegraph Hill Railroad Company.)	1696	1882	Commencing at the intersection of Leavenworth and Greenwich streets, thence easterly along said line of Greenwich street to the Sea Wall. Franchise 50 years from November 16, 1882. Cars to be moved by horses or mules, or wire ropes moved by stationary steam engines. Rate of speed not to exceed eight miles per hour. License tax $15 upon each car used. Rate of fare not to exceed five cents. Acceptance by grantee filed in Clerk's office, Board of Supervisors, November 20, 1882.

Operation of Street Railroads.

On April 8, 1889, the Committee on Health and Police, consisting of Supervisors Pilster, Becker, Ellert and Barry, presented a report at a meeting of the Board of Supervisors, reciting that a recent accident on one of the cable railroads demonstrated the necessity for the passage of some regulations requiring improvements to be made on the cars and dummies used by cable companies, to prevent accidents and loss of life and reduce to a minimum the risks and dangers from the operation of said cable cars. Further reported that as soon as the necessary information could be obtained as to the proper safeguards, and after consultation with experienced persons, would prepare and submit an order to govern the matter.

At said meeting the committee introduced the following resolution, requesting the various cable railroad companies to take action in providing safeguards, in their own interests and that of the public, on their cars and dummies, to wit:

RESOLUTION No. 1790 (Third Series).

WHEREAS, It is important that all cable railroad companies should adopt and put in use and operation some appliance in front of the dummy for the purpose of pushing any obstable or person on the track on one side and out of danger of being seriously injured or run over; and

WHEREAS, It appears that a buffer projecting from the dummy, constructed in part of India-rubber over springs and so as to run by a wheel on the slot or on wheels on the track, or some other device, must be adopted to insure comparative safety; and

WHEREAS, It is also necessary to have guards on both sides of the dummy and the car to prevent persons from being by accident or carelessness thrown or dragged under the same and being run over; therefore

RESOLVED, That this Board hereby notifies the various cable railroad companies now operating their cars to take immediate action in the premises in their own interest and that of the public and to put the improvements suggested into operation within a period of sixty days.

RESOLVED, That said cable railroad companies are hereby required to report to this Board the appliances and safeguards constructed since the passage of this resolution and within the period designated to insure safety to the public.

RESOLVED, That the Clerk is hereby directed to transmit a copy of this resolution to the various cable railroad companies.

In Board of Supervisors, San Francisco, April 8, 1889

Adopted by the following vote:

Ayes—Supervisors Bingham, Boyd, Pescia, Ellert, Wheelan, Becker, Pilster, Kingwell, Barry, Noble.

Absent—Supervisor Bush.

JNO. A. RUSSELL, Clerk.

At a meeting of the Board of Supervisors held on May 6, 1889, the Committee on Health and Police presented the following report, submitting and recommending the passage of an order requiring the railroad companies to comply with certain regulations as conducive to the public safety:

REPORT OF COMMITTEE ON HEALTH AND POLICE.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—Your committee would further report that the recurring accidents to persons and loss of life by the operation of cable cars and dummies has induced your committee to consider as to whether it is not the duty of the Board to take some action to prevent those casualties, arising either from the carelessness and recklessness of the passenger or of the gripman or conductor of the car, or from the faulty and improper construction of the dummy and car, and to compel the various railroad companies to comply with such reasonable regulations as are necessary for the protection of life and limb.

The franchises granted to the various railroad companies are subject to this Board in the exercise of its power to protect the public safety. It is distinctly provided in their franchises that "the rights and privileges are granted to and shall be possessed and enjoyed by said grantees, their successors or assigns, upon such terms, conditions and restrictions as are now imposed or may be hereafter imposed by orders of the Board of Supervisors or the laws of the State of California," etc.

It will be perceived that this Board has the power, as it is their duty, to regulate and provide in what manner the cars and dummies shall be constructed and operated, and in obedience to a public demand, emphasized by the late unfortunate accidents, it is proper that the railroad companies, who have in their own and their patrons' interests neglected to make any changes to insure as near as may be absolute safety, should be compelled to do so.

Your committee therefore have prepared an order requiring a buffer or appliance to be attached to and in front of the dummy for the purpose of pushing any obstacle or person on the track on one side and out of danger; also requiring guards to be placed on sides of dummies and around cars to come to within two inches above the track to prevent persons from falling or being pushed under the wheels and run over or maimed. Also that after a period of six months no cars or dummies shall be used on any street where the car can be detached from the dummy, and that all cars and dummies thereafter used shall be constructed as a whole and so built as not to be detached, and in that respect similar to those cars and dummies in use on the Market and Powell Street Railroad Companies' roads.

The jolting caused by the detached dummy and car is of itself dangerous and a source of accident, and this provision of stopping the use of detached cars and dummies is one that renders easy the carrying out of other regulations, and for that reason is the most important.

HENRY PILSTER, Chairman.

On the introduction of the order, F. F. Low, Esq., a director of the Sutter Street Railroad Company, was heard in reference to the proposed regulations, and stated that the company he represented had tried about twenty appliances so far, as attachments to dummies and cars, and at present parties were engaged in endeavoring to invent some appliance that could be adopted to save human life and prevent accident; also that the railroads were interested in a monetary sense, for every accident, no matter how occasioned, was a source of expense. In addition, the directors of a railroad company were not devoid of feeling, and the bond of human sympathy made them desirous of using any practical means to avoid and prevent accident. The great difficulty in prescribing any appliance to be used was that what might be suitable and serviceable on one road, where there were level grades, would not suit another road operated over steep grades. Further that the Sutter Street Railroad Company would agree to put on any appliance that could be devised by competent mechanics that will answer the purpose, and this is just as earnestly desired by the railroad companies as it can be by the public. The cable roads embracing the Clay Street, Sutter Street, California Street and Presidio roads, were first built, and their cars and dummies are detached; also, from the construction of these roads, it would not be possible to operate attached cars and dummies unless their entire tracks were torn up and reconstructed; also that there never had been an acci-

dent on the Sutter Street Road from a person falling between the dummy and the car. Further, that as the contemplated proceeding was of great importance, and as the companies were equally desirous of adopting proper safeguards, a reference of the matter ought to be made to a committee of the Board for consultation with the officers of the various railroad companies for the purpose of evolving proper and reasonable available regulations.

After discussion the order was passed to print and referred back to the Committee on Health and Police, and Supervisor Noble requested to act as a member of the committee in the consideration of the matter; also with instructions to invite the engineers and superintendents of the various cable railroads to meet and confer with the committee relative to the adoption of a device to prevent accidents.

The following is a copy of the order passed to print as presented by the committee, to-wit:

ORDER No. ——.

REQUIRING STREET RAILROAD COMPANIES TO MAKE ALTERATIONS TO STREET CARS AND DUMMIES TO PREVENT ACCIDENTS AND LOSS OF LIFE.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. It shall be unlawful on and after July 1, 1889, for any person, company or corporation operating cars for the conveyance of passengers, propelled by means of wire ropes attached to stationary steam engines, or by electricity or compressed air, to run, operate or use, or permit or cause the same to be run, operated or used, unless each car with dummy attached, or each dummy when the car and dummy are not attached, shall have a suitable buffer or appliance of triangular shape, placed in front of and attached to such dummy, or car and dummy, for the purpose of removing from and clearing the track of obstructions.

The said buffer or appliance to be placed in front of and attached to each dummy projecting therefrom, and extending from the bottom or sides of the dummy to within a distance of not more than two (2) inches of the roadway, to prevent any obstacle, obstruction or person on the tracks from getting under said dummy or car attached to said dummy, and so constructed as to push or force any obstacle, obstruction or person on the track on one side thereof, out of danger and out of the way of said dummy or car attached

SECTION 2. It shall be unlawful on and after July 1, 1889, for any person, company or corporation operating dummies and cars for the conveyance of passengers propelled by means of wire ropes attached to stationary steam engines, or by electricity or compressed air, to run, operate or use, or permit or cause the same to be run, operated or used, unless each car and each dummy shall have a suitable guard attached at the sides, front and rear thereof, made of gutta percha, wood, iron or other suitable material, extending from the dummy and car to within a distance of not more than two (2) inches of the roadway, and so constructed as to prevent any person from getting under or being run over by the wheels of such car or dummy.

SECTION 3. It shall be unlawful for any person, company or corporation to operate, or cause or permit to be operated within the city and county of San Francisco, any street car for the conveyance of passengers drawn by horses or mules, unless a suitable guard extending from the bottom or sides of the car to within a distance of not more than two inches of the roadway shall be attached to the sides, front and rear thereof, to prevent persons from getting under or being run over by the wheels of said car.

SECTION 4. It shall be unlawful on and after September 1, 1889, for any person, company or corporation operating cars and dummies for the transportation of passengers to use, or permit to be used, any car with separate dummy attachments, and all cars propelled by wire ropes, electricity or compressed air shall have the requisite dummy permanently attached to and made a part of such car.

SECTION 5. Any person, company or corporation who shall violate any of the provisions of this order shall be deemed guilty of a misdemeanor, and shall be punished by a fine not to exceed one thousand ($1,000) dollars or by imprisonment not to exceed twelve (12) months, or by both such fine and imprisonment.

The continuing or maintaining of any violation of this order shall be deemed a new offense for each day on which the same is so continued or maintained and shall be punished accordingly.

And the Clerk is hereby directed to advertise this order as required by law.

In Board of Supervisors, San Francisco, May 6, 1889.

Passed for printing by the following vote:

Ayes—Supervisors Bingham, Boyd, Pescia, Bush, Ellert, Becker, Pilster, Kingwell, Barry, Noble.

Absent—Supervisor Wheelan.

JNO. A. RUSSELL, Clerk.

On May 10th and 15th the Committee on Health and Police held meetings, at which representatives of the various railroad companies were present, and at which 34 persons appeared with plans or models of devices as safeguards for dummies and street cars, the operation of which they explained, and on May 20th the committee reported back an amendatory order to the Board recommending its passage, as follows:

REPORT OF COMMITTEE ON HEALTH AND POLICE.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—Your Committee on Health and Police and House of Correction beg leave respectfully to report, in the matter of the order requiring street railroad companies to make alterations to street cars and dummies to prevent accidents and loss of life, that they have held several meetings at which the representatives of the various railroad companies were present. Also that some thirty-four inventors attended with models of appliances for attachment to street cars to prevent persons from being run over by the wheels, the operation of which they explained. Some of these devices appear to your committee to possess considerable merit, and many of them have been patented for years, thus demonstrating the fact that the railroad companies have not been very earnest in their endeavors to adopt means for the prevention of accidents. In view of these facts, your committee are of opinion that all street railroad companies should be required to at once adopt some device or devices for the purposes named, which after approval by your committee should be fitted to each car and dummy, and so have amended the order referred to.

A further amendment has also been made by striking out Section 4 of the original order, which provided on and after September 1, 1889, no street car operated under the cable system should have dummies and cars detached, it being claimed that the roads first built for operation by detached dummies had the slot in the roadbed so constructed that they could not be operated with cars and dummies attached.

HENRY PILSTER,
Chairman.

The order as submitted by the committee was passed to print by a unanimous vote, and at a meeting of the Board held on May 27, 1889, the order came up on final passage, and after discussion, Mr. John McCord, Superintendent of the Sutter Street Railway Company, and Mr. J. W. Harris, Superintendent of the California Street Cable Railroad Company, were heard in opposition to the passage of the proposed order, claiming that the railroad companies had been and still were engaged in experimenting on devices in order to obtain something of a practical character that could be used with advantage to the public and the companies; they further objected to the power reserved in the order whereby any appliance adopted by the company would require to be approved by the Committee on Health and Police; also, that the provision requiring safeguards to be constructed at a distance not to exceed one and one-half inches from the track was impracticable. After discussion further action on the order was postponed, on motion, for four weeks—Supervisors Barry and Noble voting against the motion.

On June 24, 1889, the order was taken up and finally passed by the Board by a unanimous vote, receiving the approval on June 26th of the Mayor, of which order the following is a copy, to-wit:

ORDER No. 2072.

REQUIRING STREET RAILROAD COMPANIES TO MAKE ALTERATIONS TO STREET CARS AND DUMMIES TO PREVENT ACCIDENTS AND LOSS OF LIFE.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. It shall be unlawful on and after August 1, 1889, for any person, company or corporation operating cars for the conveyance of passengers, propelled by means of wire ropes attached to stationary steam engines, or by electricity or compressed air, to run, operate or use, or permit or cause the same to be run, operated or used, unless each car with dummy attached, or each dummy when the car and dummy are not attached, shall have a suitable buffer or appliance of triangular shape, placed in front of and attached to such dummy, or car and dummy, for the purpose of removing from and clearing the track of obstructions.

The said buffer or appliance to be placed in front of and attached to each dummy, projecting therefrom, and extending from the bottom or sides of the dummy to within a distance of not more than one and one-half (1½) inches of the roadway, to prevent any obstacle, obstruction or person on the tracks from getting under said dummy or car attached to said dummy, and so constructed as to push or force any obstacle, obstruction or person on the track on one side thereof, out of danger and out of the way of said dummy or car attached.

SECTION 2. It shall be unlawful on and after August 1, 1889, for any person, company or corporation operating dummies and cars for the conveyance of passengers, propelled by means of wire ropes attached to stationary steam engines, or by electricity or compressed air, to run, operate or use, or permit or cause the same to be run, operated or used, unless each car and each dummy shall have a suitable guard attached at the sides, front and rear thereof, made of gutta percha, wood, iron or other suitable material, extending from the dummy and car to within a distance of not more than two (2) inches of the roadway, and so constructed as to prevent any person from getting under or being run over by the wheels of such car or dummy.

SECTION 3. It shall be unlawful for any person, company or corporation to operate, or cause or permit to be operated within the City and County of San Francisco, any street car for the conveyance of passengers drawn by horses or mules, unless a suitable guard extending from the bottom or sides of the car to within a distance of not more than one and one-half (1½) inches of the roadway shall be attached to the sides, front and rear thereof, to prevent persons from getting under or being run over by the wheels of said car.

SECTION 4. Within 10 days from and after the date of the passage of this order all street railroad companies or corporations within the City and County of San Francisco shall adopt one or more device for attachment to their cars, or dummies with car attached, for the protection of life and the prevention of accident, and shall within a further period of 10 days file with the Clerk of the Board of Supervisors a statement indicating and describing the particular device or devices adopted by such company or corporation. If said device or devices are approved by the Committee on Health and Police of said Board of Supervisors, then it shall be the duty of each railroad company or corporation within a period of 60 days from and after the passage of this order, and not later than August 1, 1889, to attach or cause to be attached to each car, or dummy and car, the particular device or devices adopted by such company or corporation and approved by said committee, and to keep such device or devices constantly attached to their cars and dummies when in use, and thereafter no car or dummy shall be operated without the said attachment or such improvements thereto as may be thereafter adopted by the said companies or corporations, and approved by the said Committee on Health and Police.

SECTION 5. Any person, company or corporation who shall violate any of the provisions of this order shall be deemed guilty of a misdemeanor, and shall be punished by a fine not to exceed one thousand ($1,000) dollars or by imprisonment not to exceed twelve (12) months, or by both such fine and imprisonment.

The continuing or maintaining of any violation of this order shall be deemed a new offense for each day on which the same is so continued or maintained, and shall be punished accordingly.

In Board of Supervisors, San Francisco, June 24, 1889.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Bingham, Boyd, Pescia, Bush, Ellert, Wheelan, Becker, Pilster, Kingwell, Barry, Noble.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, June 26, 1889.

E. B. POND,
Mayor and ex-officio President Board of Supervisors.

The Committee on Health and Police were engaged for some time in making an examination of various safeguards submitted by inventors, many of which were meritorious. This proceeding was rendered necessary as it had been claimed that no guard had been devised, notwithstanding the experiments made by the companies with that sole purpose in view to ensure safety to pedestrians, and prevent serious accidents. The committee, after an investigation into the merits of the devices submitted, were of the opinion that very many were fully adequate and admirably adapted to prevent accidents and loss of life, and therefore insisted upon the various railroad companies adopting some device and submitting it for approval, as a necessary protection to the public as well as to the companies.

The railroad companies made or selected devices for their cars and dummies, and whenever the same, in the judgment of the committee were adequate, they were approved, and thereafter the Companies attached and used them, as provided by Order No. 2072.

The following are written descriptions of the various guards and buffers submitted, as approved by the committee and adopted by the several companies on their respective roads:

DEVICES ADOPTED FOR STREET RAILROAD CARS AND DUMMIES.

CALIFORNIA STREET CABLE RAILROAD COMPANY.

A triangular construction of iron attached to each end of every dummy car, and adjusted to reach as near as possible to the roadway. Gates of small chains placed between each dummy and its car on either side. A guard of iron netting attached to the sides of the cars, adjusted to reach as near as possible to the roadway.

[Approved by the Committee on Health and Police, on July 26, 1889.]

FERRIES AND CLIFF HOUSE RAILWAY COMPANY.

The device for attachment to its combination cars (consisting of car and dummy combined) operated by wire cable, is composed of a triangular upright guard, made of wood and iron, with upright wooden rollers covered with rubber, known as the "Edward's patent," placed in the front of the car, reaching within about one inch and a-half from the roadway and extending full width of the track, and guards made of wire attached to both sides of the car and reaching as near as practicable to the roadway. The Clay street dummies to have a triangular guard, made of wood, reaching within about one inch and a half of the roadway, and guards made of wire attached to both sides of the cars and reaching as near as practicable to the roadway.

[Approved by the Committee on Health and Police, on September 27, 1889.]

GEARY STREET, PARK AND OCEAN RAILROAD COMPANY.

1st—The appliance for attachment to the dummies is of triangular shape, placed in an upright position at both ends of the dummy, in front of and attached to the truck, extending across both rails of the track and reaching within about an inch and one-half of the roadway; and side guards consisting of three iron pipes attached to both sides of the dummy, running its entire length and reaching to within about two and one-half inches of the roadway.

2d—The appliance for attachment to its cars consists of a framework of three iron pipes rounded at both ends, extending across and along the car, surrounding the running gear and reaching to within about one and one-half inches of the roadway in front and about two and one-half inches on the sides.

[Approved by the Committee on Health and Police, on August 2, 1889.]

CENTRAL RAILROAD COMPANY.

A guard of either iron pipes or wood attached to the sides, front and rear of the car, triangular in front and rear when applied to two-horse or double-end cars, and triangular in front only when applied to one-horse or bob-tail cars, and reaching within about an inch and a half of the roadway in front and about two inches of the roadway on the sides.

[Approved by the Committee on Health and Police, on August 2, 1889.]

POTRERO AND BAY VIEW RAILROAD COMPANY.

A guard of either iron pipes or wood attached to the sides, front and rear of the car, triangular in front and rear when applied to two-horse or double-end cars, and triangular in front only when applied to one-horse or bob-tail cars, and reaching within about an inch and a half of the roadway in front and about two inches of the roadway on the sides.

[Approved by the Committee on Health and Police on August 2, 1889.]

CITY RAILROAD COMPANY.

A guard of either iron pipes or wood attached to the sides, front and rear of the car, triangular in front and rear when applied to two-horse or double-end cars, and triangular in front only when applied to one-horse or bob-tail cars, and reaching within about an inch and a half of the roadway in front, and about two inches of the roadway on the sides.

[Approved by Committee on Health and Police, August 2, 1889.]

OMNIBUS RAILROAD AND CABLE COMPANY.

CABLE CARS.—In front of the front truck wheels of the dummy car a vertical guard is secured rigidly to the front of the dummy. These guards are secured very near to the front wheels and close enough to the track of the cars to allow them to pass over the paving of the street, insuring thereby a safe means for protection of the wheels in case anything should happen to come in front of the dummy. These guards are made of a heavy wooden frame, inclosing in the center portions a piece of heavy galvanized iron netting; this gives a guard combining in its construction rigidity, durability and efficiency. Alongside of the body of the cars and on each side of the same, commencing immediately behind the dummy and extending to the rear platform, a strong wire netting is secured to the body of the cars outside of the wheels for their protection. This netting has a border, a bar of iron extending all around its lower edge and on both ends to give it strength, combined with neatness, durability and adaptability for the protection of life and limb of passengers.

[Approved by the Committee on Health and Police on October 21, 1889.]

HORSE CARS.—The horse cars for the Omnibus Railroad and Cable Company have for the protection of passengers a guard securely braced to the cars and reaching all around the wheels, extending in front as well as behind the wheels and alongside of the same, encircling the wheels complete, insuring thereby a most efficient means of protection.

The guard is made in form of a V in front and behind the wheels, and reaches close up to the same and extending downwards to the pavement, near enough so it is as is consistent with the movement over it.

The guard is made of strong hard wood boards about a foot wide securely held together by wrought-iron straps where joined at the corners. At the sides below the boxes for the wheels it is cut out somewhat in order to allow the boxes of the wheels some lost motion. All this is done in order to give a complete protection to the passengers in case of an emergency.

[Approved by the Committee on Health and Police, October 11, 1889.]

PRESIDIO AND FERRIES RAILROAD COMPANY.

The wheels of both cars and dummies on the Cable Division are completely enclosed by a continuous band of wood and steel, from eight to nine inches in width. This band is 1¼ inches from the roadway. Its sides are parallel with the sides of the car and dummy, and its front and rear are of triangular shape, projecting forward about 18 inches towards either end of the car and dummy. On the Horse-Car Division the cars are protected by a band of the same size, shape and materials, two inches from the roadway. On the Steam-Dummy Division the dummies are protected by an iron cow-catcher of triangular shape, front and rear, and the wheels of the cars are completely enclosed by a band of wood and steel.

[Approved by the Committee on Health and Police, September 21, 1889.]

NORTH BEACH AND MISSION RAILROAD COMPANY.

Three bars half-inch round iron, 2½ inches apart, the lower bar two inches from the ground, fastened to iron straps, connected with car body with 3-8 inch bolts, counter-sunk heads, making a smooth surface completely encircling the wheels.

[Approved by the Committee on Health and Police, September 27, 1889.]

SUTTER-STREET RAILWAY COMPANY.

GUARDS FOR CARS.—The guards consist of three parallel horizontal bars of half round and oval iron 1¼ and 1 inch in width, extending along and below the sides of the car to within the prescribed distance from the track, and curving inward and over the face of each wheel, completely covering the same. These guards are attached to the iron boxes set on the axles of the cars; also, a triangular guard, rounded at the point and covered with a fender plate, commencing at the wheels and extending forward under the platforms of the car; the said triangular guard is made of four parallel bars of iron of the same kind as used in the construction of the side guards and attached to the bed of the car.

GUARDS FOR DUMMIES.—The guards for dummies consist of two bars of 5-8 round iron attached to the bottom of the dummy, commencing at the side and center of each wheel and extending forward to and around the ends of the dummy. The space between the bars is filled with strong wire netting so as to form a complete face or surface—say six inches wide; said guard is rounded at the corners to roll aside any object in front of the dummy. The guards are hinged at point of attachment at the wheels, and supplied with a rubber roller at the end to raise the same at points of elevation in the street.

[Approved by the Committee on Health and Police on July 26, 1889.]

MARKET STREET CABLE RAILWAY COMPANY.

DUMMY AND CAR COMBINED.—First—The device for attachment to its combination cars (consisting of dummy and car combined) operated by wire cable is composed of a triangular apron or guard made of wood placed in front of the car reaching within about one inch and a half from the roadway and extending the full width of the car and guards (also made of wood) attached to both sides of the car running along its entire length and reaching as near as practicable to the roadway.

HORSE CARS.—Second—The device for attachment to its cars drawn by horses consists of a guard of either iron pipes or wood attached to the sides, front and rear of the car; triangular in front and rear when applied to two-horse or double-end cars, and triangular in front when applied to one-horse or bob-tail cars and reaching within about an inch and a half of the roadway in front, and about two inches of the roadway on the sides.

[Approved by the Committee on Health and Police on September 16, 1889.]

The question has been suggested as to the effect of the approval by the Committee on Health and Police of the safeguards used by the various railroad companies, it being contended that none of the appliances used are in conformity with the provisions of Order No. 2,072, which requires that "each car with dummy attached, or each dummy when the car and dummy are not attached, shall have a suitable buffer or appliance of triangular shape placed in front of and attached to such dummy or car and dummy;" also, "the said buffer or appliance to be placed in front of and attached to each dummy, projecting therefrom and extending from the bottom or sides of the dummy to within a distance of not more than one and one-half inches of the roadway, to prevent

any obstacle, obstruction or person on the tracks from getting under said dummy or car attached to said dummy, and so constructed as to push or force any obstacle, obstruction or person on the track on one side thereof out of danger and out of the way of said dummy or car attached."

The construction of cable roads operating on cross streets, and the danger to life and limb in case of collision, requiring the adoption of regulations to prevent accidents, the following orders (as amended) were introduced in the Board of Supervisors and referred to the Committee on Streets:

By Supervisor Burns on April 23, 1888:

Order No. ——.—Establishing and defining the rights and privileges of street railroad companies under franchises, whereby street cars propelled by wire ropes moved by stationary steam engines are and must be operated.

The People of the City and County of San Francisco do ordain as follows:

[Cable Cars to be stopped before crossing any street on which similar cars are operated.]

SECTION 1. Any driver, conductor or person in charge of any street car, grip car or dummy propelled by means of a wire rope or ropes attached to a stationary steam engine or engines shall stop such street car, grip car or dummy on reaching the nearest line of any street crossing on which cross street other street cars, grip cars or dummies are similarly operated, and before moving said street car, grip car or dummy over and upon said street crossing shall ascertain that the street cars, grip cars or dummies operated or being operated on such cross street are at a sufficient distance from said street crossing to admit of the passage of said street car, grip car or dummy under his charge or control over said street crossing without danger of a collision with the street cars, grip cars or dummies operated on said cross street.

[Regulating the passage of cable cars over and upon street crossings.]

SECTION 2. No driver, conductor or person in charge of any street car, grip car or dummy shall, on stopping the same as provided in Section 1 of this Order, move or attempt to move said street car, grip car or dummy over or upon a street crossing on which cross street other street cars, grip cars or dummies are similarly operated, until it is ascertained and reported to him by a person designated for that purpose by the street railroad company in whose service he is employed, that the said street car, grip car or dummy in his charge and under his control can safely and securely pass over said street crossing without danger of collision with the street cars, grip cars or dummies operated on the cross street. Whenever the cars, etc., of cable roads reach the nearest line of a street crossing, where the tracks of said roads cross, at or about the same time, then until an arrangement is made and agreed to by the persons designated to control the movement of the cars, as provided for in this section, as to which car or cars, etc., shall have precedence to pass over said crossing, no driver, conductor or person in charge of any of said cars shall go on or pass over said crossing with the said car or cars, etc.

[Railroad Companies to have privilege of conceding the right of way on certain conditions.]

SECTION 3. All persons, companies or corporations operating street railroads propelled by a wire rope or ropes and moved by a stationary steam engine or engines shall have the right to make such agreement with any other person, company or corporation operating a similar line of street railroad on a cross street, where the tracks of said roads cross, to insure a substantial compliance with the provisions of this Order; provided, that a copy of said agreement, before taking effect, shall be properly executed and filed in the office of the Clerk of this Board.

[Street Railroad Companies to observe and enforce the provisions of this Order.]

SECTION 4. All persons, companies or corporations operating street railroads propelled by a wire rope or ropes and moved by a stationary steam engine or engines along, upon and across the public streets are hereby charged with, and it is hereby made their duty to instruct and cause their employees to keep and observe the provisions of this Order, and to embody the same for the better protection and security of the public, in all printed rules or regulations furnished their employees.

[Penalty for violation of the provisions of this Order.]

SECTION 5. Any person, company or corporation who shall violate any of the provisions of this

Order shall, on conviction, be deemed guilty of a misdemeanor, and punished by a fine not exceeding five hundred dollars, or imprisonment not exceeding six months, or by both.

By Supervisor Morton on May 21, 1888:

Order No. ——.—Defining the rights of street railroads operating cable cars on and over street crossings.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. All persons, companies or corporations operating street railroads in this city and county to convey passengers by means of cars propelled by underground wire ropes moved by stationary steam engines are required to observe and comply with the following regulations defining the right of way on and over street crossings on which cross streets other cable cars are similarly operated:

[Cable Cars operated by upper rope to have right of way over certain crossings.]

SECTION 2. Whenever the grade of a street crossing, etc., on which two lines of cable cars intersect is ten (10) feet, or less, above or below the grade of any of the contiguous crossings, the cable cars operated by the upper wire rope shall have the right of way.

[Cable Cars operated by lower rope to have right of way over certain crossings.]

SECTION 3. Whenever the grade of a street crossing, etc., on which two lines of cable cars intersect is more than ten (10) feet above or below the grade of any of the contiguous crossings, the cable cars operated by the lower rope shall have the right of way, except as hereinafter provided in Section 4 of this Order.

[Signal men to be stationed to control the movement of cars at any street crossing where the grade of said crossing is twenty (20) feet or more above or below the grade of any of the contiguous crossings]

SECTION 4. Whenever the grade of a street crossing on which two lines of cable cars intersect is twenty (20) feet or more above or below the grade of any of the contiguous street crossings, it shall be and is hereby made the duty of the railroad companies owning or operating its cars over said crossing to employ and station at said crossing a competent person or persons, whose duty it shall be to ascertain and report at a sufficient distance by signal or otherwise to the driver, conductor or person in charge of all cable cars of either road when approaching said crossing, when the said cars can safely and securely pass over said street crossing without danger of collision with the cars of the other road. The expense consequent upon and incurred in and by the employment of such person or persons as aforesaid to be borne equally by the aforesaid companies. All drivers, conductors or persons in charge are hereby prohibited from moving their cars on or over said street crossing, until the proper signal is given by the person or persons so employed to control and direct the movement of the cars over said street crossing.

[Street Railroad Companies to employ a competent person to signal drivers when to safely start the cars over street crossings.]

SECTION 5. All persons, companies or corporations operating street railroads by means of an underground wire or wires moved by a stationary steam engine or engines, whose cable cars, etc., under the provisions of this Order have not the right of way over any street crossing, are required to come to a stop on reaching the nearest line of said street crossing on which other cable cars are similarly operated, and shall employ and designate a competent person or persons to ascertain and report, by signal or otherwise, to the driver, conductor or person in charge of such cable car, that the said car can safely and securely pass over said street crossing without danger of collision with the cable cars operated on said cross street.

[Defining the application of the words "Cable Car" and "Cable Cars" as used in the Order.]

SECTION 6. The words "car" or "cable cars" as used in this Order, are hereby defined to mean any description of street car, grip car, dummy, or other vehicle propelled on or along any street railroad by means of an underground wire or wires, and moved by a stationary steam engine or engines.

[Railroad Companies to have privilege of conceding the right of way on certain conditions.]

SECTION 7. Any person, company or corporation operating a street railroad propelled by a wire rope or ropes and moved by a stationary steam engine or engines, shall have the right to make an agreement conceding the right of way to and with any other person, company or corporation operating a similar line of street railroad on a cross street, where the tracks of said roads cross, to insure a substantial compliance with the provisions of this Order; provided that a copy of said agreement, before taking effect, shall be properly executed and filed in the office of the Clerk of this Board.

[Street Railroad Companies to observe and enforce the provisions of this Order.]

SECTION 8. All persons, companies or corporations operating street railroads propelled by a wire rope or ropes and moved by a stationary steam engine or engines along, upon and across the public streets are hereby charged with, and it is hereby made their duty to instruct and cause their employees to keep and observe the provisions of this Order, and to embody the same for the better protection and security of the public, in all printed rules or regulations furnished their employees.

[Penalty for violation of the provisions of this order.]

SECTION 9. Any person, company or corporation who shall violate any of the provisions of this Order shall, on conviction, be deemed guilty of a misdemeanor and punished by a fine not exceeding five hundred dollars, or imprisonment not exceeding six months, or by both.

At several meetings of the Committee on Streets, representatives of the various cable railroad companies were heard objecting to the passage of the Orders under consideration. After efforts on the part of the Committee on Streets to reconcile the various views expressed as to the rights claimed by the respective companies in the drafting of an Order, the whole matter was submitted to the representatives of the railroad companies to meet and formulate some order or plan upon which they would agree, and recommend to the Committee to accomplish what was intended by the proposed legislation. In case of their failure to agree, then the Committee would recommend the passage by the Board of Supervisors of one of the Orders under consideration to regulate the passage of cable cars over street crossings.

On June 7, 1888, the following communication was received by the Street Committee from the representatives of the cable railroad companies stating that it would be practically impossible to operate their roads with safety under the provisions of the pending Orders, and submitting on that date and on June 14, 1888, agreements made between the several companies to enable their cars to pass over and upon street crossings with perfect safety.

On June 18, 1888, the Committee on Streets recommended the indefinite postponement of the pending Orders and the acceptance of the agreements made by the several cable railroad companies, the said agreements rendering unnecessary any legislation on the question, which action was approved by the Board of Supervisors.

COMMUNICATION FROM REPRESENTATIVES OF CABLE RAILROADS.

To the Honorable Street Committee
Of the Board of Supervisors:

GENTLEMEN: The undersigned representatives of cable railway companies, knowing that there have been before you for consideration and recommendation to the Honorable Board of Supervisors several ordinances, having for their purpose the regulating of cable crossings with a view of enacting some law, the purpose of which is to reduce to a minimum the danger to life and limb of the traveling public, and that on Thursday, May 24, 1888, you referred this subject to the cable railroad companies, with a request that they examine into the matter and report their views and any recommendations to your Honorable Committee, hereby report as follows:

We have examined carefully the various ordinances before you, and find that it would be practically impossible to operate our roads with safety to passengers and comply literally with either of them.

We find that each crossing has features peculiar to itself which require distinct and different rules to enable the cars to cross and recross in safety. In keeping with this view of the matter, we

have made agreements in reference to such crossings wherever our respective roads cross each other, and are now operating under such agreements, with a belief that we have adopted the only practical method of running our roads with the least possible danger, and would recommend to your Honorable Committee the acceptance of these agreements in lieu of the enactment of any ordinance upon the subject.

We would add that street crossings are so dissimilar in grades and approaches that, in our opinion, no ordinance can be framed that will apply to all of them with safety to the traveling public, and we would suggest that in future, franchises which may be granted by the Board of Supervisors, conditions in reference to crossings be made and incorporated therein.

Accompanying this report we submit copies of agreement between the following companies :

Ferries and Cliff House Railway Company, and Presidio and Ferries Railroad Company.
Ferries and Cliff House Railway Company, and California Street Cable Railroad Company.
Ferries and Cliff House Railway Company, and Sutter Street Railway Company.
Ferries and Cliff House Railway Company, and Geary Street, Park and Ocean Railroad Company.

All of which is respectfully submitted,

JAMES B. STETSON,
J. W. HARRIS,
On behalf of the California Street Cable Railroad Company.
JOHN McCORD,
On behalf of the Sutter Street Railway Company.
A. W. BARRON,
GEO. B. WILLCUTT,
On behalf of the Market Street Cable Railway.
H. H. LYNCH,
On behalf of the Ferries and Cliff House Railway Company.
W. H. EMERY,
GEO. B. WILLCUTT,
On behalf of the Geary Street, Park and Ocean Railroad Co.
WILLIAM CLIFT,
On behalf of the Presidio and Ferries Railroad Company.

San Francisco, June 7, 1888.

AGREEMENT.

CALIFORNIA STREET CABLE RAILROAD COMPANY AND FERRIES AND CLIFF HOUSE RAILWAY COMPANY.

THIS AGREEMENT, made this 1st day of June, 1888, by and between the California Street Cable Railroad Company, party of the first part, and the Ferries and Cliff House Railway Company, party of the second part,

WITNESSETH, Whereas, the party of the first part owns and operates a double track cable railroad along California street from Kearny street westward, and the party of the second part owns and operates a double track cable railroad along Powell street from Market street northward, and said cable roads intersect each other at the crossing of California and Powell streets ;

AND WHEREAS, both the parties hereto are desirous of operating their said railroads at said point of intersection as to conduce to the greatest safety of their respective passengers, and to that end have caused their respective officers to carefully investigate the matter and formulate a plan of operation to be carried out by both companies, by which it is believed that danger of collision and interference may be avoided, and now desire to incorporate said plan into an agreement ;

NOW, THEREFORE, in consideration of the premises, the said parties hereto do hereby mutually covenant, agree and bind themselves as follows, to-wit :

I. The said party of the first part will stop every east bound train before crossing Powell street, until the signal man stationed at said crossing shall give to the gripman of said train the signal to cross.

II. The party of the second part will stop every south bound train before crossing California street, until said signal man shall give the signal to the gripman to cross said street.

III. If, when any north bound train of said party of the second part arrives at Pine street, and a west bound train of the party of the first part has reached Stockton street, and is moving or is running between Stockton and Powell streets, such north bound train shall be held at Pine street until the said west bound train has arrived within not less than two hundred feet of Powell street before the signal is given for said north bound train to proceed.

IV. The signal man shall have the power to stop any train on either road when in his judgment such stop is necessary to prevent an accident.

Signals from the signal man shall be obeyed by the gripman of both roads.

V. No train of either of the parties hereto shall be allowed to stop on the track of the other party hereto.

VI. A signal man shall be kept at said crossing whose duty it shall be to give the signals herein provided for, and others when necessary, and to maintain constant watch and care to prevent accident or collision. The men employed as signal men at said crossing shall be selected jointly by the superintendents of both parties hereto, and shall have no other work to do except to watch and care for this particular crossing, and their wages shall be paid by both companies, each company paying one-half of the wages of each signal man.

VII. It is understood between the parties hereto, and the true intent and purpose of this agreement is, that:

1. The west bound trains on California street shall have the right of way as against all trains on the Powell street road.

2. The east bound trains on California street shall have the right of way as against the south bound trains on the Powell street road.

3. The north bound trains on Powell street shall have the right of way as against the east bound trains on the California street road.

4. The south bound trains of the Powell Street Railroad shall have no right of way over either east or west bound trains of the California Street Road, but shall only cross at a signal from the signal man, and when the crossing is clear.

IN WITNESS WHEREOF, the said parties hereto have caused these presents to be signed by their Presidents and Secretaries, duly authorized, and their corporate seals to be hereto attached.

[SEAL.] THE CALIFORNIA STREET CABLE RAILROAD COMPANY,
By its President, THOS. MAYNE.
By its Secretary, T. W. HINCHMAN.

[SEAL.] FERRIES AND CLIFF HOUSE RAILWAY COMPANY,
By its Vice-President, W. H. MARTIN.
By its Secretary, GEO. H. WAGGONER.

AGREEMENT.

SUTTER STREET RAILWAY COMPANY, AND FERRIES AND CLIFF HOUSE RAILWAY COMPANY.

THIS AGREEMENT, made and entered into this, the 5th day of June, 1888, by and between the Sutter Street Railway Company, party of the first part, and the Ferries and Cliff House Railway Company, party of the second part, both corporations.

WITNESSETH: That the said party of the first part has owned and operated, and now owns and operates, a double track cable railroad along and upon Sutter street, in the City and County of San Francisco, from Market street westerly to Central avenue; and

The party of the second part has constructed a like double track cable railroad since the construction and operation of the road of the party of the first part, along and upon Powell street from Market street northerly, said roads intersecting each other at the crossing of Sutter and Powell streets; and

WHEREAS, The passage of cars of the parties hereto at said intersection of Sutter and Powell streets involves, to a greater or less degree, danger of collision, and to avoid the same, and insure

greater safety to the passengers of both parties hereto, it is deemed wise to enter into an agreement respecting the operation of their respective lines of road, at said point of intersection, which will avoid the danger of collision and facilitate the passage of the cars of both parties hereto;

NOW, THEREFORE, In consideration of these premises, the parties hereto mutually covenant and agree, and hereby bind themselves as follows:

I. The trains of the party of the second part, running south, shall have the right of way at the said crossing of Sutter and Powell streets, the trains of the party of the first part being so operated, controlled or stopped, that the danger of collision will be avoided, and the safety of the passage of the cars of the party of the second part will be insured.

II. The trains of the party of the first part shall have the right of way at said crossing of Sutter street with Powell, so far as concerns the trains of the party of the second part running north, the said trains of the party of the second part running north being so operated, controlled or stopped, that the danger of collision will be avoided, and the safety of the passage of the cars of the party of the first part will be insured.

This agreement runs with the franchises.

SUTTER STREET RAILWAY COMPANY,
By JOHN McCORD, Superintendent.

FERRIES AND CLIFF HOUSE RAILWAY COMPANY,
By H. H. LYNCH, Superintendent.

AGREEMENT.

GEARY STREET, PARK AND OCEAN RAILROAD COMPANY AND FERRIES AND CLIFF HOUSE RAILWAY COMPANY.

THIS AGREEMENT, made and entered into the 7th day of June, A. D. 1888, by and between the Ferries and Cliff House Railway company, party of the first part, and the Geary Street, Park and Ocean Railroad Company, party of the second part, both of said parties being corporations created and existing under the laws of the State of California.

WITNESSETH: That, whereas, the party of the first part is the owner of a street railroad operated by wire cable running along and upon Powell street, in the City and County of San Francisco, State of California, and the party of the second part is the owner of a street railroad also operated by wire cable running along and upon Geary street, in said city and county, the said lines of railroad crossing each other at the intersection of Geary and Powell streets aforesaid; and

WHEREAS, The right and privilege of using certain devices and inventions for the operation of wire cable street railroads described in various letters patent owned by the Pacific Cable Railway Company have been granted to the said party of the first part, including therein a device or devices for depressing and maintaining the cable below the line of the grip at points where railroad tracks cross each other; and

WHEREAS, For the purpose of facilitating the passage of the cars and dummies of the said parties hereto, and with a view to the avoidance of accidents at said crossings, the said parties have agreed to enter into this agreement.

NOW, THEREFORE, The party of the first part, in consideration of the agreement hereinafter contained on the part of the party of the second party, doth hereby agree as follows:

I. Whenever a car of the party of the first part shall be approaching the point of intersection of Powell and Geary streets, and shall have reached a point forty feet distant from the nearest rail of the railroad tracks of the party of the second part, and a car of the party of the second part shall have reached a point forty feet distant from the nearest rail of the railroad tracks of the party of the first part, then and in such case the car of the party of the first part shall be brought to a full stop at a point not less than forty feet distant from the nearest rail of the railroad tracks of the party of the second part, and shall not proceed until after the car of the party of the second part shall have passed over the said crossing.

II. That at all times before a car of the party of the first part shall proceed over and across the railroad tracks of the party of the second part, it, the said party of the first part, shall and will cause its conductors and employees in charge of its cars, and other of its servants, agents and workmen, to raise the operating lever of said device, in order to depress the cable of the party of

the second part, and use or cause to be used the device or devices aforesaid in and at the time of its cars crossing the railroad tracks of the party of the second part, so and in such manner as to protect to the best of its and their ability, the cable of the party of the second part, and as far as possible to prevent injury thereto.

III. That the said party of the first part shall not at any time allow any of its cars to approach nearer than a point distant forty feet from the nearest rail of the railroad tracks of the party of the second part until the operating lever of said device shall have been raised and the signal given for its car to proceed; and further, that the said operating lever shall not be raised and the signal given for the car of the party of the first part to proceed if a car of the party of the second part shall have arrived at a point distant forty feet from the nearest rail of the railroad tracks of the party of the first part.

IV. In case a signal man shall be appointed by the party of the first part to regulate the movement of its cars at the said crossing, it shall be the duty of such signal man to bring the cars of the party of the first part to a full stop whenever a car of the party of the second part shall have arrived at a point forty feet distant from the nearest rail of the railroad tracks of the party of the first part, and he shall not raise the operating lever of the said device, or give a signal to proceed, until after the car of the party of the second part shall have passed over said crossing.

V. In no case whatever shall the said signal man raise or cause or suffer to be raised the operating lever of the said device unless and until a car of the party of the first part shall have arrived at a point forty feet distant from the nearest rail of the railroad tracks of the party of the second part.

VI. That the party of the first part shall at all times during the continuance of this agreement keep the operating lever and all other parts of the said device for depressing the cable in good and thorough repair and condition.

And in consideration of the premises, the party of the second part agrees that, whenever the cars of the party of the first part shall approach the said point of intersection and shall have arrived at a point forty feet distant from the nearest rail of the railroad tracks of the party of the second part, on Geary street, and the said operating lever of the said device shall have been raised by an employee of the party of the first part, the party of the second part shall and will cause its conductors and employees in charge of its cars to bring such cars to a full stop, so as to allow the cars of the party of the first part free passage along its track over said crossing.

And it is hereby mutually agreed between the said parties that in case of the failure or neglect of either of the said parties hereto, or of their or either of their conductors, employees, servants, agents and workmen or any of them to observe the provisions of this agreement in any respect whatever, whereby or by reason whereof any damage, loss or injury shall be sustained by the other party, either to its cable or its cars or dummies, or in any other manner whatsoever, or shall become liable to any third party, then and in such case the party so failing or neglecting as aforesaid shall and will pay to the other party the amount and cost of all damage, loss and injury so sustained by it.

IN WITNESS WHEREOF, the said corporations, parties hereto, have caused their respective corporate seals to be hereunto affixed and these presents to be signed by their respective Presidents and Secretaries thereunto duly authorized the day and year first above written.

[SEAL.] W. J. ADAMS.
President Ferries and Cliff House Railway Company.

GEO. H. WAGGONER,
Secretary Ferries and Cliff House Railway Company.

[SEAL.] CHAS. F. CROCKER,
President Geary Street, Park and Ocean Railroad Company.

J. S. WILLCUTT,
Secretary Geary Street, Park and Ocean Railroad Company.

AGREEMENT.

PRESIDIO AND FERRIES RAILROAD COMPANY, AND FERRIES AND CLIFF HOUSE RAILWAY COMPANY.

THIS AGREEMENT, Made and entered into this 12th day of June, 1888, by and between the Presidio and Ferries Railroad Company, a corporation, party of the first part, and the Ferries and Cliff House Railway Company, a corporation, party of the second part.

WITNESSETH: That whereas the party of the first part owns and operates a double track cable railroad along and upon Union street from Powell street westward, and the party of the second part owns and operates a double track cable railroad along and upon Mason street from Jackson street northward, and said cable railroads intersect each other at the crossing of Union and Mason streets; and

WHEREAS, Both the parties hereto are desirous of operating their said railroads at the said intersection, so as to conduce to the greatest safety of their respective passengers, and to promote the welfare and convenience of said parties;

NOW, THEREFORE, in consideration of these premises, the said parties hereto do hereby mutually covenant, agree and bind themselves as follows, to-wit:

I. The trains of the party of the second part, running north, shall have the right of way at the said crossing of Union and Mason streets, the trains of the party of the first part being so operated and controlled that the danger of collision will be avoided, and the safety of the passage of the cars of the party of the second part, going north, will be insured.

II. All trains of the party of the first part, going in either direction, shall have the right of way at said crossing of Union and Mason streets, so far as concerns the trains of the party of the second part running south, the said trains of the party of the second part running south, being so operated and controlled that the danger of collision will be avoided, and the safety of the passage of all cars of the party of the first part, in whatever direction they may be moving, will be insured.

III. The trains of the party of the second part, going south, shall, on all occasions, come to a full stop before crossing the tracks of the party of the first part, except when a train or trains of the party of the first part shall be one hundred feet or more from the nearest rail of the track of the party of the second part, and in no event to stand across the tracks of said party of the first part.

IV. A signal man shall be kept, at the expense of the party of the second part, at said crossing of Union and Mason streets, when deemed necessary, whose duty it shall be to give such signals to all approaching trains as will best conform to the spirit and intent of this agreement, and upon Sundays or general holidays, when the increased travel may make it necessary, such signal man shall be stationed at said crossing at as early an hour as the necessity of the case may demand.

V. It is hereby agreed between the parties hereto that this agreement shall continue and run with the franchises of their respective roads, provided, the same may be altered or terminated at any time by the mutual consent of both parties hereto.

IN WITNESS, Etc.

[SEAL.] PRESIDIO AND FERRIES RAILROAD COMPANY,
By WILLIAM CLIFT, President and Superintendent.
By JOHN B. LEIGHTON, Secretary.

[SEAL.] FERRIES AND CLIFF HOUSE RAILWAY COMPANY,
By W. J. ADAMS, President.
By H. H. LYNCH, Superintendent.
By G. H. WAGGONER, Secretary.

Sweeping and Cleaning Streets.

The contract to sweep and clean the public streets for a period of two years ending March 31, 1892, was continued in operation until the amount that could be provided by levy was ascertained, and a contract awarded on the basis of the appropriation.

On June 27, 1892, the amount of $79,000 for the fiscal year 1892-93 was provided for this service.

The specifications for sweeping and cleaning the public streets from within a period of thirty days of date of award of contract to July 1, 1894, under the directions of the Board of Supervisors, were prepared by the Superintendent of Public Streets and proposals were called for by advertisement under date of June 28, 1892.

The proposals were received in open session of the Board at a meeting held Tuesday evening, July 5, 1892, the parties who (and the prices) bid being as follows :

Geo. A. Sweitzer	$16 70
C. D. Vincent	16 99
City Street Improvement Co	18 74
Northey & Osborn	18 85
California Construction Company	16 40

The contract was awarded to the California Construction Company, the lowest bidder, at $16 40 per lineal mile, by Resolution No. 7323 (Third Series) duly approved by His Honor Mayor Sanderson on July 19, 1892, the same being duly executed on July 22, 1892, by the said company by C. R. Eager, President, and a bond given for its faithful performance in the sum of twenty-five thousand ($25,000) dollars, with Giles H. Gray and E. P. Gray as sureties. The said company commenced work under their contract on August 1, 1892. The following is a copy of the specifications containing the conditions and the schedule of streets to be swept during the continuance of the contract, to-wit :

SPECIFICATIONS FOR SWEEPING AND CLEANING THE PUBLIC STREETS OF THE CITY AND COUNTY OF SAN FRANCISCO, FROM AWARD OF CONTRACT TO JULY 1, 1894.

GENERAL CONDITIONS.

The work to be done consists of sweeping and cleaning, with good, effective machines, the public streets of the City and County of San Francisco that are paved or planked, or those which may be hereafter paved or planked, between the hours of six (6) P. M. and six (6) o'clock A. M., except that the sweeping of Kearny street, Market street and Montgomery street shall not be commenced prior to 11 o'clock P. M.; during a term of two years from date of award of contract to July 1, 1894.

Bidders will be required to state the sum per mile, lineal measurement, for sweeping and cleaning the streets, and portion of streets, as hereinafter specified, under the following specifications, and as provided by the annexed schedule.

SWEEPING.

1st. The streets to be cleaned in the following manner : Each street to be sprinkled by a watering cart when and where necessary; the entire surface of the roadway, unless prevented by obstructions, to be thoroughly swept, the sweepings to be immediately removed from the street, and should any of the sweepings be deposited upon the sidewalks or remain in the gutters or upon the cesspool covers at the corners of the streets, the same must be swept off by hand and removed at the same time as the rest of the sweepings, prior to 6 o'clock each morning, and all the work to be done and performed to the entire satisfaction of the Superintendent of the Public Streets and the Committee on Streets of the Board of Supervisors.

2d. The contractor will be required to report in writing, to the office of the Superintendent of Public Streets, by 9 o'clock A. M. daily, the streets or parts of streets cleaned during the twenty-four hours preceding.

3d. The Superintendent of Public Streets, or a Deputy desiguated for that purpose, shall make examinations daily of all streets or parts of streets so reported as having been cleaned during the last preceding twenty-four hours, and if the Superintendent of Public Streets is satisfied with the manner in which said work has been performed, he shall enter in a book kept for that purpose, the name of the streets and parts of streets, with the lineal feet in measurement of the work so accepted.

4th. If upon such examination, the Superintendent of Public Streets, or his Deputy, shall find that the streets or parts of streets directed to be cleaned, and as reported by the contractor as having been cleaned, are not thoroughly swept, and cleaned to his satisfaction and approval, he shall make a statement in writing of such work as has not been done to his satisfaction, and deliver the same to the contractor upon the same day, and the contractor shall not be credited with the same; or allow any payment therefor. Should the contractor feel aggrieved by reason of such action of the Superintendent of Streets he may appeal therefrom to the Board of Supervisors at their next meeting, who after examination may remedy and correct the action of the Superintendent of Streets, and the decision of said Board shall be final and conclusive in the matter.

If the decision of the Superintendent of Public Streets is sustained upon such appeal, the contractor shall forthwith proceed to clean such streets or parts of streets not cleaned as aforesaid to the satisfaction of said Superintendent of Public Streets. If the contractor shall fail to perform said work as aforesaid to the satisfaction of the Superintendent of Public Streets, then the Superintendent of Public Streets shall forthwith report such failure to perform said contract to the Board of Supervisors, and after examination if it shall appear that the contractor has neglected or failed to perform all of said work, then the Board of Supervisors shall terminate the contract and institute proceedings to collect the amount provided for as liquidated damages in the bond hereinafter mentioned executed for the due performance of said work.

5th. The contractor will be required to clean all such streets and parts of streets daily, as designated by the annexed schedule, and by the Superintendent of Public Streets in pursuance thereof, provided, that whenever in the judgment of the Superintendent of Public Streets and the Street Committee of the Board of Supervisors, inclement or rainy weather render the sweeping and cleaning of the streets inexpedient, the work shall be suspended by the contractor on notification to that effect, also provided that when the pavement of any street or parts of streets becomes too much broken to be properly swept, such street or portion thereof as may be in bad repair, shall not be swept during the time the same shall be out of repair.

6th. The contractor will not be required to remove any sand, dirt or rubbish placed upon any street by railroad companies in the laying and repair of tracks, or by any individual or corporation engaged in laying pipes, sewers, or other work, by reason of which sand, dirt or rubbish shall be deposited upon the street.

7th. The number of miles of streets swept and cleaned during the month shall be made out at the end of each month from the book or record kept by the Superintendent of Public Streets, and payment made monthly therefor at the rate per mile of the accepted bid.

8th. The Superintendent of Public Streets and the Street Committee of the Board of Supervisors, may suspend sweeping on any street or portion of a street named in this schedule, when in their judgment such sweeping should be so suspended for the public good. They may also order any street or portion of a street not included therein cleaned to correspond with the schedule for sweeping of that locality, or as often as in their judgment they may deem necessary.

9th. The contractor will be required to comply with such regulations governing the work as the Superintendent of Public Streets and the Street Committee of the Board of Supervisors may provide, and all work must be done between the hours of 6 o'clock P. M. and 6 o'clock A. M., unless by special permit of the Superintendent of Public Streets and Street Committee.

10th. Where it is specified that the streets or parts of streets shall be swept so many times per month, it must be understood that they shall be swept at regular intervals during the month to be designated by the Superintendent of Public Streets.

11th. The street sweepings taken from that portion of the city west of Montgomery and Second streets, and south of Washington street, to be deposited at dumps, to be established, from time to time, by the Board of Supervisors, within the territory bounded by Sixth street on the northeast; Sixteenth street on the south, and Harrison street on the northwest and west; provided, that the Board of Supervisors reserve the right to designate by resolution at any time during the continuance of this contract, if deemed available, some central and accessible place at no greater relative distance from the work than is provided for in these specifications for the deposits of such street sweepings, as may be removed from that portion of the city lying west of Larkin and Ninth streets, and south of Washington street, in the event of the Park Commissioners requiring the same for fertilizing or other purposes in Golden Gate Park.

The street sweepings taken from all other streets to be deposited at the dumps established by

the Board from time to time, in that portion of the city bounded by Union and Larkin streets and the Bay of San Francisco.

12th. Each bidder will be required to deposit with the Clerk of the Board of Supervisors a certified check drawn to the order of said Clerk upon some bank in the City and County of San Francisco in the sum of $5,000 gold coin, conditioned if the proposal be accepted and the contract awarded, and if the bidder shall fail or neglect to execute a written contract therefor, and give the bond required, which is hereby fixed at twenty-five thousand dollars, within four days after the award is made, or fail to commence the work within thirty days from the date of such award, then and in that case the said sum shall be paid into the City and County Treasury by said Clerk as liquidated damages for such failure and neglect.

In addition to said deposit of said check each bidder will be required to make and execute a penal bond payable to the City and County of San Francisco, with two good and sufficient sureties in the sum of $20,000, who shall justify for that amount to the satisfaction of the Mayor of the City and County of San Francisco.

The amount of said check and the amount provided to be paid in said bond shall be collected and paid into the City and County Treasury by said Clerk as liquidated damages for such failure and neglect to enter into contract as aforesaid.

NOTICE.—Bidders will estimate and state a price for which they will sweep and clean each lineal mile of streets, in accordance with the specification, with the distinct understanding that the Board reserves the right to reject all bids, if the public good require. Also that the party or parties to whom the contract is awarded will be required, prior to, or at the time of the execution of the contract, to pay the cost of advertising the notice calling for proposals in three daily newspapers, also that the further right is reserved by the Board to terminate the contract at any time if the party or parties to whom the same shall be awarded shall not perform the work to the entire satisfaction of the Superintendent of Public Streets and the Board of Supervisors.

Lighting Public Streets and Buildings.

LIGHTING PUBLIC STREETS WITH GAS.

The contract for lighting the public streets with gas expiring on August 1, 1892, proposals were called for on July 11th to light the public streets for a term of two years on and from the date named. The parties bidding were required to furnish the lamps and lamp posts, and keep the same in repair, with the names of the streets painted thereon, and to clean, light and extinguish the lamps in accordance with the following specifications:

SPECIFICATIONS TO LIGHT THE PUBLIC STREETS WITH GAS.

GAS.

The gas to be furnished to be of a standard quality and illuminating power of not less than seventeen candles, said illuminating power to be determined by tests made by the Gas Inspector in his office, who shall use for said tests such burners as will obtain from the gas the greatest amount of light, and practicable for use by the consumer, and consuming at the rate of five cubic feet of gas per hour.

LAMP POSTS AND LAMPS.

The lamp posts to be used to be of the same material and not to be less in height than the lamp posts now in use, and to be erected and lighted at such locations as may be designated by the Board.

The number of lamp posts to be erected and maintained during the continuance of the contract to be not less than 5,100, with the understanding that the number may be increased from time to time under the direction of the Board, but not to exceed 5,800 in all. The lamp posts to be erected and maintained at or contiguous to the present locations of street lamps erected throughout the city and county, and at such locations as may be designated by the Board, the Board to have the right to change the location of the same from time to time upon payment of the actual cost of labor and material in making said changes or removals. When lamps are ordered to be erected in certain sections of the city where no mains are laid then the mains shall be extended or arrangements made by which the lighting of said sections of the city shall be effected.

LAMPS.

The lamps to be similar to those now in use, or such as may be approved by the Board, and the burner to be used in the lamps in lighting the public streets to consist of a single burner of the same size now used in the main thoroughfares. The burners of the various lamps to average a consumption of not less than five cubic feet per hour.

The lamp posts, lamps, service pipes, mains and all appurtenances incidental and necessary to complete and equip the lamps ready for lighting to be furnished by the successful bidders, who shall erect, maintain and keep the same in proper condition and repair.

LIGHTING LAMPS.

The last lamp upon each lamplighter's beat to be lighted one-half hour after sunset and to be extinguished one hour before sunrise, except during the night of full moon and the night preceding and the night following, when no lamps shall be lighted at all.

CLEANING AND REPAIRING LAMPS.

All the lamps to be kept in a proper condition and cleaned at least twice in each week, and at each of said cleanings all the glass shall be thoroughly cleaned both in the inside and outside of the

lamp, and all dust and dirt shall be brushed from the frames. The lamps are to be repaired and reglazed within twenty-four hours after any portion of the same is broken.

STREET SIGNS.

The name of streets, places and alleys to be painted on the gas lamps throughout the city and county at street crossings, main and subdivision street intersections, and at the intersections of places and alleys with the main streets; at main street crossings four names, on each lamp; at intersections of main streets not less than two names on each lamp; at intersections of subdivision streets, places or alleys, not less than two names on each lamp. The letter, color, style and location of the names on the lamps to be approved or designated by the Board of Supervisors. The names of streets, etc., on each lamp to be kept clean and in position so as to be plainly visible, and within twenty-four hours in case of breakage to be repaired and the name or names to be repainted thereon, and in no event are the lamps to be turned so as to misplace the names of the streets as indicated on each lamp.

Bidders will estimate and bid a price per lamp per night for which they will furnish, erect, repair and keep in good repair and condition all lamp posts, lamps, services, street signs and appurtenances, furnish gas and light the lamps on all the streets, places and alleys according to the foregoing specifications.

GENERAL NOTICE.

Bidders will estimate with the understanding that no compensation shall be allowed for any lamp or lamps except such as shall be lighted during the whole time provided in the foregoing specifications under which a contract may be awarded; also that within three days prior to the expiration of each month the Gas Inspector shall furnish the parties to whom a contract is awarded the time during which the lamps shall be lighted and extinguished each and every night and morning of the succeeding month. All bills of the successful bidders upon the execution of a contract and a performance in compliance therewith shall be presented and paid monthly at the end of each calendar month.

No bids will be received from parties engaged in the manufacture or supply of gas until said parties have connections with the apparatus in the office of the Gas Inspector, Old City Hall building, and have had the illuminating power of said gas tested.

A proposal of the San Francisco Gas Light Company was received at a meeting of the Board of Supervisors held on July 18, 1892, offering to light the streets, furnish lamp posts and lamps, keep the same clean and in good order and repair, place and keep the names of the streets, etc., on street lamps as per specifications, for the sum of twelve (12) cents per night for each lamp erected and lighted. The Board awarded the contract by a Resolution numbered 7414 (Third Series), which was passed to print on July 25th, and finally passed on August 1st by a unanimous vote, receiving the approval of the Mayor on August 2, 1892. The following is a copy of the award:

RESOLUTION OF AWARD No. 7414 (Third Series).

RESOLVED, That the contract to light with gas all the public streets of this city and county for a period of two years on and from August 1, 1892, in strict accordance with specifications be and the same is hereby awarded to the San Francisco Gas Light Company, provided their sureties on the bond, which is hereby fixed at $35,000, are satisfactory to the Committee on Street Lights of this Board, who are hereby authorized to enter into said contract, they being the lowest responsible bidders therefor, at the following price, viz:

For each lamp, per night.....12 cents

In Board of Supervisors, San Francisco, August 1, 1892.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Artigues, Burling, Curtis, Ayer, Ellert, Coffee, Heyer, Huut, Taber, Wilkinson.
Absent—Supervisor Carnes.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, August 2, 1892.

GEO. H. SANDERSON,
Mayor and ex-officio President Board of Supervisors.

The contract was duly executed on August 4, 1892, on the part of the San Francisco Gas Light Company by J. B. Crockett, President, and Wm. G. Barrett, Secretary, and a satisfactory bond given in the sum of $35,000 for its faithful performance, with Adam Grant and Levi Strauss as sureties.

The amount of $205,275 12 was paid the San Francisco Gas Light Company for furnishing, lighting and repairing lamps and lamp posts during the fiscal year ending June 30, 1892.

LIGHTING OUTLYING DISTRICTS WITH ELECTRIC LIGHTS.

The contract for lighting the outlying districts of the city and county by electricity expiring on August 1, 1892, proposals were called for on July 11th, to provide a certain number of masts and furnish electric lights at certain specified locations for a term of two years from the date named, in accordance with the following specifications:

SPECIFICATIONS TO LIGHT DISTRICTS BY ELECTRICITY.

The poles, wires, conductors, lamps, carbon electrodes, and each and every appliance, article or apparatus which may be necessary for electric lighting to be furnished and erected by the successful bidder.

The wires and conductors to be thoroughly insulated and placed in such locations and in such manner as will prevent them from being tampered with or handled by any unauthorized person or persons; it being distinctly understood that the city and county shall not be responsible, but must be held harmless against any claim for damages for any injury or accident which may be occasioned by the wires or conductors, and against any claim for damages by reason of any infringement of any patent right or rights in the use of the lamps, machinery or appliances connected with the said electric light.

The said masts to be erected at the locations herein designated, or in the vicinity of such locations, as may be determined by the Board, with the distinct understanding that the Board reserves the right to change the location of, and designate the character and power of the electric lights and the height of the mast to be used at any particular location, during the continuance of the contract, upon payment of the actual cost of labor and material in making said changes or removals.

Two hundred and ninety-nine masts, 40 feet high, lights 2000-candle power, the masts and lights hereinafter specified to be erected at the following designated locations;

Squares and Parks.—Union Square—Post, Geary, Stockton and Powell streets, 2; Columbia Square—Folsom, Sherman and Harrison, 2; Washington Square—Union, Powell, Stockton, Filbert, and Montgomery avenue, 2; Jefferson Square—Gough, Laguna, Golden Gate avenue and Eddy, 4 Alamo Square—Steiner, Scott, Fulton and Hayes, 2; Hamilton Square—Scott, Geary, Post and Pierce, 1.

Telegraph Hill.—One at each of the following crossings: Montgomery and Union, Montgomery and Filbert, Montgomery and Greenwich, Kearny and Greenwich, Kearny and Filbert, Kearny and Lombard, Union and Calhoun, Pioneer Park, Taylor, Montgomery avenue and Chestnut.

Chinatown.—Fire Alarm and Dunbar alley, 2 arcs; Washington alley, 1; Ross alley, 1; Spofford street, 1; St. Louis place, 1; Lozier place, 1; Baker alley, 1; Hall court, 1.

South San Francisco.—Railroad avenue and Third, Fifth, Seventh, Ninth, Eleventh, Thirteenth, Fifteenth, Seventeenth, Nineteenth, Twenty-first; Fifth avenue and M; Fifth avenue and L; Seventh avenue and M; Seventh avenue and L; Tenth avenue and M; Twelfth avenue and P; Fifteenth avenue and L; Seventeenth avenue and K; Fifteenth avenue and N; Fifteenth avenue

and P; Fifteenth avenue, between P and I streets; Fifteenth avenue, between I and R streets; Fifteenth avenue and ——; Fifteenth avenue and Barneveld avenue.

San Bruno Road.—San Bruno road, from Army to Five-mile House, 28; one at each of the following street crossings: Nebraska and Yolo; Nebraska and Nevada; Sonoma and Utah; Potrero and Yolo; Potrero and Sonoma.

Woolen Mills.—Twenty-first and York; Butte and York; Butte and Harrison; Seventeenth and Harrison; Solano and Florida.

Bernal Heights—North.—Precita place and Alabama; Precita place and Washington avenue; Precita place and Folsom; Columbia place and Parker; Precita place and Howard; California avenue and Cortez.

County Road.—From 500 to 600 feet apart. Mission road and Valencia; Mission road and Precita place; Mission road and Twenty-ninth street; Mission road and Thirtieth; Mission road and Courtland avenue; from Courtland avenue to College Hill, 4; from College Hill to Silver avenue, 6; from Silver avenue to Ocean House road, 4; from Ocean House road to Ottawa street, 7; from Ottawa to Sickles avenue, 7; Twenty-ninth and Church, 1; California avenue and Powell place, 1; Ocean View, 9; Ocean House road, 3; old San Jose road, 2; one at each of the following crossings: Twenty-ninth and Dolores; Thirtieth and Dolores; California avenue and Courtland avenue; California avenue and Chapultepec; California avenue and North; California avenue and Wool; California avenue and Moultrie; California avenue and Siegel; California avenue and Banks; California avenue and Nevada; Moultrie and Union; Wool and Lincoln; Eugenia and Buena Vista; Chapultepec and Virginia; California and Virginia; South street, near Holly Park.

Eureka valley and Corbett road; Eighteenth and Hattie; Nineteenth and Diamond; Nineteenth and Douglass; Nineteenth and Castro; Eighteenth and Danvers; Eighteenth and Eureka; Seventeenth and Douglass; Seventeenth and Park Lane; Seventeenth and Uranus; Nineteenth and Corbett road; Twentieth and Corbett road; Hattie and Corbett road; Danvers and Corbett road.

Ashbury Heights.—Ashbury and Page; Ashbury and Waller; Ashbury and Frederick; Park road and Frederick; St. Mary and De Long avenue.

Panhandle of Golden Gate Park.—Oak and Ashbury; Oak and Cole; Haight and Cole; Clayton and Page; Oak and Lott; Lyon and Page; Cole and Fell; Ashbury and Fell; Lott and Fell; west side of Stanyan, off Oak; west side of Stanyan off Fell; west side of Stanyan off Grove; Masonic avenue and Waller; Page and Shrader; Fell and Baker; Page and Stanyan; Fulton and Parker avenue; First avenue and D; Fourth avenue and D; Sixth avenue and D; Seventh avenue and D; First avenue, near Point Lobos avenue, 2; one each at the following crossings: Point Lobos and Ferry street; Point Lobos and Wood street; Point Lobos and Josephine; Point Lobos and Merrifield; Point Lobos and Johnson; Point Lobos and Boyce; Henderson and St. Rose; Barker and St. Rose; Cook street, north of Point Lobos; Second avenue and Clement; Fourth avenue and Clement; Eighth avenue and Clement; Point Lobos and First, Third, Fifth, Seventh, Ninth, Eleventh, Thirteenth, Fifteenth, Seventeenth, Nineteenth, Twenty-first and Twenty-third, 1 each; Pacific and Central avenue.

Presidio Heights.—Sacramento and Central avenue; Sacramento and Spruce; Sacramento and Laurel; Washington and Cherry; Washington and Spruce; Washington and Laurel; Washington and Central avenue; Washington and Lyons; Baker and Union; Baker and Greenwich; Baker and Chestnut.

Miscellaneous.—Baker and Bay; Baker and Beach; Baker and Tonquin; Jefferson and Lyon; Scott and Green; Fillmore and Broadway; Webster and Broadway; Buchanan and Broadway; Pierce and McAllister; St. Rose and Collins; Potrero avenue and Channel; Around New City Hall, 6.

Total, 2000-candle power lamps, 299.

[Six masts, 150 feet high, lights 16,000 candle-power, to consist of four lights each of 4,000 candle-power.]

One light at each of the following locations: Twenty-sixth and Folsom, 1 mast; Twenty-sixth and Valencia, 1 mast; Twenty-sixth and Church, 1 mast; Twenty-ninth and Sanchez, 1 mast; Twenty-first and Sanchez, 1 mast; Twenty-fifth and Castro, 1 mast; Total, six masts, twenty-four lamps of 4,000-candle power each.

In addition, not too exceed 200 masts 40 feet high, with lights of 2000-candle power each, to be erected at such locations as may be determined by the Committee on Street Lights, under the direction of the Board, shall be furnished when required during the continuance of the contract. The lamps to be lighted during the entire night, from one-half hour after sunset until one hour before sunrise, except during the night of full moon and the night preceding and the night following, when no lamps shall be lighted. No compensation shall be allowed for any lamp or lamps except

such as shall be lighted during the whole time provided in the foregoing specifications under which a contract may be awarded; also, that within three days prior to the expiration of each month the Gas Inspector shall furnish the parties to whom the contract is awarded the time during which the lamps shall be lighted and extinguished each and every night and morning of the succeeding month. All bills of the successful bidders, upon the execution of a contract and a performance in compliance therewith, shall be presented and paid monthly at the end of each calendar month.

At a meeting of the Board of Supervisors held on July 18, 1892, a proposal was received from the Edison Light and Power Company offering to furnish the masts and the electric lights of the candle power called for, and keep the same in good order and repair as per specifications at the following rates:

For each mast having 16,000-candle power light, per night.....$4 40
For each mast having 2,000-candle power light, per night..... 55

The Board awarded the contract by a Resolution numbered 7415 (Third Series), which was passed to print on July 25th, finally passed on August 1, 1892, by a unanimous vote, receiving the approval of the Mayor on August 2, 1892. The following is a copy of the award:

RESOLUTION No. 7415 (Third Series.)

RESOLVED, That the contract to light with electricity the outlying districts of this city and county for a period of two (2) years on and from August 1, 1892, in strict accordance with specifications, be and the same is hereby awarded to the Edison Light and Power Company, provided their sureties on the bond, which is hereby fixed at $35,000, are satisfactory to the Committee on Street Lights of this Board, who are hereby authorized to enter into said contract, they being the lowest responsible bidders therefor, at the following prices, viz:

For each mast having light of 16,000-candle power, per night.....$4 40
For each mast having light of 2,000-candle power, per night..... 55

In Board of Supervisors, San Francisco, August 1, 1892.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Artigues, Burling, Curtis, Ayer, Ellert, Coffee, Heyer, Hunt, Taber, Wilkinson.

Absent—Supervisor Carnes.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, August 2, 1892.

GEO. H. SANDERSON,
Mayor and ex-officio President Board of Supervisors.

The contract was duly executed on August 4, 1892, on the part of the Edison Light and Power Company by George H. Roe, President, and a satisfactory bond given in the sum of $35,000 for its faithful performance, with Gustav Sutro and P. B. Cornwall as sureties.

The amount of $58,969.25 was paid the California Electric Light Company for furnishing masts and electric lights for the fiscal year ending June 30, 1892.

LIGHTING PUBLIC BUILDINGS.

The contract for furnishing gas to light the public buildings expiring on May 1, 1890, the Board of Supervisors caused notices to be published in the San Francisco Daily Report, the Chronicle and the Evening Bulletin, newspapers, inviting proposals to be received in open session of the Board on Monday evening, May 16, 1892, to furnish gas of a standard quality and illuminating power of not less than seventeen candles for lighting any or all or any portion of the public buildings and offices for a period of two years from June 1, 1892.

The specifications provided that the party to whom a contract was awarded would be require to run the service pipes and place meters wherever designated by the Gas Inspector free of charge to the city.

Proposals to furnish gas as designated were received from the San Francisco Gas Light Company and the Pacific Gas Improvement Company at the rate of $1.75 per one thousand cubic feet. As each company bid on separate buildings, contracts to furnish gas for the respective buildings bid upon were awarded to said companies by Resolutions Nos. 7083 and 7084 (Third Series), finally passed by the Board May 31, 1892, and approved by his Honor the Mayor on June 1, 1892.

The following are copies of the awards made to each company:

TO THE SAN FRANCISCO GAS LIGHT COMPANY—RESOLUTION OF AWARD.

RESOLUTION No. 7083 (Third Series.)

RESOLVED, That the contract to furnish gas for lighting the public buildings and offices hereinafter enumerated, from June 1, 1892, to May 1, 1894, be and the same is hereby awarded to the San Francisco Gas Light Company, provided their sureties on their bond, which is hereby fixed at $5,000, are satisfactory to the Committee on Public Buildings of this Board, who are hereby authorzed to enter into said contract, they being the lowest responsible bidders therefor, at the following prices, viz:

Fire Alarm Telegraph, Brenham place.

Exempt Engine Company, Brenham place.

Engine House No. 7—Sixteenth street, near Valencia street.

Engine House No. 9—West side of Main street, near Folsom street.

Engine House No. 11—Fifteenth avenue South (late Teneriffe street), near Railroad avenue, South San Francisco.

Engine House No. 13—Valencia street, between Twenty-fifth and Twenty-sixth streets.

Engine House No. 16—Tennessee street, between Sierra and Napa streets.

Engine House No. 17—Mint avenue.

Engine House No. 18—Duncan street.

Hose Company No. 3—Folsom street, between Twenty-first and Twenty-second streets.

Hose Company No. 4—East side of Stockton street, north of Greenwich street.

Hose Company No. 5—North side of Waller street, between Octavia and Laguna streets.

Hose Company No. 9—Market street wharf, foot of Market street.

Chemical Engine No. 2 and Truck No. 3—Market street, between Tenth and Eleventh streets.

Alamo-square Stables—Corner Pierce and Fulton streets.

Police Stations—827 Folsom street, and lamp, 247 Steuart street, 207 Seventeenth street, Railroad avenue and Paraguay street, Powell-street wharf.

"Fourteenth avenue South," Napa street and Kentucky street.

Police Patrol Stable—No. 2103 Howard street.

City and County Hospital—Potrero avenue.

For gas per 1,000 cubic feet, $1.75. Provided, however, that gas required and used at the Gas Inspector's office shall be furnished free of charge.

TO THE PACIFIC GAS IMPROVEMENT COMPANY—RESOLUTION OF AWARD.

RESOLUTION No. 7084 (Third Series.)

RESOLVED, That the contract to furnish gas for lighting the public buildings and offices hereinafter enumerated from June 1, 1892, to May 1, 1894, be and the same is hereby awarded to the Pacific Gas Improvement Company, provided their sureties on their bond, which is hereby fixed at $5,000, are satisfactory to the Committee on Public Buildings of this Board, who are hereby authorized to enter into said contract, they being the lowest responsible bidders therefor, at the following prices, viz:

New City Hall Building.

Old City Hall Building.

County Jail, on Broadway, between Kearny and Dupont streets.

Coroner's Office, Dunbar alley.
Engine House No. 1—Pacific street, between Montgomery and Sansome streets.
Engine House No. 2—North side of Bush street, between Kearny and Dupont streets.
Engine House No. 3—South side of California street, between Leavenworth and Hyde streets.
Engine House No. 4—West side of Second street, between Natoma and Howard streets.
Engine House No. 5—West side of Stockton street, between Pacific street and Broadway.
Engine house No. 6—East side of Sixth street, south of Folsom street.
Engine House No. 8 and Truck No. 4—North side of Pacific avenue, between Polk street and Van Ness avenue.
Engine House No. 10—Bryant street, between Third and Fourth streets.
Engine House No. 12—Drumm street, southwest corner Commercial street.
Engine House No. 14—South side McAllister street, between Buchanan and Webster streets.
Engine House No. 15—North side California street, between Laguna and Buchanan streets.
Chemical Engine No. 1—New Montgomery street, near Mission street.
Chemical Engine No. 3—Second avenue, between Point Lobos avenue and Clement street.
Hose Company No. 1—North side of Jackson street, between Front and Davis streets.
Hose Company No. 2—Post street, near Fillmore street.
Hose Company No. 8—South side of Filbert street, between Webster and Fillmore streets.
Truck No. 1—North side of O'Farrell street, west of Grant avenue.
Truck No. 2—South side of Broadway, between Dupont and Stockton streets.
Truck No. 5—Post street, near Fillmore street.
Corporation Yard—No. 50 Sacramento street, between East and Drumm streets.
Police Stations—1530 Jackson street; Harbor Police, 522 Davis street; Waverly place, near Clay street.

For gas per one thousand cubic feet, $1.75; provided, however, that gas required and used at the Gas Inspector's office shall be furnished free of charge.

The contract with the San Francisco Gas Light Company was executed on behalf of said company by J. B. Crockett, President, and William G. Barrett, Secretary, and a bond given on June 3, 1892, in the sum of $5,000 for its faithful performance, with J. D. Grant and B. F. Dunham as sureties. The contract with the Pacific Gas Improvement Company was executed on behalf of said company by Albert Miller, President, and a bond given on June 1, 1892, in the sum of $5,000 for its faithful performance, with George W. Beaver and J. S. Hutchinson as sureties.

The sum of $29,511.68 was paid the San Francisco Gas Light Company and the Pacific Gas Improvement Company for gas furnished and used in lighting the public buildings during the fiscal year ending June 30, 1892.

REVENUE ORDERS.

On June 6, 1892, the Auditor, Thos. J. L. Smiley, Esq., filed with the Board his estimate of the revenue and expenditures for the fiscal year 1892-93.

The estimated expenditures were $4,976,045; the revenue derived from taxation was estimated at $3,502,000, while from other sources the revenue was estimated at $1,474,045. The valuation of real and personal property subject to taxation was estimated at $340,000,000, necessitating a tax of $1.03 on each $100 valuation of assessable property.

The revenue to be derived from other sources than taxation being estimated as follows:

From State—For support of children and aged persons	$40,000
" " For assessment expenses	35,000
Fees of City and County Officers	230,000
Fines imposed in Police Courts	40,000
Fines imposed in Superior Courts	1,000
Licenses—City and County	406,000
" Municipal	78,000
" Stock Certificate Tax and Fire Crackers	2,000
Quarantine Fees	5,500
Subsistence of U. S. Prisoners	2,000
Sundries	7,500

The following is a copy of the communication from the Auditor, accompanying his estimate of the revenue and expenditures for the fiscal year 1892-93, calling attention to many necessities which required expenditures and which were not embraced in his estimate, to-wit:

COMMUNICATION FROM THE AUDITOR.

To the Honorable Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN—In presenting estimates of the proper adjustment of the tax levy your attention is called to the fact that many necessities have arisen for increased expenditures that are not included in apportionment made.

In view of the fact that by law the New City Hall (with the exception of the Hall of Records) is entirely under the control of the City Hall Commissioners, the expenses of fitting up various offices and repairs to the building have been assumed by the City Hall Commissioners; the time has now arrived for the removal of the offices of the County Clerk, the Police Commissioners, the criminal court-rooms, the police headquarters, and the Receiving Hospital and the insane headquarters; the present quarters of the County Clerk will be occupied by the Street Commissioner, the Registrar's room will be occupied by the Tax Collector, the Treasurer's room will be absorbed by the grand staircase, the License Collector's room will adjoin the Treasurer's office. The Receiving Hospital demand is not included in my estimate, but your attention is called to the fact that the expenditure of a very small amount for assistant surgeons and matron and one steward will avoid the payment of $7,500 per year now given to the Home of Inebriates; the rooms, padded cells, etc., are now ready for occupancy—neat, clean, healthy quarters adjoining, but separate from the Receiving Hospital, requiring only bedding, victuals and moderate attention to give the inebriates all needful attention, while the cruel display of the unfortunates bereft of reason will entirely cease.

The condition of the books of the Recorder and Tax Collector in my annual report was brought to your notice. Time has not diminished the necessity for their rebinding. Every property owner has the right to demand that the record of his title, that the record of his mortgage or release, that the record of his paid taxes, should be preserved and that perishing books should be rebound. The destruction of one book alone might imperil the possession of millions of dollars' worth of property.

The burnt books in the Auditor's office (forty-three in number), the only check on the Tax Collector and the original evidence of taxes and payments therein, should be recopied, the matter of rebinding several hundred books partially burned is left to your judgment.

The expenses of the Sheriff's office and the inauguration of the branch jail has increased the expenses of that office, and are not included in the estimates submitted.

Numberless Grand Juries have called your attention to the County Jail on Broadway street. The municipality continuing this building in its present condition daily violates the laws of their own creation regarding the "cubic-air requirements." Your attention is called to this institution in deference to the cause of humanity and in the hope that by legislative authority this County Jail may cease to be a place of torture and be only a place of security for the evil-doer.

T. J. L. SMILEY, Auditor.

The communication with estimate was referred to the Finance Committee, who after hearing the heads of the various departments and estimating the various expenditures of the government reported on June 20, 1892, by the Chairman, Supervisor L. R. Ellert, in favor of imposing a tax rate of $1 on each $100 valuation of property, as follows :

REPORT OF CHAIRMAN OF FINANCE COMMITTEE.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Your Finance Committee, in the matter of providing revenue to meet the requirements of the municipal government for the fiscal year ending June 30, 1893, beg leave to report that after carefully scrutinizing the requirements of the various departments and the estimates of the Auditor, the amounts allowed have been so graduated as to allow just and proper appropriations.

The duty devolving upon the Board to raise no larger an amount by taxation than $2,750,000 for the general purposes of the municipality, in addition to providing for the Park, City Hall and debt, was kept in view, and the appropriations made were limited to conform to the pledges made in that respect. The importunities of associated bodies of citizens requesting special or increased appropriations for various purposes were duly considered, and while in some instances and for some particular purposes much stress was laid as to their necessity, yet the recognition of the obligations resting upon this Board rendered powerless all such appeals. The united efforts of those citizens were misdirected in this, that the Board having limited powers could not entertain any proposition looking to an expenditure in excess of what had been contemplated and by which the members were bound. The appropriations applied for, if in the power of the Board to grant, would certainly have raised the levy sixty per cent for city and county purposes, a burden which would not be acceptable to our taxpayers.

The political parties in exacting pledges limiting expenditures no doubt foresaw this very influence, and in the manner indicated took this means of protecting the taxpayers against such importunities. The question, therefore, of discretion in this matter of fixing the amount of the tax levy is not vested in the Board, but in the conventions that adopt platforms in which these limits are imposed and by which their nominees are bound. Those of our citizens, therefore, who desire increased expenditures and who believe it is in accordance with public sentiment will do well to have the platforms so molded as to provide for what is desired. It is not the legal power vested in the Board that can be exercised; it is the plank in the political platform that fixes and declares the extent of the levying power that is to be exercised and by which all are bound.

Your committee, however, in revising applications and in fixing appropriations took into consideration all the arguments presented as to the urgency and necessity, and as a result of their labors believe that on the whole ample provision has been made.

The estimated expenditure of the fiscal year is		$4,874,045 00
The revenue of the various funds to meet this expenditure being as follows:		
General Fund	$2,457,500 00	
Street Department Fund	410,000 00	
New City Hall Fund	238,000 00	
Park Improvement Fund	204,000 00	
Street Light Fund	280,000 00	
Library Fund	40,000 00	
School Department Fund	1,090,000 00	
Interest Accounts—Sinking Funds	154,545 00	
		$4,874,045 00
The estimated revenue from other sources than taxation being	$1,474,045 00	
Requires a tax rate of $1 to realize	3,400,000 00	
		$4,874,045 00
The pledge restricts the Board for the general expenses of the government to		$2,750,000 00
For increase to obviate expenses and decimals in calculations		17,645 00
For Golden Gate Park		204,000 00
For the New City Hall ($340,000): only levied		238,000 00
For Interest Accounts—Sinking Funds	$154,545 00	
For judgments—Debt	35,810 00	
		190,355 00
Total levy of $1 to realize		$3,400,000 00

In order to remove any false impressions as to the sufficiency of the appropriations for the maintenance of the departments your committee presents some of the allowances made under the levy to show the cost of the principal public institutions:

Almshouse		$80,000 00
Fire Department—		
Material for ($30,000) and running expenses ($80,000)	$110,000 00	
Relief to (2,000) and pensions for firemen ($5,000)	7,000 00	
Salaries	275,000 00	
Hose and apparatus	15,000 00	
		407,000 00
Fire Alarm and Police Telegraph—		
Extension and repairs	$10,000 00	
Salaries	8,100 00	
		18,100 00
Health Department—		
General expenses	$5,000 00	
Quarantine launch	5,000 00	
City Receiving Hospital and three assistant physicians	7,700 00	
Salaries Health Officer, Secretary, assistant and messenger	7,200 00	
Nineteen Inspectors, including three Market Inspectors	11,100 00	
Plumbing Inspector and Assistant Quarantine Officer	4,500 00	
City Cemetery Superintendent, improvements ($200)	1,100 00	
		41,600 00
Hospital	$75,000 00	
Repairs to building, fence, painting, etc	20,000 00	
		95,000 00
Smallpox Hospital		3,000 00
House of Correction		47,500 00
Minors, keeping of, transportation to and charges Whittier Reform School		21,500 00

Police—		
Contingent expenses	$7,200 00	
Police Patrol	35,000 00	
Rents	5,100 00	
Salaries Chief and Police Commissioners	9,400 00	
Salaries police officers (no increase in force)	577,000 00	
		633,700 00
Registration and election expenses	$140,000 00	
Salaries Registrar, deputy and messenger	6,600 00	
		146,600 00
Free Public Library		40,000 00
Golden Gate Park		204,000 00
School Department Fund—		
Teachers' salaries	$835,000 00	
Maintenance common schools	180,000 00	
Repairing and painting schoolhouses	20,000 00	
Erection of school buildings	53,000 00	
Teaching of physical culture	2,000 00	
General Fund—Salaries Superintendent, deputy and Secretary	9,400 00	
		1,099,400 00
Street Department Fund—		
Repairing streets and repairing and cleaning sewers	$216,500 00	
Street sweeping	79,000 00	
Park improvements—Holly Park, $5,000; Alamo Square, $15,000; Alta Plaza, $7,500; other parks and plazas to be designated by the Board, $22,500	50,000 00	
Bituminous plant	3,000 00	
Expenses of sewerage system	35,500 00	
General Fund—Salaries of Superintendent and deputies	23,000 00	
		433,000 00
Street Light Fund		280,000 00
New City Hall		238,000 00

Your committee submit the foregoing figures to show that the sum total allowed for the departments named would justify the assumption that the public service required ought to be subserved.

FIRE DEPARTMENT.

In addition to the statutory allowance of $30,000 for material to the Fire Department, the sum of $15,000 for hose and apparatus has been allowed, while the sum total of $404,500 is allowed this department. There can be no doubt that provision should hereafter be made for the erection of more buildings to accommodate fire apparatus in the outlying districts, as well as for the erection of a good permanent building on the gore lot at the junction of Market, Bush and Battery streets, to afford protection to the manufacturing district in the lower portion of our city and the water front. While the statutory allowance heretofore has been drawn upon for the purpose of erecting buildings, the increase of apparatus and the running expenses of the department will not now warrant any such expenditure, unless these expenses can be decreased.

CITY RECEIVING HOSPITAL.

The appropriation of $7,700 for this institution has been made to provide for the appointment of three Assistant City Physicians, and for the supply of the proper accessories for the treatment of patients who are taken there at any time during the day or night. It is manifestly the duty of the municipality to insure any of our citizens who, from accident, etc., on the public streets, are taken there for medical aid, with immediate and proper attention from competent physicians.

HOSPITAL.

The appropriation of $95,000 includes the sum of $20,000, the estimated cost of putting the building, fences, etc., in good order and repair, and is made on the assumption that the same will be advertised for under good and sufficient specifications, and the contract awarded to the lowest responsible bidder.

The question of removing the hospital from its present location, which has been agitated, does not seem to be well founded; the site was reserved by the city in 1868 and dedicated for hospital purposes, and there does not at the present time appear to be any good reason from a sanitary point of view for its removal.

POLICE.

The appropriation of $633,700 for this department, omitting amounts secured for the Pension Fund, provides for no increase of the police force, but only for the payment of the 450 officers and men now appointed and doing service. The placing in service of the 160 signal boxes of the police patrol system, a valuable adjunct to the efficiency of the department, would seem to justify the position that no increase is required at the present time, and with that auxiliary the present force ought to be adequate to afford proper protection to our citizens. The only apparent want of this department which ought to be provided for the next fiscal year is the purchase of lots (in locations where there are no city lots) and the erection of buildings for station purposes, and for the housing and keeping the patrol wagons and horses ready for service as apparatus of the Fire Department are kept.

REGISTRATION AND ELECTION EXPENSES.

The appropriation of $146,600 for this purpose ought to be sufficient. It is true that the new system inaugurated will be expensive, but a disposition to scrutinize and keep down expenditures will result in a sensible diminution of the contemplated outlay. The exigencies of the public service do not always require an army of employees. If this is kept in view the new election law will not be made the means to create large and in reality unwarranted expenditures.

GOLDEN GATE PARK.

The appropriation of $204,000 is the statutory allowance, with which no disposition has been evinced to diminish. The Park is a source of pride to our citizens, a place available to all for pleasure and recreation, and as long as the expenditures are judiciously made to reclaim and keep in the highest state of culture this domain, the public are more than well satisfied. The enterprise of our citizens in grading, at their own expense, the boulevard on the great highway from Golden Gate Park southward to the old Ocean House road, should be appreciated, and the work of macadamizing said boulevard to a width of forty feet is hereby recommended and authorized to be made by the Board of Park Commissioners out of the appropriation.

SCHOOL DEPARTMENT.

The appropriation of $1,099,400 has been made under the conviction that this department, so essential for the education of our future men and women, should not be cramped in its efficiency, but that the appropriation should be so liberal as to effectually provide for every conceivable want without encouraging extravagance.

STREET DEPARTMENT.

The appropriation of $433,000 for this department embraces many improvements, and was made on the understanding that all the work that could be so performed should, after due public notice, be awarded to the lowest responsible bidder. This course is to be followed in the expenditure of the appropriations for the parks, the Board reserving and claiming the right to designate the squares where the general appropriation is to be expended. This appropriation also includes $3,000 for the purchase of a bituminous plant to repair the streets laid with bituminous pavement.

The larger number of blocks and crossings now paved with this bituminous rock and accepted by the city must be kept in good repair, for if neglected, they will become a great source of expense. On the purchase of this plant the slightest abrasion of the surface of this pavement must be attended to and repaired; if this course is not pursued the further laying down of said pavement should be discontinued, for constant repairs must be made to insure good streets and save expense. The construction of a bridge at Fourth street over Channel street is also provided for out of this fund at a cost of $26,000, it being represented that the present structure is unsafe and should be removed.

This appropriation is also charged with the expenses of the Commission to recommend grades and a sewerage system to the extent of $35,500. The gentlemen named to compose this Commission having been duly authorized, will doubtless organize, take charge and proceed with the work. In the mean time only such street improvements as are urgently needed or demanded should be made.

for in the prosecution of the work of the Commission it may be found necessary to recommend some changes of grade, the reconstruction of many sewers, etc., thereby causing the removal of the pavement or a portion thereof. The object being to establish grades, to reconstruct present sewers and to provide the size and character of the future sewers to be laid, it must be apparent that during the next fiscal year the performance of street work should be limited solely to urgent improvements, and repairs or other work when petitioned for by property owners.

STREET LIGHT FUND.

The appropriation for this fund, to pay for gas and electric lights, is $230,000. It has been conceded that a distribution of lamps, to be reported on by the Committee on Street Lights, will afford our citizens better service than during the past year.

NEW CITY HALL BUILDING.

The appropriation of $238,000 for the prosecution of the work on this building is $102,000 less than could be levied, but your committee were of the opinion that this levy allowed as much revenue for the year as was contemplated to be provided for this purpose at the time the statute authorizing this expenditure was passed, the assessed valuation of property having so increased as to justify this conclusion.

The various items of expenditure making up the total levy are shown on the statement of the Auditor, as corrected and noted therein by your committee; and, as these do not require any special comment, being mainly statutory allowances, no further reference is deemed pertinent.

Your committee, in consideration of this question of obligating the members of this Board by restrictive pledges as to the limits of taxation, beg to state, as the result of experience, that the policy of said action is, in their opinion, wise and judicious; that this mode of determination is the only safety against oppressive and unwise taxation, for in its operation it controls the Board and prevents specious or meritorious demands for a violation of this obligation from having any force or effect, and relegates all those demands to the political conventions of the people, who determine in their platform all such issues.

The judgment of those representative conventions are entitled also to weighty considerations outside of their obligatory character, for being representatives of the people, they know what is desired by their constituents, and it is not a strange supposition to entertain that by the declaration of a fixed sum to be raised by taxation for municipal purposes, these conventions bid for further favor and support, and from well-digested information practically declare that if scrupulous care is taken the amount designated will be ample to provide for all municipal wants. This is on the principle that enforced economy is the only way to accomplish economy and lead to innovations on time-honored customs to bring it about.

In conclusion, your committee present and recommend the passage of an order fixing the rate of city and county taxation for the fiscal year 1892-3 at $1 on each $100 valuation of property, the total valuation of property having been estimated at $340,000,000, for the purposes of taxation. Also, an order fixing the levy at $13.91 on each $100 of the enhanced values of the property benefited by the widening of Dupont street, to pay the interest and five per cent of the Dupont-street bonds for the fiscal year 1892-3.

Since the preparatian of this report Supervisor Burling dissents from the proposed levy of seven per cent for the City Hall Fund, claiming that the statutory allowance should be made.

L. R. ELLERT.

There was a difference of opinion between the members of the Finance Committee as to the amount of the levy for the prosecution of the work on the New City Hall building, Supervisor Ellert being in favor of levying 7 cents, while Supervisor Burling advocated the statutory levy of 10 cents; necessitated a report on the part of Supervisor Burling as to that particular point of difference, to-wit:

REPORT OF SUPERVISOR BURLING.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: The undersigned would respectfully represent, on behalf of the Finance Committee, that, owing to a difference in opinion as to the propriety of levying the full amount provided by law for the purpose of continuing the construction of the New City Hall, it necessitates two reports, one of the members of your committee, through sickness, being unable to participate.

The committee agree as to the other appropriations recommended, and simply differ as to the levy for the City Hall building, it being within the province of the Board and within the pledge to allow a levy of ten cents. The progress of the work on this building has been going on for many years, and the expense of the Commission, Superintendents and other expenses incidental thereto have greatly added and will add to the expense if the work is protracted.

This Board, in making the appropriation last year, only allowed the sum of $198,250, in lieu of the amount of $305,000 authorized by the statute, which has crippled the prosecution of the building, at the same time not affecting the incidental expenses. To further retard the prosecution of the work on this building during this fiscal year, as contemplated, by an insufficient levy, will be to simply delay the completion and greatly add to the cost.

Our citizens are not averse to a proper expenditure of the public moneys within the pledge, but must reprehend any limited appropriation that will continue the prosecution and defer the completion of the building for many years. Any such action in reducing the legal limit of taxation for this purpose will only necessitate further applications to the Legislature and continue indefinitely the work upon this structure and prevent its completion, as intended and provided for during the fiscal year 1894-95.

The decided progress in the construction of this building and the expenditures made in improving the sanitary condition of the building and the placing it in good order and repair during the past year is sufficient evidence that this appropriation will be judiciously expended.

The undersigned therefore reports in favor of the levy for the City Hall being fixed at 10 cents on each $100, and the total levy at $1 03 for all municipal purposes, this amount being strictly within the pledge taken by the members of this Board to limit taxation.

JAMES W. BURLING.

The Board concurred in fixing the levy for the New City Hall at seven cents on each one hundred dollars valuation of property: Supervisors Ayer, Ellert, Carnes, Coffee, Heyer, Hunt and Wilkinson in favor, and Supervisors Artigues, Burling, Curtis and Taber dissenting. The order fixing the levy at $1 on each $100 valuation of property on the estimated aggregate valuation of $340,000,000 for City and County purposes was passed for printing; also an order fixing the levy at $13 91 on each $100 of the enhanced values of the property benefited by the widening] of Dupont street, to pay the interest and five per cent of the Dupont Street Bonds.

The following is a copy of Order 2549, passed by the Board and approved by His Honor Mayor Sanderson, fixing the levy for municipal purposes at $1 on each $100 of valuation of assessable property for the fiscal year 1892-93, to wit:

ORDER No. 2549.

PROVIDING REVENUE FOR MUNICIPAL PURPOSES FOR THE FISCAL YEAR ENDING JUNE 30, 1893.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Under and in pursuance of acts of the Legislature of the State of California, an in conformity thereto, and under and in pursuance of various municipal orders and ordinances and in conformity thereto, there is hereby levied a tax for city and county purposes, for the fiscal year ending June 30, 1893, on all property, both real and personal, in the City and County of San

Francisco, except such property as is by law exempt from taxation, the sum of one dollar ($1) on each one hundred dollars' ($100) valuation of said taxable property upon the assessment book for said fiscal year, which sum of one dollar ($1) on each one hundred dollars ($100) valuation, as aforesaid, is hereby apportioned to the funds and accounts known and designated as follows:

General Fund	$.4842
Street Light Fund	.0824

The Board of Supervisors duly passed Order No. 2,556, on July 18, 1892, in pursuance of the statute regulating and limiting the monthly public expenditure to one-twelfth part of the annual appropriation respectively for the fiscal year ending June 30, 1893, of which the following is a copy, to-wit:

ORDER No. 2,556,

Regulating and designating the limit of expenditure of the various offices and departments of the City and County of San Francisco for the fiscal year ending June 30, 1893.

The People of the City and County of San Francisco, do ordain as follows:

SECTION 1. That each and every Board, officer and department of the City and County Government shall be and are hereby limited in their respective expenditures during each fiscal year to the actual amount of money estimated as sufficient for such Board, officer or department, at the time of making the annual tax providing funds for the maintenance of the City and County Government for such fiscal year, and to one-twelfth thereof each month.

SECTION 2. The amount of such estimate provided by the Board of Supervisors for the various Boards, officers and departments for the fiscal year ending June 30, 1893, is:

PURPOSES.	AMOUNT.
Advertising for municipal officers	$5,000 00

In Board of Supervisors, San Francisco, July 18, 1892.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Artigues, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, July 19, 1892,

GEO. H. SANDERSON,

Mayor and ex-officio President Board of Supervisors.

The Finance Committee presented the following report at a meeting of the Board of Supervisors on July 18, 1892, showing the condition of the funds and accounts of the fiscal year 1891-92, reporting amount of deficiency existing, the amount required to meet outstanding obligations, and recommending transfers of certain moneys to meet a portion of the liabilities of the City and County, to wit:

REPORT OF FINANCE COMMITTEE.

THE CITY'S FINANCES.

To the Honorable the Board of Supervisors
Of the City and County of San Francisco:

GENTLEMEN: Your Finance Committee, at the conclusion of the fiscal year, in compliance with custom, in presenting a statement of the condition of the funds of the fiscal year 1891-92, desires to call attention to the fact that at the commencement of said year, on July 1, 1891, there were unpaid demands not provided for aggregating $105,543 22, which it was hoped, by economy and keeping within the appropriations made for the several municipal departments, would be liqui-

dated and paid this fiscal year. This indebtedness embraced expenditures of the past, as well as of the present administration, and were not properly chargeable to the Board of Supervisors, as it was an indebtedness contracted in excess of liberal appropriations by autocratic authority, and in every case passed upon and determined finally by the Supreme Court. The same character of expenditures have been made this past year, and, notwithstanding the revenue received, have absorbed and rendered ineffective the attempt to liquidate the entire indebtedness. In comparison, the entire indebtedness not provided for at the commencement of this fiscal year, on July 1, 1892, was, $65,286 19, a reduction of $40,257 13 on the existing indebtedness one year ago, as the following exhibit shows, to wit:

The gross indebtedness of the fiscal year 1890-91, on July 1, 1891, was		$195,105 81
From transfers from surplus funds, etc	$41,733 59	
From provisions made in levy of 1891-92 for judgments and outstanding indebtedness	47,829 00	
		89,562 59
Leaving net liabilities of fiscal year 1890-91 not provided for		$105,543 22

The gross indebtedness of the fiscal year 1890-91 and 1891-92 on July 1, 1892, was		$117,727 61
From transfers from surplus funds, etc	$24,131 52	
From provision made in levy of 1892-93 for judgments and outstanding indebtedness	28,310 00	
		52,441 52
Leaving net liabilities for fiscal year 1891-92 not provided for		$65,286 09

In reiterating the conviction that experience has demonstrated the efficiency of pledges being exacted to limit the amount to be raised by taxation for expenditures, it is evident that notwithstanding every effort, expenditures of the government, under our present statutory enactments and their construction by our courts, are bound to exceed the amounts provided. The only action which might tend to effect a reform in this particular would seem to be in exacting other and further pledges from all candidates for executive and judicial offices to keep the expenditures within the amounts provided for the officers and departments over which they have control, and as a sine qua non, to embody in the respective platforms a schedule of amounts for the various departments and municipal purposes, to which the candidates would be bound.

This additional obligation would be fraught with the best results, there being but little difficulty to prepare and declare the limit of the expenditures and embrace it in a party platform. The result of such obligations must have the same force in their operation and binding effect as upon the Board of Supervisors as to the limit of taxation. It can be truly asserted that since the inauguration of convention pledges as to taxation, notwithstanding the persistency and pertinacity of interested parties backed by petitions from any number of wealthy taxpayers to increase the limit of taxation for purposes claimed to be urgent and meritorious, no Board of Supervisors has substantially violated this pledge. While the members of various boards have been impressed with the representations and solicitations made, supported and explained even by members of the conventions who formulated the pledge, as to the construction and intent of this obligation, no demand and no sophistry have ever led a Board of Supervisors to stultify itself and concede to any evasion of the pledge when the time came to fix the rate of taxation.

The following exhibit shows the condition of the funds as reported by the Auditor:

[From Auditor's Statement.]

CONDITION OF THE GENERAL AND SPECIAL FEE FUNDS JULY 1, 1892.

	CASH ON HAND.	OUTSTANDING DEMANDS.
General Fund	$133,458 05	$142,066 80
Special Fee Fund	7,632 70	6,952 48
	$141,090 75	$149,019 23
		141,090 75
Deficiency in General and Special Fee Funds		$7,928 53

Street Department	15,145 84	
		39,848 36
		$117,727 61
Transfers from—		
Police Relief and Pension Fund	$15,000 00	
Street Light Fund	6,292 32	
Street Department Fund	1,839 20	
Judgment bond No. 139 of 1867, unclaimed	1,000 00	
Levy for judgments and indebtedness	28,310 00	
		52,441 52
Net indebtedness unprovided for		$65,286 09

The expenditures which have absorbed a portion of the revenue and prevented the entire liquidation of the outstanding liabilities, and which, in addition to the appropriations made for the respective purposes, are wholly outside any control of the Board, are as follows:

County Clerk's deputies	$29,555 28
Registration and election expenses	9,174 75
Shorthand reporters and court orders	16,598 99
Superintendent of Streets' deputies	8,475 00
Examination of insane	1,345 00
Witnesses in criminal cases	1,324 95
Jury expenses	627 50
	$67,101 47

In addition expenditures in excess of estimated appropriations have been rendered indispensable in many cases, which have been met by increased revenue, the most important of which are for: Subsistence of Prisoners; Burial Indigent Dead; Care of Insane; Receiving Hospital; City and County Hospital; Smallpox Hospital; Interment of Indigent Dead U. S. Soldiers, etc.; Assessor's and Tax Collector's Extra Deputies, etc.

The other appropriations under the control of the Board, although sufficient for the year, yet being charged with the liquidation of a portion of the former indebtedness of 1890-91, which indebtedness, amounting to $40,257 13, was paid during the fiscal year 1891-92, show that additional increase to the estimated expenditures making such subdivisions of the General Fnnd appear overdrawn, which amount was paid from appropriations which were not all expended for the purposes for which they were provided.

The estimated expenditures provided for the fiscal year 1891-92 from taxation and other sources aggregated $4,598,278, of which the sum of $1,591,790 84 was allowed by this Board, the principa portion of the amount being expended in the payment of demands accruing under contracts duly awarded for subsistence and supplies furnished the Almshouse, Hospital, House of Correction, County Jail and City Prison, for lighting the public streets and buildings, water for municipal purposes, the improvement of plazas and for street work in front of public property.

On the basis of the estimated expenditures the sum of $3,006,487 16 was expended independent of any control by this Board under the existing provisions of law, there being no power in the Board, if desired, to check or exercise any supervision over this outlay. All that is required of and imposed upon the Board as to this expenditure is to raise the means by levy for the purposes designated by the statutes.

This forcibly illustrates what your committee suggest, the propriety of limits being fixed for the several municipal expenditures in addition to or in lieu of the limit of taxation now imposed by convention formulating platforms to invite public support and indorsement. This course cannot be considered impracticable, because, in spite of all precautions, exigiencies will arise requiring other or additional obligations to be met than contemplated, but it will make accountable each department for any excess in expenditures, and will induce and secure the greatest economy consistent with a proper discharge of duty.

The expenditures of the government of late years have been in excess of the revenues provided, although the revenue has been augmented yearly. This arises in part from various additional burdens being imposed as well as from the expenses consequent upon the growth of the city, some of the additional obligations imposed the last few years being as follows:

The institution and maintenance of the Police Patrol and Signal Service; increase of the police force, Fire Department and police pensions; organization of Police Court into three departments; increase of the District and City and County Attorney's departments; change of the Election law; burial of indigent decedents; ex-Union soldiers; printing transcripts on appeal in criminal cases, etc.

Your committee has in former reports called attention in detail to the municipal departments, their conduct and management, and it is deemed unnecessary to reiterate those suggestions and recommendations.

Your committee, in conclusion, desire to state that the results, taking into consideration the expenditures outside the control of your honorable Board, have been most gratifying; the indebtedness accruing at the end of the last fiscal year being greatly reduced, and will undoubtedly be met and discharged this fiscal year, if all party nominees are pledged if elected to keep the expenses of their department and these consequent on their order and approval within the amounts provided therefor.

Your committee therefore recommends the passage of the accompanying resolution empowering the Treasurer to transfer $1,839 20 from the Street Department Fund, $15,000 from the Police Relief and Pension Fund, and $6,292 32 from the Street Light Fund; also the sum of $1,000, being amount of judgment bond of 1867 unclaimed, to the General Fund to pay demands to be hereafter allowed of the prior fiscal years; also, empowering the Auditor to audit and the Treasurer to pay all of the said demands allowed by this Board out of the moneys so transferred, and out of the further amount of $28,310, included in the General Fund of this year for said purpose.

L. R. ELLERT,
JAS. W. BURLING.

The foregoing report of the Finance Committee was adopted as the action of the Board on the adjustment and settlement of the liabilities from time to time of the fiscal year 1890-91, the gross amount of all demands received being taken as the actual deficit. The recommendations of the Finance Committee as to the transfers of money were embodied in the following resolution, adopted by the Board at the meeting held on July 18, 1892, by a unanimous vote, to-wit:

RESOLUTION No. 7358 (Third Series).

Resolved, That the Treasurer be and he is hereby empowered to transfer to the General Fund:
The sum of $1,839 20 from the Street Department Fund;
The sum of $15,000 from the Police Relief and Pension Fund; and
The sum of $6,292 32 from the Street Light Fund; also,
The sum of $1,000, being the amount of a judgment bond of 1867 unclaimed, to pay demands of prior fiscal years to be hereafter allowed.

Further resolved, That the Auditor be and he is hereby empowered to audit and the Treasurer to pay all of the demands of the fiscal year 1891-92, allowed by this Board, out of the moneys so transferred and out of the additional amount of $28,310, included in the General Fund of the present fiscal year for said purpose.

The Board of Supervisors, as a result of their labors on the Assessment Book, were of opinion that the assessment of property in the aggregate was at least thirty per cent in excess of its true

value. The action taken by the State Board of Equalization in raising the assessed value of property thirty per cent the preceding year on the oral statements made by members of said State Board, which were shown to be erroneous on an investigation had by the Finance Committee, led the Board of Supervisors to conclude that owing to the large increase in valuation of property as returned this year, that this city and county was entitled to a reduction of at least thirty per cent on the aggregate valuation for State purposes.

In order that the demand might be presented to the State Board of Equalization (consisting of L. C. Morehouse, R. H. Beamer, J. R. Hebbron, Jabez S. Swan and E. P. Coglan), a resolution was adopted on July 18, 1892, of which the following is a copy, appointing His Honor the Mayor, the Assessor and the Finance Committee for that purpose, to wit:

RESOLUTION No. 7323 (Third Series.)

RESOLVED, That His Honor the Mayor, Assessor and the Finance Committee of this Board be and are hereby appointed and authorized on behalf of this city and county to appear before the State Board of Equalization at the proper time and place with the necessary proof and testimony to substantiate and claim that in justice to the taxpayers of this city and county a reduction of thirty per cent should be made in the valuation of property as assessed on the Assessment Book of he fiscal year 1892-93 for State purposes,

On August 13, 1892, a notice was received from the Honorable State Board of Equalization proposing to still further increase the valuation of the entire property on the Assessment Book and providing for hearing objections thereto, of which the following is a copy, to-wit:

OFFICE OF THE STATE BOARD OF EQUALIZATION,
SACRAMENTO, August 12, 1892.

Jno. A. Russell, Esq.,
Clerk Board of Supervisors of the City and County of San Francisco:

SIR: Please take notice and inform the Board of Supervisors of the City and County of San Francisco that the State Board of Equalization, having examined the assessments upon the Assessment Book or Roll for the year 1892 for said county, proposes to increase the entire Assessment Roll or Book of said county for said year, except property exempt from increase, for the purpose of making the assessments conform to the true value in money of the property contained on said Roll, so as to equalize the value of the taxable property of the several counties in the State for the purpose of taxation.

The Board will consider all objections which may be made to such increase at its office in the Capitol at Sacramento, on Thursday, the 1st day of September, 1892, between the hours of 9 A. M. and 5 P. M.

Respectfully yours,
CHAS. M. COGLAN,
Clerk State Board of Equalization.

On the 1st and 2nd of September, 1892, His Honor Mayor Sanderson, Assesssor Jno. D. Siebe, Supervisors Ellert and Burling appeared before the State Board, produced witnesses to show the justice of a decrease in the total valuation of the Assessment Book. Thos. Magee, Esq., a real estate expert, was also heard as to the actual and comparative values of real estate on behalf of San Francisco. After a general discussion and presentation, the case of San Francisco was submitted.

The State Board of Equalization (consisting of L. C. Morehouse, Chairman; R. H. Beamer, J. R. Hebbron, Jabez S. Swan and E. P. Coglan), notwithstanding the able presentation of the case of San Francisco by its representatives, ordered on September 6, 1892, that the entire assessment roll of the City and County of San Francisco for the fiscal year 1892-93 be increased by adding twenty per cent to equalize the assessment of the property, and to make the same conform to its true value. On September 7, 1892, the Auditor received the notice of said increase by the State Board, of which the following is a copy:

OFFICE OF STATE BOARD OF EQUALIZATION,
SACRAMENTO, September 6, 1892.

To Thomas J. L. Smiley, Esq.,
Auditor of the City and County of San Francisco:

SIR: Please tal e notice that on the 6th day of September, 1892, the State Board of Equalization ordered that the entire assessment roll or book for 1892 of the City and County of San Francisco be

increased by adding twenty per centum to the valuation of all the property listed therein, exclusive of the apportionment made by this Board of the assessment of railways to said county, so as to equalize the assessment of the property contained on said assessment roll, and make the assessment conform to the true value, in money, of the property contained on said roll; provided, that neither moneys, solvent credits, nor mortgages, deeds of trust, contracts, or other obligations by which a debt is secured, are raised above their face value. When the property to be raised is not subject to a deduction, by reason of a mortgage or deed of trust, the per centum may be added to the amount of the total column valuation.

In all cases where the property is subject to a mortgage or trust deed, the percentage must first be added to the assessment of the property affected, and the deduction made from the increased assessment, and the change must correspondingly be made in the total value column, otherwise there will be a less amount of taxes raised than is necessary for State purposes.

To illustrate: Suppose "A" is assessed for a tract of land valued at $1,000, subject to a mortgage for $500, the remainder assessed to "A" would be $500, and the percentage, say 10 per cent, added, would be $50, and the amount upon which taxes would be levied upon "A's" property would be $550. But as the increase by the State Board is based upon the theory that "A's" property has been so undervalued as to need an addition of 10 per cent to bring it to an approximate true value, it is evident that the 10 per cent should be added to such property.

The addition of the 10 per cent would increase its assessed value to $1,100, and the remainder, after deducting the mortgage, would be $600 subject to taxation.

Where a mortgage, deed of trust, contract, or other obligation by which a debt is secured, appears to have been assessed below the amount due thereon, as is often done by Assessors to scale it down to the low assessment of property affected, you will add the percentum to the valuation of the property affected, and then to the value of the mortgage, deed of trust, etc., and also to the amount to be deducted, provided such addition does not raise such instrument above its face value.

L. C. MOREHOUSE,
Chairman State Board of Equalization.

CHARLES M. COGLAN,
Clerk of the State Board of Equalization.

The Board of Supervisors fixed the rate of State taxes as levied by the State Board of Equalization on September 26, 1892, by Order No. 2571, of which the following is a copy:

ORDER No. 2571.

PROVIDING REVENUE FOR STATE PURPOSES FOR THE FISCAL YEAR ENDING JUNE 30, 1893.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Under and in pursuance of the Political Code and of the statutes of the State of California and in conformity thereto, and in pursuance of the action of the State Board of Equalization and in conformity thereto, there is hereby levied a tax for State purposes for the fiscal year ending June 30, 1893, on all property, both real and personal, in the City and County of San Francisco, except such property as is by law exempt from taxation, the sum of forty-three cents and four mills (43.4) on each one hundreddollars ($100) valuation of said taxable property upon the assessment roll for said fiscal year, which sum of forty-three cents and four mills (43.4) on each one hundred dollars valuation, as aforesaid, is hereby apportioned to the funds and accounts known and designated as follows

For the General Fund	23.9 cents
For the School Fund	17.1 cents
For the Interest and Sinking Fund	1.4 cents
For the support of the University of California	1.0 cents
Total rate of State tax	43.4 cents

In Board of Supervisors, San Francisco, September 26, 1892.

After having been published five successive days according to law, taken up and passed by the following vote:

Ayes—Supervisors Artigues, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Heyer, Hunt, Taber, Wilkinson.

JNO. A. RUSSELL, Clerk.

Approved, San Francisco, September 27, 1892.

GEO. H. SANDERSON,
Mayor and ex-officio President Board of Supervisors.

The assessment of real estate and personal property, after revision by the Auditor, was as follows:

For City and County Purposes—		
Real estate	$197,889,525 00	
Improvements	79,450,483 00	
		$277,340,008 00
Personal property	$51,771,840 00	
Money and solvent credits	17,112,858 00	
		68,884,698 00
Total assessment for City and County		$346,224,706 00
For State Purposes—		
Real estate and improvements	$332,808,010 00	
Personal property	79,239,066 00	
Total assessment for State		$412,047,076 00

Financial Condition

OF THE CITY AND COUNTY OF SAN FRANCISCO, ON THE FIRST DAY OF OCTOBER, 1892.

The following statement was transmitted by direction of the Board of Supervisors on October 11, 1892, to the State Controller:

FUNDED DEBT.

Funded debt at 6 per cent. and 7 per cent. interest	$1,110,000 00
Less Sinking Fund on hand	637,617 00
Net funded debt	$472,383 00

Description and value of property owned by the City and County—	
Park reservations and public squares	$10,000,000 00
Fire Department lots and improvements, embracing apparatus, furniture and fire-alarm system	1,250,000 00
City Halls, County Jails, Hospitals, Almshouses, House of Correction, Industrial School, lots and improvements	7,500,000 00
Cemetery Reservation	800,000 00
Sundry lots	250,000 00
Channel-street lots, from Ninth to Eighteenth street	150,000 00
School lots, improvements, libraries, furniture, etc	4,800,000 00
Total	$24,750,000 00

City and County and State moneys—Cash in hands of City and County Treasurer (City and County)—	
Interest accounts	$23,995 69
Sinking Funds	214,217 06
Miscellaneous Funds, for special purposes	148,391 26
Total City and County	$386,604 01
Cash in hands of City and County Treasurer (State)	1,639 75
Total	$388,243 76
Loans from Sinking Funds outstanding	$423,400 00

Valuation of property for City and County and State purposes, 1892-93—City and County purposes—

Assessed value of real estate and improvements	$277,340,008 00
Assessed value of personal property	68,884,698 00
	$346,224,706 00

State purposes—

Assessed value of real estate and improvements	$332,808,010 00
Assessed value of personal property	79,239,066 00
Total	$412,047,076 00

RATE OF TAXATION.

For City and County purposes	$1.00
For State purposes	.43.4
Total	$1.43.4

Amount of taxes levied—

City and County purposes	$3,462,247 00
State purposes	1,788,284 00
Total amount of taxes	$5,250,531 00

REMARKS.

Value of real estate, City and County	$197,889,525 00
Value of improvements, City and County	79,450,483 00
Value of personal property, exclusive of money and solvent credits, City and County.	51,771,840 00
Total amount of money and solvent credits, City and County	17,112,858 00

Value apportioned by the State Board of Equalization of assessment of franchise, roadway, etc., of railroads—

Central Pacific Railroad Company	$42,825 00
Southern Pacific Railroad Company	68,350 00
Pullman Palace Car Company, rolling stock	655 00
Total	$111,830 00

Amount of revenue under levy made by the Board of Supervisors on an estimated valuation of $340,000,000 for City and County purposes	$3,400,000 00
Actual amount of revenue from assessable property (exclusive of railroads assessed by the State Board of Equalization) from levy for City and County purposes	3,462,247 00
Estimated revenue from other sources than taxation for City and County purposes	1,474,045 00

DUPONT STREET WIDENING.

Under an Act of the Legislature of March 24, 1876, Dupont street was widened, between Market and Bush streets, to a uniform width of seventy-four feet. The amount required to pay for the various pieces of property and improvements condemned was to be obtained from the sale of Dupont street bonds, which bonds were to be redeemed during a period of twenty years by the district benefited, by means of a tax fixed each year, by the Board of Supervisors, on the enhanced value of property, as fixed by the Commission appointed and as per their report confirmed by the County Court on December 20, 1876.

The amount of bonds issued was $1,000,000 in the fiscal year 1876-7, of which $81,000 have been redeemed. The bonds draw interest at the rate of seven per cent per annum, and five per cent of the principal is to be redeemed each year.

The amounts levied for this special purpose on each $100 valuation of property, as fixed by said Commission at $796,947, have been as follows:

1877-78	$13 00	1885-86	$12 43
1878-79	5 00	1886-87	14 35
1879-80	13 53	1887-88	14 35
1880-81	13 11	1888-89	14 35
1881-82	14 5	1889-90	14 35
1882-83	14 43	1890-91	14 35
1883-84	12 43	1891-92	14 35
1884-85	12 43	1892-93	13 91

The following is a copy of the Order passed for the fiscal year 1892-93:

ORDER No. 2550.

TO PROVIDE REVENUE AND PAY THE INTEREST AND FIVE PER CENT OF THE PRINCIPAL OF THE DUPONT STREET BONDS FOR THE FISCAL YEAR ENDING JUNE 30, 1893.

The People of the City and County of San Francisco do ordain as follows:

SECTION 1. Under and in pursuance of an Act of the Legislature of the State of California, entitled "An Act to Authorize the Widening of Dupont street in the City and County of San Francisco," approved March 28, 1876, there is hereby levied for the purpose of paying the interest and five per cent of the principal of the Dupont street bonds for the fiscal year ending June 30, 1893, on the enhanced values of the lands within the district described in Section 3 of said Act between Bush and Market streets, as fixed in the final report of the Board of Dupont Street Commissioners, the sum of thirteen dollars and ninety-one cents ($13.91) on each one hundred dollars of said enhanced values.

In Board of Supervisors, San Francisco, June 27, 1892.

After having been published five successive days, according to law, taken up and passed by the following vote:

Ayes—Supervisors Artigues, Burling, Curtis, Ayer, Ellert, Carnes, Coffee, Hunt, Taber, Wilkinson.

Absent—Supervisors Jackson, Heye

Approved, San Francisco, June 27, 1892.

JNO. A RUSSELL, Clerk.

GEO. H. SANDERSON,

Mayor and ex-officio President Board of Supervisors.

The litigation commenced in 1879 in the name of Wm. Lent et al. vs. Tillson, Tax Collector, to enjoin the sale of real estate for delinquent street assessment, and to declare the assessment void, was finally decided by the United States Supreme Court on May 11, 1892 (vide Municipal Reports 1890-91, page 223), and the proceedings and assessment affirmed.

The Tax Collector, as provided by law, proceeded to collect the assessments, but has been restrained, various suits having been commenced to that end. In June, 1892, the first suit was brought by E. F. Preston et al. vs. The Tax Collector, (Garber, Boalt and Bishop, also Napthaly, Friedenrich and Ackerman, attorneys for plaintiff), to restrain the Tax Collector from selling the property of plaintiffs on Dupont streeet for delinquent assessments against said property for the payment of the principal and interest of the Dupont Street Widening Bonds, setting up that the levies made since 1877 were not made at the time as required by law, also that in the making of the levies the amount required for interest and sinking funds was not separately assessed. These actions have been demurred to and are now pending in the Superior Court.

In consequence of the litigation, the taxes levied on the assessment on the enhanced values of property for the widening of Dupont street, as determined by the Commission, were not collected.

The following collections were made during the fiscal year 1891-92 by the Tax Collector:

878-79	$1,143 75	1885-86	9,325 18
1879-80	6,562 46	1886-87	10,781 03
1880-81	7,863 00	1887-88	10,756 06
1881-82	10,405 46	1888-89	10,503 76
1882-83	10,645 18	1889-90	10,786 06
1888-84	9,180 73	1890-91	10,756 07
1884-85	9,325 16	1891-92	12,602 76
		Total	$130,606 66

The amounts delinquent, as shown by payments made, not including the percentage for delinquency which, in the opinion of the City and County Attorney (vide Appendix Municipal Reports, 1890-91, page 232), could not attach or be collected, are as follows

1877-78	$761 25	1885-86	$101,025 82
1878-79	70,929 75	1886-87	99,570 00
1879-80	82,944 12	1887-88	99,176 15
1880-91	85,469 70	1888-89	100,467 76
1881-82	99,562 52	1889-90	99,461 16
1882-83	99,730 60	1890-91	99,478 96
1883-84	86,087 88	1891-92	101,758 43
1884-85	86,087 89	1892-93	110,855 33
		Total	$1,423,367 32

VALUES OF PROPERTY AND RATE OF TAXATION

IN THE SEVERAL COUNTIES OF THE STATE FOR THE FISCAL YEAR 1892.

The following table, received from the Hon. E. P. Colgan, State Controller, shows the assessed value of property and the rates of taxation for State and County purposes in the several Counties of the State for the Fiscal Year 1892:

VALUES OF PROPERTY IN, AND INDEBTEDNESS OF, EACH COUNTY FOR THE YEAR 1892,

AND RATE OF TAXATION (STATE RATE 43 4-10 CENTS).

COUNTIES.	Value of Real Estate.	Value of Improvements on Real Estate.	Value of Personal Property, including Money.	Total Value of Property as Returned by Auditor.	Value of Railroads assessed by State Board of Equalization.	Grand Total Value of all Property.	Funded Debt.	Floating Debt with Interest Estimated.	Total Indebtedness	Total State and County Rate of Taxation on each $100.
Alameda	$56,378,666	$24,917,605	$7,710,770	$89,007,041	$1,993,856	$91,000,897	$40,000 00	$6,425 00	$46,425 00	$1 10 80

NOTE.—Where two rates of taxation are given, the lesser rate is that levied upon property situate within the limits of incorporated cities or towns, such property being exempt from road tax.

* This value is for State purposes only. The county taxes are computed on a valuation of $346,336,536. The State Board of Equalization raised the assessment roll 20 per cent, such raise applying only to the valuation for State purposes.

In the foregoing table the Funded Debt of the City and County of San Francisco is shown to be $1,120,000. On October 1, 1892, the Funded Debt was $1,110,000, the sum of $637,617 being in the Sinking Fund towards its liquidation, leaving a balance of $472,617 to be provided for by annual levies until the time fixed for the redemption of the Bonds.
